Notes to the Condensed Consolidated Interim Financial Statements

(Expressed in Canadian Dollars - unaudited)

1. NATURE OF OPERATIONS

American Potash Corp. (the "Company") was incorporated on June 5, 2006 under the laws of British Columbia. On August 12, 2014, the Company changed its name to American Potash Corp. The shares of the Company are traded on the Canadian Securities Exchange ("CSE") under the symbol 'AMP' and on the OTCQX International, a segment of the OTCQX marketplace in the U.S., under the symbol 'MGRZF'. The Company is dedicated to the acquisition and development of potash mineral deposits in the United States and elsewhere. American Potash LLC, a Nevada corporation wholly owned by the Company, owns and operates the Green River Potash Project in Utah. American Potash's area of interest covers key land positions in known potash-bearing sedimentary cycles in Utah.

The Company's head office and registered and records office is 1100 – 1111 Melville Street, Vancouver, BC, Canada V6E 3V6.

These consolidated financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. As at October 31, 2014, the Company had not advanced its properties to commercial production and is not able to finance day to day activities through operations. The Company's continuation as a going concern is dependent upon the successful results from its mineral properties exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with loans from directors and companies controlled by directors and or private placement of common shares. Should the Company be unable to continue as a going concern, the net realizable value of its assets may be materially less than the amounts on its consolidated statement of financial position.

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements were authorized for issue on December 24, 2014 by the directors of the Company.

Statement of Compliance

The condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards 34, *Interim Financial Reporting* (IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee (IFRIC"). The accounting policies and methods of computation applied by the Company in these condensed consolidated interim financial statements are the same as those applied in the Company's annual financial statements as at and for the year ended July 31, 2014.

**AMERICAN POTASH CORP. (Formerly MAGNA
RESOURCES LTD.)**

(Expressed in Canadian Dollars - unaudited)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

These condensed consolidated interim financial statements do not include all of the information and note disclosures required for full annual financial statements and should be read in conjunction with the Company's annual financial statements as at and for the year ended July 31, 2014.

Basis of preparation

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for financial instruments classified as at fair value through profit or loss have been measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The condensed consolidated interim financial statements are presented in Canadian dollars unless otherwise noted.

Basis of consolidation

These consolidated financial statements include the accounts of the Company and its controlled entity. Control is achieved when the Company has the power to govern the financial operating policies of an entity so as to obtain benefits from its activities. Subsidiaries are fully consolidated from the date on which control is transferred to the Company until the date on which control ceases. All inter-company transactions, balances, income and expenses are eliminated in full upon consolidation. Details of controlled entities are as follows:

	Country of Incorporation	Percentage owned as at October 31,		Principal Activity
		2014	2013	
American Potash LLC ("American Potash")	United States	100%	100%	Mineral exploration

3. EXPLORATION AND EVALUATION ASSETS

Green River Potash Project

In May, 2009, and amended on November 2, 2010 and further amended on December 6, 2011, American Potash entered into an option agreement (the "Sweetwater Option"), to acquire applications to the United States Bureau of Land Management ("BLM") in respect of certain Utah permits, together with all permits and other rights issued pursuant to the applications, to allow for the exploration of potash prospects in Utah. A director of the Company is a party to the Sweetwater Option (Note 8).

The Sweetwater Option entitles American Potash to acquire a 100% interest in permit applications, subject to a 2% royalty to the optionors which may be bought back for \$2,000,000 USD. The option may be exercised by having the Company pay a total of \$270,000 USD and issue in aggregate,

3. EXPLORATION AND EVALUATION ASSETS (Continued)

2,000,000 shares of Company to the optionors upon receiving grants of exploration permits for not less than 25,000 acres of Utah property, as follow:

- \$70,000 USD upon signing the option agreement (paid);
- 200,000 shares of the Company upon grant of the permits representing not less than 25,000 acres (issued February 14, 2014) (Note 6);
- \$50,000 USD cash and 600,000 shares of the Company on or before the first anniversary date (200,000 issued February 14, 2014) (Note 6);
- \$50,000 USD cash and 600,000 shares of the Company on or before the second anniversary date;
- \$50,000 USD cash and 600,000 shares of the Company on or before the third anniversary date; and
- \$50,000 USD cash on or before the fourth anniversary date.

On January 31, 2014, 14 prospecting permits were formally signed and delivered to the Company, with an effective date of March 1, 2014; thereby initiating the Sweetwater Option period.

In connection with the Sweetwater Option, the Company will pay a finder's fee on the Company's pre-acquisition 50% interest in American Potash. The finder's fee will be 10% of 50% (5%) of the cash and stock payments made under the Sweetwater Option, payable as and when such payments are made. On February 14, 2014, upon receipt of the prospecting permits, the Company issued 20,000 common shares to the finder (Note 6).

