FOR IMMEDIATE RELEASE

MATICA BEGINS LEGAL ACTION AGAINST THCD

November 23rd, 2015 – Toronto, Ontario – Matica Enterprises Inc. (MMJ - CSE) (39N – Frankfurt) (MQPXF – OTC) (“Matica” or the “Company”) announces that the Company has filed a Notice of Civil Claim in the Vancouver Registry of the Supreme Court of British Columbia naming THC Dispensaries Canada Inc. (“THCD”), Francis MacMaster, CEO of THCD and other related parties as Defendants in an effort to recoup funds and other damages suffered by Matica as a result of numerous breaches by the Defendants of the October 7th, 2014 Investment Agreement (“**the Agreement**”).

In October, 2014 the Company signed the Agreement with THCD, a Nova Scotia company with "Ready to Build" status for a proposed free standing marijuana growing facility. The Company entered the Agreement with THCD on the basis of THCD's representations that it had nearly completed construction of the facility and that it was awaiting the pre-licence inspection by Health Canada to become the newest Licensed Producer ("LP") under the Marijuana for Medical Purposes Regulation ("MMPR") program. The Defendants stated that this inspection was expected to take place in late 2014.

The Agreement provided that, should a licence not be granted by Health Canada by October 31, 2015, the Agreement would terminate and Matica would return its 50% shareholding in THCD to the Defendants. The Company now contends that Francis MacMaster, CEO of THCD, knowingly and deliberately delayed the completion of the facility and created conditions by which the October 31, 2015 deadline would not be met. The Company has not surrendered its share of THCD and will not do so until the Court has ruled upon the merits of the claims.

Matica abided by all terms and conditions of the Agreement and forwarded funds as per the Agreement. THCD did not complete the facility and continually requested additional funds in addition to what was required by the Agreement. All of Matica's reasonable proposals were rejected by Francis MacMaster.

Currently, the facility is still not completed and is not prepared for inspection by Health Canada.
