

## FINORE MINING ACQUIRES 100% OF LÄNTINEN KOILLISMAA PROPERTY

Vancouver, British Columbia – May 14, 2014. Finore Mining Inc. (“Finore” or the “Company”) announces that it has fully acquired a 100% interest in the LK Project from Nortec Minerals Corp. (“Nortec”). Finore has made the final payment to Nortec, comprised of 917,707 shares in Finore, fulfilling the terms of the amended option agreement signed January 16<sup>th</sup> 2013. Please see News Releases from September 11, 2012 and January 16, 2013 for more information on the previous option agreement.

The LK Project is comprised of four target areas, Haukiaho, Kaukua, Murtolampi and Lipeavaara. Over 33,000 metres of drilling by Nortec and Finore was carried out on Haukiaho and Kaukua, with historical drilling by Geological Survey of Finland ("GTK") on the Mutolampi and Lipeavaara zones. The Haukiaho Target consists of three mineralized fault separated blocks: West Torkoaho (West) Zone, Torkoaho (Central) Zone and Melarame (East) Zone. The Torkoaho Zone appears to thicken and flatten to the East with only three drill holes Hau11-10, Hau11-18 and the GTK drill hole R386 drilled over a strike distance of 400 metres. As reported in the Company's and Nortec's press releases dated September 11, 2012, the results from the three drill holes are listed below. The intersections are core lengths only and are estimated to be true thicknesses from the interpreted cross-sections.

**Hole Hau11-010:** 25.0 metres @ 0.72g/t PGE+Au; 0.23% Cu; 0.18% Ni from 66 metres

**Hole R-386:** 46.65 metres @ 0.88g/t PGE+Au; 0.30% Cu; 0.20% Ni from 36.05 metres

**Hole Hau12-018:** 26.0 metres @ 1.01g/t PGE+Au; 0.33% Cu; 0.26% Ni from 104 metres and 31.6 metres @ 1.04g/t PGE+Au; 0.34% Cu; 0.22% Ni from 134m

The West Torkoaho Zone also returned significant results and is open to the west. Drill Hole Hau11-16 intersected some of the highest grades in the Haukiaho Zone, shown below. No recent drilling was carried out west of this drill hole.

**Hole Hau11-016:** 30.0 metres @ 1.04g/t PGE+Au; 0.30% Cu; 0.20% Ni from 59.7 metres including 16.3 metres @ 1.45g/t PGE+Au; 0.42% Cu; 0.28% Ni

Finore's management is looking forward to the next phase of work program with a view of increasing the tonnage and grade in the LK deposit.

The Company completed a NI 43-101 compliant Technical Report on the LK project in September 2013. The Technical Report, entitled “A Technical Report on the Läntinen Koillismaa Project, Finland For Finore Mining Inc.”, was prepared by Mining Plus Canada Consulting Ltd.

Category	Tonnage Mt	Pd g/t	Pt g/t	Au g/t	Cu %	Ni %
<b>Indicated</b>	10.4	0.73	0.26	0.08	0.15	0.1
<b>Inferred</b>	13.2	0.63	0.22	0.06	0.13	0.1

**Other News:**

Finore has entered into debt settlement agreements on May 07, 2014 with Nortec, Peter Tegart (“Tegart”), President and CEO of the Finore and Mohan Vulimiri (“Vulimiri”), Director of Finore.

The Company settled \$40,000 of debt owed to Nortec by the issuance of 2,000,000 common shares, settled \$30,000 of debt owed to Tegart, by the issuance of 1,500,000 common shares, and settled \$5,000 of debt owed to Vulimiri by the issuance of 250,000 common shares. All of the shares were issued at a deemed price of \$0.02 per share on May 07, 2014.

The Company determined to satisfy its outstanding indebtedness with shares to preserve its cash for operations. The Company is relying on the exemptions from the prospectus requirements found in section 2.14 of National Instrument 45-106 and applicable securities laws in the respective jurisdictions of residence to issue the shares to the respective parties. The common shares issued are subject to a hold period in British Columbia expiring on September 08, 2014.

The shares for debt transaction shall be subject to regulatory approval.

**About Finore Mining Inc.**

Finore is a mineral exploration and development company based in Vancouver, British Columbia. The Company controls a 100% interest in the LK Project located in North-Central Finland. Finore’s goal is to define a large-tonnage PGE+Au-Cu-Ni deposit in Finland, thereby maximizing value on behalf of its shareholders. More information on the companies’ activities can be found on [www.finoremining.com](http://www.finoremining.com).

On behalf of the board of directors of  
Finore Mining Inc.,
