Subject to the terms and conditions of the Special Warrant Indenture, each of the Special Warrants entitles the holder thereof to acquire one Unit Share and one-half of one Warrant, subject to adjustment in certain circumstances, without payment of any additional consideration.

The Special Warrants are exercisable by the holders thereof at any time until 5:00 p.m. (Vancouver time) on October 1, 2011 and will be automatically exercised (if not previously exercised) on the earlier of: (i) the third business day after the date on which a receipt for the final prospectus of the Company qualifying the distribution of the Unit Shares and Warrants issuable on exercise of the Special Warrants (the “**Final Receipt**”) has been issued for a (final) prospectus qualifying the distribution of the Qualified Units; and (ii) October 1, 2011; at which time each Special Warrant not previously exercised by the holder thereof shall be automatically exercised into one Unit Share and one-half of one Warrant, subject to adjustment in certain circumstances, without payment of any additional consideration and without any further action on the part of the holder. There is no market through which the Special Warrants may be sold and none is expected to develop. However, the terms of the Special Warrants will deem the Special Warrants to be exercised upon Final Receipt of this Prospectus.

The Company has agreed to use its reasonable best efforts to file this Prospectus under the applicable securities laws of the Qualifying Jurisdictions, to obtain the Final Receipt for this Prospectus qualifying the distribution of the Qualified Units and Additional Qualified Units (as defined below). In the event that the Final Receipt is not received by July 15, 2011 (the “**Penalty Deadline**”), each unexercised Special Warrant will thereafter

entitle the holder to receive 1.1 Unit Shares and 0.55 Warrants in lieu of 1.0 Unit Share and 0.5 Warrants upon the exercise or deemed exercise of the Special Warrants. The additional 0.1 Unit Shares and 0.05 Warrants to be issued upon exercise or deemed exercise of each Special Warrant after the Penalty Deadline has passed are collectively referred to herein as the “**Additional Qualified Units**”. This Prospectus also qualifies the distribution of any Additional Qualified Units upon exercise of the Special Warrants.

Notwithstanding that this Prospectus is being filed to qualify the distribution of a total of 6,690,000 Qualified Units and up to 669,000 Additional Qualified Units, if any, in the event that a holder of Special Warrants exercises such securities prior to the date that the Final Receipt is received by the Company, the Unit Shares and Warrants issuable upon exercise of the Special Warrants will be subject to statutory hold periods under applicable securities legislation and shall bear such legends as required by securities laws.

The outstanding common shares of the Company (the “**Common Shares**”) are listed for trading on the TSX Venture Exchange (the “**TSXV**”) under the symbol “**CUA**”. The TSXV has conditionally approved the Offering, including the listing of the Unit Shares and Warrant Shares. Listing will be subject to the Company fulfilling all of the listing requirements of the TSXV.

The Company has issued a book-entry only certificate representing the Special Warrants (the “**Global Certificate**”) registered in the name of CDS Clearing and Depository Services Inc. (“**CDS**”) or its nominee and deposited with CDS. On exercise or deemed exercise of the Special Warrants, it is anticipated that the Unit Shares and Warrants will be issued in book-entry only form and registered in the name of CDS or its nominee and deposited with CDS. No certificates evidencing Unit Shares or Warrants will be issued to holders, except in certain limited circumstances, and registration will be made through the depository services of CDS. Holders of Unit Shares and Warrants will receive only a customer confirmation from the Underwriters or other registered dealer who is a CDS participant and from or through whom a beneficial interest in the Unit Shares and Warrants is acquired.

The Company is neither a “**connected issuer**” nor a “**related issuer**” of either of the Underwriters as defined in National Instrument 33-105 — Underwriting Conflicts.

This Prospectus and the documents incorporated by reference herein contain “**forward-looking information**” within the meaning of Canadian provincial securities laws. Certain statements in this Prospectus are forward-looking statements or information (collectively “forward-looking statements”) within the meaning of applicable securities legislation. We are hereby providing cautionary statements identifying important factors that could cause the actual results to differ materially from those projected in the forward-looking statements. Any statements that express, or involve discussions as to, expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and may be forward-looking and may involve estimates, assumptions and uncertainties which could cause actual results or outcomes to differ materially from those expressed in the forward-looking statements.

