**TRUECLAIM ANNOUNCES ENTRY INTO A DEFINITIVE AGREEMENT WITH
NORTHERN SKYE RESOURCES INC**

TRUECLAIM EXPLORATION INC. – (the “**Company**”) is pleased to announce it has entered into a definitive agreement with Northern Skye Resources Inc. (“NSR”), a private company to acquire all the outstanding shares of NSR as previously announced in September, 2015. Upon completion of the amalgamation, TRM will own 100% interest in both NSR’s Berry Deboues and Hebecourt properties. Currently TRM holds a 10% interest in each property.

The Berry Deboues property is located in Northern Quebec and consists of 15 contiguous claims covering over 420 hectares. All historic data has been compiled into a 3 D model.

The Hebecourt Property is also in Northern Quebec and contiguous to the Fabie Magusi property, 40 kilometers from Rouyn Noranda. NSR has spent over \$890,000 on the property which has potential to host a VMS (Volcanogenic Massive Sulphide) style deposit. The property consists of 65 claims over 2,632 hectares. A 43-101 has been completed including drilling and geo physics.

Both of these properties fit well into TRM’s business plan to become a project generator whereby it acquires high quality exploration projects and advances them to near term production. This will allow TRM the option to either JV the property and retain an interest in the projects to potentially generate an ongoing revenue stream, or sell the property to interested companies.

TRUECLAIM EXPLORATION INC.
