

MANAGEMENT'S DISCUSSION AND ANALYSIS

SEPTEMBER 30, 2020 AND 2019

INTRODUCTION

This Management’s Discussion and Analysis (“MD&A”) provides a detailed analysis of the business of James Bay Resources Limited (the “Company” or “James Bay”) for the period ended September 30, 2020 and should be read in conjunction with the Company’s unaudited condensed interim consolidated financial statements for the three and nine months ended September 30, 2020 and 2019. Those financial statements are prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including International Accounting Standard 34, Interim Financial Reporting. All amounts shown in this MD&A and in the financial statements are expressed in Canadian dollars, unless otherwise noted. This MD&A was reviewed and approved by the Company’s Audit Committee and Board of Directors on November 27, 2020.

FORWARD-LOOKING INFORMATION

This MD&A contains certain forward-looking statements and information relating to the Company that are based on the beliefs of its management as well as assumptions made by and information currently available to the Company. When used in this document, the words “anticipate”, “believe”, “estimate”, “expect” and similar expressions, as they relate to the Company or its management, are intended to identify forward-looking statements. Such forward-looking statements relate to, among other things, regulatory compliance, the sufficiency of current working capital, the estimated cost and availability of funding for the continued exploration of the Company’s exploration property. Such statements reflect the current views of the Company with respect to future events and are subject to certain risks, uncertainties and assumptions. Many factors could cause the actual results, performance or achievement of the Company to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made.

COMPANY OVERVIEW

James Bay is a junior resource company originally focused on the acquisition and exploration of base and precious metal mineral properties, with activities centered in Canada.

In 2011, the Company entered into a preliminary agreement to conduct due diligence to identify potential oil and gas acquisition targets in Nigeria.

In 2012, the Company signed an agreement to acquire a 47% interest in the Ogedeh Marginal Field Award on the Farmed-Out Area within the Oil Mining Licence 90 (“OML 90 Project” or the “Ogedeh Project”). The OML 90 Project has been placed on hold given the economics in current market conditions.

The Company, through its wholly owned subsidiary, James Bay Energy Nigeria Limited (“JBENL”) has a 45% ownership interest in Crestar Integrated Natural Resources Limited (“CINRL” or “Crestar”) with the remaining 55% portion held by an indigenous Nigerian corporation, Crestar Hydrocarbon Exploration and Production Company Limited (“CHEPCL”).

CORPORATE STRUCTURE

In February 2012, the Company incorporated a wholly owned Nigerian subsidiary, James Bay Energy Nigeria Limited (“JBENL”). Pursuant to an agreement signed with D&H Solution AS, 100% share ownership interest of D&H Energy Nigeria Limited (“DHENL”) and Ondobit Limited (“OL”) were transferred to JBENL on March 9, 2012.

In April 2012, 2255431 Ontario Inc., (a wholly owned subsidiary of the Company), assigned its 100% ownership interest of James Bay Coal LLC (“JBC LLC”) to James Bay. JBC LLC is a US entity and a wholly owned subsidiary of James Bay. JBC LLC was later converted from a Delaware corporation to a Delaware limited liability company called James Bay Energy Nigeria LLC (“JBEN LLC”). Subsequently, 2255431 Ontario Inc. was wound up in June 2013.

The Company, through its wholly owned subsidiary JBENL has a 45% ownership interest in CINRL with the remaining 55% portion held by an indigenous Nigerian corporation, Crestar Hydrocarbon Exploration and Production Company Limited (“CHEPCL”).

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries.

PETROLEUM PROPERTY INTERESTS

OML 25 PROJECT

In June 2014, Crestar Integrated Natural Resources Limited (CINRL) was selected as the winning bidder for a 45% participating interest in active Oil Mining Lease No. 25 (“OML 25”) in the Niger Delta region, offered by joint venture partners: The Shell Petroleum Development Company of Nigeria Limited, Total E&P Nigeria Limited, and Nigerian AGIP Oil Company Limited (collectively the “Shell JV”). CINRL obtained terms for a loan from a prospective future investor, for the full purchase price of OML 25.