Forward-looking information in this Prospectus includes, but is not limited to:

- information with respect to our future financial and operating performance and that of our affiliates and subsidiaries;
- our management’s skill and knowledge with respect to the exploration and development of mining properties in Colombia, and the relevance of that skill and knowledge to the Santa Elena Property;
- our plan to pursue the exploration of the Santa Elena Property;
- our ability to successfully obtain any necessary environmental licenses;
- our ability to successfully obtain any required extensions of the exploration phase of the concessions comprising the Santa Elena Property;
- future exploration and development activities, and the costs and timing of those activities;
- timing and receipt of approvals, consents and permits under applicable legislation;
- our assessment of potential environmental liabilities;
- our assessment of potential political and economic uncertainties in Colombia;
- results of future exploration and drilling;
- estimation of metallurgical response of ores to processing methods;
- metals prices;
- adequacy of financial resources;
- forward-looking statements attributed to third party industry sources; and
- statements related to our expected executive compensation.

Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date that such statements are made, but which may prove to be incorrect. We believe that the assumptions and expectations reflected in such forward-looking information are reasonable. Assumptions have been made regarding, among other things: our ability to carry on exploration and development activities, the timely receipt of required approvals, the price of metals, our ability to operate in a safe, efficient and effective manner and our ability to obtain financing as and when required and on reasonable terms. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used.

By their nature, forward-looking statements involve numerous assumptions, inherent risks and uncertainties, both general and specific, which contribute to the possibility that the predicted outcomes may not occur or may be delayed. The risks, uncertainties and other factors, many of which are beyond the control of the Company, that could influence actual results include, but are not limited to: limited operating history; exploration, development and operating risks; commodity prices; no mineral reserves or mineral resources; substantial capital requirements and liquidity; title to mineral properties; government regulations, licenses and permits; environmental risks; labour and employment matters; infrastructure; insurance and uninsured risks; competition; foreign operations risks; reliance on management and dependence on key personnel; conflicts of interest; regulatory requirements; financing risks and dilution to shareholders; requirement for permits and licenses; local resident concerns; management inexperience in developing mines; exposure to potential litigation; and other factors beyond the control of the Company as well as those risk factors discussed in the section entitled "Risk Factors" in the AIF. See "Risk Factors".

Our forward-looking statements are based on the reasonable beliefs, expectations and opinions of management on the date of this Prospectus. Although we have attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There is no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. We do not undertake to update any forward-looking information, except as, and to the extent required by, applicable securities laws.

ELIGIBILITY FOR INVESTMENT

In the opinion of McMillan LLP (counsel to the Company) and Miller Thomson LLP (counsel to the Underwriters), based on the provisions of the *Income Tax Act* (Canada) (the “**Tax Act**”) and the regulations thereunder in effect on the date hereof, and on the understanding and assumption that the Common Shares are listed on the TSXV on the date hereof, the Unit Shares, Warrants and Warrant Shares (collectively, the “**Securities**”), if issued on the date hereof, would be qualified investments for a trust governed by a registered retirement savings plan (“**RRSP**”), registered retirement income fund (“**RRIF**”), deferred profit sharing plan, registered education savings plan, registered disability savings plan or tax-free savings account a (“**TFSA**”) (collectively the “**Plans**”), provided that, in the case of the Warrants, the Company deals at arm’s length with each person who is an annuitant, a beneficiary, an employer or a subscriber under, or holder of, such Plan.

Notwithstanding that the Securities may be qualified investments as set out above, the holder of a TFSA (or, if certain proposals set out in the federal Budget of June 6, 2011 are implemented in the manner currently proposed, also the annuitant of an RRSP or RRIF) will be subject to a penalty tax (and other adverse tax consequences may result) in respect of Securities held in the Plan that are a “prohibited investment” for the Plan, or if an “advantage” (as defined in the Tax Act) arises in respect of the Plan. Generally, the Securities will not be a “prohibited investment” for a particular TFSA (or, if the federal Budget proposals of June 6, 2011 are implemented in the manner currently proposed, for an RRSP or RRIF) provided the holder of the Plan deals at arm’s length with the Company for the purposes of the Tax Act and does not have a “significant interest” (as defined in the Tax Act) in the Company or in any corporation, partnership or trust with which the Company does not deal at arm’s length for purposes of the Tax Act.

Holders or annuitants of trusts governed by a TFSA, RRSP or RRIF should consult their own tax advisors with respect to the application of these rules and proposals in their particular circumstances.

THE COMPANY

The Company was originally incorporated under the name “Blue Cove Capital Corp.” in British Columbia on October 23, 2007. On April 18, 2011, the Company changed its name to “CuOro Resources Corp.”.

