NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Expressed in Canadian Dollars)
January 31, 2019 – Page 1

1. NATURE AND CONTINUANCE OF OPERATIONS

Cruz Cobalt Corp. (the "Company") is an exploration stage public company and is listed on the TSX Venture Exchange ("Exchange") under the symbol "CUZ". The Company's principal business activities include acquiring and exploring exploration and evaluation assets. At January 31, 2019, the Company had exploration and evaluation assets located in Canada and the U.S.A.

The Company's head office and principal business address is Suite 1470, 701 West Georgia Street, Vancouver, British Columbia, V7Y 1C6. The Company's registered and records office is located at 900 – 885 West Georgia Street, Vancouver, British Columbia, V6C 3H1.

These condensed consolidated interim financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realization of assets and discharge of liabilities in the normal course of business. At January 31, 2019, the Company had a working capital of \$2,432,227, had not yet achieved profitable operations and had an accumulated deficit of \$16,222,762 since its inception. The Company expects to incur further losses in the development of its business, all of which may cast substantial doubt on the Company's ability to continue as a going concern. The Company may require additional financing in order to conduct the planned work programs on its exploration and evaluation assets, meet its ongoing levels of corporate overhead and discharge its liabilities as they come due. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future. Accordingly, these condensed consolidated interim financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these condensed consolidated interim financial statements.

2. BASIS OF PREPARATION

a) Statement of Compliance

These condensed consolidated interim financial statements of the Company have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS34") as issued by the International Accounting Standards Board ("IASB"). Therefore, these condensed consolidated interim financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the Company's most recently issued audited financial statements for the year ended July 31, 2018, which includes information necessary or useful to understanding the Company's business and financial statement presentation. In particular, the Company's significant accounting policies, use of judgements and estimates were presented in Note 2 and Note 3 of these audited financial statements, and have been consistently applied in the preparation of these condensed consolidated interim financial statements.

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on February 27, 2019.

2. BASIS OF PREPARATION (continued)

b) Basis of Consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned subsidiaries. All inter-company balances, transactions, income and expenses have been eliminated upon consolidation.

c) Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company has power over an investee, when the Company is exposed, or has rights, to variable returns from the investee and when the Company has the ability to affect those returns through its power over the investee. Subsidiaries are included in the consolidated financial results of the Company from the effective date of acquisition up to the effective date of disposition or loss of control. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Company.

The principal subsidiaries of the Company as of January 31, 2019 are as follows:

		Place of	Ownership Interest January 31,	Ownership Interest July 31,
Name of subsidiary	Principal activity	Incorporation	2019	2018
Cobalt Locaters Inc.	Holding company	Canada	100%	100%
Cruz Capital (US) Corp.	Holding company	USA	100%	100%

3. NEW ACCOUNTING STANDARDS ADOPTED DURING THE PERIOD

IFRS 9 – Financial Instruments ("IFRS 9")

In November 2009, the IASB issued IFRS 9 Financial Instruments as the first step in its project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on an entity's business model and the contractual cash flow of the financial asset. Classification is made at the time the financial asset is initially recognized, namely when the entity becomes a party to the contractual provisions of the instrument.

IFRS 9 amends some of the requirements of IFRS 7 Financial Instruments: Disclosures, including added disclosures about investments in equity instruments measured at fair value in other comprehensive income, and guidance on financial liabilities and derecognition of financial instruments.

The amended standard was adopted on August 1, 2018 and the impact to the Company's condensed consolidated interim financial statement will be to classify its investments to fair value through profit or loss which was previously classified as available for sale. Future changes in the fair value of investment will be recorded directly in profit or loss. No other differences of any significance have been noted in relation to the adoption of IFRS 9.

4. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not early adopted any of these standards.

IFRS 16 – Leases ("IFRS 16")

In January 2016, the IASB issued IFRS 16 Leases ("IFRS 16") which replaces IAS 17, Leases and its associated interpretative guidance. IFRS 16 applies a control model to the identification of leases, distinguishing between a lease and a service contract on the basis of whether the customer controls the asset being leased. For those assets determined to meet the definition of a lease, IFRS 16 introduces significant changes to the accounting by lessees, introducing a single, on-balance sheet accounting model that is similar to the current finance lease accounting, with limited exceptions for short-term leases or leases of low value assets. Lessor accounting remains similar to current accounting practice. The standard is effective for annual periods beginning on or after January 1, 2019, with early application permitted for entities that apply IFRS 15. The Company is currently evaluating the impact of IFRS 16 on its condensed consolidated interim financial statements.

8. EXPLORATION AND EVALUATION ASSETS (continued)

<u>Title to Interests in Exploration and Evaluation Assets</u>

Title to exploration and evaluation asset interests involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its interests are in good standing. However, this should not be construed as a guarantee of title. The concessions may be subject to prior claims, agreements or transfers, and rights of ownership may be affected by undetected defects.
