Item 3 News Release

The press release attached as Schedule “A” was issued on August 29, 2022 through Globe Newswire.

Item 4 Summary of Material Change

The Company announced non-reliance on previously issued unaudited condensed consolidated financial statements as of and for the three months ended March 31, 2022 (“**First Quarter 2022 Interim Financial Statements**”).

Item 5 Full Description of Material Change

5.1 Full Description of Material Change

In connection with the preparation of the Company’s unaudited condensed consolidated financial statements for the three and six months ended June 30, 2022, the Company’s management identified errors in its previously issued unaudited condensed balance sheet as of March 31, 2022, resulting in the understatement of certain non-current assets and associated accruals. In addition, management identified errors in the unaudited condensed consolidated statement of cash flows for three months ended March 31, 2022. Such errors resulted in the understatement of net cash flows used in operating activities, the overstatement of net cash flows used in investing activities, and the understatement of net cash flows provided by financing activities during the three months ended March 31, 2022. The Company believes such errors did not impact the cash balance as of March 31, 2022, and further believes there is no net change in cash flows during the three months then ended. The Company also believes that such errors will not materially impact the unaudited condensed consolidated financial statements as of and for the three and six months ended June 30, 2022.

As a result, the Company will be required to restate its unaudited condensed interim consolidated financial statements for the Quarter Ended March 31, 2022, filed in Canada on the System for Electronic Document Analysis and Retrieval on May 27, 2022, as amended on June 24, 2022.

On August 28, 2022, the Company’s Audit Committee concluded, after discussion with the Company’s management and its advisors, that the Company’s previously issued First

Quarter 2022 Interim Financial Statements were materially misstated due to such errors. As a result, the Company's First Quarter 2022 Interim Financial Statements should no longer be relied upon. Similarly, any previously issued or filed reports, registration statements, press releases, earnings releases and investor presentations or other communications describing the Company's First Quarter 2022 Interim Financial Statements should no longer be relied upon.

The Company will, as soon as practicable, make the appropriate adjustments, which will include restated consolidated financial statements and any other appropriate revisions.

Management Commentary

"We are pleased to report solid second quarter top-line growth and improved sequential profitability, a strong indication that our strategy, capital investments and cost savings initiatives are building a strong foundation on which we can continue to execute, despite the challenging macroeconomic environment," said Jim Cacioppo, Chief Executive Officer, Chairman and Founder of Jushi Holdings Inc. "The development of our footprint in Nevada, including the addition of NuLeaf's high-quality assets, were meaningful contributors to our retail performance in the second quarter."

Mr. Cacioppo continued, "In the second quarter, we completed the first phase of construction of the cultivation portion of our grower-processor facilities in Pennsylvania and Virginia. In these two very important markets for Jushi, we are focused on expanding production, improving the sell-through rate of our own-branded products at our Beyond Hello™ stores and building-out our wholesale business. We are also focused on diversifying our product portfolio, including the introduction of many new strains, along with hydro-carbon products and Live Rosin vapes and concentrates that will allow us to differentiate our product offering, while continuing to meet consumer demand."

"Our team has done a commendable job navigating through these challenging market conditions. I am confident that our strong foundation and cost discipline will ensure we maintain our momentum into the second half of the year. We are excited about what lies ahead for Jushi and believe we are well-positioned to capitalize on the industry opportunity and drive long-term value for our shareholders," concluded Mr. Cacioppo.

Use of Non-GAAP Financial Information

We believe that the presentation of non-GAAP financial information provides important supplemental information to management and investors regarding financial and business trends relating to our financial condition and results of operations. For further information regarding these non-GAAP measures, including the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures, please refer to the financial tables below, as well as the "Reconciliation of Non-GAAP Financial Measures" section of this press release.

Financial Results for the Second Quarter 2022

The following is a tabular summary and commentary of revenue, gross profit, adjusted gross profit, net income (loss), and net income (loss) per share for the three month periods ended June 30, 2022, March 31, 2022, and June 30, 2021.

(\$ in millions, except per share amounts)

	Quarter Ended June 30, 2022	Quarter Ended March 31, 2022	% Change	Quarter Ended June 30, 2022	Quarter Ended June 30, 2021	% Change
Revenue	\$ 72.8	\$ 61.9	17.6%	\$ 72.8	\$ 47.7	52.4%
Gross profit	26.7	19.1	39.5%	26.7	22.8	17.2%
Adjusted gross profit	27.8	24.8	12.3%	27.8	23.4	19.1%
Net income (loss)	12.1	(19.8)		12.1	3.6	
Net income (loss) per share - basic	\$ 0.06	\$ (0.11)		\$ 0.06	\$ 0.02	
Net loss per share - diluted	\$ (0.15)	\$ (0.16)		\$ (0.15)	\$ (0.09)	

Revenue in Q2 2022 increased 52.4% to \$72.8 million as compared to \$47.7 million in the second quarter of 2021 ("Q2 2021"), driven by the Company's acquisitions in Nevada and Massachusetts, and new Beyond Hello™ store openings in Pennsylvania and Virginia. Revenue increased 17.6% to \$72.8 million from \$61.9 million in Q1 2022. The 17.6% increase in revenue was primarily driven by the acquisitions in Nevada in the first half of 2022, including contributions from four new state dispensaries, increased retail and wholesale activity in Massachusetts, and growth in retail sales in Illinois and Virginia.

