Notes to the Condensed Interim Financial Statements

For the nine months ended September 30, 2019

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Silver Phoenix Resources Inc. (the “Company”) was incorporated on February 14, 2003 under the Company Act (British Columbia). The Company is an exploration stage company engaged in acquiring, exploring and developing mineral properties, principally located in British Columbia, Canada. The Company is listed on the Canadian Securities Exchange, under the trading symbol SP. The address of the Company’s corporate office and principal place of business is 1600 – 609 Granville Street, Vancouver, BC V7Y 1C3, and the registered and records office is located at 2200 – 885 West Georgia Street, Vancouver, BC V6C 3E8.

The Company is in the process of exploring its mineral property interests and has not yet determined whether its mineral property interests contain mineral reserves that are economically recoverable. As of September 30, 2019, the Company has not generated revenues from its principal activities and is considered to be in the exploration stage.

Going Concern

These condensed interim financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for a reasonable period of time. The Company has incurred losses since its inception and had an accumulated deficit of \$3,393,293 at September 30, 2019. The Company has no source of operating cash flows and expects to incur further losses in the exploration and development of its mineral properties. These factors indicate the existence of a material uncertainty that may cast significant doubt on the ability of the Company to continue as a going concern. The Company’s continuing operations, and the recoverability of the amounts shown for exploration and evaluation assets are entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its mineral property interests, and on future profitable production or proceeds from the disposition of the mineral property interests. The Company has been successful in the past in raising funds for operations by issuing shares but there is no assurance that it will be able to continue to do so in the future.

These condensed interim financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying condensed interim financial statements.

2. BASIS OF PRESENTATION

The condensed interim financial statements of the Company have been prepared in accordance with IFRS as issued by the International Accounting Standard Board (“IASB”) and in accordance with International Accounting Standard (“IAS”) 34, Interim Financial Reporting. The condensed interim financial statements do not include all the information required for the full annual financial statements and should be read in conjunction with the most recent audited December 31, 2018 annual financial statements of the Company which are available on www.sedar.com.

The condensed interim financial statements of the Company are presented in Canadian dollars, which is the functional currency of the Company. The Company’s financial statements were authorized for issue by the Board of Directors on November 27, 2019.

3. SIGNIFICANT ACCOUNTING POLICIES

These condensed interim financial statements of the Company have been prepared on the historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, the condensed interim financial statements have been prepared using the accrual basis of accounting, except for the statements of cash flows.

The accounting policies applied in these condensed interim financial statements are the same as those applied in the Company’s most recent audited annual December 31, 2018 financial statements of the Company which are available on www.sedar.com and reflect all the adjustments necessary for fair presentation in accordance with IAS 34. There has been no material impact on these financial statements from changes in accounting standards during the period.

4. ADOPTION OF NEW ACCOUNTING STANDARDS

The accounting policies applied in the preparation of these condensed interim financial statements are consistent with those applied and disclosed in the Company’s audited financial statements for the year ended June 30, 2019, except for the adoption, on July 1, 2019, of IFRS 16, *Leases* (“IFRS 16”), and IFRIC 23, *Uncertainty over Income Tax Treatments* (“IFRIC 23”), which have an initial application as at this date.

IFRS 16

New standard that replaces IAS 17 and sets out the principles for the recognition, measurement, presentation and disclosures of leases; effective for annual periods beginning on or after January 1, 2019. The adoption of this standard did not have an impact on its financial statements as the Company currently has no leases.

4. ADOPTION OF NEW ACCOUNTING STANDARDS (continued)**IFRIC 23**

New standard to clarify the accounting for uncertainties in income taxes. The interpretation provides guidance and clarifies the application of the recognition and measurement criteria in IAS 12 “Income Taxes” when there is uncertainty over income tax treatments. The interpretation is effective for annual periods beginning on January 1, 2019, with early adoption permitted. The adoption of this standard did not have a significant impact on its financial statements.

5. MARKETABLE SECURITIES

As at September 30, 2019, the Company owns 475,000 common shares (2018 - 475,000 shares) of Armadillo Resources Ltd. During the year ended December 31, 2013, the shares of Armadillo Resources Ltd. were halted from trading. As a result, the marketable securities were written down to \$1.

The Company's mineral properties are described as follows:

Big Showing Property, British Columbia

On February 14, 2003, the Company entered into an agreement to acquire a 100% interest in the Big Showing property for mineral claims for a total area of 1,000 hectares in the Revelstoke Mining Division of British Columbia. The Company acquired 90% of the property from the former President and director of the Company and 10% from an individual who became a director of the Company on November 1, 2006. As at December 31, 2018, the mineral claims are held for the Company in trust by the former President of the Company.

