

## EV Minerals Announces Private Placement

**TORONTO, ONTARIO – August 12, 2024 – [EV Minerals Corporation](#)** (the "**Company**" or "**EV Minerals**") (**CSE: EVM** and **FSE: RLC**) is pleased to announce that it intends to complete a non-brokered private placement financing for gross proceeds of up to \$1,200,000 through the issuance of up to 70,588,235 common shares (each, a "**Common Share**") in the capital of the Company at a price of \$0.017 per Common Share (the "**Offering**"). Gross proceeds raised from the Offering will be used for corporate strategy, working capital and general corporate purposes.

Closing of the Offering is subject to receipt of all necessary corporate and regulatory approvals, including the approval of Canadian Securities Exchange. All securities issued in connection with the Offering will be subject to a hold period of four months plus a day from the date of issuance and the resale rules of applicable securities legislation.

This press release does not constitute an offer to sell or a solicitation of an offer to buy the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**U.S. Securities Act**") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons as defined under applicable United States securities laws unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

In addition, further to the Company's press releases of June 7, 2024 and August 12, 2024, the Company would like to announce that it will not be proceeding with its previously announced private placement of up to 50,000,000 Common Share at a price \$0.026 per Common Share.

### About EV Minerals Corporation

EV Minerals Corporation is a Canadian exploration company focused on mineral exploration and development. The current focus is the EV Nickel Project, host of the nickel-copper-cobalt McNickel deposit. The Project is comprised of 32 mineral claims covering approximately 1,792 hectares located in the Saguenay area, the Province of Quebec. This deposit is reputed containing a historical resource of 5.585 million tonnes with grades of 0.21% Ni, 0.11% Cu and 0.03% Co (NI 43-101 non-compliant resource), which is to be re-evaluated with the consideration of using either bioleaching or acid leaching and electrowinning for nickel, cobalt and copper recovery.
