CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE THREE AND NINE MONTHS ENDED JANUARY 31, 2013 (expressed in Cdn \$)

UNAUDITED

Notice of disclosure of non-auditor review of consolidated interim financial statements pursuant to National Instrument 51-102, Part 4, subsection 4.3(3)(a) issued by the Canadian Securities Administrators.

The accompanying condensed consolidated interim financial statements of the Company for the three and nine months ended January 31, 2013 have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards and are the responsibility of the Company's management.

The Company's auditors have not performed an audit or a review of these interim financial statements.

(Incorporated under the Laws of the Province of Ontario)

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE NINE MONTH PERIOD ENDED JANUARY 31, 2013

UNAUDITED (Expressed in Canadian Dollars)

1. Nature of Operations and Going Concern:

Razore Rock Resources Inc. is a public company incorporated under the laws of the Province of Ontario and its principal business activity is the exploration of its mineral properties. At January 31, 2013 the Company had working capital in the amount of \$104. (April 30, 2012 - \$21,084).

The Company is considered to be in the development stage, is in the process of exploring mineral properties in Canada and has not yet determined whether these properties contain economic reserves. While these financial statements have been prepared on the basis of accounting principles applicable to a going concern, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business, adverse conditions could cast doubt upon the validity of this assumption. Management has estimated that the Company will have adequate funds to meet its corporate, administrative and property obligations for the following year. If the Company is to advance or develop its mineral properties further, it will be necessary to obtain additional financing, and while the Company has been successful in the past, there can be no assurance that it will be able to do so in the future.

The recoverability of the amounts shown for mineral properties is dependent upon the existence of economically recoverable reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain necessary financing to complete their development, and upon future profitable production or proceeds from the disposition of its interests. The amounts shown as mineral properties represent net costs to date and do not necessarily represent present or future values. If the going concern assumption was not appropriate for these financial statements, then adjustments might be necessary to the carrying values of assets and liabilities, the reported loss and the balance sheet classifications used.

2. Significant accounting policies:

(a) Statement of Compliance

These unaudited condensed consolidated interim financial statements have been prepared for the nine months ended January 31, 2013, including comparative figures, in accordance with International Accounting Standard ("IFRS"), and in particular in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). They have been prepared using the accounting policies the Company expects to adopt in its consolidated financial statements as at and for the financial year ending April 30, 2013.

These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company's April 30, 2012 year end audited consolidated financial statements prepared in accordance with IFRS.

(b) Accounting Standards Issued but not yet Effective

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB or IFRIC that are mandatory for accounting periods beginning on or after June 1, 2013 or later periods. Updates that are not applicable or immaterial to the Company have been excluded.

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE NINE MONTH PERIOD ENDED JANUARY 31, 2013

UNAUDITED (Expressed in Canadian Dollars)

(b) Accounting Standards Issued but not yet Effective (Continued):

Financial Instruments: Classification and Measurement ("IFRS 9")

Effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, IFRS 9 introduces new requirements for the classification and measurement of financial instruments. Management anticipates that this standard will be adopted in the Company's consolidated financial statements for the period beginning on or after January 1, 2013 and has not yet considered the potential impact of the adoption of IFRS 9.

In May 2011, the IASB issued the following standards, effective for annual periods beginning on or after January 1, 2013 with early adoption permitted, which have not yet been adopted by the Company. The Company has not yet begun to assess the impact that the new and amended standards will have on its financial statements or whether to early adopt any of the new requirements.

International Financial Reporting Standard 10, Consolidation ("IFRS 10")

IFRS 10 requires an entity to consolidate an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Under existing IFRS, consolidation is required when an entity has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. IFRS 10 replaces SIC-12 Consolidation – Special Purpose Entities and parts of IAS 27 Consolidated and Separate Financial Statements.

International Financial Reporting Standard 11, Joint Arrangements ("IFRS 11")

IFRS 11 requires a venture to classify its interest in a joint arrangement as a joint venture or joint operation. Joint ventures will be accounted for using the equity method of accounting whereas for a joint operation the venture will recognize its share of the assets, liabilities revenue and expenses of the joint operation. Under existing IFRS, entities have the choice to proportionally consolidate or equity account for interests in joint ventures. IFRS 11 supersedes IAS 31, Interests in Controlled Entities – Non-monetary Contributions by Ventures.

International Financial Reporting Standard 12, Disclosure of Interests in Other Entities ("IFRS 12")

IFRS 12 establishes disclosure requirements for interests in other entities, such as joint arrangements, associates, special purpose vehicles and off balance sheet vehicles. The standard carries forward existing disclosures and also introduces significant additional disclosure requirements that address the nature of, and risks associated with, an entity's interests in other entities.

International Financial Reporting Standard 13, Fair Value Measurement ("IFRS 13")

IFRS 13 is a comprehensive standard for fair value measurement and disclosure requirements across all IFRS standards. The new standard clarifies that fair value is the price that would be received to sell an asset, or paid to transfer a liability in an orderly transaction between market participants, at the measurement date. It also establishes disclosures about fair value measurement. Under existing IFRS, guidance on measuring and disclosing fair value is dispersed among value measurements and in many cases does not reflect a clear measurement basis or consistent disclosures.

International Accounting Standard 28, Investments in Associates and Joint Ventures ("IAS 28")

As a consequence of the issuance of IFRS 10, IFRS 11, and IFRS 12, IAS 28 has been amended and will further provide accounting guidance for investments in associates and will set out the requirements for the application of the equity method when accounting for investments in associates and joint ventures. This standard will be applied by the Company when there is joint control or significant influence over an investee.

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE NINE MONTH PERIOD ENDED JANUARY 31, 2013

UNAUDITED (Expressed in Canadian Dollars)

3. Exploration and evaluation assets:

a) By agreement dated October 27, 2005 and amended November 30, 2006 and November 14, 2007, the Company acquired, from a party related to a shareholder, a 100% interest, subject to a 3% Net Smelter Returns Royalty ("NSR") in favour of the Vendor, in 4 mining claim blocks in Sourdough Bay and Mikanagan Faults Area, Flin Flon District, Manitoba. Consideration for the acquisition of this property consists of exploration payments in the amount of \$25,000 (or cash payments in lieu of work of an equivalent value) and the issuance of 100,000 common shares of the Company.

The Company has the right to purchase one-half of the NSR from the Vendor for \$750,000.

b) The Company acquired an additional mining claim in Sourdough Bay and Mikanagan Faults Area, Flin Flon District, Manitoba, contiguous to its existing claims, from an individual who is a shareholder and former director. Under the terms of the agreement the Company issued 100,000 common shares and reimbursed \$945 in staking costs to this individual. This related party retained a 2% Net Smelter Returns Royalty in the claim.

4. Capital Management:

The Company's policy is to attain a strong capital base so as to maintain investor, creditor and market confidence and to sustain the future development of the business. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risks characteristic of the underlying resource assets. As a junior resource exploration company, the Company considers its capital structure to be comprised of working capital only. In order to maintain or adjust the capital structure, the Company may from time to time issue shares and adjust its capital spending to manage current and projected expenditure levels.

The Company has not paid or declared any dividends since the date of its incorporation, nor are any dividends contemplated in the foreseeable future.

There were no changes in the Company's approach to capital management during the period.

5. Investments:

The Company has investments in Aurcrest Gold Inc. (formerly - Tribute Minerals Inc.) as follows:

	Jan	uary 31,	I	April 30,
