

1933 INDUSTRIES PLANS TO INCREASE CBD PRODUCTION CAPACITY IN LAS VEGAS

VANCOUVER, B.C., CANADA (December 20, 2018) – 1933 Industries Inc. (the “Company” or “1933 Industries”) (CSE: TGIF) (OTCQX: TGIF) a licensed cultivator and producer of cannabis flower and concentrates and manufacturer of hemp/CBD products in Nevada, Colorado and California, is pleased to announce that it is making preparations to substantially increase its capacity to produce cannabidiol or “CBD” extracts from its initial target of 200 kgs. to an estimated 2,000 kgs. per month.

The Company is also pleased to announce that it has received the necessary approvals for new zoning and permitting for hazardous materials from the County Town Board, the Planning Commission and the Board of County Commissioners from Clark County in Nevada, to move ahead with proposed plans to renovate the Company’s 12,160 sq. ft. building, which will house a cannabis production facility as well as the proposed CBD Lab. The Company has already secured an Industrial Hemp Handler Certificate from the Nevada Department of Agriculture (NDA) Industrial Hemp program.

With renovations expected to begin shortly after design plans are approved, the proposed state-of-the-art CBD Lab will process wholesale hemp-derived CBD extracts, utilized to produce full spectrum oils, distillates and isolates.

“We are making strategic investments in expanded capacity to produce isolated cannabidiol extract to establish ourselves as a market leader in the CBD industry and to position the Company for the exponential growth of one of the fastest growing segments in the cannabis industry”, commented Mr. Chris Rebentisch, USA Chief Operations Officer and Founder of Infused MFG., a subsidiary of 1933 Industries. He added, “As pioneers in the cannabis industry in Nevada, we have the vision, resources, know-how and in-house talent to ensure a successful venture into this emerging and exciting field.”
