1. NATURE OF OPERATIONS

GTA Resources and Mining Inc. (the "Company") was incorporated pursuant to the provisions of the Business Corporations Act (Ontario) on August 9, 2006. The address of the Company's registered office is 855 Brant Street, Burlington, Ontario L7R 2J6.

The Company is primarily engaged in the acquisition and exploration of mineral properties. To date, the Company has not earned significant revenues and is considered to be in the development stage.

These condensed interim financial statements were approved by the Board of Directors on November 25, 2014.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of Compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standards 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with International Financial Reporting Standards Board ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee ("IFRIC").

Basis of Presentation

These unaudited condensed interim financial statements have been prepared on the basis of accounting policies consistent with those applied in the Company's March 31, 2014 annual financial statements.

The preparation of condensed interim financial statements in conformity with IAS 34 requires management to make judgments, estimates and assumptions that affect the applications of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. These condensed interim financial statements do not include all of the information required for full annual financial statements.

These condensed interim financial statements, including comparatives, have been prepared on the basis of IFRS standards that are published at the time of preparation.

The condensed interim financial statements have been prepared on a historical cost basis.

3. RISK MANAGEMENT, CAPITAL MANAGEMENT AND FINANCIAL INSTRUMENTS

The Company manages its capital structure and makes adjustments to it based on the funds available to the Company in order to support future business opportunities. The Company defines its capital as shareholders' equity. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to manage its capital to be able to sustain the future development of the Company's business.

The Company currently has no source of revenues, and therefore is dependent upon external financings to fund activities. In order to carry future projects and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the period ended September 30, 2014. The Company is not subject to externally imposed capital requirements.

3. RISK MANAGEMENT, CAPITAL MANAGEMENT AND FINANCIAL INSTRUMENTS - continued

The Company classified its cash and cash equivalents and sundry receivables as loans and receivables; and accounts payable and accrued liabilities as other financial liabilities. The carrying values of cash, accounts receivable, accounts payable and accrued liabilities, approximate their fair values due to the expected maturity of these financial instruments. The fair value of amounts due to related parties has not been disclosed as their fair values cannot be reliably measured since the parties are not at arm's length.

The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

(a) Credit risk

Concentration of credit risk exists with respect to the Company's cash as all amounts are held at a single major Canadian financial institution.

The Company's concentration of credit risk and maximum exposure is as follows:

	September 30, 2014	March 31, 2014
Cash and cash equivalents	$ 1,327,581	$ 1,555,645

The credit risk associated with cash is minimized by ensuring it is placed with a major Canadian financial institution with a strong investment-grade rating issued by a primary ratings agency.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they fall due. The Company's approach to managing liquidity risk is to provide reasonable assurance that it will have sufficient funds to meet liabilities when due. The Company manages its liquidity risk by forecasting cash flows required for operations and anticipated investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments.

The business of mining and exploration involves a high degree of risk and there can be no assurance that exploration programs will result in profitable mining operations. The Company has significant cash to meet its requirements for administrative overhead, to conduct due diligence on mineral property acquisition targets, and to conduct exploration of its mineral properties and mineral properties that may be acquired.

The Company does not generate cash flows from operations to fund its activities and therefore relies principally upon the issuance of securities for financing. Future capital requirements will depend on many factors including the Company's ability to execute its business plan. The Company intends to continue relying upon the issuance of securities to finance its future activities but there can be no assurance that such financing will be available on a timely basis under terms acceptable to the Company.

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk.

i. Interest rate risk

The Company's cash and cash equivalents consist primarily of cash held in bank accounts and term deposits with banks. Due to the short-term nature of this financial instrument, fluctuations in market rates do not have a

significant impact on estimated fair value as of September 30, 2014. The Company manages interest rate risk by maintaining an investment policy that focuses primarily on preservation of capital and liquidity. Accordingly, the Company is not subject to interest rate risk.

ii. Foreign currency risk

During the period ended September 30, 2014, the Company was not exposed to material foreign currency risk.

iii. Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk, foreign currency risk or commodity price risk. The Company has no financial instruments exposed to other price risk.

Auden

On June 21, 2010, the Company completed the acquisition of the Auden property located in Northern Ontario from 1518164 Ontario Inc., an unrelated party. Pursuant to the terms of the Acquisition Agreement, the Company acquired a 100% interest in and to the Auden Property in consideration for the issuance of 5,074,855 common shares.

The Auden property is subject to a 3% net smelter return and a 10% gross overriding in royalty in favour of the shareholders of the previous owner of the claims. The Company may purchase one-half of each royalty for an aggregate amount of $2,000,000 at any time.

As at March 31, 2014, the Auden property consisted of 118 unpatented mining claims comprising 1,748 claim units covering 27,967 hectares in a largely contiguous block.

The Company has incurred exploration expenditures of $240,208 and $1,054,999 to September 30, 2013 and to September 30, 2014 respectively.