The Company currently has one wholly-owned subsidiary, Minera CuOro S.A.S., a sociedad anonime simplificada incorporated under the laws of Colombia on March 15, 2011.

SUMMARY DESCRIPTION OF THE BUSINESS

CuOro is a natural resource exploration and development company, headquartered in Vancouver, British Columbia with a regional office in Medellin, Colombia whose primary focus is acquiring and discovering economic copper and gold deposits in Colombia. Recent Developments

Santa Elena Acquisition

On April 20, 2011 the Company completed its “Qualifying Transaction” (as defined in the policies of the TSXV) (the “**Santa Elena Acquisition**”) pursuant to which it has an option to acquire an interest in the Santa Elena property (the “**Santa Elena Property**”), consisting of two underlying concession contracts located in the Republic of Colombia. To effect the Santa Elena Acquisition, the Company entered into an agreement (the “**Acquisition Agreement**”) with Colombia Mines S.A.S. (the “**Vendor**”) pursuant to which the Vendor agreed to transfer the concessions comprising the Santa Elena Property into a newly formed Colombian company (“**NewCo**”). The shares of NewCo will be held in a trust until the Company has completed its payment and expenditure obligations pursuant to the Acquisition Agreement. The shares of NewCo will then be transferred to the Company’s wholly-owned subsidiary. As of the date hereof, the Santa Elena Property concessions have yet to be transferred to NewCo.

In connection with the Santa Elena Acquisition, the Company completed brokered and non-brokered financings totalling \$10,000,000 (the “**QT Financings**”). For a description of the Santa Elena Acquisition and the Santa Elena Property, see “General Development of the Business – Qualifying Transaction” and “Santa Elena Project”, respectively, in the AIF.

Barranco Acquisition

On December 9, 2010, the Company entered into a non-binding letter of intent, as amended December 23, 2010, March 2, 2011 and April 30, 2011, to acquire a 100% interest in the Barranco de Loba Gold & Silver Project (the “**Barranco Acquisition**”), located in the Department of Sur de Bolivar, Colombia. Completion of the Barranco Acquisition is subject to a number of conditions, including the satisfactory completion of the Company’s due diligence review. On April 30, 2011, the Company made a payment of USD\$25,000 to extend the due diligence period to June 30, 2011. As of the date of this Prospectus, the Company’s due diligence review has not been completed and the Company has not determined whether it will proceed with the Barranco Acquisition or whether the proposed transaction can be completed on favourable terms.

PLAN OF DISTRIBUTION

This Prospectus is being filed in the Qualifying Jurisdictions to qualify the distribution of 6,690,000 Qualified Units and the Additional Qualified Units, if any, issuable upon exercise or deemed exercise of 6,690,000 Special Warrants. This Prospectus also qualifies the distribution of the Underwriters’ Warrants.

On May 31, 2011, the Company completed a private placement of 6,690,000 Special Warrants pursuant to prospectus exemptions under applicable securities legislation pursuant to the Underwriting Agreement.

Pursuant to the Underwriting Agreement, the Underwriters agreed to purchase, with a right of substitution, Special Warrants in the Qualifying Jurisdictions and in certain other jurisdictions outside of Canada and the United States, on a private placement basis at a price of \$2.00 per Special Warrant, which was determined by negotiation between the Company and the Underwriters.

Pursuant to the Underwriting Agreement, the Company paid the Underwriters a cash commission equal to 7% of the gross proceeds from the sale of the Special Warrants. The Company is responsible for the additional fees and expenses incurred in connection with the issuance, distribution and qualification of the Special Warrants and the Unit Shares and Warrants underlying the Special Warrants, which are estimated at \$100,000.

As additional compensation, the Company issued to the Underwriters 468,300 Underwriters’ Special Warrants each entitling the Underwriters to acquire, for no additional consideration, one Underwriters’ Warrant. Each Underwriters’ Warrant is exercisable to acquire one Underwriters’ Unit at a price of \$2.00 per Underwriters’ Unit until May 31, 2013, comprised of one Underwriters’ Unit Share and one-half of one Underwriters’ Unit Warrant. Each whole Underwriters’ Unit Warrant will entitle the holder thereof to purchase one Underwriters’ Unit Warrant

Share at a price of \$2.50 until the Warrant Expiry Date. This Prospectus qualifies the distribution of the Underwriters' Warrants.

