Brookemont Set To Commence Operations on Aluminous Clay and Rare Earth Prospect in Gaspé Bay Region of Quebec

Brookemont Capital Inc. (“Brookemont” or the “Company”) (BKT—TSX.V)(BKTPF—USA) wishes to announce that it has received approval to acquire 2,234 contiguous hectares (5,520 acres) prospective for aluminous clay and rare earth in the Gaspé Bay Region of Quebec. The new prospect directly borders to the NNE (“North North-East”) the Grand-Vallée Deposit of Orbite Aluminae Inc.

Conrad Clemiss, President of the Company states, “We are very pleased to receive approval on this prospect and we anticipate that crews will be on site in the very short term. Recently (June 5th, 2012) Orbite announced that they are drilling ‘to confirm the previously indicated strong alumina and rare earths continuity in the aluminous clays on the immediate NNE outside boundary of the proposed pit.’ Management is enthused to have acquired the property that is NNE of Orbite’s property at Grand-Vallée and is optimistic about what impact this new prospect may have on BKT’s future.”

Brookemont currently has the following projects: (a) quartz mineral claims in the Yukon bordering Underworld, which was recently taken over by Kinross Gold Corporation and directly above the Coffee Discovery from Kaminak; (b) land in North Eastern Quebec prospective for REE's in close proximity to the Eldor REE prospect of Commerce Resources; (c) 63 square kilometres of land in Tanzania bordering Canaco Resources; and (d) 5520 contiguous acres prospective for aluminous clay/ rare earths in the Gaspé Bay Region of Quebec bordering Orbite Aluminae Inc.’s Grand-Vallée Deposit.