The Company is required by the Ministry of Northern Development and Mines to incur annual qualifying exploration and development expenditures in order to maintain its unpatented claims in good standing. As at September 30, 2014, the Company has incurred the required amount of expenditures.

Northshore

On July 27, 2011 the Company and Balmoral Resources Ltd. (“Balmoral”) entered into an Option Agreement whereby the Company has been granted the right to acquire up to a 70% interest in Balmoral’s interest in the Northshore Property.

Under the terms of the Option Agreement, the Company may earn an initial 51% interest (“First Option”) in the Northshore Property by making cash payments to Balmoral of $50,000, issuing in favour of Balmoral 2,500,000 common shares of GTA and incurring a minimum of $2,500,000 in eligible exploration expenditures on the Property over a three-year period from receipt of regulatory approval. A cash payment of $10,000, issuance of 1,000,000 shares and a year

one exploration expenditure of $350,000 (including the production of a 43-101 technical report) are firm commitments by GTA under the Option Agreement. The Company has made cash payments of $70,000 and issued 2,500,000 common shares under the terms of the Option Agreement (1,000,000 common shares ($195,000) during the year (Note 6). In addition the Company has incurred exploration expenditures of $2,138,756 and $2,609,144 to March 31, 2013 and to March 31, 2014, respectively.

Upon exercise of the First Option outlined above, the Company will have the right to elect to proceed with a Second Option, under which the Company would have the ability to earn an additional 19% interest in the Northshore Property by making an additional cash payment of $100,000, issuing an additional 1,000,000 shares in favour of Balmoral upon exercising its right and incurring additional exploration expenditures totalling $3,000,000 over an additional 24 month time frame.

A portion of the property is subject to a variable (2% to 5%) net smelter return royalty on gold production from the claims.

On July 14, 2014 the Company, pursuant to the Northshore Option Agreement, delivered to Balmoral the Exercise Notice to vest the Company's initial 51% interest in the Northshore Property and subsequently advised Balmoral that it has elected to form a 51/49 joint venture on the Property with Balmoral. The Company will be the initial joint venture operator.

Squid East

On February 27, 2013 the Company and Metals Creek Resources Corp. entered into a Letter Agreement whereby the Company was granted the right to acquire up to a 70% interest in Metals Creek's interest in the Squid East Property.

Under the terms of the Letter Agreement, the Company could earn an initial 51% interest ("First Option") in the Squid East Property by making cash payments to Metals Creek of $60,000, issuing in favour of Metals Creek 2,000,000 common shares of GTA and incurring a minimum of $2,000,000 in eligible exploration expenditures on the Property over a three-year period from receipt of regulatory approval.

Upon exercise of the First Option outlined above, the Company had the right to elect to proceed with a Second Option, under which the Company would have the ability to earn an additional 19% interest in the Squid East Property by making an additional cash payment of $100,000, issuing an additional 1,000,000 shares in favour of Metals Creek upon exercising its right and incurring additional exploration expenditures totalling $1,000,000 over an additional 24 month time frame.

A cash payment of $20,000, issuance of 200,000 shares and a year one exploration expenditure of $500,000 were firm commitments by GTA under the Letter Agreement. The Company made cash payment of $20,000 and issued 200,000 common shares during the year ended March 31, 2013.

On January 9, 2014, the Company announced it would not continue exploration activities on the Squid East Property. As a result the Company has no further interest in and has written off the carrying amounts related to the Squid East Property.

5. EXPLORATION AND EVALUATION ASSETS - continued

Ivanhoe

On April 25, 2014 the Company entered into an Option Agreement with an individual and a private company to acquire a 100% interest in mining claims comprising the Ivanhoe Property in Northeastern Ontario.

Under the terms of the Option Agreement, GTA can earn a 100% interest in the Ivanhoe Property by making staged cash payments totaling $260,000 and share issuances totaling 1,000,000 common shares over a 5 year period, and incurring minimum exploration expenditures of $250,000 over a two year period. The Company may elect to accelerate some or all of the cash and share payments in order to exercise the Option at an earlier time.

The vendors will retain a 3% Net Smelter Royalty, half of which can be purchased for $1,500,000.

During the period ended September 30, 2014 GTA commenced a program of prospecting and drill core sampling on the Ivanhoe Property.

10. COMMITMENTS AND CONTINGENCIES

On issuance, the Company bifurcates the flow-through share into i) a flow-through share premium, equal to the estimated premium if any, investors pay for the flow-through feature, which is recognized as a liability, and ii) share capital. Upon expenses being incurred, the Company derecognizes the liability and recognizes a deferred tax liability for the amount of tax reduction renounced to the shareholders. The premium is recognized as other income and the related deferred tax is recognized as a tax provision. Other liabilities include the liability portion (the premium) of the flow-through shares issued for the amount of the premium on flow-through funds that at September 30, 2013 have not been used to incur qualifying exploration expenditures. The following is a continuity schedule of the liability portion of the flow-through shares issuances.