Gross profit in Q2 2022 was \$26.7 million, or 36.7% of revenue, compared to \$19.1 million, or 30.9% of revenue in Q1 2022. Adjusted gross profit in Q2 2022 was \$27.8 million, or 38.3% of revenue, compared to \$24.8 million, or 40.0% of revenue in Q1 2022. Adjusted gross margin was negatively impacted by the under absorption of fixed costs at the Company's grower-processor facilities as the wholesale business scales and increased promotional activity of Jushi branded products in Pennsylvania.

Operating expenses in Q2 2022 were \$38.7 million, or 53.3% of revenue, compared to \$37.3 million, or 60.3% of revenue in Q1 2022. The 703 basis point improvement in operating expenses as a percentage of revenue was primarily driven by managing labor and staffing expenses across the organization and lower share based compensation.

Q2 2022 net income was \$12.1 million, or \$0.06 per basic share and net loss of \$0.15 per diluted share, compared to net income of \$3.6 million, or \$0.02 per basic share and net loss of \$0.09 per diluted share, in Q2 2021. The net loss of \$0.15 per diluted share in Q2 2022 was primarily due to the dilutive impact of the outstanding warrant derivative liability.

Adjusted EBITDA in Q2 2022 was \$0.5 million, an increase of \$1.4 million as compared to \$(0.9) million in Q1 2022 and a decrease of \$4.1 million compared to \$4.6 million in Q2 2021. Adjusted EBITDA expansion was slowed by infrastructure and headcount investments at our grower processors that continue to have a transitional impact as the Company scales and slower-than-expected growth of wholesale operations.

Balance Sheet and Liquidity

As of June 30, 2022, the Company had approximately \$43.2 million of cash and cash equivalents. The Company paid approximately \$14 million in capital expenditures during Q2 2022. For the balance of the year, we expect capital expenditures to be in the range of \$15 to 25 million, prior to any potential tenant improvement reimbursements or financings, for a total of \$55 to \$65 million for the full year 2022, subject to market conditions and regulatory changes. As of June 30, 2022, the Company had approximately \$200 million in principal amount of total debt, excluding leases and property, plant, and equipment financing obligations. As of August 29, 2022, the Company's Acquisition Facility had \$60 million of available capacity, including the \$25 million accordion feature. As of August 29, 2022, the Company's issued and outstanding shares were 195,989,084 and its fully diluted shares outstanding were 290,921,762.

Outlook

Mr. Cacioppo commented, "Moving into the second half of the year, we are revising our fourth quarter 2022 annualized revenue to be between \$320 to \$350 million, with a low double digit Adjusted EBITDA margin. At the retail level, we expect to open three additional Beyond Hello™ stores in the next four months, including two locations in Virginia and one in Ohio. We are also moving an underperforming store in Pennsylvania. Moreover, we will continue work on adding additional operational grow rooms and expanding production at our grower-processor facilities as we look to increase the sell-through rate of our own branded products through our network of retail stores, along with pursuing wholesale opportunities."

Mr. Cacioppo concluded, "By the end of 2022, we expect to operate 37 retail locations and approximately 330,000 sq. ft. of cultivation and processing capabilities, including 100,000 sq. ft. of canopy. As always, we are fiercely committed to generating return on investment for our shareholders, and I look forward to reporting on the meaningful strides we expect to make as we continue to strengthen our business through the remainder of 2022."

Non-Reliance on Previously Issued First Quarter 2022 Financial Statements

In connection with the preparation of the Company's unaudited condensed consolidated financial statements for the three and six months ended June 30, 2022, the Company's management identified errors in its previously issued unaudited condensed balance sheet as of March 31, 2022, resulting in the understatement of certain non-current assets and associated accruals. In addition, management identified errors in the unaudited condensed consolidated statement of cash flows for three months ended March 31, 2022. Such errors resulted in the understatement of net cash flows used in operating activities, the overstatement of net cash flows used in investing activities, and the understatement of net cash flows provided by financing activities during the three months ended March 31, 2022. The Company believes such errors did not impact the cash balance as of March 31, 2022, and further believes there is no net change in cash flows during the three months then ended. The Company also believes that such errors will not materially impact the unaudited condensed consolidated financial statements as of and for the three and six months ended June 30, 2022.