The Nigerian National Petroleum Corporation (“NNPC”) attempted to block the sale and acquire the interest for itself. Crestar commenced injunction proceedings in January 2015 in the Nigerian Federal High Court to bar the Shell JV from effecting a transfer to NNPC or anyone else, which injunctions were granted on a preliminary basis. The Shell JV subsequently sought to discharge the injunctions, but the Federal High Court dismissed the Shell JV’s application on March 6, 2015. Further court proceedings were instituted by the Shell JV, but ultimately those have been unsuccessful. The Federal High Court of Nigeria also has ruled in favor of CINRL and granted an injunction in favour of CINRL which effectively has frozen any potential plans by the NNPC to acquire the 45% participating interest in OML 25 being divested by the Shell JV. As of the date hereof this injunction in favour of CINRL continues to remain in place.

CINRL had also commenced legal proceedings in the High Court of Justice in England, against the Nigerian subsidiary of Seplat Petroleum Development Company PLC (“Seplat”) on January 27, 2017. CINRL’s claim alleged bad faith conduct by Seplat’s subsidiary, Newton Energy Limited (“Newton”), relating to the proposed acquisition of OML 25. The dispute in the English High Court was on US\$20.5 million held in escrow following a protracted dispute over the acquisition of OML 25 from the Shell JV, which CINRL alleged should have been released to CINRL had Newton not sent its bad faith election that it intended to finance the OML 25 purchase on August 16, 2016.

In June 2017, the Company lent CINRL £200,000 GBP as a form of security for legal costs. In August 2017, the Company’s President and CEO provided a letter of guarantee in the amount of USD \$575,000 also as a form of security for legal costs. Both of these security forms are protected by the litigation until such time when the court orders are released. As a result of the settlement agreement in this action, these amounts have been released to the Company and the Company’s President and CEO, respectively.

Settlement

On March 21, 2018, the settlement offer in the litigation between CINRL and Newton was accepted. The litigation relates to proceedings brought in January 2017 by CINRL in the English High Court over the deposit of US\$20.5 million currently held in an escrow account, following a protracted dispute over the acquisition of OML 25 from the Shell JV.

On April 16, 2018, under the terms of the settlement, the Company received US\$10.5 million plus interest of US\$227,820 in connection with the litigation between CINRL and Newton. The interest was for the period from January 3, 2018 to the date of acceptance of the settlement offer on March 21, 2018. The Company also received US \$1.2 million from Seplat as an agreed payment for costs of the action.

Litigation Payout

In connection with the convertible debentures issued in 2015, the Company sold and assigned, pursuant to separate agreements with each subscriber, a pro rata entitlement (based on all the subscribers) for up to an aggregate of 30% of the net proceeds of litigation related to the OML 25 project. The net proceeds of the Litigation (whether as a result of final judgment by a court of competent jurisdiction or settlement for which no appeal or further proceeding may be taken (the "Final Award") after deduction of all related costs and taxes incurred by the Company in the Litigation (the "Net Final Amount"). The payout amount of US\$2,811,255 was calculated after deduction of all related costs and taxes incurred by the Company in the litigation, payable to the debenture holders within 60 days from the receipt of the Final award.

On April 24, 2018, the Company paid an estimated amount of US\$2.7 million to convertible debenture holders ("Holder"). Each holder received an amount based on a pro rata share of their participating interest in the original convertible debenture issued in 2015. The remaining amount of USD\$111,255 was paid before December 31, 2018.