The Underwriters will receive no other fees in connection with the distribution of the Qualified Units and the Additional Qualified Units, if any, under this Prospectus.

In the event that the Final Receipt is not received by July 15, 2011, each unexercised Special Warrant will thereafter entitle the holder to receive 1.1 Unit Shares and 0.55 Warrants in lieu of 1.0 Unit Share and 0.5 Warrants upon the exercise or deemed exercise of the Special Warrants (the "**Penalty Provision**"). This Prospectus qualifies the distribution of up to an aggregate of 669,000 Unit Shares and 334,500 Warrants issuable pursuant to the Penalty Provision, if applicable.

All transfers or exercises of Special Warrants represented by the Global Certificate shall occur in accordance with CDS' rules and procedures. The rights of a holder of Special Warrants shall be exercised only through CDS and the CDS participants and shall be limited to those established by law and agreements between such holders and CDS and the CDS participants upon instructions from the CDS participants. Each of the Special Warrant Agent and the Company may deal with CDS for all purposes as the authorized representative of the respective holders of Special Warrants and such dealing with CDS shall constitute satisfaction or performance, as applicable, of their respective obligations under the Special Warrant Indenture.

The Special Warrant Indenture provides that in the event of certain alterations of the outstanding Common Shares, including any subdivision, consolidation or reclassification, an adjustment shall be made to the terms of the Special Warrants such that the holders shall, upon exercise of the Special Warrants following the occurrence of any of those events, be entitled to receive the same number and kind of securities that they would have been entitled to receive had they exercised their Special Warrants prior to the occurrence of those events. No fractional Unit Shares or Warrants will be issued upon the exercise of the Special Warrants. The holding of Special Warrants does not make the holder thereof a shareholder of the Company or entitle the holder to any right or interest granted to shareholders. The Special Warrant Indenture provides that all holders of Special Warrants shall be bound by any resolution passed at a meeting of the holders of Special Warrants held in accordance with the provisions of the Special Warrant Indenture. The foregoing summary of certain provisions of the Special Warrant Indenture is qualified in its entirety by reference to the provisions of the Special Warrant Indenture, which is available for review under the Company's profile at www.sedar.com.

The Warrants were created and will be issued pursuant to the terms of a warrant indenture (the "**Warrant Indenture**") dated May 31, 2011 between the Company and Valiant Trust Company, as warrant agent thereunder (the "**Warrant Agent**"). Each Warrant will entitle the holder thereof to purchase one Warrant Share at a price of \$2.50 at any time prior to 5:00 p.m. (Vancouver time) on May 31, 2013 after which time the Warrants will expire and be void and of no value. The Company does not intend to apply to list the Warrants on the TSXV. This may affect the trading price of the securities in the secondary market, the transparency and availability of trading prices, the liquidity of the securities and the extent of issuer regulation. See "Description of the Securities Being Distributed".

There is no one particular significant event or milestone that must occur for the business objectives of the Company to be accomplished. While the Company believes that it has the skills and resources necessary to accomplish its stated business objectives, participation in the development of copper and gold mining operations and completing related acquisitions have a number of inherent risks. See the risk factors described under "Risk Factors" herein and in the AIF for factors that may impact the timing and success of the Company's operations and business objectives.

Pending the use of the proceeds described above, the Company may invest all or portion of the proceeds of the Offering in short-term, high quality, interest bearing corporate, government-issued or government-guaranteed securities.

DESCRIPTION OF SECURITIES BEING DISTRIBUTED

This Prospectus is being filed for the purpose of qualifying the distribution of 6,690,000 Unit Shares and 3,345,000 Warrants, which are to be issued upon the exercise or deemed exercise of the Special Warrants.

Unit Shares

Holders of Unit Shares are entitled to receive notice of and to attend any meetings of shareholders and shall have one vote per share at all meetings, except meetings at which only holders of another class or series of shares are entitled to vote separately as such class or series. Holders of Unit Shares are entitled to receive on a pro rata basis such dividends, if any, as and when declared by the board of directors and, upon liquidation, dissolution or winding up of the Company, are entitled to receive on a pro rata basis the net assets of the Company after payment of debts and other liabilities, in each case subject to the rights, privileges, restrictions and conditions attaching to any other series or class of shares ranking senior in priority to or on a pro rata basis with the holders of Unit Shares. The Unit Shares do not carry any pre-emptive, subscription, redemption or conversion rights, nor do they contain any sinking or purchase fund provisions.

