Fandom Initiates Two-Token Network, Geofencing and Language Support Capabilities

Vancouver, British Columbia – May 21, 2020 – FANDOM SPORTS Media Corp. (CSE: FDM) (OTC: FDMSF) (FRANKFURT: TQ43) ("FANDOM SPORTS" or the "Company"), is pleased to confirm that the Fandom Esports network is active on Google Cloud and:

- supports the Fancoin™ dual coin ecosystem,
- is Geo-fencing enabled
- will provide Chinese language support

Quickly achieving these milestones provides a foundation for the Company's strategy of both a localized and global launch of Fandom's regulated betting and unregulated prediction business models.

Fancoin™ is an internationally trademarked cryptography secured in-game coin. The Blaze Blockchain in-game ERC 20 Fancoin™ ensures each transaction within the player economy is securely stored to players wallets as they make predictions, interact and transact both in the virtual world and in real-life events. Registered Fandom Esports players will be issued cryptography secured wallets and an initial Fancoin™ balance to predict Esports events. To earn more Fancoins™, users spend time on the platform to make predictions with one another, open up daily MysteryBox rewards, watch ads and for sharing the Fandom app with friends.

The Company plans to utilize the second coin iteration for Esports betting. Through implementation of Geo-fenced local markets, the Company will ensure compliance with all local regulations. Fandom's proprietary platform will be enabled to only players who are compliant with all Know Your Client guidelines ("KYC"). This coupled with on chain and automated with smart contracts by the Blaze Protocol and Cryptography secured network will truly set Fandom apart in the Esports industry.

"Taken in combination, the recent achievements by our technical partners at Deqode have uniquely positioned Fandom Sports at the nexus of the most exciting opportunity today; Esports and gaming. The Fandom business model operates in completely complementary way and compounds the intractability between content creators and global Esports fan. We are building a platform that is tailor made for enterprise level partnerships and I'm excited to present our distinctive value proposition to the market and to shareholders," states David Vinokurov, CEO and President.

About FANDOM SPORTS:

“PLAY. PREDICT. GET REWARDED.”

FANDOM SPORTS Media is an entertainment company that aggregates, curates and produces unique fan-focused content.

Fandom Esports Platform is all about micro-payments with Blaze blockchain technology that offers unbeatable speed and high industry adaptability. Because of its unparalleled speed and industry-defining structure. Using Blaze as a payment structure for Fandom Esports Platform will open up new micro transaction-based revenue opportunities for FANDOM SPORTS.