INVESTMENT IN CERRADO GOLD

On November 8, 2018, the Company announced that the Board of Directors approved an investment (the "Investment") of US\$1.5 million to acquire 3,333,334 common shares from the treasury of Cerrado Gold Inc. ("Cerrado Gold"), a privately-owned Ontario company that had executed an agreement to acquire a gold exploration project in Brazil (the "Acquisition"). The Investment represented approximately 14% of the issued and outstanding common shares of Cerrado Gold on November 8, 2018. At June 30, 2020, the ownership interest was reduced to 7.15%. The dilution of James Bay's ownership percentage resulted from Cerrado Gold's issuance of shares from treasury to the third-party sellers as part of the agreed terms of the Acquisition

On August 4, 2020 Cerrado Gold and BB1 Acquisition Corp. ("BB1") announced that they have entered into a binding Letter of Intent (the "LOI"). The LOI sets forth the general terms and conditions of a proposed transaction (the "Transaction") pursuant to which BB1 will acquire all of the issued and outstanding shares of Cerrado. The Transaction will constitute a "Qualifying Transaction" of BB1, as such term is defined in Policy 2.4 of the Corporate Finance Manual (the "Policy") of the TSX Venture Exchange (the "TSXV"). The LOI is to be superseded by a definitive agreement (the "Definitive Agreement") between BB1 and Cerrado Gold with such agreement to include representations, warranties, conditions and covenants typical for a transaction of this nature. Completion of the proposed transaction is subject to a number of conditions including, but not limited to: (i) completion of mutually satisfactory due diligence reviews; (ii) execution of the Definitive Agreement; (iii) requisite shareholder approvals; and (iv) receipt of all requisite regulatory approvals relating to the Transaction, including, without limitation, the TSXV.

FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2020 AND 2019

RESULTS OF OPERATIONS

Revenue

The Company is in the exploration and evaluation stage and therefore, did not have revenues from operations.

Expenses

For the three months ended September 30, 2020, the Company recorded a loss of \$51,689 (September 30, 2019 - \$60,873) from operations. The decrease is due to reduced office and general expenses from \$22,812 for the same period in 2019 to \$10,168 in the current period. The Company has been successful in reducing these expenses in order to conserve cash.

The Company recorded management salaries and benefits of \$15,136 as compared to \$15,346 for the same period in the prior year. As there has been no additional staff, the Company is able to maintain the same level of expense consistently throughout the comparative periods.

Year-to-date expenses at September 30, 2020 were \$158,973 (September 30, 2019 - \$149,782) reflecting an increase of \$9,191 from the same period in 2019. The slight increase is due to increased professional fees for legal expenses as the Company is involved in an ongoing lawsuit.

Net loss and comprehensive loss

For the nine months period ended September 30, 2020, the Company recorded a net loss of \$1,423,216 (September 30, 2019 - \$660,027), reflecting an increase of approximately \$763,189 from the same period in 2019. The major fluctuations are as follows:

- (i) Increased professional fees of \$122,084 (September 30, 2019 - \$38,426). The major component of these professional fees are legal fees due to the Company's ongoing lawsuit against CB Holdings Inc.
- (ii) Loss pick-up from Cerrado Gold of \$989,684 (September 30, 2019 - \$78,219). The increase in loss pick-up from Cerrado Gold is due to increased expenses following Cerrado Gold's acquisition of a gold producing company in Argentina.
- (iii) Impairment in CINRL of \$161,768 (September 30, 2019- \$755,635). The Company reduced expenses incurred in CINRL significantly since last year. Further, a local management contract has been modified, and the salary expense was reduced correspondingly.
- (iv) Loss pick-up from CINRL of \$104,115 (September 30, 2019 - \$243,506). The loss pick-up from CINRL decreased significantly from the same period in the prior year. This decrease was due to the Company's consistent reduction in office and general expenses.

CASH FLOWS

Operating Activities

For the nine months ended September 30, 2020, the Company had net cash inflow of \$4,984 (September 30, 2019 - \$173,433) from operating activities. The Company's net change in non-cash working capital was an inflow of \$206,093 as compared to outflow of \$701,116 for the same period in 2019. The change in non-cash working capital is attributable to \$385,000 reduction of accounts payable in connection with director's fees (\$120,000) management fees (\$140,000), and legal fees (\$125,000).

