The accompanying notes are an integral part of these condensed consolidated interim financial statements.

1. NATURE AND CONTINUANCE OF OPERATIONS

WPD Pharmaceuticals Inc. (the “Company”) was incorporated under the Provincial Laws of British Columbia on July 4, 2006. The Company is listed on the Canadian Securities Exchange (the “Exchange”) under the symbol “WBIO”. The Company is principally engaged in the research and development of innovative medicinal products in the fields of oncology and infectious diseases.

The head office and the registered address of the Company is Suite 1080, 789 West Pender Street, Vancouver, British Columbia, Canada, V6C 1H2.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. During the three months ended March 31, 2021, the Company incurred a net loss of \$1,155,724 (2020 – \$2,236,784) and, as of that date, the Company had a working capital deficit of \$636,302 (December 31, 2020 – working capital of \$358,765). While the Company has been successful in obtaining its required funding in the past, there is no assurance that such future financing will be available or be available on favourable terms. An inability to raise additional financing may impact the future assessment of the Company as a going concern. These events and conditions, along with those discussed in Note 18, indicate that a material uncertainty exists that may cast significant doubt about the ability of the Company to continue as a going concern.

These condensed consolidated interim financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. Continued operations of the Company are dependent on the Company's ability to receive financial support, necessary financings, or generate profitable operations in the future.

2. BASIS OF PREPARATION

Statement of Compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with IFRS as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, *Interim Financial Reporting*. They do not include all the information required for full annual financial statements. These condensed consolidated interim financial statements should be read in conjunction with the audited annual consolidated financial statements for the year ended December 31, 2020, which have been prepared in accordance with IFRS as issued by the IASB.

Basis of Consolidation

The Company’s condensed consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiary, WPD Pharmaceuticals Sp. Z.o.o. (“WPD Poland”). WPD Poland is an entity controlled by the Company, where control is achieved by the Company being exposed to, or having rights to, variable returns from the entity and having the ability to affect those returns through its power over the entity. Subsidiaries of the Company are fully consolidated from the date on which control is obtained and would be deconsolidated from the date that control ceases. All inter-company transactions, balances, income and expense are eliminated on consolidation.

Basis of Measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial instruments, which are carried at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Significant Accounting Judgments and Estimates

The Company makes estimates and judgements about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual results may differ from these estimates and assumptions.

In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Company's accounting policies and key sources of estimation uncertainty were the same as those that were applied to the audited annual consolidated financial statements for the year ended December 31, 2020.

Significant Accounting Judgments and Estimates

The preparation of these condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates. In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Company's accounting policies and key sources of estimation uncertainty were the same as those that were applied to the audited annual condensed consolidated interim financial statements for the year ended December 31, 2020.

3. SIGNIFICANT ACCOUNTING POLICIES

The preparation of these condensed consolidated interim financial statements is based on accounting principles and practices consistent with those used in the preparation of the audited annual consolidated financial statements for the year ended December 31, 2020.

Certain prior year comparative figures have been reclassified to comply with current period presentation.

COVID-19 on employment and business activities and were received by the Company's wholly owned Polish subsidiary, WPD Poland.

The COVID-19 Contribution is interest-free and is partially a grant and partially a loan, depending on what level of activity and employment the Company maintains over the next 12 months. The amount of the loan is to be determined at the end of 12 months. Once determined, the loan amount is to be repaid in 24 monthly instalments commencing in the 13th month after receipt of the COVID-19 Contribution.

During the year ended December 31, 2020, the Company recognized a gain and discounted the COVID-19 Contribution by \$26,982 as a result of the imputed interest benefit received from the interest-free COVID-19 Contribution.

8. RELATED PARTY TRANSACTIONS

Key management personnel include those persons having authority and responsibility for planning, directing, and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of members of the Board and corporate officers, including the Company's Chief Executive Officer and Chief Financial Officer.

Key management compensation for the three months ended March 31, 2021 and 2020 was as follows:

	Three months ended	
	March 31, 2021	March 31, 2020
Salaries and management fees	\$ 53,400	\$ 44,100
Director fees	4,500	4,500
	\$ 57,900	\$ 48,600

During the three months ended March 31, 2021, \$50,131 (2020 – \$2,406,400) was included in share-based payments for stock options granted to key management personnel.

As at March 31, 2021, accounts payable and accrued liabilities include \$nil (December 31, 2020 – \$28,110) payable to key management personnel.

Amounts due to related parties included in accounts payable and accrued liabilities are unsecured, non-interest-bearing and are without fixed terms of repayment.

