1. CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS

Copper Reef Mining Corporation (the "Company" or "Copper Reef") was incorporated under the laws of the Province of Manitoba by Letters Patent of Incorporation dated March 27, 1973 as "Copper Reef Mines (1973) Limited", as amended by Articles of Amendment dated January 18, 2005, and Articles of Amendment dated September 8, 2006, changing the corporate name to "Copper Reef Mining Corporation". The registered and head office of the Company is located at 6 Mitchell Road, Flin Flon, Manitoba R8A 1N1.

The shares of the Company are listed on the Canadian Securities Exchange under the symbol "CZC". The Company is engaged in the identification, acquisition and exploration of mineral properties in Canada, with present activities concentrated in the provinces of Manitoba and Saskatchewan.

The financial statements of Copper Reef for 9-months ended August 31, 2018, were reviewed by the Audit Committee and approved and authorized by the Board of Directors on October 3rd, 2018.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of exploration and evaluation assets and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs of the carrying values.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, other land claims and non-compliance with regulatory, social and environmental requirements. These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. These adjustments could be material.

As at August 31, 2018, the Company had not advanced any of its properties to commercial production and is not able to finance day to day activities through operations. During the 9-months ended August 31, 2018 the Company incurred a net loss of \$181,073 (2017 – \$261,000) and had an accumulated deficit of \$6,307,516 as at August 31, 2018 (2017 - \$6,228,802). These conditions indicate the existence of material uncertainties which cast significant doubt on the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management intends to finance operating costs over the next twelve months with funds currently on hand and through the raising of equity, if available.

On April 6, 2018, the Company completed a private placement that raised \$247,600 net of finder's fees.

On October 3, 2018, the Company announced the receipt of \$26,268 in Grants from the Province of Manitoba's MEAP programme.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

STATEMENT OF COMPLIANCE WITH INTERNATIONAL FINANCIAL REPORTING STANDARDS

These condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). These financial statements comply with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”).

This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended November 30, 2017.

3. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods on or after December 1, 2018 or later periods. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

- IFRS 9 – Financial Instruments (“IFRS 9”) was issued by the IASB in November 2009 with additions in October 2010 and May 2013 and will replace IAS 39 Financial Instruments: Recognition and Measurement (“IAS 39”). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9, except that an entity choosing to measure a financial liability at fair value will present the portion of any change in its fair value due to changes in the entity’s own credit risk in other comprehensive income, rather than within profit or loss. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. Earlier adoption is permitted.
- IFRS 16 – Leases (“IFRS 16”) was issued in January 2016 and replaces IAS 17 – Leases as well as some lease related interpretations. With certain exceptions for leases under twelve months in length or for assets of low value, IFRS 16 states that upon lease commencement a lessee recognises a right-of-use asset and a lease liability. The right-of-use asset is initially measured at the amount of the liability plus any initial direct costs. After lease commencement, the lessee shall measure the right-of-use asset at cost less accumulated depreciation and accumulated impairment. A lessee shall either apply IFRS 16 with full retrospective effect or alternatively not restate comparative information but recognise the cumulative effect of initially applying IFRS 16 as an adjustment to opening equity at the date of initial application. IFRS 16 requires that lessors classify each lease as an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Otherwise it is an operating lease. IFRS 16 is effective for annual periods beginning on or after January 1, 2019. Earlier adoption is permitted if IFRS 15 has also been applied.

Directors and officers subscribed for 450,000 flow through units for gross proceeds of \$22,500. A value of \$190,700 was ascribed to the warrants in these private placements.

Cash finder's fees totalling \$22,400 were paid from proceeds of the financing. 712,000 broker warrants with an exercise price of \$0.05 for a period of 2 years were also issued and valued at \$8,000. (Previously stated as \$3,900)

- ii) On April 6, 2018, the Company announced that it has closed the first tranche of \$257,000 of a non-brokered private placement previously announced on January 18, 2018 of a financing of up to a Maximum Offering Amount of \$650,000.

This first tranche is comprised of 1,950,000 Flow Through Units at a price of \$0.05 per Flow-Through Unit representing proceeds of \$97,500 and 6,380,000 Class "A" Units at a price of \$0.025 per Unit, representing proceeds of \$159,500 for an aggregate total raised of \$257,000. The Company has issued 8,330,000 shares with a hold period to August 5, 2018.

The Offering is subject to certain conditions including, but not limited to, the receipt of all necessary regulatory approvals. All securities to be issued under the Offering will be subject to a four-month statutory hold period in Canada.

