

Contact World Expands Commercial Portfolio through Partnership Agreement with Portum for Health Screening, Vaccine Wallet, Vaccine Passport, and More

Contact World to offer Portum to create safe spaces, healthy places, and peace of mind for all with its digital health pass and vaccine wallet for consumers, businesses, and government

- A vaccine mandate was recently enacted in the United States for all Federal employees
- The private sector is following suit, creating demand for Contact World's portfolio
- Portum's app offers the public and private sector a unique, integrated solution
- Contact World intends to offer the Portum solutions to new and existing customers

Vancouver, BC, October 14, 2021 – Contact World Technologies Corp. (CSE:HELP) (OTC:TLOOF) (FSE:B2I0) (the “**Company**” or “**Contact World**”), a SaaS company committed to improving health equity and access to healthcare while solving sector specific business challenges such as symptom screening and vaccine passports, today announced it has executed a strategic partnership agreement with Portum System LLC (“**Portum**”).

Leveraging the Company's expanding team of independent sales representatives, Contact World intends to offer Portum's app and software to commercial and government customers to help implement vaccine mandates in public and private settings. Portum's solution is private, anonymous, and easy to use – featuring exposure notification, privacy-by-design, symptom checker, secure vaccine wallet, advanced reporting, and distancing notifications.

Symptom screening, vaccine passports, vaccine validation, vaccine wallets, vaccine credentials, and other methods to improve population safety and reduce liability are becoming key to everyday business, travel, and social life, in light of Covid-19 and its Delta variant.

The Portum application can be utilized by clients on a subscription basis for stakeholder, as tool to aid in combating the spread of the Covid-19 virus while facilitating compliance with OSHA and other Federal guidance. Additionally, the application can be engaged for the benefit of large gatherings of people, which Portum calls its “moments” model. The moments model allows for events, venues, and other gatherings to easily verify attendees for vaccination or negative test records using a QR code. It can also be used to trace exposures of staff operating large venues, in real time on an ad hoc basis.

Commenting on Portum's partnership with Contact World and the opportunity presented by a growing need for vaccine wallets and vaccine passports, Portum's Co-Founder and Lead Solutions Engineer, Luke McNeice, stated “in decades of building tech companies, I've learned that well-chosen partnerships are key to success. Portum's partnership with Contact World is a perfect alignment for both parties.” Portum's CEO, Michael Goldman, added “rarely can two growing companies lock arms in such a way – our partnership with Contact World is a huge step towards our common vision of a healthier and safer society, and the need for vaccine wallets and vaccine passports is growing quickly.”

The agreement between Kontakt World and Portum allows for revenue sharing, where Kontakt World will own the customers, and Portum will service them through its app. Kontakt World will leverage its existing sales force and digital marketing tools to promote the Portum solution.