As a result, the Company will be required to restate its unaudited condensed interim consolidated financial statements for the Quarter Ended March 31, 2022, filed in Canada on the System for Electronic Document Analysis and Retrieval ("SEDAR") on May 27, 2022, as amended on June 24, 2022.

On August 28, 2022, the Company's Audit Committee concluded, after discussion with the Company's management and its advisors, that the Company's previously issued unaudited condensed consolidated financial statements as of and for the three months ended March 31, 2022 ("First Quarter 2022 Interim Financial Statements") were materially misstated due to such errors. As a result, the Company's First Quarter 2022 Interim Financial Statements should no longer be relied upon. Similarly, any previously issued or filed reports, registration statements, press releases, earnings releases and investor presentations or other communications describing the Company's First Quarter 2022 Interim Financial Statements should no longer be relied upon.

The Company will, as soon as practicable, make the appropriate adjustments, which will include restated consolidated financial statements and any other appropriate revisions.

JUSHI HOLDINGS INC. Reconciliation of Non-GAAP Financial Measures

EBITDA, Adjusted EBITDA and Adjusted Gross Profit

In addition to providing financial measurements based on GAAP, the Company provides additional financial metrics that are not prepared in accordance with GAAP. Management uses non-GAAP financial measures, in addition to GAAP financial measures, to understand and compare operating results across accounting periods, for financial and operational decision making, for planning and forecasting purposes and to evaluate the Company's financial performance. These non-GAAP financial measures are EBITDA, Adjusted EBITDA and Adjusted Gross Profit (defined below). Management believes that these non-GAAP financial measures reflect the Company's ongoing business in a manner that allows for meaningful comparisons and analysis of trends in the business, as they facilitate comparing financial results across accounting periods and to those of peer companies. As there are no standardized methods of calculating these non-GAAP measures, the Company's methods may differ from those used by others, and accordingly, the use of these measures may not be directly comparable to similar measures used by others, thus limiting their usefulness. Accordingly, these non-GAAP measures are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance.

prepared in accordance with GAAP.

EBITDA, Adjusted EBITDA and Adjusted Gross Profit are financial measures that are not defined under GAAP. Management defines EBITDA as net income (loss), or “earnings”, before interest, income taxes, depreciation and amortization. Management defines Adjusted EBITDA as EBITDA before: (i) non-cash share-based compensation expense and other one-time charges; (ii) inventory-related adjustments; (iii) fair value changes in derivatives; (iv) other income/expense items (v) transaction costs; and (vi) start-up costs. These financial measures are metrics that have been adjusted from the GAAP net income (loss) measure in an effort to provide readers with a normalized metric in making comparisons more meaningful across the cannabis industry, as well as to remove non-recurring, irregular and one-time items that may otherwise distort the GAAP net income measure. Other companies in the Corporation’s industry may calculate this measure differently, limiting their usefulness as comparative measures. Management defines Adjusted Gross Profit as gross profit, as reported, adjusted to exclude certain inventory-related adjustments and start-up costs (within cost of goods sold).

(4) Includes: (i) inventory step-up on business combinations; (ii) inventory recall reserves; and (iii) reserves for discontinued products. The inventory step-up on business combinations relate to the fair value write-up on inventory acquired on the business acquisition date and then sold subsequent to the acquisition date. The inventory recall reserves relate to the estimated impact of the Pennsylvania Department of Health recall and ban of vape products containing certain cannabis concentrates. The ban was lifted in June 2022.

(5) Includes: (i) remeasurement of contingent consideration related to acquisitions; (ii) losses (gains) on investments and financial assets; and (iii) losses (gains) on legal settlements.

(6) Expansion and start-up costs incurred in order to prepare a location for its intended use.

Start-up costs are expensed as incurred and are not indicative of ongoing operations of each new location.

(7) Transaction costs include: (i) registration statement costs such as professional fees and other costs relating to our SEC registration; and (ii) acquisition and deal costs.

(1) Includes: (i) inventory step-up on business combinations; (ii) inventory recall reserves; and (iii) reserves for discontinued products. The inventory step-up on business combinations relate to the fair value write-up on inventory acquired on the business acquisition date and then sold subsequent to the acquisition date. The inventory recall reserves relate to the potential impact of the Pennsylvania Department of Health recall and ban of vape products containing certain cannabis concentrates. The ban was lifted in June 2022.

(2) Expansion and start-up costs incurred in order to prepare a location for its intended use. Start-up costs are expensed as incurred and are not indicative of ongoing operations of each new location.