Warrants

The Warrants were issued under and are governed by the terms of the Warrant Indenture. The Company has appointed the principal transfer offices of the Warrant Agent in Vancouver, British Columbia as the location at which Warrants may be surrendered for exercise or transfer. The following summary of certain provisions of the Warrant Indenture does not purport to be complete and is qualified in its entirety by reference to the provisions of the Warrant Indenture, which is available for review under the Company’s profile at www.sedar.com.

Each Warrant will entitle the holder to purchase one Warrant Share at a price of \$2.50 at any time prior to 5:00 p.m. (Vancouver time) on May 31, 2013, after which time the Warrants will expire and become null and void. The exercise price and the number of Warrant Shares issuable upon exercise of Warrants are both subject to adjustment in certain circumstances as more fully described below.

In the event that after four months and one day after the Closing Date, the volume weighted average trading price of the Common Shares on the TSXV exceeds \$4.00 for a period of 20 consecutive trading days, the Company

may, within five days after such event, provide notice to the Warrant holders of early expiry and thereafter, the Warrants will expire on the date which is 30 days after the date of the notice to Warrant holders.

The Warrant Indenture provides for adjustment in the number of Warrant Shares issuable upon the exercise of the Warrants and/or the exercise price per Warrant Share upon the occurrence of certain events, including:

- (a) the issuance of Common Shares or securities exchangeable for or convertible into Common Shares to all or substantially all of the holders of the Common Shares as a stock dividend or other distribution (other than a “dividend paid in the ordinary course”), as defined in the Warrant Indenture;
- (b) the subdivision, redivision or change of the Common Shares into a greater number of shares;
- (c) the reduction, combination or consolidation of the Common Shares into a lesser number of shares;
- (d) the issuance to all or substantially all of the holders of the Common Shares of rights, options or warrants under which such holders are entitled, during a period expiring not more than 45 days after the record date for such issuance, to subscribe for or purchase Common Shares, or securities exchangeable for or convertible into Common Shares, at a price per share to the holder (or at an exchange or conversion price per share) of less than 95% of the “current market price”, as defined in the Warrant Indenture, for the Common Shares on such record date; and
- (e) the issuance or distribution to all or substantially all of the holders of the Common Shares of shares of any class other than the Common Shares, rights, options or warrants to acquire Common Shares or securities exchangeable or convertible into Common Shares or other assets of the Company, or evidences of indebtedness or cash, securities or any property or other assets.

The Warrant Indenture also provides for adjustment in the class and/or number of securities issuable upon the exercise of the Warrants and/or exercise price per security in the event of the following additional events: (1) reclassifications of the Common Shares; (2) consolidations, amalgamations or mergers of the Company with or into another entity (other than consolidations, amalgamations, plans of arrangement or mergers which do not result in any reclassification of the Common Shares or a change of the Common Shares into other shares); or (3) the transfer (other than to one of the Company’s subsidiaries) of the undertaking or assets of the Company as an entirety or substantially as an entirety to another corporation or other entity.

The Company also covenanted in the Warrant Indenture that, during the period in which the Warrants are exercisable, it will give notice to holders of Warrants of certain stated events, including events that would result in an adjustment to the exercise price for the Warrants or the number of Warrant Shares issuable upon exercise of the Warrants, at least 14 days prior to the record date or effective date, as the case may be, of such events.

No fractional Warrant Shares will be issuable upon the exercise of any Warrants, and no cash or other consideration will be paid in lieu of fractional shares. Holders of Warrants will not have any voting or pre-emptive rights or any other rights which a holder of Common Shares would have.

Subject to TSXV approval, if required, from time to time, the Company and the Warrant Agent, without the consent of the holders of Warrants, may amend or supplement the Warrant Indenture for certain purposes, including curing defects or inconsistencies or making any change that does not adversely affect the rights of any holder of Warrants. Any amendment or supplement to the Warrant Indenture that adversely affects the interests of the holders of the Warrants may only be made by “extraordinary resolution”, which is defined in the Warrant Indenture as a resolution either: (1) passed at a meeting of the holders of Warrants at which there are holders of Warrants present in person or represented by proxy representing at least 25% of the aggregate number of the then outstanding Warrants and passed by the affirmative vote of holders of Warrants representing not less than 66 2/3% of the aggregate number of all the then outstanding Warrants represented at the meeting and voted on the poll upon such resolution; or (2) adopted by an instrument in writing signed by the holders of Warrants representing not less than 66 2/3% of the aggregate number of all the then outstanding Warrants.