During the three months ended March 31, 2021 and the year ended December 31, 2020, the Company also had the following transactions with related parties:

a) CNS Agreements

On August 30, 2018, WPD entered into a sublicense agreement (the “CNS Sublicense Agreement”) with CNS Pharmaceuticals, Inc. (“CNS Pharma”). In connection, the Company is committed to spend at least US \$2 million on the development, testing, regulatory approval, or commercialization of the products governed under the CNS License Agreement by August 30, 2021.

On March 23, 2020, the Company announced that it signed a development agreement with CNS according to which the Company will receive a portion of the development costs from CNS for certain products in development in exchange for certain economic rights. In connection, the Company received an upfront cash payment of \$USD 225,000 all of which was recorded in other income as the Company incurred corresponding development costs during the year ended December 31, 2020. As well, CNS committed to a milestone payment of \$USD 775,000 upon completion of certain milestones. In return for the funding, CNS is entitled to receive 50% of net sales of resulting commercial products in certain of the Company’s licensed territories.

Although to date the Company has not yet submitted any expenditures for formal approval under its commitments, the agreement remains in good standing.

CNS Pharma is a related party due to its founder and controlling shareholder being a significant shareholder of the Company.

b) Moleculin Sublicense Agreement

On February 19, 2019, the Company entered into a sublicense agreement (the “Moleculin Sublicense Agreement”) with Moleculin Biotech, Inc. (“Moleculin”), under which Moleculin sublicensed certain intellectual property rights to WPD, including rights to certain products. In consideration for sublicensing rights provided, the Company agreed to make expenditure of at least: (i) USD \$2,500,000 during the first two years of the agreement on the research, development and commercialization of products in the licensed territories, and (ii) USD \$1,000,000 annually for the two years thereafter on the research and development of products in the licensed territories.

Unaudited

On March 22, 2021, WPD entered into an amendment of the Moleculin Sublicense Agreement (the “Amended Moleculin Sublicense Agreement”) in which WPD agreed that it must use commercially reasonable efforts to develop and commercialize products in the licensed territories. The term “commercially reasonable efforts” has been amended to mean expenditure by WPD of at least USD\$2,500,000 during the first 4 years of the agreement on the research, development and commercialization of products and at least USD\$1,000,000 in each of the 4 years thereafter. WPD also will pay to Moleculin a royalty on products sold.

The Amended Moleculin Sublicense Agreement also extends the period of time in which WPD has to expend the research, development and commercialization costs to 8 years from February, 2019, increases the amounts required to be spent over that longer period and provides a process to extend the period of time further, if necessary.

Although to date the Company has not yet submitted any expenditures for formal approval under its commitments, the agreement remains in good standing.

Moleculin is a related party due to its founder being a significant shareholder of the Company.

9. SHAREHOLDERS’ EQUITY

Authorized

The Company is authorized to issue an unlimited number of voting common shares without par value.

Issued share capital

As at March 31, 2021, the Company has 113,438,244 (December 31, 2020 – 113,438,244) common shares issued and outstanding.

There were no shares issued during the three months ended March 31, 2021.

During the three months ended March 31, 2020, the Company issued 200,000 common shares on the exercise of 200,000 stock options for gross proceeds of \$190,000 and 1,271,428 common shares on the exercise of 1,271,428 warrants for gross proceeds of \$635,714.

Stock Options

The Company adopted an incentive stock option plan (the “Plan”), which provides that the Board of Directors of the Company may from time to time, at its discretion, and in accordance with the Exchange requirements, grant to directors, officers, employees, and consultants of the Company, non-transferable options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares of the Company. Stock options and charitable options will be exercisable for a year of up to 10 years from the date of grant. Options granted the Plan vest immediately or over a period of time at the discretion of the Board of Directors.

In connection with the foregoing, the number of common shares reserved for issuance to any individual director or officer will not exceed five percent (5%) of the issued and outstanding common shares and the number of common shares reserved for issuance to all consultants will not exceed two percent (2%) of the issued and outstanding common shares. Options may be exercised no later than 90 days, or, in the case of an optionee providing investor relations activities, the 30th day following cessation of the optionee’s position with the Company, provided that if the cessation of office, directorship, or consulting arrangement was by reason of death, the option may be exercised within a maximum year of six months after such death, subject to the expiry date of such option.

11. SEGMENT INFORMATION

The Company operates in one reportable operating segment, being the research and development of innovative medicinal products in the field of oncology and virology. All of the Company's long-lived assets are located in Poland.

