

## Infinity Stone Provides Update on Soil Sampling at Zen-Whoberi and Announces Appointment of Case Lewis to Board of Directors

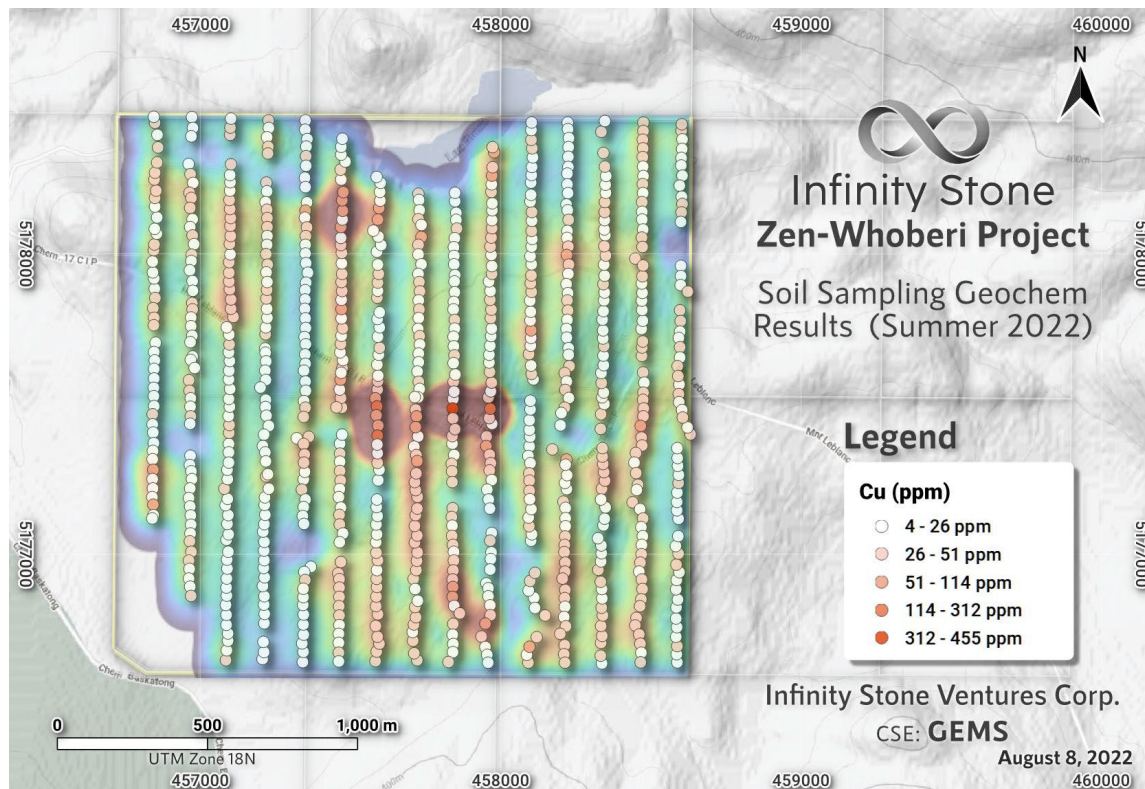

**Vancouver, BC, August 12, 2022** – Infinity Stone Ventures Corp. (CSE:GEMS) (OTC:TLOOF) (FSE:B2I) (“**Infinity Stone**” the “**Company**”) is pleased to provide an update on the soil sampling program at its Zen-Whoberi property (the “**Property**”), located north of Mont Laurier, Quebec, and announces the appointment of Case Lewis, P.Geo., as an independent director of the Company.