The Class A Units consist of, and separate immediately into, one common share of the Issuer (a "Common Share") and one (1) Share Purchase Warrant, each entitling the holder to purchase one Common Share at a purchase price of \$0.05 cents per Warrant for a period of twelve (12) months following the date of issuance. The Flow-Through Units shall consist of, and separate immediately upon closing into, one Common Share, to be issued as a "flow-through share" (the "Flow-Through Shares") within the meaning of the *Income Tax Act* (Canada), and one Warrant. Each Warrant attached to the Flow-Through Units shall entitle the holder to purchase one Common Share for a purchase price of \$0.05 per Common Share for a period of twenty four (24) months following the date of issuance.

8 SHARE CAPITAL – ISSUED SHARE CAPITAL (CONT'D)

A finder's fee consisting of a cash payment of \$9,400 and the issuance of 240,000 finder's warrants, was paid, to an arm's length group for securing proceeds total proceeds of \$117,500 through subscriptions for 1,200,000 Flow Through Units and 2,300,000 Class A Units. Each of the finder's warrants entitles the holder to purchase one Common Share at an exercise price of \$0.05 for twenty-four (24) months following the date of issuance of the Class A Units pursuant to this tranche of the private placement.

Directors and officers subscribed to 800,000 non-flow through units and 500,000 flow through units

c) INCENTIVE STOCK OPTIONS

Pursuant to the Company's stock option plan (the "Plan"), the Company may grant to its employees, officers, directors and consultants, options to purchase common shares of the Company at a fixed price as determined by the board of directors. The options vest in accordance with the terms of their granting and have a maximum term of five years. The common shares reserved for issuance under the Plan will not exceed, in aggregate, 10% of the Company's common shares issued and outstanding at the time of grant.

On August 2, 2017, the Company granted 13,050,000 incentive stock options to officers, directors, employees and consultants of the Company. The Options expire August 1, 2022 and are exercisable at \$0.05 per share.

Company officers and directors received 9,500,000 of these options.

The following table summarizes the Company's stock option transactions for the 9-months ended August 31, 2018 and the year ended November 30, 2017:

9 RELATED PARTY BALANCES (CONT'D)

In accordance with IAS 24, key management personnel are those persons having authority and responsibility for planning, directing, and controlling the activities of the Company directly or indirectly, including any directors (executive and non-executive) of the Company. The remuneration of directors and key executives is determined by the compensation committee having regard to the performance of individuals and market trends.

c) SHARE SUBSCRIPTIONS

See Note 8(b and c) for descriptions of related party share subscriptions.

10. COMMITMENTS AND CONTINGENCIES

a) CONSULTING AGREEMENT

Consulting Agreement

The Company entered into an exploration management services agreement dated December 31, 2010 with M'Ore Exploration Services Ltd. ("M'Ore") and the President and significant shareholder of M'Ore, who is an officer, director and shareholder of the Company. Pursuant to the agreement, M'Ore provides consulting and management services to the Company and incurs various administrative expenses, including administrative salaries and office and vehicle rentals on behalf of the Company. The term of the agreement is for a period of two years ended December 31, 2012 and can be renewed thereafter at the end of every 12 months. This agreement was extended to December 31, 2018.

This could result in management fees and salaries incurred by M'Ore being capped at \$200,000 per annum. Additional charges to the Company in prior years consisted of a lease with M'Ore whereby the Company would pay \$30,000, plus operating expenses, per annum for rental of office and storage space. The lease also specifies rates to be charged for the use of various items of equipment if and when utilized by the Company.

b) CONTINGENCIES

The Company's exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

c) FLOW-THROUGH EXPENDITURES

During the year ended November 30, 2017, the Company renounced Canadian exploration expenditures in the aggregate amount of \$132,500 (2016 – \$75,500) related to proceeds from the issuance of flow-through shares pursuant to the financings described in Note 9(b) and has incurred these qualifying Canadian exploration expenditures as at November 30, 2017. If the Company does not incur the required qualifying expenditures, it will be required to indemnify the holders of the flow-through shares for any tax and other costs payable by them as a result of the Company not making the required expenditures.

11. SEGMENTED INFORMATION

All of the Company's assets, liabilities and operations are domiciled in Canada.

12. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern in order to pursue the evaluation and exploration of its mineral exploration properties and to maintain a flexible capital structure, which optimizes the costs of capital at an acceptable risk. In the management of capital, the Company includes the components of share capital as well as cash. There were no changes to the Company policy for capital management during the years ended November 30, 2017 and 2016. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, acquire or dispose of assets, or adjust the amount of cash and marketable securities. In order to maximize ongoing development efforts, the Company does not pay out dividends. The Company is not subject to any externally imposed capital requirements. The Company's investment policy is to invest its excess cash in highly liquid investments that are readily convertible into cash with maturities of three months or less from the original date of acquisition or when it is needed, selected with regards to the expected timing of expenditures from continuing operations. The Company expects that its current capital resources will be sufficient to fund its present operational commitments and working capital needs for the coming twelve months. However, additional funding will be required to meet any new operational commitments if further drilling programs are to be carried out.

