Silver Sun Receives Approval to Build Mill

Vancouver, British Columbia (July 20th, 2011) – Silver Sun Resource Corp. (“Silver Sun” or “the Company”) is pleased to announce they have received approval from the City of Yreka, California, to operate the Company’s mill within the city limits.

The Company currently has their 50 ton per day, gravity circuit mill on site at the Cherry Hill gold mine. “Moving the mill to within the city limits may allow the Company to expand the mill capacity to a 150 ton per day gravity circuit, combined with an additional floatation circuit to maximize recoverable ore,” stated Mark McLeary, Silver Sun’s President.

The Company has an agreement to lease a three acre, secured parcel of land (Parcel No. 061-301-160) for 20 years with a Company option for a further 20 years for \$1,200 USD per month. Prior to moving the Company’s existing mill, other permits required will be a building permit and sign permit prior to installation of any signage. An Air Pollution Control permit may be required from Siskiyou County. Further, a business license is required prior to the commencement of processing.

While the Company’s mill is being relocated for construction, Silver Sun has access to two additional, fully operational, contract mills to process all stockpiled ore from the Cherry Hill gold mine.

About Silver Sun Resource Corp.

Silver Sun Resource Corp. is a Canadian-based resource company focused on the acquisition, exploration and development of precious metal deposits in North America. The Company is in the final stages of development of its gold project in Yreka, California and engaged in an on-going work program on the Zacatecas, Salvador, and Mina San Jose properties located within the prolific Zacatecas Silver District in Mexico, as well as its newly acquired Yoreme Silver Project in the mining district of Alamos, Sonora State, Mexico. The Company has an experienced management team with a growth strategy to develop a diversified portfolio of mining projects that can be taken to production in the near-term. The company's design is to add shareholder value through efficient exploration, strategic acquisitions and effective marketing while maintaining a low risk profile through project diversification and sound financial management.

“Mark A. McLeary”
President

Forward Looking Statements

This release contains forward-looking statements including management's assessments of future plans and operations, and expectations of future production. These statements are based on current expectations that involve a number of risks and uncertainties, which could cause actual results to differ materially from those anticipated. These risks include, but are not limited to, the risk that the conditions to complete the acquisition of the Property are not met including satisfactory completion of the Company's due diligence and any inability to obtain any applicable regulatory or corporate consents or approvals for the proposed acquisition, the risks associated with the mining and exploration industry including operational risks in development, exploration and production; delays in obtaining

any governmental approvals required for production of the Company's mineral properties, inability to obtain access to mills or reach an agreement on commercially acceptable terms for processing of mineralized material from the Company's mining projects, delays or changes in plans with respect to exploration or development projects or capital expenditures; the uncertainty of reserve estimates; the uncertainty of estimates and projections relating to production and the uncertainty of the availability of capital). The assumptions used in the preparation of such statements, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, undue reliance should not be placed on forward-looking statements.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
