Forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to differ from those reflected in the forward-looking statements, including, without limitation, risks and uncertainties relating to internet and social media industry (see section “Business Risks” herein) Forward-looking information is in addition based on various assumptions including, without limitation, the expectations and beliefs of management, that the Company can access financing, appropriate equipment and sufficient labour. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements.

Description of Business

Seahawk Ventures Inc. (the “Company”) was incorporated under the Business Corporations Act (British Columbia) on January 16, 2007. The Company’s registered and records office is located at suite 1700 – 666 Burrard Street, Vancouver, BC V6C 2X8 and its head office is located at 909 Bowron Street, Coquitlam, BC V3J 7W3.

The Company currently holds a 100% interest in the Mystery Property, Touchdown Property, Xtra Point Property, and Blitz Property, all located in the Urban-Barry Greenstone Belt region within the Abitibi sub-province, Quebec, Canada.

Currently, the principal activity of the Company is the acquisition and exploration of mineral resource properties in Canada.

Overall Performance

On December 30, 2019 the Company closed a non-brokered private placement of 463,600 units at a price of \$0.25 per unit for gross proceeds of \$115,900. Each unit consists of one common share and one common share purchase warrant entitling the holder to acquire one common share at a price of \$0.50 per share for three years from the date of issuance.

On December 30, 2019, the Company granted 1,000,000 stock options to certain directors and consultants of the Company. Each option is exercisable into one common share at a price of \$0.25 per share for a period of 24 months.

On July 30, 2019, the Company granted to directors, officers and consultants 1,900,000 stock options, exercisable at \$0.25 per share for a term of twelve months. These options vested on the date of grant.

On July 9, 2019, the Company issued 200,000 shares and paid \$25,000 cash to Hinterland Metals Inc. pursuant to an option agreement to acquire the Skyfall Property.

On December 4, 2018, the Company granted to two consultants a total of 1,100,000 stock options, exercisable at \$0.40 per share for a term of one year.

In November 2018, the Company closed a private placement by issuing 350,750 non-flow-through shares at \$0.32 per share and 2,000,000 flow-through shares at \$0.40 per share total gross proceeds of \$912,240.

In August 2018, the Company appointed Mr. Mitchell E. Lavery as the Company's President. Mr. Lavery is also the Company's Vice President of Exploration and Corporate Development and director since April 2018.

In August 2018, the Company entered into a property purchase agreement with Mitchell E. Lavery, a director of the Company, to acquire 100% interest in the Blitz Property located in Urban-Barry Greenstone Belt, Quebec. As per the agreement, the Company will pay Mr. Lavery \$8,000 in cash and has issued 1,650,000 shares (issued and valued at \$627,000), subject to a 2.5% net smelter return royalty.

In July 2018, the Company entered into an option agreement to acquire from Hinterland Metals Inc. a 100% interest in the Skyfall Property located at Urban-Barry mining area in the Abitibi region of Quebec. To obtain the 100% interest in the Skyfall Property, the Company will pay the optionor a total of \$100,000 cash (\$25,000 paid), issue 800,000 shares (200,000 shares issued and valued at \$74,000) and incur \$800,000 in exploration expenditures in the next 3 years.

Technical update

The Company is pleased to report the initial assay results of the fall 2019 grass roots diamond drill program on the company's Touchdown, and Blitz properties located in the Urban-Barry Gold Camp where Osisko Mining (Windfall) and Bonterra Resources (Moroy and Barry) are evaluating their properties at the advanced exploration stage.

The results below clearly indicate there is an appreciable amount of gold in the mineralizing systems and there is a very high probability of discovering higher grade and wider zones along strike and at depth. The presence of sulphide mineralization is significant.

Highlights of 2019 Exploration Diamond Drill Program

Touchdown Property

- The diamond drilling intersected numerous Au intersections, the best being 5.2 g/t Au over 4.1 m including 7.26 g/t Au over .7 m, 4.5 g/t Au over 1.6 m and 13.78 g/t Au over 1.00 m in Hole TD-19-01.
- Another high grade intersection returned 13.32 g/t Au over 1.6m lower down the hole.
- Numerous highly anomalous (.4 g/t Au to .5 g/t Au) intersections over varying widths were returned in Holes TD-19-01, 02, 06, 07, 08 and 11.
- All the significant Au assays are observed to be associated with sulphide mineralization.

Blitz Property

- The significant intersections were in Hole BE-19-01 which returned 1.1 g/t Au over 4.4 m including 1.53 g/t Au over 1.1 m.

- Wide highly anomalous intersections of .42 g/t Au over 14.7 m or .40 g/t Au over 16.6 m were also intersected in Hole BE-19-01.
- All the significant Au assays are observed to be associated with sulphide mineralization.

The Touchdown Property is located approximately 20 km east of Bonterra's Gladiator Property, The Blitz Property is located approximately 5 km north-west of the Grevet Mine and 30 km north-north-east of the town of Lebel sur Quevillion in the near northwestern region of Quebec.

On the Touchdown and Blitz Properties the grass roots diamond drill program was extremely successful in discovering numerous new Au zones in areas where no previous diamond drilling has ever been completed. These Au intersections range from highly anomalous to high grade and vary in width from .1 meters to 4.4 meters.

