

Contact World Provides Company Update as it Continues to Expand its Portfolio of SaaS Solutions and Commercial Presence in the US Market

Contact World is well-positioned to continue to take a leading role as a provider of SaaS solutions designed to meet Federal Vaccine Mandates imposed by the United States

- A vaccine mandate was recently enacted in the United States for all Federal employees
- The private sector is following suit, creating demand for Contact World's portfolio
- Health Check and Portum's app offers the public and private sector a unique, integrated solution

Vancouver, BC, November 16, 2021 – Contact World Technologies Corp. (CSE:HELP) (OTC:TLOOF) (FSE:B2IO) (the “**Company**”, “**Contact**” or “**Contact World**”), a SaaS company committed to improving health equity and access to healthcare while solving sector specific business challenges such as symptom screening and vaccine passports, is pleased to provide a summary of the Company's recent achievements, current operations, and strategic initiatives.

Contact World has ambitious plans to advance its business following its acquisition of Stratum Health Solutions LLC (“**Stratum**”), the operator of HealthCheck by Stratum™ (“**HealthCheck**”) and execution of a reseller's agreement with Portum System LLC (“**Portum**”) for the US, Canada, and Brazil markets. A review of the Company's recent achievements and current business is as follows:

- On August 12, 2021, Contact acquired Stratum (Health Check) a secure, cloud-based platform that allows organizations of all sizes to track and evaluate employee and student health and COVID-19 related symptoms in real-time through its proprietary app (the “**App**”). Contact continues to expand its presence in the marketplace with Health Check with the hiring of 10 commission-based sales people over the last few months. The Company's team is fully trained and has acquired 20+ significant new customers over the last few months with over 25 new commercial opportunities in the pipeline. Contact has engaged a software development company, ModalGR, located in Brazil, to add new features to the App, including vaccine passport and COVID-19 test tracking. Contact expects to launch the new version of the App in December of this year.
- On October 14, 2021, Contact expanded its commercial portfolio through a partnership agreement with Portum through which the Company will offer Portum's app and software to commercial and government customers to help implement vaccine mandates in public and private settings. The Company's sales team has been fully trained and has started to promote this SaaS product across the USA. This solution will allow the Company to immediately offer a vaccine passport and COVID-19 test tracking solution to its existing and new customers. With several states, such as New York and California, enforcing vaccine mandates, Contact is focusing on these territories to rapidly gain market share.

- Kontakt recently hired Alexandre Kochmann, a seasoned executive located in Brazil, to oversee the commercialization and product development of the Health Check and Portum solutions. Alexandre brings 20+ of experience managing large commercial sales forces at large corporations such as Dupont, GLOBALPACK and EMPAX.
- With a focus on the private sector, Kontakt has dramatically reduced its burn rate. While the Company sees long-term opportunities in the public health markets, it is focusing on continuing to build the Health Check business and partnership with Portum.
- Kontakt is also eyeing opportunities in the Brazilian market and anticipates having a Portuguese version of the App ready in the first half of 2022, which will allow it to offer a robust solution to one of the largest economies in the world.

“By leveraging the Company’s expanding team of independent sales representatives and continuing the development of our Health Check platform to meet the needs of vaccine passport and COVID-19 test tracking mandates, we believe our team will serve as a strong platform to develop and acquire additional SaaS solutions, ultimately strengthening our product portfolio” stated Zayn Kalyan, Chief Executive Officer of Kontakt World.
