

Fineqia Ltd Reports 38.4% Increase in Digital Asset Blockchain Infrastructure AMC's Year-End Net Asset Value

London, UK / Jan. 10, 2025 – Fineqia International Inc. ("Fineqia") (CSE: FNQ) (OTC: FNQQF) (Frankfurt: FNQA), a digital asset and investment business, reports a year-end Net Asset Value ("NAV") increase of 38.4% in the performance of its Digital Asset Blockchain Infrastructure ("DABI") Actively Managed Certificate ("AMC").

The strong year-end results are consequent to the change in portfolio composition and asset appreciation since the appointment of the Company's U.K. subsidiary, Fineqia Limited ("Fineqia Ltd."), as the Investment Advisor to Liechtenstein-based Sermont Asset Management ("Sermont") on Feb. 8, 2024.

Fineqia Ltd.'s expertise in digital assets combined with Sermont's progressive approach to wealth management has driven the successful repositioning of the portfolio to include Solana (SOL) and NEAR Protocol (NEAR), while incorporating other strategic adjustments that align with trends in the blockchain infrastructure sector.

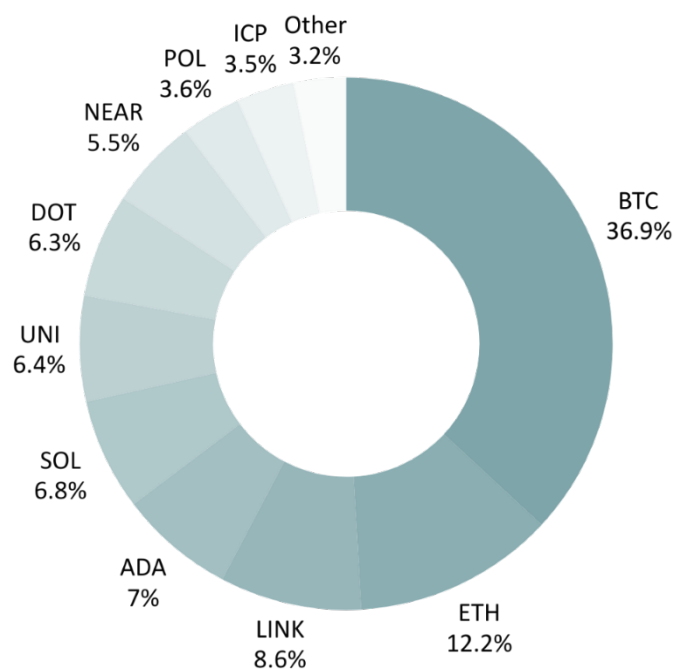

"The strong year-end performance of DABI shows how well our strategy has aligned with the growing appetite for digital assets," said Bundeep Singh Rangar, Chief Executive Officer of Fineqia Ltd. "It's thanks to big industry milestones like the launch of ETFs in the U.S. and a more crypto-friendly approach from the new U.S. administration. By staying ahead of these trends, we've been able to deliver real value to our investors."

Key components of the DABI AMC portfolio include:

- **Bitcoin (BTC):** 36.9%
- **Ethereum (ETH):** 12.2%
- **Chainlink (LINK):** 8.6%
- **Cardano (ADA):** 7%
- **Solana (SOL):** 6.8%

A notable development in 2024 has been the significant increase in Bitcoin's weight in the portfolio, now at 36.9%. This adjustment reflects Bitcoin's strong price appreciation and increased dominance in the market in 2024. Bitcoin's market dominance has risen to 58.1% by Dec. 31, 2024, from 53.1% on Feb. 8, 2024, reinforcing its central role in the portfolio, according to [TradingView data](#).

DABI's NAV increase represents its performance as of Dec. 31, 2024.

Portfolio Composition on Dec. 31, 2024

The refinement of DABI’s portfolio during 2024 reflects the partnership between Fineqia Ltd and Sermont aimed to drive growth while maintaining a balanced risk profile.

FORWARD-LOOKING STATEMENTS

Some statements in this release may contain forward-looking information (as defined under applicable Canadian Securities Laws) ("forward-looking statements"). All statements, other than of historical fact, that address activities, events or developments that Fineqia Intl. (the "Company") believes, expects or anticipates will or may occur in the future (including, without limitation, statements regarding potential acquisitions and financings) are forward-looking statements. Forward-looking statements are generally identifiable by use of the words "may", "will", "should", "continue", "expect", "anticipate", "estimate", "believe", "intend", "plan" or "project" or the negative of these words or other variations on these words or comparable terminology. Forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond the Company's ability to control or predict, that may cause the actual results of the Company to differ materially from those discussed in the forward-looking statements. Factors that could cause actual results or events to differ materially from current expectations include, among other things, without limitation, the failure to obtain sufficient financing, and other risks disclosed in the Company's public disclosure record on file with the relevant securities regulatory authorities. Any forward-looking statement speaks only as of the date on which it is made except as may be required by applicable securities laws. The Company disclaims any intent or obligation to update any forward-looking statement except to the extent required by applicable securities laws.