Laboratoire Expert Inc. of Rouyn-Noranda, Quebec completed all of the assaying.

Based on the very significant and encouraging results obtained in the 2019 Grass Roots Diamond Drill program, the company is preparing a multi-discipline exploration program including line cutting, magnetometer and deep penetrating Induced Polarization geophysical surveys (to locate the areas of sulphide concentrations along strike and at depth) and a minimum 5,000 meter diamond drill program to further evaluate the Touchdown and Blitz Properties.

The management is extremely pleased and encouraged by the results received to date from the 2019 Diamond Drill Program on the Touchdown and Blitz Properties. We remind shareholders and other investors that these important results are from a Grass Roots Drill Program, evaluating magnetic features on properties that were never drill evaluated in the past.

These results clearly indicate there is an appreciable amount of gold in the mineralizing systems and there is a very high probability of discovering higher grade and wider zones along strike and at depth.

The drill program was completed between October and December 2019 and included 18 diamond drill holes totaling 3,075 meters.

This technical information in this MD&A was reviewed by Mitchell E. Lavery P.Geo., Seahawk Ventures Inc. President and non-arm's length Qualified Person under NI-43-101.

The Company has no commitments.

Financial and Capital Risk Management

Fair value

As at February 29, 2020, the Company’s financial instruments comprise cash and cash equivalent, receivables, accounts payable and accrued liabilities and due to related parties. The carrying values of receivables, accounts payable and accrued liabilities, and accounts payable to related parties approximate their fair values due to the relatively short periods to maturity of these financial instruments.

The Company’s risk exposures and the impact on the Company’s financial instruments are summarized below:

Credit Risk

Credit risk is the risk of financial loss because a counter party to a financial instrument fails to discharge its contractual obligations.

The carrying amount of the Company’s financial instruments best represents the maximum exposure to credit risk.

Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at February 29, 2020, the Company had a cash balance of \$28,974 (May 31, 2019 - \$451,541) and current liabilities of \$483,163 (May 31, 2019 - \$538,660).

The Company has historically relied on equity and debt financings to satisfy its capital requirements and will continue to depend heavily upon equity capital and debt to finance its activities. There can be no assurance the Company will be able to obtain the required financing in the future on acceptable terms.

Interest rate risk

The Company is not exposed to risk in the event of interest rate fluctuations. The Company has not entered into any interest rate swaps or other financial arrangements that mitigate the exposure to interest rate fluctuations.

Foreign currency risk

The Company's functional currency is the Canadian dollar and the majority of its purchases are transacted in Canadian dollars. From time to time, the Company funds certain operations, exploration and administrative expenses in US dollars on a cash call basis using US currency converted from its Canadian dollar bank accounts held in Canada. Management believes the foreign exchange risk derived from currency conversions is not significant and therefore does not hedge its foreign exchange risk.

Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the identification and evaluation of assets or a business and once identified or evaluated, to negotiate an acquisition or participation in a business subject to receipt of shareholder approval and acceptance by regulatory authorities. The Company relies mainly on equity issuances and loans from related parties to raise new capital. In the management of capital, the Company includes the components of shareholders' equity (deficiency). The Company prepares annual estimates of operating expenditures and monitors actual expenditures compared to the estimates in an effort to ensure that there is sufficient capital on hand to meet ongoing obligations. The Company's investment policy is to negotiate premium interest rates on savings accounts or to invest its cash in highly liquid short-term deposits with terms of one year or less and which can be liquidated at any time without interest penalty. The Company will require additional financing in order to provide working capital to fund costs for the current year. These financing activities may include issuances of additional debt or equity securities.

The Company currently is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management.

Significant Accounting Policies, Critical Judgments and Estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates on the resulting effects of the carrying amounts of the Company's assets and liabilities are accounted for prospectively.

All of the Company's significant accounting policies and estimates are included in Notes 2 and 3 of its unaudited condensed interim financial statements for the nine months ended February 29, 2020 and its audited financial statements for the year ended May 31, 2019.

Adoption of new accounting policies

The Company adopted IFRS 16, Lease, on June 1, 2019. The adoption of the new standard has no significant impact on the Company's financial statements.

Subsequent events

On March 31, 2020, the Company issued 37,500 shares (valued at \$9,375) to Buchalter Consulting Inc. as per the investor relations service agreement entered on January 1, 2020.

Impact of COVID-19

The Company's business is exploring mineral properties in Quebec. The management doesn't think that COVID-19 will have strong impact on the Company's financial results. The Company's financing plan may be delayed and as a result, the Company may delay its 2020 summer exploration plan accordingly. However, the Company has no payment commitments on its mineral properties.

Corporate Governance

The Company's Board of Directors follows recommended corporate governance guidelines for public companies to ensure transparency and accountability to shareholders. The Audit Committee of the Company fulfills its role of ensuring the integrity of the reported information through its review of the interim and audited annual financial statements prior to their submission to the Board of Directors for approval.

The Audit Committee, comprised of three directors, all of whom are independent, meets with management of the Company on a quarterly basis to review the financial statements, including the MD&A, and to discuss other financial, operating and internal control matters as required.
