TBO—TSX Venture Exchange

Actively Sourcing New Projects focusing on Technology, Uranium, Graphite, Diamonds and Lithium.

August 20, 2015 -- (“TBO” or the “Company”) (TBO—TSX.V) wishes to announce that the company has been actively searching for additional projects. These new areas have been narrowed down to technology, uranium, graphite, diamonds and lithium. At this time no new project has been identified or completed.

Jim Nelson, President, states, “Management has been actively searching for projects that will fit the criteria for the company. We feel that the focus has narrowed and we anticipate being able to close on a new project in the near future. While continuing to weather the storm in the junior market we still believe there is ample room for growth and relish the opportunity to increase shareholder value with a new and exciting acquisition”

Narrows focus to Lithium in Nevada and Uranium in Saskatchewan

August 28, 2015 -- (“**TBO**” or the “**Company**”) (TBO—TSX.V) wishes to announce that the Company has narrowed its focus in respect to searching for additional projects to Lithium prospects in Nevada and Uranium prospects in Saskatchewan. At this time no new project has been finalized nor is there any guarantee that one will be in the future.

Seth Kay, a director of Turbo, states, “Management has narrowed its search to Lithium prospects in Nevada and Uranium prospects in Saskatchewan. We feel these two areas have the best potential for significant project discoveries and we anticipate being able to close on at least one new project within the coming weeks.”