Investing Activities

For the nine months ended September 30, 2020, the Company had a net cash outflow of \$265,883 (September 30, 2019 - of \$999,141) from investing activities. The decrease in cash outflow is due to a reduction of management salaries, which reduction was allocated to CINRL affecting advances to equity investment.

Financing Activities

For the nine months ended September 30, 2020, the Company had a net cash inflow of \$299,000 (September 30, 2019 - \$58,103 from Shareholder loan) from financing activities. The Company received \$40,000 government loan (CEBA loan) and completed a private placement in August 2020 in an effort to fund working capital of the Company.

SELECTED QUARTERLY FINANCIAL INFORMATION

SUMMARY OF QUARTERLY RESULTS

| | Quarter-ended | | | |
|--|-----------------------------|------------------------|-------------------------|----------------------------|
| | September 30, 2020 \$ | June 30, 2020 \$ | March 31, 2020 \$ | December 31, 2019 \$ |
| Working capital (deficiency) | (917,858) | (924,426) | (1,002,489) | (760,484) |
| Operating expenses | 51,689 | 61,104 | 51,690 | 148,034 |
| Interest expense (income) | 466 | 748 | 466 | (108,744) |
| Net loss and comprehensive loss | 397,758 | 87,975 | 393,029 | 6,372,029 |

| | Quarter-ended | | | |
|---|-----------------------------|------------------------|-------------------------|----------------------------|
| | September 30, 2019 \$ | June 30, 2019 \$ | March 31, 2019 \$ | December 31, 2018 \$ |
| Working capital | 5,274,557 | 5,359,632 | 5,577,422 | 897,901 |
| Operating expenses (income) | 60,873 | 40,896 | (125,222) | 145,894 |
| Interest expense (income) | (394,836) | (167,252) | (173,234) | 68,175 |
| Net loss and comprehensive loss | 51,607 | 373,538 | 234,882 | 49,715 |
| Net loss (income) and comprehensive loss (income) per share attributable to the common shareholders of the Company – restated (basic and diluted) | 0.01 | 0.01 | 0.01 | (0.06) |

Notes: Net loss per share on a diluted basis is the same as basic net loss per share, as all outstanding stock options and warrants are anti-dilutive in fiscal 2020.

LIQUIDITY AND OUTLOOK

As at September 30, 2020, the Company had no source of operating cash inflows and reported a net loss and comprehensive loss of \$1,423,216 for the period and a deficit of \$18,614,454. The Company's continuance as a going concern is dependent upon its ability to obtain equity capital and financing for its working capital and for the exploration, development and operation of its properties.

The Company's opinion concerning liquidity and its ability to avail itself in the future of the financing options mentioned above are based on currently available information. To the extent that this information proves to be inaccurate, future availability of financing may be adversely affected. Factors that could affect the availability of financing include the Company's performance (as measured by various factors including the progress and results of its exploration work) and equity markets, investor perceptions and expectations of past and future performance, the global financial climate.

CAPITAL RESOURCES

Common shares

At September 30, 2020 and November 27, 2020, the Company had 51,014,068 common shares issued and outstanding.

Stock options

At September 30, 2020 and November 27, 2020, the Company had no stocks options issued and outstanding.

Warrants

At September 30, 2020 and November 27, 2020, the Company had 4,316,667 issued and outstanding warrants. On August 5, 2020, the Company issued 4,316,667 units ("Unit"). Each Unit consists of one common share (a "Common Share") and one Common Share purchase warrant (each a "Warrant") in the capital of James Bay. Each Warrant comprising part of the Units is exercisable for a Common Shares at a price of \$0.12 for 2 years from the date of issuance.

FINANCIAL INSTRUMENTS

The Company's risk exposures and the impact on the Company's financial instruments are summarized below. There have been no significant changes in the risks, objectives, policies and procedures from the previous period.

