### AXE EXPLORATION; VERY ACTIVE IN EXPLORATION WORK ON THE GOLDPEAK AND DESTORBELLE GOLD PROPERTIES

**Laval, Canada, October 22<sup>nd</sup>, 2013** – Axe Exploration Inc. (TSX-V: AXQ) (the "**Corporation**") announces an exploration program on its GoldPeak (100%-owned by Axe Exploration Inc.) and Destorbelle (50%-owned by Typhon Exploration Inc. / 50%-owned by Axe Exploration Inc.) properties, consisting mainly of geological reconnaissance work and sampling.

**The GoldPeak Property comprises 50 mining claims and covers 2,184 hectares.** GoldPeak is in a great geological position, in one of the most world-renowned regions for gold potential, along the Destor-Porcupine Fault (≈80 million ounces of gold) and the Cadillac Fault (≈180 million ounces of gold) sector, which have produced approximately 260 million ounces of gold to date. Furthermore, it is located amongst Abitibi's mining projects, such as; **Westwood from Iamgold, Fayolle from Typhoon, Goldex-Laronde and Lapa from Agnico-Eagle as well as Canadian Malartic from Osisko**, just to name a few. (See map)

**The Destorbelle Property** comprises 24 mining claims located in the Rouyn-Noranda mining camp, straddles the Destor, Aiguebelle and Cléricy Townships and covers a surface of 953.1 hectares. Furthermore, it **is adjacent to the Fayolle Property and shows a high similarity with the structural context type and geologic environment** as the one of the Fayolle Deposit, which contains to date more than 188,000 ounces of gold in the indicated category (43-101 Standard – September 2012).

Due to its strategic location, the Destorbelle Property allows Axe, in collaboration with its partner Typhon Exploration Inc., to control several kilometres of favourable ground along the Destor-Porcupine Fault (≈80 million ounces of gold). Short term, the company is confident to define some interesting gold-bearing mineralization.

#### ABOUT AXE EXPLORATION INC.

Axe Exploration's mission is to explore and discover significant mineral resources by using the latest exploration technologies, all while minimizing its impact on the environment.

Axe is in an excellent financial position and carries no debts.
