

MAINSTREAM MINERALS CORPORATION
(An Exploration Company)

Condensed Interim Consolidated Financial Statements

For the three months ended February 28, 2021 and February 29, 2020

(in Canadian dollars, unless otherwise stated)

(unaudited)

Notice of No Auditor Review of Condensed Interim Consolidated Financial Statements

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the interim financial statements; they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor. The accompanying unaudited condensed interim consolidated financial statements of the Company have been prepared by management and approved by the Audit Committee and Board of Directors of the Company. The Company's independent auditor has not performed a review of these financial statements in accordance with the standards established by Chartered Professional Accountants of Canada for a review of interim financial statements by an entity's auditor.

Mainstream Minerals Corporation

Notes to the Condensed Interim Consolidated Financial Statements (*unaudited*)

For the three months ended February 28, 2021 and February 29, 2020 (*in Canadian dollars*)

1. Corporate information

Mainstream Minerals Corporation (the “Company”) is incorporated in Canada pursuant to the Canada Business Corporations Act on July 19, 2006. The address of the Company’s registered office is 365 Bay Street, Suite 400, Toronto, Ontario M5H 2V1. The Company is a mineral resource Company in the development stage that is engaged in the acquisition of interests in, and in the exploration of, mineral resource properties.

These condensed interim consolidated financial statements of the Company for the three months ended February 28, 2021 were approved and authorized for issue by the Board of Directors of the Company on April 27, 2021.

As at August 31, 2020, the Company had a working capital of \$1,161,969 (November 30, 2020 – a deficiency of \$250,589), had not yet achieved profitable operations, has accumulated losses of \$9,193,128 (November 30, 2020 - \$8,505,663) and expects to incur future losses in the development of its business, all of which casts substantial doubt about the Company’s ability to continue as a going concern. These financial statements have been prepared on the basis that the Company will continue as a going concern and do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of interest in mineral properties and the Company’s continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company’s ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs to the carrying values.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to unregistered prior agreements, aboriginal claims, unregistered claims, and non-compliance with regulatory and environmental requirements.

When stock market conditions become favourable for mineral exploration companies to raise capital, management plans to secure the necessary financing through a combination of issuance of new equity or debt instruments entering into joint venture arrangements. Nevertheless, there is no assurance that these initiatives will be successful.

The Company will require substantial additional funds to further explore and, if warranted, develop its exploration properties. The Company has limited financial resources and no current source of recurring revenue, and there is no assurance that additional funding will be available to the Company to carry out the completion of its planned exploration activities. There can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favourable. Failure to obtain such additional financing could result in the delay or indefinite postponement of further exploration and property development. The terms of any additional financing obtained by the Company could result in substantial dilution to the shareholders of the Company.

The COVID-19 pandemic has not resulted in any material impact on operations and the Company currently does not expect it will impact its 2020 operations. Preventative measures are in place to ensure the well-being of employees and contractors and no risks were noted at the end of the interim reporting period. Management continues to monitor the situation at the site and corporate office to identify any issues that may affect operational or financial reporting activities.

Mainstream Minerals Corporation

Notes to the Condensed Interim Consolidated Financial Statements (*unaudited*)

For the three months ended February 28, 2021 and February 29, 2020 (*in Canadian dollars*)

2. Basis of presentation

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”) which the Canadian Accounting Standards Board has approved for incorporation into Part 1 of the Handbook of Chartered Professional Accountants of Canada applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34, Interim Financial Reporting. These condensed interim consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Company’s annual consolidated financial statements as at and for the year ended November 30, 2020.

There is doubt about the appropriateness of the use of the going concern assumption because the Company has experienced significant losses and has experienced negative cash flows from operations over a number of years.

The Company will need to raise additional working capital, as it does not have sufficient working capital to fund its operations. In the current financial environment, there is a risk that the Company will be unable to raise sufficient funds, thus jeopardizing the Company’s ability to continue as a going-concern.

