### **Silver Sun Receives Mining and Environmental Permitting Approval**

Vancouver, British Columbia (June 30<sup>th</sup>, 2010) – Silver Sun Resource Corp. (TSX-V: SSU) (“Silver Sun” or the “Company”) is pleased to announce the approval of mining and environmental permitting on their Zacatecas project through the Company’s wholly owned Mexican subsidiary Minera Plata del Sol S.A. de C.V.

Silver Sun, which owns a 73% interest in the project, is in discussions with IMPACT Silver Corp. (TSX-V: IPT) (“IMPACT” or the “Partner”) owners the remaining 27%, regarding the option to process ore at their wholly-owned mill which is 1,000 meters from the property.

The Company will begin metallurgical testing of its mineralized stockpiles to establish recoveries if mill testing does not occur due to the availability of IMPACT’s mill. If studies show recoveries to be economically viable and Silver Sun can agree to terms for processing with IMPACT, first deliveries could begin as early as September.

President, Mark McLeary states, “we are excited about Silver Sun’s growth; reaching this milestone is the next step towards our goal of production from the Zacatecas project”.

For further information, please contact the Company at 604-678-2531 ext. 226.

On behalf of the Board of Directors,

Mark A. McLeary  
President/CEO
