

**FORM 51-102F3
MATERIAL CHANGE REPORT**

Item 1: Name and Address of Reporting Issuer

NanoStruck Technologies Inc. (the “**Company**”)
804-750 West Pender Street
Vancouver, BC V6C 2T7

Item 2: Date of Material Change

March 31, 2016.

Item 3: News Release

A news release was issued and disseminated on March 31, 2016 and filed on SEDAR (www.sedar.com).

Item 4: Summary of Material Changes

The Company announced that it has received conditional approval of the Canadian Securities Exchange (the “**CSE**”) for its proposed change of business, subject to majority shareholder approval. The CSE has also approved the completion of a financing sufficient to meet working capital requirements.

Item 5: Full Description of Material Change

The Company announced that it has received conditional approval of the CSE for its proposed change of business, subject to majority shareholder approval. The CSE has also approved the completion of a financing sufficient to meet working capital requirements.

The Company’s board of directors (the “**Board**”) will now seek the necessary majority shareholder approval for the change of business to become a platform for the emerging area of alternative finance known as crowdfunding and discontinue its water remediation and tailings processing business. The decision to implement the change of business has been the result of extensive in-house and external research. The Company’s management deems the change of business to be necessary to deliver improved shareholder returns and long-term shareholder value.

Trading of the Company’s common shares will remain halted to allow dissemination of the listing statement describing the fundamental change and to obtain consents from the majority shareholders of the Company. Thereafter, the Company’s common shares will resume trading under its new name, Fineqia International Inc. (“**Fineqia**”), new CUSIP/ISIN numbers and new stock ticker symbol.

The change of business will be executed through the incorporation of a new wholly-owned U.K. subsidiary, which will operate a regulated crowdfunding platform focused on debt instruments, specifically referred to as minibonds. The platform will allow individuals and financial institutions to discover and invest in high yield debt securities that meet U.K. crowdfunding regulatory guidelines.

According to the National Crowdfunding Association of Canada (the “**NCFA**”), crowdfunding is the raising of funds through the collection of small contributions from the general public using the Internet and social media. As the industry has evolved, it has attracted institutional investors such as family offices, hedge funds and asset managers to subscribe to debt and equity products offered on crowdfunding and peer-to-peer platforms.

Based on the Massolution industry report 2015, the worldwide crowdfunding market doubled to US\$34.4 billion (C\$45.42 billion) from US\$16.2 billion (C\$21.39 billion) in 2014. The minibond industry itself is expected to be worth US\$11.28 billion (C\$14.89 billion) by 2017 from about US\$127 million (C\$167.5 million) in 2012, according to the U.K's Capita Registrars.

Fineqia's strategic focus will be to provide a platform and associated services to support security issuances and manage administration of debt securities such as minibonds. The platform will bring an issuing company's minibonds to market, by distributing and marketing minibonds to the crowd, as well as transparently highlighting the risks and objectively outlining opportunities involved.

Full disclosure will be provided in the new listing statement that will be filed on the CSE's website, as well as at www.sedar.com.

Item 6: Reliance on subsection 7.1(2) or (3) of National Instrument 51-102

Not applicable.

Item 7: Omitted Information

None.

Item 8: Executive Officer