The ability of the Company to continue as a going concern and to be able to realize on its assets and discharge its liabilities is dependent upon the Company’s ability to obtain sufficient funding for its operations and its current exploration expenditure commitments and is ultimately dependent on the recoverability of the amounts capitalized to exploration and evaluation assets. The Company has not yet determined whether its mineral properties contain reserves that are economically recoverable, and accordingly, the success of any further exploration or development prospects cannot be assured. If the Company’s exploration and development programs are successful, additional funds may be required, and the Company may not have sufficient funds to conduct the mineral exploration required. The primary source of future funds available to the Company is through the sale of additional equity capital, which may dilute the interests of existing shareholders. There is no assurance that the Company will be successful in raising sufficient funds to meet its obligations. In the event where it cannot meet its obligations, it may lose its properties and incur other liabilities relating to flow-through share issuance commitments, if any.

These unaudited condensed interim consolidated financial statements do not reflect any adjustments to carrying values of assets and liabilities and the reported expenses and condensed interim consolidated statement of financial position classification that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

3. Summary of significant accounting policies, judgments and estimates

These condensed interim consolidated financial statements have been prepared using the same accounting policies and methods of computation as the annual consolidated financial statements of the Company as at and for the year ended November 30, 2020.

Accordingly, these condensed interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended November 30, 2020.

Mainstream Minerals Corporation

Notes to the Condensed Interim Consolidated Financial Statements (*unaudited*)

For the three months ended February 28, 2021 and February 29, 2020 (*in Canadian dollars*)

4. Marketable securities

On February 3, 2021, the Company issued 4,411,765 common shares pursuant to the Share Exchange Agreement (the "Palisades Agreement") with Palisade Goldcorp Ltd. in exchange for 2,846,084 common shares of Tonogold Resources Inc. ("Tonogold Shares") at a deemed price of US\$0.40 each share, being the fair market value of Tonogold Shares on the date the parties entered into the Palisades Agreement on September 17, 2020.

As at February 28, 2021, the fair market value of each Tonogold Shares was US\$0.24 (C\$0.30). The Company recorded an unrealized loss in the amount of \$633,177 on the Statement of Operations and Comprehensive Loss during the three month period ended February 28, 2021.

5. Other receivables

The Company's other receivables are comprised of the following:

	February 28, 2021	February 29, 2020
Goods and services tax recoverable	\$ 3,186	\$ 6,495

6. Other payables

The Company's other payables are comprised of the following:

	February 28, 2021	February 29, 2020
Accrued liabilities	\$ 53,000	\$ 132,250

7. Share capital

a. Authorized

Authorized share capital consists of (i) an unlimited number of common shares; (ii) unlimited number of retractable shares of one class designates as Class A retractable shares; and (iii) unlimited number of retractable shares of one class designated as Class B retractable shares.

(i) Common Shares

Voting, discretionary dividend entitlement, non-cumulative, any or all retractable at the option of the holder at any time, at a redemption price equal to 90% of the Class Net Asset Value per share, subject to the restriction that the company is not obligated to redeem any common shares if such redemption would be contrary to solvency requirements or other provisions of applicable law or if the board suspends the redemption rights for the whole or any part of a period during which normal trading has been suspended on any exchange on which the company's securities are listed and traded, if those securities represent more than 50% by value of the assets of the company, without allowance for liabilities and if those securities are not traded on any other exchange that represents a reasonably practical alternative or with the approval of the relevant securities authorities or regulator or as otherwise permitted under securities law.

Mainstream Minerals Corporation

Notes to the Condensed Interim Consolidated Financial Statements (*unaudited*)

For the three months ended February 28, 2021 and February 29, 2020 (*in Canadian dollars*)

7. Share capital (continued)

a. Authorized (continued)

(ii) Class A Retractable Shares

Non-voting, no dividend entitlement, any or all retractable at the option of the holder on the last business day of a month at a redemption price equal to the greater i) the common share redemption price of a common share as described above and ii) Class Net Asset Value per share in respect of the Class A shares, subject to the restriction that the company is not obligated to redeem any Class A shares if such redemption would be contrary to solvency requirements or other provisions of applicable law, convertible to common shares on the reorganization date, which is the first business day after the date that is four months from the date that a Class A share is first issued, and the date which the company will reorganize the capital of the company by eliminating the Class A shares and amending the attributes attached to the common shares, at a conversion rate of one Class A share for one common share.

