

Green River Gold Corp. Acquires Lithium Prospect in Central British Columbia

Edmonton, Alberta--(Newsfile Corp. - April 17, 2023) - Green River Gold Corp. (CSE: CCR) (OTC Pink: CCRRF) (the "**Company**" or "**Green River**") is pleased to announce that it has acquired a 100% right, title and interest in the KaLi Pegmatite Project (**KaLi**). The KaLi Pegmatite Project was acquired for staking costs totaling \$1,859.14.

The KaLi Pegmatite Project consists of 1059.5 hectares of land (the Property) and dates back to the early 1960's when Noranda Exploration conducted the first comprehensive soil Geochem survey over an approximate 5.0 km by 1.5 km wide area. This was followed up by two other grassroots surveys conducted by Amoco in 1974 and Norseman Mining Corp. in 1980 who further duplicated the geochemistry. In 1981 Placer Development Ltd. performed geochemical and geophysical surveys near the south-western extent of the Property. With the primary focus of exploration in this area over the last 6 decades being focused on Molybdenum, the potential for Lithium Bearing Pegmatites in the area was not specifically targeted by previous exploration. Updates to Green River Gold Corp.'s website are underway, which will include the Company's proposed lithium exploration plans.

About Green River Gold Corp.

Green River Gold Corp. is a Canadian mineral exploration company focused on its wholly owned Fontaine Gold Project, Quesnel Nickel/Magnesium/Talc Project, and Kymar Silver Project which are located in renowned mining districts in British Columbia.

The Fontaine and Quesnel properties cover an area exceeding 200 square kilometers and straddle a 32 kilometer length of the Barkerville and Quesnel Terranes. They are contiguous to Osisko Development Corp.'s mineral claim group containing a proposed mine location at its Cariboo Gold Project.

The Kymar Silver Project is located in southeast BC, approximately 28 kilometers west of the town of Invermere in the Golden Mining Division. The property is made up of two mineral tenures, totaling 1,625 hectares, along the southeast flank of Mount Catherine.