13. FINANCIAL INSTRUMENTS

a) FAIR VALUE

The carrying values of cash, amounts receivable, and accounts payable and accrued liabilities approximate their fair values due to the relatively short period to maturity of those financial instruments.

	Loans, receivables and other liabilities	Assets at fair value through profit & loss	Total
As at August 31, 2018	\$	\$	\$
Cash	88,280	–	88,280
Marketable securities	–	192,500	192,500
Amounts receivable	5,300	–	5,300
Accounts payable and accrued liabilities	343,489	–	343,489
<hr/>			
As at August 31 2017			
Cash	130,709	–	130,709
Marketable securities	–	95,900	95,900
Amounts receivable	5,204	90,000	95,204
Accounts payable and accrued liabilities	269,836	–	269,836

13. FINANCIAL INSTRUMENTS (CONT'D)

Financial instruments recorded at fair value on the statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3: Inputs that are not based on observable market data.

As at November 30, 2017 and 2016, the financial instruments recorded at fair value on the statement of financial position are marketable securities which are measured using Level 1 of the fair value hierarchy and marketable securities receivable which are Level 2.

b) FINANCIAL RISK MANAGEMENT

Credit Risk

The Company is exposed to credit risk with respect to its cash and amounts receivable. Cash has been placed on deposit with major Canadian financial institutions.

Amounts receivable consist of GST.

The risk arises from the non-performance of counterparties of contractual financial obligations. The Company manages credit risk, in respect of cash, by purchasing term deposits held at a major Canadian financial institution. Concentration of credit risk exists with respect to the Company's cash as the majority of the amounts are held at a single Canadian financial institution.

The credit risk associated with cash is minimized by ensuring the majority of these financial assets are held with major Canadian financial institutions with strong investment-grade ratings by a primary rating agency.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company manages liquidity by maintaining adequate cash balances to meet liabilities as they become due.

The Company's expected source of cash flow for the upcoming year ended November 30, 2018 will be through equity financings.

The Company maintained cash at August 31, 2018 in the amount of **\$88,280** (2017 – \$130,709), in order to meet short-term business requirements. At August 31, 2018, the Company had accounts payable and accrued liabilities of **\$343,489** (2017 - \$269,836). All accounts payable and accrued liabilities are current.

Subsequent to the end of the period, the company received \$26,268 in grants from the Province of Manitoba under its MEAP (Mineral Exploration Assistance Programme).

13. FINANCIAL INSTRUMENTS (CONT'D)

Market Risk

The significant market risks to which the Company is exposed are interest rate risk, currency risk and commodity price risk.

Interest Rate Risk

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company also holds a portion of cash in bank accounts that earn variable interest rates. Because of the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values as of November 30, 2017.

The Company's interest rate risk principally arises from the interest rate impact of interest earned on cash. A 1% change in interest rates on cash outstanding at November 30, 2017 would not have a significant impact on the Company's net loss for the year ended November 30, 2017.

Currency risk

The Company is not exposed to any material currency risk.

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices other than those arising from interest rate risk, financial market risk, or currency risk. The Company is not exposed to significant other price risk.

Marketable securities

Risk to the Company from its marketable securities is derived from two factors:

- The ability of the issuer to sustain itself financially; and
- The ability to monetize the securities of the issuer.

The Company's marketable securities are detailed in Note 4.

A 10% change in the quoted market value at August 31, 2018 would have resulted in a \$19,250 change to the Company's net loss for the period then ended (2017 - \$8,100).

13. FINANCIAL INSTRUMENTS (CONT'D)

Commodity risk

The Company is exposed to price risk with respect to commodity prices, specifically precious and non-precious metals. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company. Commodity prices fluctuate on a daily basis and are affected by numerous factors beyond the Company's control. The supply and demand for these commodities, the level of interest rates, the rate of inflation, investment decision by large holders of commodities including governmental reserves and stability of exchange rates can all cause significant fluctuations in prices. Such external economic factors are in turn influenced by changes in investment patterns and monetary systems and political developments. As the Company does not have production assets, management believes this risk is minimal.

14. SUBSEQUENT EVENTS

Subsequent to the end of the period, the company received \$26,268 in grants from the Province of Manitoba under its MEAP (Mineral Exploration Assistance Programme). This was in addition to \$6,678 received earlier this year.