(iii) Class B Retractable Shares

Non-voting, no dividend entitlement, priority to Class A shares and common shares in terms of participation in assets in the event of liquidation, dissolution or windup or other distribution of the assets of the company for the purposes of winding up its affairs, with respect to the return of capital at an amount equal to the Class Net Asset Value per share in respect of the Class B shares, any or all retractable at the option of the holder on the last business day of a month at a redemption price equal to the greater i) the common share redemption price of a common share as described above and ii) Class Net Asset Value per share in respect of the Class B shares, subject to the restriction that the company is not obligated to redeem any Class B shares if such redemption would be contrary to solvency requirements or other provisions of applicable law, convertible to common shares on the reorganization date, which is the first business day after the date that is four months from the date that a Class B share is first issued, and the date which the company will reorganize the capital of the company by eliminating the Class B shares and amending the attributes attached to the common shares, at a conversion rate of one Class B share for one common share.

b. Changes in issued common shares during the period ended February 28, 2021:

	Number of common shares	Amount
Balance, November 30, 2019	2,342,042	\$ 7,855,074
Shares issued on debt settlement	8,000,000	400,000
Balance, November 30, 2020	10,342,042	\$ 8,255,074
Shares issued on private placement	1,764,773	600,023
Shares issued pursuant to Share Exchange Agreement	4,411,765	1,500,000
Balance, February 28, 2021	16,518,580	\$ 10,355,097

Mainstream Minerals Corporation

Notes to the Condensed Interim Consolidated Financial Statements (*unaudited*)

For the three months ended February 28, 2021 and February 29, 2020 (*in Canadian dollars*)

7. Share capital (continued)

c. Loss per share

The calculation of basic and diluted loss per share, for the period ended February 28, 2021 and February 29, 2020 is based on the following losses and number of shares:

	February 28, 2021	February 29, 2020
Net loss and comprehensive loss for the period	\$ (687,465)	\$ (49,848)
Weighted average number of shares	12,057,747	2,342,042

8. Related party transactions

(a) Key management personnel compensation

The company did not pay employment based remuneration to directors, officers or other members of key management for the period ended February 28, 2021 and February 29, 2020. However, the Company did pay contract based remuneration to directors, officers and other members of key management as disclosed in Note 8(b).

(b) Other related party transactions

Included in these interim condensed consolidated financial statements are the following related party transactions, which have been determined by negotiation amongst the related parties. These transactions are in the normal course of operations and are measured at the same value as if the transactions had occurred with non-related parties.

	February 28, 2021	February 29, 2020
Consulting expenses	\$ 30,000	\$ 30,000

(c) Related party balances

Included in trade payables and other payables at February 28, 2021 is \$50,000 (February 29, 2020 – \$130,000) due to related parties. Such amounts are due on demand, non-interest bearing and are unsecured.

9. Financial instruments

(a) Risk management and hedging activities

In the normal course of operations, the Company is exposed to various financial risks. Management's close involvement in the operations allows for the identification of risks and variances from expectations. The Company does not meaningfully participate in the use of financial instruments to control these risks. The Company has no designated hedging transactions. The financial risks and management's risk management objectives and policies are as follows:

(i) Currency risk

The Company does not hold any assets or liabilities denominated in a foreign currency.

(ii) Price risk

The Company is exposed to price risk with respect to commodity prices. As the Company is not a producing entity, this risk does not currently affect earnings; however, the risk could affect the completion of future equity transactions. The Company monitors commodity prices of precious metals and the stock market to determine the timing, nature and extent of equity transactions.

Mainstream Minerals Corporation

Notes to the Condensed Interim Consolidated Financial Statements (*unaudited*)

For the three months ended February 28, 2021 and February 29, 2020 (*in Canadian dollars*)

9. Financial instruments (continued)

(iii) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the entity. The Company is exposed to credit risk on cash and other receivables. Cash is held with an established Canadian bank and the Company's other receivables are from Canadian government entities, from which management believes the risk of loss to be remote. The Company does not have any derivatives or similar instruments that mitigate the maximum exposure to credit risk.

The carrying amount of financial assets recorded in the financial statements in the amount of \$1,474,237 (November 30, 2020 - \$4,942) represents the maximum exposure to credit risk at the reporting date.

