

Pan American Energy Approved to Increase Phase 1 Drill Program to 22 Lithium Prospecting Core Holes

The Bureau of Land Management has approved the Notice of Amendment, increasing the program from 19 to 22 lithium prospecting core holes

February 2nd, 2023

Calgary AB – **Pan American Energy Corp.** (the “**Company**” or “**Pan American**”) (**CSE: PNRG**) (**OTC PINK: PAANF**) (**FRA: SS6**) is pleased to announce the Company has received approval to the previously submitted Notice of Amendment (“**NOA**”) to the Bureau of Land Management (“**BLM**”), Tonopah Field Office for exploration drilling at its 17,334 acres Horizon Lithium Project. The Company is now fully permitted to drill up to twenty-two (22) lithium prospecting core holes with associated access on federal surface and mineral, under the management of the BLM – Tonopah Field Office, approximately 7.4 miles west of Tonopah, Esmeralda County, Nevada.

Jason Latkowcer, Chief Executive Officer comments, “After a thorough review of our original 19 lithium prospecting core hole plan, it was determined that adding an additional 3 holes to the northern tip of our property, immediately south of American Battery Technology’s Tonopah Flats Project, would provide us with the best opportunity to hit lithium mineralization early in the phase 1 program. Nevada’s mining, permitting, and amendment support system via the Bureau of Land Management once again proves it is second to none.”

Forward-Looking Statements

Certain statements contained in this press release constitute forward-looking information. These statements relate to future events or future performance. The use of any of the words "could", "intend", "expect", "believe", "will", "projected", "estimated" and similar

expressions and statements relating to matters that are not historical facts are intended to identify forward-looking information and are based on the Company's current beliefs or assumptions as to the outcome and timing of such future events. In particular, this press release contains forward-looking information relating to, among other things, the Company's planned drilling and sampling program, including the date upon which the Company expects to announce its phase one plans, the amount of drilling to be contained in such program and the proposed location of the exploration undertaken as part of the program, and the potential commercialization of the Property.

Various assumptions or factors are typically applied in drawing conclusions or making the forecasts or projections set out in forward-looking information, including, in respect of the forward-looking information included in this press release, the assumption that: the Company will be successful in commercializing the Property and that the Company will undertake its planned drilling and sampling program on the timeline and parameters that are currently expected. Such assumptions and factors are based on information currently available to the Company.

Although forward-looking information is based on the reasonable assumptions of the Company's management, there can be no assurance that any forward-looking information will prove to be accurate. Forward looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include risks inherent in the exploration and development of mineral deposits, including risks relating to changes in project parameters or delays as plans continue to be redefined, that mineral exploration is inherently uncertain and that the results of mineral exploration may not be indicative of the actual geology or mineralization of a Project, and that mineral exploration may be unsuccessful or fail to achieve the results anticipated by the Company, including the establishment of a commercial mining operation. The forward-looking information contained in this release is made as of the date hereof, and the Company not obligated to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable securities laws. Because of the risks, uncertainties and assumptions contained herein, investors should not place undue reliance on forward-looking information. The foregoing statements expressly qualify any forward-looking information contained herein.

The CSE has neither approved nor disapproved the information contained herein.