In 2011, American Potash acquired 11 non-contiguous Utah State Trust Land potash lease units in the potash bearing Paradox Basin. These lease units are all within the boundaries of the BLM potash prospecting permit applications held by the Company.

10. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (Continued)

(a) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash and cash equivalents and short-term investments. The Company limits its exposure to credit loss by placing its cash and cash short-term investments with high credit quality financial institutions. The carrying amount of financial assets represents the maximum credit exposure. The risk is assessed as low.

(b) Foreign Exchange Rate Risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The functional currency of the Company's subsidiary American Potash is the US dollar. Foreign currency risk arises from the fluctuation in currency exchange between the Canadian dollar and US dollar. The Company has not entered into financial instruments to hedge against this risk.

The following is an analysis of Canadian Dollar equivalent of financial assets and liabilities that are denominated in US dollars:

	October 31, 2014	July 31, 2014
	\$	\$
Cash	151	12
Accounts payable	(64,937)	(59,049)
	(65,088)	(59,037)

Based on the above net exposures, as at October 31, 2014, a 10% change in the US dollar to Canadian Dollar exchange rate would impact the Company's net loss by \$6,509.

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Liquidity risk is managed by ensuring sufficient financial resources are available to meet obligations associated with financial liabilities. The following table is based on the contractual maturity dates of financial assets and the earliest date on which the Company can be required to settle financial liabilities.

Contractual maturity analysis is as follows:

	Less than 3 months	3-12 months	1-5 years	Longer than 5 years	Total
	\$	\$	\$	\$	\$
October 31, 2014					
Accounts payable	135,252	-	-	-	135,252
Due to related parties	135,580	-	-	-	135,580
Short-term loans	56,200	-	-	-	56,200
	Less than 3 months	3-12 months	1-5 years	Longer than 5 years	Total
	\$	\$	\$	\$	\$
July 31, 2014					
Accounts payable	137,658	-	-	-	137,658
Due to related parties	81,849	-	-	-	81,849
Short-term loans	24,000	-	-	-	24,000

(d) Price Risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities is subject to risks associated with fluctuations in the market price of commodities.

(e) Interest Rate Risk

Interest rate risk is the risk that the fair value or cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has interest bearing assets in relation to cash at banks carried at floating interest rates with reference to the market. The Company's operating cash flows are substantially independent of changes in market interest rates. The Company has not used any financial instrument to hedge potential fluctuations in interest rates. The exposure to interest rates for the Company is considered immaterial.

(f) Fair Values

Financial instruments recognized at fair value on the consolidated statement of financial position must be classified in one of the following three fair value hierarchy levels:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The following is an analysis of the Company's financial assets measured at fair value as at October 31, 2014 and July 31, 2014:

	As at October 31, 2014		
	Level 1	Level 2	Level 3
	\$	\$	\$
Cash	26,853	-	-
Short term investments	-	-	-
Total	26,853	-	-

	As at July 31, 2014		
	Level 1	Level 2	Level 3
	\$	\$	\$
Cash	19,167	-	-
Total	19,167	-	-

The fair values of other financial instruments, which include other receivable, other assets, bank indebtedness, accounts payable, and due to related parties, approximate their carrying values due to the relatively short-term maturity of these instruments.

11. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support its operations and business development. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company has not generated any revenues since its inception; therefore, the Company is dependent on external financing to fund its future intended business plan. The capital structure of

11. CAPITAL MANAGEMENT (Continued)

the Company currently consists of working capital and shareholders' equity. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements. The Company is not subject to externally imposed capital requirements.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the period.

12. SEGMENTED INFORMATION

The Company's activities are all in one industry segment of mineral property acquisition and exploration. The Company's exploration operations are centralized whereby management of the Company is responsible for business results and the everyday decision-making. The Company's operations therefore are segmented on a geographic basis. The Company's non-current assets, which include exploration and evaluation assets and intangible assets, are all located in the United States.

13. SUBSEQUENT EVENTS

- a) On December 8, 2014, the Company closed a non-brokered private placement for 7,840,000 units at a price of \$0.08 per unit for gross proceeds of \$627,200. Each Unit consisted of one common share of the Company and one common share purchase warrant exercisable into one common share of the Company at an exercise price of \$0.12 per share expiring 36 months from date of issuance. The Shares and Warrant Shares are subject to a four month hold period. Finders' fees of \$28,560 were paid, plus 357,000 finders' warrants issued in connection with the closing of this Private Placement. The net proceeds of this Private Placement are for the Company's general working capital as well as preparatory work for the Phase 1 drill program at the Company's Green River Potash Project in the renowned Paradox Basin, Utah.
- b) On December 10, 2014, the Company completed shares for debt agreements totaling \$81,002 with arm's length and non-arm's length creditors through the issuance of 1,012,521 common shares of the Company at a deemed price of \$0.08 per share. 767,125 of these shares were issued to non-arm's length parties. The Company also issued 75,000 common shares pursuant to an employment agreement with the Company's President.