(iv) Liquidity risk

Liquidity risk is the risk that arises when the maturity of assets and liabilities does not match. Management monitors the Company's liquidity by assessing forecast and actual cash flows and by maintaining adequate cash on hand. It is management's opinion that it is unlikely that the Company will encounter difficulty in raising funds to meet commitments associated with financial instruments. As at February 28, 2021, the Company has a working capital in the amount of \$1,161,969 (November 30, 2020 - a deficiency of \$250,589).

The contractual maturities of financial liabilities at February 28, 2021 and February 29, 2020, based on the earliest date on which payment can be required, were as follows:

As at February 28, 2020	Total amount	Six month or less	More than six months
Trade payables	\$ 259,268	\$ 259,268	\$ -
Other payables	53,000	53,000	-
	\$ 312,268	\$ 312,268	\$ -
As at February 29, 2020	Total amount	Six month or less	More than six months
Trade payables	\$ 333,983	\$ 333,983	\$ -
Other payables	132,250	132,250	-
	\$ 466,233	\$ 466,233	\$ -

(v) Interest rate risk

The Company is not exposed to any meaningful interest rate risk due to the short-term nature of its interest generating asset.

Mainstream Minerals Corporation

Notes to the Condensed Interim Consolidated Financial Statements (*unaudited*)

For the three months ended February 28, 2021 and February 29, 2020 (*in Canadian dollars*)

9. Financial instruments (continued)

(a) Sensitivity analysis

As at February 28, 2021, the Company has cash and cash equivalents subject to interest rate risk of approximately \$6,042 (February 29, 2020 - \$30). A 1% change in the primary interest rate would affect the reported net income, on an annualized basis, by an immaterial amount.

(b) Fair values, carrying amounts and changes in fair value

The fair values of the Company's financial instruments approximate their carrying value due to their short-term nature. Fair value amounts represent point-in-time estimates and may not reflect fair value in the future. The measurements are subjective in nature, involve uncertainties and are a matter of judgment. The methods and assumptions used to develop fair value measurements, for those financial instruments where fair value is recognized in the statement of financial position, have been prioritized into the following three levels:

Level 1 includes quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 includes inputs that are observable other than quoted prices included in level 1.

Level 3 includes inputs that are not based on observable market data.

10. Capital management

As the Company is in the exploration stage, its principal source of capital is from the issuance of common shares. The Company's capital management objective is to obtain sufficient capital to maintain its exploration programs for the benefit of its stakeholders. To meet the objectives, management monitors the Company's ongoing capital requirements against unrestricted net working capital and assesses additional capital requirements on specific exploration properties on a case by case basis. The Company is not subject to externally imposed capital requirements. Management is of the opinion that the amounts and changes in the Company's capital is readily determinable in these financial statements.

11. Subsequent event

On March 25, 2021, the Company announced that it entered into a non-arm's length share purchase agreement with Cejay Kim dated January 15, 2021 (the "Kim Share Purchase Agreement") and an arm's length share purchase agreement with Michael Blady dated February 17, 2021 (the "Blady Share Purchase Agreement") (the Blady Share Purchase Agreement and the Kim Share Purchase Agreement are collectively referred to as the "Transaction"). Pursuant to the Kim Share Purchase Agreement, the Company issued 359,477 common shares ("Common Shares") in the capital of the Company to Mr. Kim at a price of \$0.34 per common share in exchange for 1,111,112 common shares in the capital of a mining issuer that is listed on the TSX Venture Exchange that were beneficially owned and controlled by Mr. Kim at a fair market value of the common shares on the date the parties entered into the Kim Share Purchase Agreement. Pursuant to the Blady Share Purchase Agreement, the Company issued 441,176 Common Shares of the Company to Mr. Blady at a price of \$0.34 per common share in exchange for an aggregate of 1,064,351 common shares in the capital of certain mining issuers that are listed on the Toronto Stock Exchange, TSX Venture Exchange and Canadian Securities Exchange respectively, that were beneficially owned and controlled by Mr. Blady at a fair market value of the common shares on the date the parties entered into the Blady Share Purchase Agreement. In addition, Mr. Blady acquired 441,176 common shares pursuant to private share purchase transactions.