Credit risk

The Company's credit risk is primarily attributable to cash and cash equivalents and amounts receivable. The Company has no significant concentration of credit risk arising from operations. Management believes that the credit risk concentration with respect to cash and cash equivalents and amounts receivable is remote.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have liquidity to meet liabilities when due. At September 30, 2020, the Company had cash of \$95,074 (December 31, 2019 - \$15,988) to settle current liabilities of \$1,104,910 (December 31, 2019 - \$910,623). The Company has working capital deficiency of \$917,858 (December 31, 2019 - \$760,484). The Company's current financial liabilities generally have contractual maturities of less than 30 days and are subject to normal trade terms.

FINANCIAL INSTRUMENTS (continued)

Market risk

(a) Interest rate risk

The Company has no cash balances and interest-bearing debt due to convertible debentures. The Company's current policy is to invest excess cash in investment-grade short-term guaranteed investment certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. The Company's convertible debentures have been fully paid in 2018.

(b) Price risk

The ability of the Company to pursue its resource interests and the future profitability of the Company is directly related to the market price of oil and gas.

(c) Foreign currency risk

The Company is subject to foreign exchange risk as the Company has certain assets and liabilities, and makes certain expenditures, in US dollars and Nigerian Naira. The Company is therefore subject to gains and losses due to fluctuations in the US dollar and the Nigerian Naira relative to the Canadian dollar. The Company does not hedge its foreign exchange risk.

Sensitivity analysis

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are reasonably possible over a twelve-month period.

Fair value

The carrying value of cash and cash equivalents, amounts receivable, accounts payable and accrued liabilities approximate their fair value due to the relatively short periods to maturity of the financial instruments. Management believes the carrying value of the convertible debentures approximates its fair value. The derivative liabilities are recorded at their estimated fair values.

Fair value hierarchy and liquidity risk disclosure

Fair value measurements are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy shall have the following levels: (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1); (b) inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices) (Level 2); and (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3). As at September 30, 2020 and 2019, the Company designated its derivative liabilities from convertible debentures as fair value through profit and loss which is measured at fair value and classified as Level 2.

RELATED PARTY DISCLOSURES

These unaudited condensed interim consolidated financial statements include balances and transactions with directors and officers of the Company and/or corporations related to them. During the period ended September 30, 2020 and 2019, the Company entered into the following transactions involving related parties:

For the nine months ended September 30, 2020, the Company incurred professional fees of \$122,084, of which approximately \$121,079 (September 30, 2019 - \$125,820) was charged by a law firm of which a partner is a director of the Company. This law firm has forgiven \$125,000 in legal fees accumulated from prior periods. As of September 30, 2020, included in accounts payable and accrued liabilities is an accumulated balance of \$179,996 (September 30, 2019 - \$190,521) owing to this law firm.

The Company rents office space from a corporation with common directors. During the nine months period ended September 30, 2020, approximately \$64,839 (September 30, 2019 - \$37,378) was charged by this corporation. Included in accounts payable and accrued liabilities is a balance of \$71,548 pertaining to the premise rent.

In accordance with IAS 24, key management personnel are those having authority and responsibility for planning, directing and controlling the activities of the Company directly or indirectly, including any directors (executive and non-executive) of the Company.

The remuneration of directors and other members of key management personnel for the period ended September 30, 2020 and 2019 were as follows:

| | September 30, 2020 | September 30, 2019 |
|---------------------|--------------------|--------------------|
| Management salaries | \$139,000 | \$524,358 |
| Director's fees | - | 60,000 |
| | <u>\$139,000</u> | <u>\$584,358</u> |

During the nine months ended September 30, 2020, the Company paid \$50,400 and accrued \$88,600 (September 30, 2019 paid to three executive officers - \$524,358) to two executive officers, of which \$125,100 (September 30, 2019 - \$491,958) has been charged as management fees to CINRL. The Company owed \$40,000 in director's fees for the nine months period ended September 30, 2020 and \$80,000 for fiscal 2019. The full balance of \$120,000 was forgiven by the directors in July 2020.

At September 30, 2020, the Company accrued \$325,000 in management salary to the President and CEO, of which, \$100,000 related to 2019 and \$225,000 related to 2020 accruals. The President and CEO has forgiven \$140,000 of this accrued amount. Included in accounts payable and accrued liabilities is \$185,000 salary owing to the President and CEO. A total reduction in the amount of \$385,000 to amounts payable to directors, management and a law firm was approved by the Board in July 2020, in an effort to conserve cash.

COMMITMENTS AND CONTINGENCIES

The Company is party to certain management contracts, which contain clauses requiring additional payments of up to \$864,000 be made upon the occurrence of certain events such as a change of control and additional payments of up to \$872,000 be made upon termination of contracts. As a triggering event has not taken place, the contingent payments have not been reflected in these consolidated financial statements. As of June 30, 2019, under these management contracts, management has committed to \$522,000 of salaries and benefits due within one year.

The Company's exploration and evaluation activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

The Company is party to legal proceedings in the ordinary course of its operations related to legally binding agreements with a third party. As at September 30, 2020, one such proceeding was ongoing. The Company believes this claim to be without merit. Management does not expect the outcome of this proceeding to have a materially adverse effect on the results of the Company's financial position or results of operations and therefore this amount has not been reflected in these financial statements. Should any losses result from the resolution of this dispute, that amount will be charged to operations in the year that it is determined.

The Company was served with a Notice of Action and related Statement of Claim commenced in the Superior Court of Justice by Alkebulan Ltd. and Andre van der Spuy, as plaintiffs. The claim, which also includes Seplat Petroleum Development Company PLC as a defendant, alleges damages in the amount of \$850,000 for a purported breach of contract, and \$50,000 for punitive damages. The Company has reviewed the claim with counsel and is of the view the claim is wholly without merit, and intends to defend the claim vigorously, including requiring the plaintiffs to post security for cost as foreign plaintiffs in this action.

OFF BALANCE SHEET ARRANGEMENTS

The Company has no off-balance sheet arrangements.

RISKS AND UNCERTAINTIES

The Company, through its subsidiary, holds an interest in a petroleum property in Nigeria. As such, it is exposed to the laws governing the Nigerian petroleum industry with respect to matters such as taxation, environmental compliance, and other regulatory and political factors as well as shifts in politics and labor unrest, any of which could adversely affect the Company and its future exploration and production activities.

Additional Capital

The Company conducted due diligence to identify potential acquisition targets of onshore/offshore Nigerian oil and gas projects. If the results are favourable, Company will require additional capital which may come from future financings. There can be no assurance that the Company will be able to raise such additional capital if and when required on terms it considers acceptable.

No History of Profitability

The Company is an exploration company with no history of profitability. There can be no assurance that the operations of the Company will be profitable in the future. The Company has limited financial resources and will require additional financing to further explore, develop, acquire, retain and engage in commercial production on its property interests and, if financing is unavailable for any reason, the Company may become unable to acquire and retain its mineral concessions and carry out its business plan.

Government Regulations

The Company's exploration operations are subject to government legislation, policies and controls relating to prospecting, development, production, environmental protection, mining taxes and labour standards. For the Company to carry out mining activities, exploitation licenses must be obtained and kept current. There is no guarantee that the Company's exploitation licenses would be extended or that new exploitation licenses would be granted. In addition, such exploitation licenses could be changed and there can be no assurances that any application to renew any existing licenses will be approved. The Company may be required to contribute to the cost of providing the required infrastructure to facilitate the development of its properties. The Company will also have to obtain and comply with permits and licenses which may contain specific conditions concerning operating procedures, water use, waste disposal, spills, environmental studies, abandonment and restoration plans and financial assurances. There can be no assurance that the Company will be able to comply with any such conditions.