12. FINANCIAL AND CAPITAL RISK MANAGEMENT

Financial assets and liabilities are classified in the fair value hierarchy according to the lowest level of input that is significant to the fair value measurement. Assessment of the significance of a particular input to the fair value measurement requires judgement and may affect placement within the fair value hierarchy levels. The hierarchy is as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The carrying value of receivables, accounts payable and accrued liabilities and loans payable approximates fair value due to the short-term nature of the financial instruments. Cash is valued at a Level 1 fair value measurement and is classified as fair value through profit or loss. Receivables are classified as amortized cost. Accounts payable and accrued liabilities, and loan payable are classified as other financial liabilities. Investments are measured at fair value using Level 3 inputs. During the year ended, December 31, 2020, \$476,246 was transferred from Level 2 to Level 3, refer to Note 7 for relevant disclosures surrounding inputs.

Risk management

Financial instruments

The Company is exposed to varying degrees to a variety of financial instrument related risks:

Credit risk

Financial instruments that potentially subject the Company to a significant concentration of credit risk consist primarily of cash and receivables. The Company's receivables are primarily due to other receivables and value added taxes. The Company limits its exposure to credit loss by placing its cash with major financial institutions. Credit risk with respect to value added taxes is minimal as the amounts are due from government agencies. The Company has no investment in asset backed commercial paper.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at March 31, 2021, the Company had a working capital deficit of \$636,302 (December 31, 2020 – working capital of \$358,765). The Company does not generate revenue aside from government research grants and will be reliant on external financing to fund operations and repay the debt. Debt and equity financing are dependent on market conditions and may not be available on favorable terms.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

a) Interest rate risk

As at March 31, 2021, the Company has cash balances which are interest bearing. Interest income is not significant to the Company's projected operational budget and related interest rate fluctuations are not significant to the Company's risk assessment.

The Company's loans payable are interest-bearing debt at a fixed rate and therefore not subject to interest rate risk.

b) Foreign currency risk

The Company's foreign currency risk exposure relates to net monetary assets denominated in Polish Zloty. A 10% change in the foreign exchange rate for the three months ended March 31, 2021 and 2020 between the Canadian and Polish Zloty would result in a fluctuation of approximately \$50,000 and \$1,000 respectively in comprehensive loss. The Company does not currently engage in hedging activities.

c) Price risk

The Company is exposed to price risk with respect to commodity prices. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company.

Capital management

The Company considers its capital to include loans payable and the components of shareholders' equity. The Company monitors its capital structure and makes adjustments in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new equity

if available on favorable terms. Future financings are dependent on market conditions and the ability to identify sources of investment. There can be no assurance the Company will be able to raise funds in the future.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the three months ended March 31, 2021. The Company is not subject to externally imposed capital requirements.

13. COMMITMENTS

The Company has made the following commitments:

- The Company is subject to multiple future payments under the terms of the Wake Forest License Agreement. Some of these are fixed payments, some are dependent on future milestones or events;
- The Company is subject to spending commitments outlined in the Moleculin Sublicense Agreement as outlined in Note 8;
- The Company is subject to spending commitments outlined in the CNS Sublicense Agreement as outlined in Note 8;
- The Company is party to two cost sharing agreements with Warsaw University for shared usage of space and medical equipment:
 - The premises agreement extends to June 30, 2021 and 2022 for usage of a seminar room and office respectively; at a rate of PLN 3,141 and PLN 90 / square meter plus applicable value added tax ("VAT") respectively.
- The equipment agreement was extended to April 2021 in the amount of PLN 27,552 per month plus applicable VAT and was subsequently extended to September 2021 in the amount of PLN 21,000 per month plus applicable VAT.

14. OTHER INCOME

The Company's other income relates to funds received from government grants for the three months ended March 31, 2021 in the amount of \$1,072,728 (2020 – \$331,980).

15. COVID-19

In March 2020 the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. The Company believes that the pandemic has slowed the pace of its research, but has not stopped it. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its further effects on the Company's business or results of operations at this time.

16. SUBSEQUENT EVENTS

- a) On April 6, 2021, WPD announced that it received an additional C\$954,248 (3,000,000 PLN) from the Polish National Center for Research and Development ("NCRD") for further development of Berubicin, the Company's drug candidate targeting glioblastoma multiforme ("GBM"), and will be used for two clinical studies, planned to be implemented under the project.
- b) On May 11, 2021, WPD announced that it has been conditionally awarded a grant of \$6,730,036 (20,394,049.68 PLN) from the Polish National Center for Research and Development ("NCRD"), for the development of Annamycin, the Company's drug candidate used in the treatment of Acute Myeloid Leukemia ("AML").
