### **1. Nature of operations**

PetroCorp Group Inc. (the "Company") was incorporated under the Alberta Business Corporations Act on March 25, 1993. Its registered head office is 1600, 333 – 7<sup>th</sup> Avenue S.W., Calgary, Alberta. On December 15, 2009, the Company sold its operating business through a sale of substantially all of its assets and liabilities (the "Asset Sale"), and as a result, does not have an operating business at this time.

---

### **2. Liquidation basis**

As the Company disposed of its operating business and has no continuing operations, it prepares its financial statements on the liquidation basis as required by International Accounting Standard ("IAS") 1. Should the Company not proceed with the liquidation of its net assets, it will revert to a going concern basis of presentation; however, the adoption of a going concern basis of presentation would not result in a change to the net assets of the Company.

---

### **3. Basis of preparation**

These interim condensed consolidated financial statements for the quarter ended June 30, 2013, have been prepared in accordance with International Accounting Standard (IAS) 34, "Interim Financial Reporting". The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's March 31, 2013, annual consolidated financial statements.

The accounting policies adopted in the preparation of the Company's interim condensed consolidated financial statements are consistent with those followed in the preparation of the Company's annual consolidated financial statements for the year ended March 31, 2013.

The preparation of these interim condensed consolidated financial statements requires management to make judgments, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues, and expenses. Actual results may differ from these estimates. The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Company's March 31, 2013, annual consolidated financial statements.

These interim condensed consolidated financial statements were approved by the Board of Directors for issue on August 20, 2013.

---

### **4. New standards not yet adopted and interpretations issued but not yet effective**

Stock options expire from three to five years from the grant date.

A summary of the status and changes in the Company's stock options for the periods presented are as follows, for the periods ended:
