MAGNA RESOURCES LTD.

**Notes to the Condensed Consolidated Interim Financial Statements for the period ended April 30, 2013
(Expressed in Canadian Dollars - unaudited)**

1. NATURE OF OPERATIONS

Magna Resources Ltd. (the "Company") was incorporated on June 5, 2006 under the laws of British Columbia. The Company's principal business activity is the acquisition and exploration of exploration and evaluation assets. The shares of the Company are traded on the Canadian National Stock Exchange ("CNSX") under the symbol "MNA".

The business of exploring for and mining of exploration and evaluation assets involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations.

The financial information is presented in Canadian Dollars (CDN\$), which is the presentation and functional currency of the Company.

The Company has working capital as at April 30, 2013 of \$92,622 (July 31, 2012: \$943,953) and an accumulated deficit of \$2,155,332 (July 31, 2012: \$1,591,598). The Company had a net loss of \$563,734 for the nine months ended April 30, 2013 (2012: net loss of \$87,025) These financial statements have been prepared under the assumptions of a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company's ability to maintain its existence is dependent upon the continuing support of its creditors and its success in obtaining new equity financing for its ongoing operations. Financing options available to the Company include public equity financings, loans and tax credit refunds. Realization values may be substantially different from carrying values, as shown in these financial statements, should the Company be unable to continue as a going concern.

The Company's head office and registered and records office is 2600 - 1066 West Hastings Street, Vancouver, BC, Canada V6E 3X1.

2. SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements are unaudited and prepared on a condensed basis in accordance with the International Accounting Standards ("IAS") 34, *Interim Financial Reporting* issued by the International Accounting Standard Board. These condensed consolidated interim financial statements have been prepared in accordance with the accounting policies described in Note 2 of the Company's Annual Financial Statements as at and for the year ended July 31, 2012. Accordingly, these condensed consolidated interim statements for the nine months ended April 30, 2013 and 2012 should be read together with the Annual Financial Statements as at and for the year ended July 31, 2012.

	\$	\$
Short-term deposit	440,450	1,484,273

4. BUSINESS ACQUISITION

On November 21, 2011, the Company and Confederation signed a purchase and sale agreement in respect of the acquisition of the remaining 50% interest in American Potash previously held by Confederation ("Purchase and Sale Transaction"). Under the terms of the agreement the Company also completed a 2 for 1 subdivision of its outstanding common shares, resulting in the Company having 22,420,000 common shares being issued and outstanding immediately prior to closing of the Purchase and Sale Transaction. When combined with the Company's previously held 50% interest in American Potash, American Potash became a wholly-owned subsidiary of the Company.

In consideration for Confederation's 50% interest in American Potash, the Company issued 22,420,000 common shares of the Company (the "Consideration Shares") to Confederation using a deemed value of \$0.20 per share and 2,400,000 common share purchase warrants to exactly match the number of issued and outstanding securities of the Company immediately prior to closing of the Purchase and Sale Transaction. Each warrant entitles Confederation to purchase a further common share at a price of \$0.10 until February 25, 2016. Under IFRS 3, the considerations transferred were measured using the acquisition-date fair value. As a result, a discount from the deemed value of \$0.20 per share has been applied due to a lack of marketability of the Consideration Shares held as a block in the hands of Confederation which resulted in the fair value of the Consideration Shares at \$0.06 being assigned per share.

The reassessment at fair value of the previously held interest in American Potash gave rise to a gain of \$1,001,754 that was recognized in the statements of operations and comprehensive loss under "Gain on business combination achieved in stage". The fair value of the previously held 50% interest was set at \$1,328,805, being the same value as the 50% interest of American Potash acquired.

On January 19, 2012, the Purchase and Sale transaction was completed. As a result of the Purchase and Sale Transaction, the Company holds a 100% interest in American Potash.

MAGNA RESOURCES LTD.

**Notes to the Condensed Consolidated Interim Financial Statements for the period ended April 30, 2013
(Expressed in Canadian Dollars - unaudited)**

4. BUSINESS ACQUISITION (continued)

American Potash holds State potash leases and an option in respect of potash exploration permit applications in the State of Utah.

The Purchase and Sale Transaction was accounted for using the acquisition method with operating results included in the Company's statements of operations and comprehensive loss from the date of acquisition in accordance with IFRS 3, Business Combination and the Company is considered to be the accounting acquirer.

The purchase price allocation is as follows:

Consideration	\$
Fair value of 50% interest in American Potash	1,328,805
<hr/>	
Fair Value of Net Asset Acquired	
Cash	1,884
Prepaid	5,047
Trade and other payables	(74,220)
Exploration and evaluation costs	1,234,689
Intangible assets	161,405
	<hr/> 1,328,805

In addition to the above transaction, Confederation subscribed for 6,666,666 common shares of the Company at \$0.30 per share for gross proceeds of \$2,000,000.

As part of the transaction, the Company withheld 10% withholding tax on the gross sales price of American Potash in the amount of \$162,680 and assessed income taxes payable of \$54,776. During the quarter ended April 30, 2013, the Company paid \$33,851 of related taxes and recorded a tax recovery of \$20,925 and withholding tax of \$162,680 was remitted.

5. EXPLORATION AND EVALUATION ASSETS

Green River Potash Project

In May, 2009, and amended on November 2, 2010 and further amended on December 6, 2011, American Potash entered into an option agreement (the "Sweetwater Option Agreement") with Sweetwater River Resources LLC ("Sweetwater"), John Glasscock and Kent Ausburn (collectively called the "Optionors"), to acquire pending exploration permit applications to the United States Bureau of Land Management ("BLM") in respect of certain Utah prospects and to the State of Arizona, together with all permits and other rights issued pursuant to the applications, to allow for the exploration of potash prospects in Utah.

MAGNA RESOURCES LTD.

**Notes to the Condensed Consolidated Interim Financial Statements for the period ended April 30, 2013
(Expressed in Canadian Dollars - unaudited)**

5. EXPLORATION AND EVALUATION ASSETS (continued)

The option agreement entitles American Potash to acquire a 100% interest in permits, subject to a 2% royalty to the Optionors which may be bought back for \$2,000,000 USD. The option may be exercised by having the Company pay a total of \$270,000 USD and issue in aggregate, 4,000,000

shares of Company to the Optionors upon receiving grants of exploration permits for not less than 25,000 acres of Utah property, as follow:

- \$70,000 USD upon signing the option agreement (paid);
- 400,000 shares of Magna upon grant of the permits representing not less than 25,000 acres;
- \$50,000 USD cash and 1,200,000 shares of Magna on or before the first anniversary date;
- \$50,000 USD cash and 1,200,000 shares of Magna on or before the second anniversary date;
- \$50,000 USD cash and 1,200,000 shares of Magna on or before the third anniversary date; and
- \$50,000 USD cash on or before the fourth anniversary date.

The option period is the earlier of the fourth anniversary of the grant date, or December 31, 2018. The Company will pay a finder's fee in connection with this acquisition. The fee will be US \$7,000 and 40,000 shares of the Company, payable on the grant date, and thereafter 10% of the cash and stock payments made under the option agreement, payable as and when such payments are made.

In 2011, American Potash acquired 160 Federal lithium placer mining claims totalling 1,295 hectares (3,200 acres) in northwestern Paradox Basin, southeast Utah, USA. These claims are located on BLM-administered Federal lands and are staked over a portion of American Potash's BLM pending potash prospecting permit areas.

In 2011, American Potash acquired eleven non-contiguous Utah State Trust Land potash lease units in the potash bearing Paradox Basin. The eleven lease units total 2,853 hectares, (7,050 acres) and are all within the boundaries of the BLM potash prospecting permit applications held by American Potash.

The BLM has reviewed American Potash's Exploration Plan and has determined it complete. The next stage of the review process towards the granting of Federal Prospecting Permits, which would permit the Company to drill four holes on Federal lands, is for BLM to complete the environmental assessment report on the Exploration Plan. Management continues to focus on facilitating a timely completion to the Federal Prospecting Permit approval process. Management is preparing for the upcoming Phase 1 drill program on State lands and awaits the commencement of drilling upon the sourcing of funds necessary to support the program.

7. SHARE CAPITAL

a) Authorized: Unlimited common shares with no par value.

b) Issued and outstanding:

At April 30, 2013 there were 51,506,666 issued and fully paid common shares (July 31, 2012: 51,506,666).

c) Common shares

During the year ended July 31, 2011, the Company completed a non-brokered private placement raising an aggregate of \$192,000 by the issuance of 1,200,000 units ("Units") at a price of \$0.16 per Unit. Each Unit consists of one common share and one share purchase warrant ("Warrant"). Each Warrant is exercisable into one additional common share for a period of five years at a price of \$0.20 per share ("Warrant Share"), expiring February 26, 2016. The Warrants were valued at \$207,777 based on the Black Scholes model which utilizes the following assumptions: expected dividend yield of nil, expected volatility of 131%, expected life of 5 years and a risk free interest rate of 2.60%. The relative fair value allocated is \$89,091.

During the year ended July 31, 2012, The Company and Confederation signed a Purchase Agreement in respect of the acquisition by the Company of Confederation's 50% interest in American Potash. On January 19, 2012, the Company issued 22,420,000 common shares at the fair value of \$0.20 and 2,400,000 common share purchase warrants to Confederation. Each warrant entitles the Company to purchase a further common share at a price of \$0.10 until February 25, 2016 (Also see note 4).

Also during the year ended July 31, 2012, Confederation subscribed for 6,666,666 common shares of the Company at \$0.30 per share for gross proceeds to the Company of \$2,000,000.

In December, 2012, Confederation distributed 21,086,656 common shares of the Company to Confederation shareholders. The distribution of the Company's shares by Confederation resulted in Confederation no longer maintaining a control block of the Company.

d) Stock options

The Company has a stock option plan whereby the Company is authorized to grant options to executive officers and directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common shares of the Company. Under the plan, the exercise price of each option equals the market price of the Company's shares as calculated on the date of grant. The options can be granted for a maximum term of 5 years.

On February 2, 2012, the Company granted 3,285,000 stock options to directors, officers and consultants, exercisable at \$0.40 per share for a term of five years, expiring February 2, 2017.

MAGNA RESOURCES LTD.

(Expressed in Canadian Dollars - unaudited)**

7. SHARE CAPITAL (continued)
d) Stock options (continued)

The fair value of these stock options was calculated using the Black-Scholes option pricing model. The options were valued at fair value of \$688,410 (\$0.21 per share) where the exercise price is equal to the market price at the date of grant and the fair value of each option granted, assuming a risk-free interest rate of 1.29%, a dividend yield of nil, an expected volatility of 98.51% and an average expected life of 5 years. A share-based payment expense of \$688,410 was charged to operations and added to reserves.

On December 14, 2012, the Company cancelled 3,285,000 stock options granted on February 2, 2012 and on January 16, 2013 the Company issued 3,285,000 stock options to directors, officers and consultants, exercisable at \$0.10 per share for a term of five years, expiring January 16, 2018. The options were valued at fair value of \$115,943 (\$0.04 per share) where the exercise price is \$0.055 per share at the date of grant and the fair value of each option granted, assuming a risk-free interest rate of 1.40%, a dividend yield of nil, an expected volatility of 96.69% and an average expected life of 5 years. A share-based payment expense of \$115,943 was charged to operations and added to reserves.

On December 14, 2012, the Company granted 250,000 stock options to an officer and employee of the Company, exercisable at \$0.10 per share for a term of five years, expiring December 14, 2017 (the "Sieb Grant"). The options will vest in equal quarterly amounts over the course of the first three years of employment commencing April 1, 2012. At April 30, 2013, 62,500 options vested. The options were valued at fair value of \$4,544 (\$0.08 per share) where the exercise price is \$0.10 per share at the date of grant and the fair value of each option granted, assuming a risk-free interest rate of 1.36%, a dividend yield of nil, an expected volatility of 96.14% and an average expected life of 5 years. A share-based payment expense of \$4,544 was charged to operations and added to reserves.

On December 14, 2012, the Company granted 50,000 stock options to a consultant of the Company, exercisable at \$0.10 per share for a term of five years, expiring December 14, 2017. The options were valued at fair value of \$3,635 (\$0.08 per share) where the exercise price is \$0.10 per share at the date of grant and the fair value of each option granted, assuming a risk-free interest rate of 1.36%, a dividend yield of nil, an expected volatility of 96.14% and an average expected life of 5 years. A share-based payment expense of \$3,635 was charged to operations and added to reserves.

e) Share purchase warrants

In January 2012, the Company issued 2,400,000 common share purchase warrants pursuant to the Purchase Agreement with Confederation. Each warrant entitles Confederation to purchase a further common share at a price of \$0.10 until February 25, 2016. The fair value of these warrants was calculated using the Black-Scholes option pricing model. The warrants were valued at fair value of \$327,600 where the exercise price is equal to the market price at the date of grant and the fair value of each warrant granted, assuming a risk-free interest rate of 1.25%, a dividend yield of nil, an expected volatility of 100.01% and an average expected life of 2 years.

(Expressed in Canadian Dollars - unaudited)****11. FINANCIAL INSTRUMENTS**

(a) Fair Values

Financial instruments recognized at fair value on the consolidated statement of financial position must be classified in one of the following three fair value hierarchy levels:

Level 1 – measurement based on quoted prices (unadjusted) observed in active markets for identical assets or liabilities;

Level 2 – measurement based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability; or

Level 3 – measurement based on inputs that are not observable (supported by little or no market activity) for the asset or liability.

Assets and liabilities measured at fair value on a recurring basis were presented on the Company's consolidated statements of financial position are as follows:

	Fair Value Measurements Using		
	Quoted prices in active markets for identical instruments (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
As at April 30, 2013	\$	\$	\$
Cash and cash equivalents	31,611	-	-
Short term investments	440,450	-	-
Total	472,061	-	-

	Fair Value Measurements Using		
	Quoted prices in active markets for identical instruments (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
As at July 31, 2012	\$	\$	\$
Cash and cash equivalents	-	-	-
Short term investments	1,484,273	-	-
Total	1,484,273	-	-

The fair values of other financial instruments, which include other receivable, other assets, bank indebtedness, accounts payable and accruals and due to related parties, approximate their carrying values due to the relatively short-term maturity of these instruments.

MAGNA RESOURCES LTD.**Notes to the Condensed Consolidated Interim Financial Statements for the period ended April 30, 2013
(Expressed in Canadian Dollars - unaudited)****11. FINANCIAL INSTRUMENTS (continued)****(b) Credit Risk**

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash and cash equivalents and short-term investments. The Company limits its exposure to credit loss by placing its cash and cash equivalents with high credit

quality financial institutions. The carrying amount of financial assets represents the maximum credit exposure.

(c) Foreign Exchange Rate Risk

The functional currency of the Company's subsidiary American Potash is the US dollar. Foreign currency risk arises from the fluctuation in currency exchange between the Canadian dollar and US dollar. The Company has not entered into financial instruments to hedge against this risk.

(d) Liquidity Risk

Liquidity risk is managed by ensuring sufficient financial resources are available to meet obligations associated with financial liabilities. The following table is based on the contractual maturity dates of financial assets and the earliest date on which the Company can be required to settle financial liabilities.

Contractual maturity analysis is as follows:

	Less than 3		1-5	Longer than	
	months	3-12 months	years	5 years	Total

11. FINANCIAL INSTRUMENTS (continued)

(e) Price Risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities is subject to risks associated with fluctuations in the market price of commodities.

(f) Interest Rate Risk

Interest rate risk is the risk that the fair value or cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has interest bearing assets in relation to cash at banks carried at floating interest rates with reference to the market. The Company's operating cash flows are substantially independent of changes in market interest rates. The Company has not used any financial instrument to hedge potential fluctuations in interest rates. The exposure to interest rates for the Company is considered immaterial. As at April 30, 2013, the Company has in total \$440,450 (July 31, 2012: \$1,484,273) in guaranteed investment certificates.

The policies to manage interest rate risk have been followed by the Company during prior periods and are considered to be effective.

12. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support its operations and business development. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company has not generated any revenues since its inception; therefore, the Company is dependent on external financing to fund its future intended business plan. The capital structure of the Company currently consists of working capital and shareholders' equity. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements. The Company is not subject to externally imposed capital requirements.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

13. SEGMENTAL INFORMATION

The Company's activities are all in one industry segment of mineral property acquisition and exploration. The Company's mining operations are centralized whereby management of the Company is responsible for business results and the everyday decision-making. The Company's