During the year ended December 31, 2018, due to a lack of available funding, the Company temporarily ceased exploration of the Big Showing Property and considered to instead explore opportunities to sell the property. Accordingly, the Company wrote the property down to \$1 by recording an impairment charge of \$82,488 against the carrying value of the property. The Company

continues to actively pursue opportunities to sell the property, and, dependent upon the availability of funding, is also considering plans to recommence further exploration activities. During the period, the Company made a payment instead of exploration and development work of \$2,855 to the Ministry of Finance in order to keep the claim in good standing.

Waverley-Tangier Property, British Columbia

On March 15, 2004, the Company entered into an agreement to acquire a 100% interest in the Waverley-Tangier Property for mineral claims for a total area of 5,675 hectares in the Revelstoke Mining Division of British Columbia. The Company acquired 90% of the property from the former President and director of the Company and 10% from an individual who became a director of the Company on November 1, 2006. As at December 31, 2018, the mineral claims are held for the Company in trust by the former President of the Company.

During the year ended December 31, 2018, due to a lack of available funding, the Company temporarily ceased exploration of the Waverley-Tangier Property and considered to instead explore opportunities to sell the property. Accordingly, the Company wrote the property down to \$1 by recording an impairment charge of \$86,622 against the carrying value of the property. The Company continues to actively pursue opportunities to sell the property, and, subsequent to the period end, on October 17, 2019, the Company transferred ownership of this property to the former President of the Company as part of a debt-settlement agreement. See Note 13.

River Jordan Property, British Columbia

On March 16, 2006, the Company entered into an agreement to acquire a 100% interest in the River Jordan Property for mineral claims for a total area of 649 hectares in the Revelstoke Mining Division of British Columbia. The Company acquired 90% of the property from the former President and director of the Company and 10% from an individual who became a director of the Company on November 1, 2006. As at December 31, 2018, the mineral claims are held for the Company in trust by the former President of the Company.

During the year ended December 31, 2018, due to a lack of available funding, the Company temporarily ceased exploration of the River Jordan Property and considered to instead sell the property. Accordingly, the Company wrote the property down to \$1 by recording an impairment charge of \$386,463 against the carrying value of the property. The Company continues to actively pursue opportunities to sell the property, and, subsequent to the period end, on October 17, 2019, the Company transferred ownership of this property to the former President of the Company as part of a debt-settlement agreement. 7. EXPLORATION AND EVALUATION ASSETS (continued)Tolstoi and Lichens Properties, Alaska, USA

On October 6, 2014, the Company entered into purchase agreement with Alaska Ventures Inc., a company controlled by the former President of the Company, to acquire a 100% interest in two mineral property claim groups located in the Alaska Mining Division, USA known as the Tolstoi and Lichens properties by issuing 8,500,000 common shares. These shares were issued on October 16, 2014 and were valued at \$85,000 based upon the stock price on issuance. During the year ended December 31, 2018, the Company had discontinued its exploration and activities with the Tolstoi and Lichens Properties and retains no ownership. Accordingly, the Company wrote the property down to \$nil by recording an impairment charge of \$213,033 against the carrying value of the property.

8. SHARE CAPITAL**(a) Authorized**

Unlimited common shares without par value

(b) Shares issued

On March 12, 2018, the Company closed a non-brokered private placement of 68,966 units of the Company at the price of \$0.29 per unit for gross proceeds of \$20,000. Each unit was comprised of one common share and one common share purchase warrant. Each warrant entitled the holder to purchase an additional common share at \$0.36 per share until March 12, 2023. The fair value of the warrants was calculated to be \$10,575 based on the residual method and was recorded in equity reserves.

On December 14, 2018 the Company closed a non-brokered private placement for gross proceeds of \$1,250,000 through the issuance of 25,000,000 subscription receipts ("Subscription Receipts") at \$0.05 per subscription receipt. On February 28, 2019 the Subscription Receipts automatically converted to 25,000,000 units of the Company. Each unit consists of one common share and one share-purchase warrant exercisable at \$0.075 per common share for a period of five years.

(d) Share consolidation

On February 28, 2019, the Company completed a consolidation of the Company's shares on a 1.45 for 1 new share basis. All share and per share information has been retroactively adjusted to reflect the share consolidation.

(e) Stock options

The Company has a stock option plan whereby the maximum number of shares subject to the plan, in the aggregate, shall not exceed 10% of the Company's issued and outstanding shares. The maximum term of any option will be five years and the vesting is at the direction of the board, however, options granted to consultants performing "investor relations' activities" must at a minimum vest in stages over a period of not less than twelve months, with no more than ¼ of the options vesting in any three month period or such longer period as the board determines. The exercise price shall be no less than the discount market price as determined in accordance with stock exchange on which the common shares are listed.

On December 14, 2018, the Company granted 1,310,344 stock options to directors, officers and a consultant of the Company. The stock options have an exercise price of \$0.145 and a life of five years. The stock options vested immediately upon grant. The fair value of the options of \$247,000 was estimated using the Black-Scholes option-pricing model assuming an expected life of 5 years, grant date share price of \$0.13, dividend rate of 0.00%, a risk-free interest rate of 2.04% and an expected volatility of 351%.

9. FLOW-THROUGH PREMIUM

During the year ended December 31, 2015, the Company issued 1,724,138 flow through units and recognized a deferred flow-through premium of \$62,500, non-cash, as the difference between the amounts recognized in common shares and the amounts the investors paid for the units. During 2015, the Company recognized \$39,375 as amortization of the deferred flow-through premium liability to other income based on the amount of eligible expenditures spent as at December 31, 2015.

The Company was unable to renounce, to the flow through subscriber, resource expenses in an equal amount to the flow-through funds and accordingly, there was a shortfall of \$93,212 calculated as the amount of flow through funds less the amount of resource expenses renounced to the subscriber by the Company. The Company and the flow through subscriber have agreed to an amendment to the flow through agreement, and the subscriber has agreed to refile its return and covenants not to claim the shortfall in the future.

The flow-through premium of \$23,125 has been reversed in accordance to the agreement, as well as corresponding accrued liabilities for interest and penalties in the amount of \$49,722. As at September 30, 2019 the deferred flow-through premium was \$Nil.

The balances payable to related parties are unsecured, non-interest bearing, and due on demand. See also Note 13.

11. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to identify, pursue and complete the exploration and development of mineral properties, to maintain financial strength, to protect its ability to meet its on-going liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long term. The Company does not have any externally imposed capital requirements to which it is subject. Capital of the Company comprises all the components of shareholders' equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares.

The Company's investment policy is to invest its cash in financial instruments of high credit quality financial institutions with terms to maturity selected with regards to the expected timing of expenditures from continuing operations.

12. FINANCIAL INSTRUMENTS

The fair value of the Company's amounts receivable, marketable securities and accounts payable approximate their carrying values due to the short-term nature of the instruments. The Company's other financial instrument, being cash, is classified as FVTPL.

Financial Risk Factors

The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

(i) *Currency risk*

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and current exposure to exchange rate fluctuations is minimal.

(ii) *Interest rate risk*

The Company is exposed to interest rate risk on the variable rate of interest earned on bank deposits. The fair value interest rate risk on bank deposits is insignificant as the deposits are short-term. The Company has not entered into any derivative instruments to manage interest rate fluctuations.

(iii) *Credit risk*

Credit risk is the risk that one party to a financial instrument will not fulfill some or all of its obligations, thereby causing the Company to sustain a financial loss. As at September 30, 2019, the Company had \$17,749 (December 31, 2018 - \$9,982) in receivables due from the Government of Canada and as such the Company considers its credit risk to be low.

(iv) *Liquidity risk*

Liquidity risk is the risk that an entity will encounter difficulty in meeting its obligations. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at September 30, 2019, the Company had a cash balance of \$38,281 (December 31, 2018 - \$429,297) to settle current liabilities of \$75,441 (December 31, 2018 - \$374,678). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. As at September 30, 2019, the Company has no sources of revenue to fund its operating expenditures or fund any identified business acquisition and as such will likely require additional financing to accomplish the Company's long-term strategic objectives. Future funding may be obtained by means of issuing share capital, or debt financing. If the Company is unable to continue to finance itself through these means, it is possible that the Company will be unable to continue as a going concern as disclosed in Note 1. Consequently, the Company is currently exposed to a significant level of liquidity risk.

12. FINANCIAL INSTRUMENTS (continued)**Financial Risk Factors (continued)***(v) Market risk*

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and equity prices.

i. Interest rate risk

The Company considers itself to have minimal exposure to interest rate risk as it currently has no interest-bearing investments or debt.

ii. Price risk

The Company is exposed to price risk with respect to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. The Company closely monitors individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

13. SUBSEQUENT EVENT

On October 17, 2019, pursuant to a debt settlement agreement between the Company and its former President, in consideration of final and full settlement of indebtedness owed to the former President in an aggregate amount of \$40,000, the former President accepted full and sole ownership of the Waverly-Tangier and River Jordan properties, along with the \$10,000 property bond held by the Company in connection with the properties, and all related property data and records.