The Warrant Indenture provides that all holders of warrants shall be bound by any resolution passed by the holders of Warrants in accordance with the Warrant Indenture.

RISK FACTORS

There are a number of risks that may have a material and adverse impact on the future operating and financial performance of CuOro and could cause the Company's operating and financial performance to differ materially from the estimates described in forward-looking statements relating to the Company. These include widespread risks associated with any form of business and specific risks associated with CuOro business and its involvement in the copper and gold exploration and development industry.

The acquisition of the securities being distributed under this Prospectus involves a high degree of risk. Any prospective investor should carefully consider the risk factors set forth in the AIF and all of the other information contained in this Prospectus (including, without limitation, the documents incorporated by reference herein) before acquiring any of the securities distributed under this Prospectus. The risks described therein are not the only risks facing the Company. Additional risks and uncertainties not currently known to the Company, or that the Company currently deems to be immaterial, may also materially and adversely affect its business.

In addition, the following risk factors should be carefully considered by investors:

Loss of Entire Investment

An investment in the securities of the Company is speculative and may result in the loss of an investor's entire investment. Only potential investors who are experienced in high risk investments and who can afford to lose their entire investment should consider an investment in the Company.

Foreign Operations Risks

As outlined in the AIF under "Risk Factors", there are significant risks associated with operating in a foreign jurisdiction such as Colombia. In addition, the Company may encounter difficulties in complying with all applicable local mining, corporate and other laws to maintain its permits and its subsidiary in good standing. In particular, the Company's subsidiaries may inadvertently not be in full compliance, from time to time, with certain corporate law requirements, such as the requirement to maintain certain net equity ratios, which technically may give grounds to certain consequences, if not rectified, ranging from minor ones, such as payment of de minimus late filing fees, to more significant ones, such as the dissolution or winding-up of subsidiaries or the refusal to grant of further mineral rights. These failures nevertheless give rise to potential risks to the Company's operating subsidiaries.

Dilution

The Company will require additional funds in respect of the further development of its projects. If the Company raises funds by issuing additional equity securities, especially at prices lower than the Offering Price, such financing will dilute the equity interests of its current shareholders, including purchasers who acquire securities pursuant to this Prospectus.

Discretion in the Use of Proceeds

Management will have broad discretion concerning the use of the proceeds of the Offering as well as the timing of their expenditures. As a result, an investor will be relying on the judgment of management for the application of the proceeds of the Offering. Management may use the net proceeds of the Offering in ways that an investor may not consider desirable. The results and the effectiveness of the application of the proceeds are uncertain. If the proceeds are not applied effectively, the Company's results of operations may suffer.

No Market for Warrants

No application has been made to list the Warrants comprising part of the Units on any securities exchange. Accordingly, there will be no public market for the Warrants and none is expected to develop. Even if a market develops for the Warrants, there can be no assurance that it will be liquid.

No Assurance of Title to Assets

Establishing title to mineral properties is a very detailed and time-consuming process. Title to and the area of mineral properties may be disputed. There is no guarantee of title to the Santa Elena Property. The Santa Elena Property may be subject to prior unregistered agreements or transfers and title may be affected by undetected defects. In addition, surface rights to the Santa Elena Property are currently held by certain private parties. The Company is currently in negotiations with such persons to acquire such rights, however, there can be no assurance that such rights can be obtained on acceptable terms to the Company, if at all.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the Prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revision of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal adviser.

CONTRACTUAL RIGHT OF RESCISSION

The Company has granted to each holder of a Special Warrant a contractual right of rescission of the prospectus-exempt transaction under which the Special Warrant was initially acquired. The contractual right of rescission provides that if a holder of a Special Warrant who acquires Unit Shares and Warrants on exercise of the Special Warrant as provided for in this Prospectus is, or becomes, entitled under the securities legislation of a jurisdiction to the remedy of rescission because of this Prospectus or an amendment to this Prospectus containing a misrepresentation, (a) the holder is entitled to rescission of both the holder's exercise of its Special Warrant and the private placement transaction under which the Special Warrant was initially acquired, (b) the holder is entitled in connection with the rescission to a full refund of all consideration paid to the Company on the acquisition of the Special Warrant, and (c) if the holder is a permitted assignee of the interest of the original Special Warrant subscriber, the holder is entitled to exercise the rights of rescission and refund as if the holder was the original subscriber.