Market Fluctuation and Commercial Quantities

The market for minerals is influenced by many factors beyond the control of the Company such as changing production costs, the supply and demand for resources, the rate of inflation, the inventory of resources producing companies, the international economic and political environment, changes in international investment patterns, global or regional consumption patterns, costs of substitutes, currency availability and exchange rates, interest rates, speculative activities in connection with resources, and increased production due to improved extractor and production methods. The resource industry in general is intensely competitive and there is no assurance that, even if commercial quantities and qualities of resources are discovered, a market will exist for profitable sale. Commercial viability of precious and base metals and oil and gas deposits may be affected by other factors that are beyond the Company's control including particular attributes of the deposit such as its size, quantity and quality, the cost of mining and processing, proximity to infrastructure and the availability of transportation and sources of energy, financing, government legislation and regulations including those relating to prices, taxes, royalties, land tenure, land use, import and export restrictions, exchange controls, restrictions on production, as well as environmental protection. It is impossible to assess with certainty the impact of various factors which may affect commercial viability so that any adverse combination of such factors may result in the Company not receiving an adequate return on invested capital.

Mining Risks and Insurance

The Company is subject to the risks normally encountered in the mining industry, such as unusual or unexpected geological formations, cave-ins or flooding. The Company may become subject to liability for pollution, damage to life or property and other hazards of mineral exploration against which it or the operator of its exploration programs cannot insure or against which it or such operator may elect not to insure because of high premium costs or other reasons. Payment of such liabilities would reduce funds available for acquisition of mineral prospects or exploration and development and could have a material adverse effect on the financial position of the Company.

Competition

The mineral exploration and mining industry is competitive in all phases of exploration, development and production. The Company competes with a number of other entities and individuals in the search for and the acquisition of attractive properties. As a result of this competition, the majority of which is with companies with greater financial resources than the Company, the Company may not be able to acquire attractive properties in the future on terms it considers acceptable. Finally, the Company competes with other resource companies, many of whom have greater financial resources and/or more advanced properties that are better able to attract equity investments and other capital. The ability of the Company to acquire attractive properties in the future depends not only on its success in exploring and developing its present properties and on its ability to select, acquire and bring to production suitable properties or prospects for exploration, mining and development. Factors beyond the control of the Company may affect the marketability of minerals mined or discovered by the Company.

Environmental Protection

The mining and mineral processing industries are subject to extensive governmental regulations for the protection of the environment, including regulations relating to air and water quality, mine reclamation, solid and hazardous waste handling and disposal and the promotion of occupational health and safety which may adversely affect the Company or require it to expend significant funds.

Aboriginal Claims

Aboriginal rights may be claimed on Crown or other types of tenure with respect to which mining rights have been granted. The Company is not aware of any aboriginal claims having been asserted or any legal actions relating to native issues having been instituted with respect to any of the mineral claims in which the Company has an interest. Should aboriginal claims be made against the Property and should government or the courts in favor of the aboriginal people resolve such a claim, it could materially adversely affect the business of James Bay only for the James Bay lowlands property. The Company is fully aware of the mutual benefits afforded by cooperative relationships with indigenous people in conducting exploration activity and is fully supportive of measures established to achieve such cooperation.

Conflicts of Interest

Certain of the directors and officers of the Company may also serve as director and officer of other companies involved in gold and precious metal or other natural resource exploration and development and consequently, the possibility of conflict exists. Any decisions made by such directors involving the Company will be made in accordance with the duties and obligations of directors to deal fairly and in good faith with the Company and such other companies. In addition, such directors declare, and refrain from voting on any matters in which such directors may have a conflict of interest.

Additional Information

Additional information relating to the Company can also be found on SEDAR.

COVID-19 (coronavirus)

The global outbreak of COVID-19 had a significant impact on businesses through restrictions put in place by the Canadian government regarding travel, business operations and isolations/quarantine orders. At this time, it is unknown the extent of the impact the COVID-19 outbreak may have on the Company as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease and the duration of the outbreak, including the duration of travel restrictions, business time, or disruptions and quarantine/isolation measures that are currently, or may be put, in place by Canada and other countries to fight the virus. While the extent of the impact is unknown, we anticipate that this outbreak may cause supply chain disruptions, staff shortages and increased government regulations, all of which may negatively impact the Company's business and financial condition.
