

Infinity Stone Stakes Additional Claims at Camaro Property, Adjacent to Patriot Battery Metals Lithium Discovery

Vancouver, BC, May 25, 2022 – Infinity Stone Ventures Corp. ([CSE:GEMS](#)) ([OTC:TLOOF](#)) ([FSE:B2I0](#)) (the “Company” or “Infinity Stone”) is pleased to announce that it has applied to stake six additional mineral claims at its Camaro Property, covering 307.7 hectares in the James Bay region of Quebec, contiguous with its previously staked claim, which will bring its total land position to 359.0 hectares. The Camaro Property is directly adjacent to Patriot Battery Metals’ ([CSE:PMET](#)) (“Patriot”) Corvette Lithium discovery in the James Bay Region of Quebec. (1)

Patriot Battery Metals has made several recent announcements with regard to their project, including an [announcement on May 24, 2022](#), reporting 2.22% Li₂O over 70.1 metres in drillhole CV22-017, including an interval of 3.01% Li₂O over 40.7 metres in the first drill hole to test the CV1 Pegmatite at the east end of the winter drilling corridor at the Corvette Property, Quebec. (2)

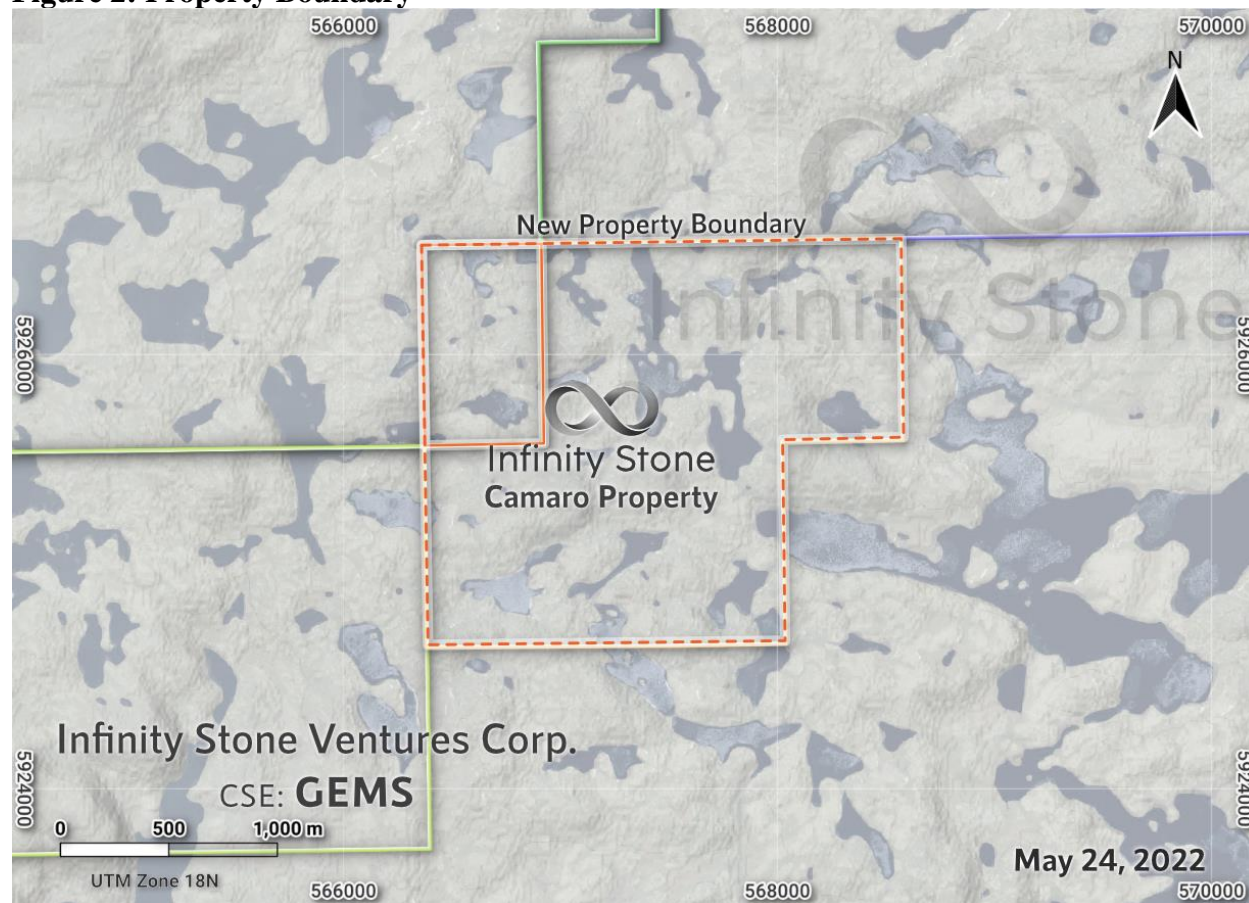

Figure 1: Property Location

Infinity Stone is currently assessing field conditions in the James Bay region and assembling a technical team to visit the ground adjacent to Patriot when weather permits. The Company intends to pursue further exploration of the claim this summer and plans to provide more details on the plan in the coming weeks.

A Qualified Person is reviewing the property area to determine the extent of historical work in and around the Property.

About Infinity Stone Ventures

Infinity Stone's mission is to be a diversified, single source supplier for the critical energy metals being used in the clean energy revolution alongside its established SaaS solution portfolio. The Company's primary business units include HealthCheck (Stratum Health Technologies LLC) and its energy metals portfolio. Infinity Stone is meeting the demand from battery and wind turbine manufacturers, nuclear and hydrogen energy producers, and energy metals speculators by acquiring 100% interest in critical mineral deposits and occurrences in stable mining-friendly jurisdictions, close to final use destinations in North American manufacturing hubs.