### Zen-Whoberi Soil Geochemistry

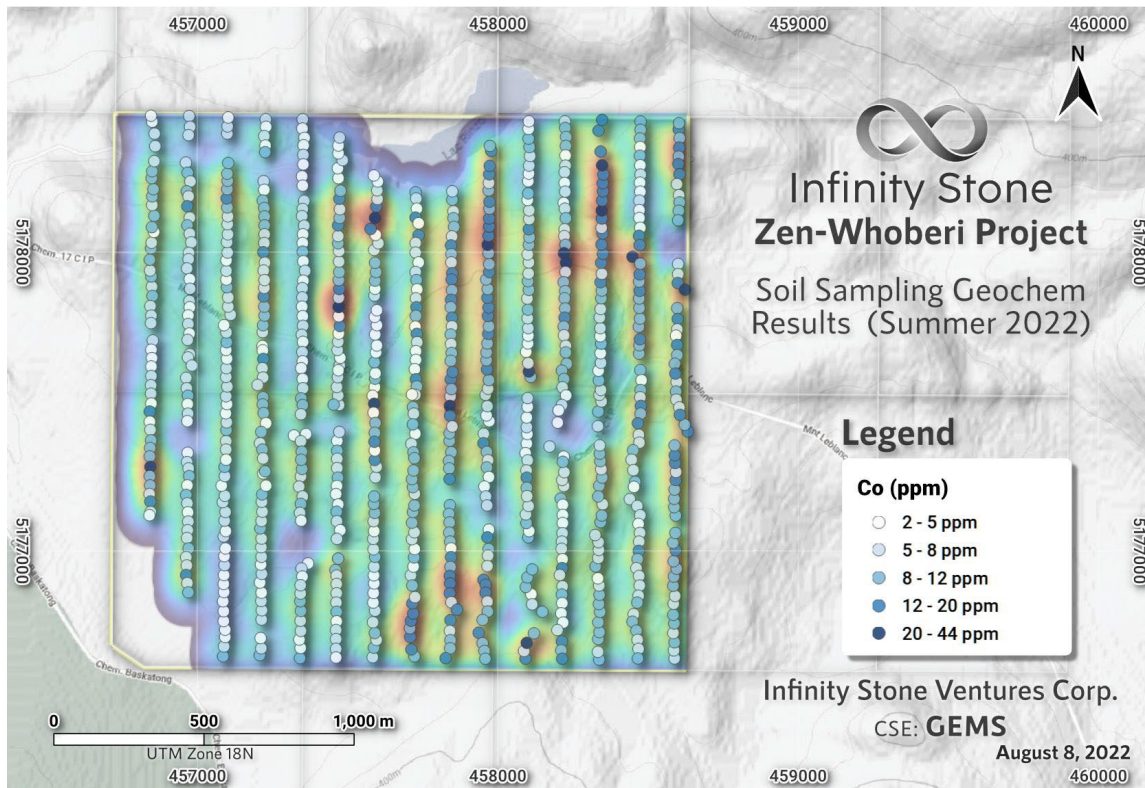

The soil geochemical survey of 950 samples taken on the Property revealed two new anomalous copper zones and two new anomalous nickel-cobalt zones. The cobalt zone is located 800 metres north of the known mineralization at the Property, and trends roughly east-west for at least one kilometre and 100 metres in width.

New trails on the Property will greatly facilitate the tasks of stripping and blasting. The nickel-cobalt anomalies will also be analyzed for platinum group metals (PGM), as previous work had identified a correlation between sulphides and PGM content in drill core, particularly CB-06-05 (GM 61701). Soil geochemical assays from the program are shown in the following three maps.

**Figure 2. Soil Geochemistry - Cobalt**

**Figure 3. Soil Geochemistry - Nickel**

## **Case Lewis, P.Ge. Appointed as Independent Director**

Mr. Lewis is a registered Professional Geologist with Professional Geoscientists Ontario and a Qualified Person, as defined under NI 43-101 *Standards of Disclosure for Mineral Projects*, with over 14 years of diverse project and business experience, managing grassroots to advanced-stage exploration projects for precious metals and industrial minerals throughout Canada and internationally. He has served as director, Qualified Person, and technical advisor on numerous junior resource exploration companies and holds a degree in Geology from the University of Alberta.

"We are pleased to welcome Case Lewis as a member of the board. His extensive experience in working on critical mineral projects, and focus on exploration will provide tremendous value to the Company's leadership" said Zayn Kalyan, CEO of Infinity Stone. "As we expand exploration on our core projects and evaluate expanded work programs, Mr Lewis's knowledge and expertise will be invaluable", furthered Mr. Kalyan.

## **Qualified Person**

Technical information in this news release has been reviewed and approved by Case Lewis, P.Ge., a "Qualified Person", as defined under NI 43-101 *Standards of Disclosure for Mineral Projects* and an independent director of the Company.

## **About Infinity Stone Ventures**

Infinity Stone's mission is to be a diversified, single source supplier for the critical energy metals being used in the clean energy revolution alongside its established SaaS solution portfolio. The Company's primary business units include HealthCheck (Stratum Health Technologies LLC) and its energy metals portfolio. Infinity Stone is meeting the demand from battery and wind turbine manufacturers, nuclear and hydrogen energy producers, and energy metals speculators by acquiring 100% interest in critical mineral deposits and occurrences in stable mining-friendly jurisdictions, close to final use destinations in North American manufacturing hubs.

## **Forward-Looking Statements Disclaimer**

This press release contains "forward-looking information" within the meaning of applicable securities laws. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the use of words such as "plans", "expects" or "does not

expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "projects", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause actual performance and financial results in future periods to differ materially from any projections of future performance or result expressed or implied by such forward-looking statements, including statements respecting: new trails on the Property facilitating the tasks of striping and blasting; and the Company's plans to analyze nickel-cobalt anomalies for PGM. Although forward-looking statements contained in this press release are based upon what management of Company believes are reasonable assumptions, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The forward-looking statements may also be affected by risks and uncertainties in the business of the Company, including those described in the Company's public filings available on [www.SEDAR.com](http://www.SEDAR.com). The Company undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change except as required by applicable securities laws. The reader is cautioned not to place undue reliance on forward-looking statements.
