INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Eagle I Capital Corporation

Opinion

We have audited the financial statements of Eagle I Capital Corporation (the "Company"), which comprise the statements of financial position as at May 31, 2020 and May 31, 2019, and the statements of loss and comprehensive loss, changes in shareholders' equity and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at May 31, 2020 and May 31, 2019, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report.

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 1 in the financial statements, which indicates that the Company incurred a net loss of \$8,500 for the year ended May 31, 2020 and has incurred cumulative losses from inception in the amount of \$2,173,811 at May 31, 2020. These conditions, along with other matters as set forth in Note 1, indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information. The other information comprises the Management Discussion and Analysis.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is George G. Lovrics.

Notes to Financial Statements

Years ended May 31, 2020 and 2019

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Eagle I Capital Corporation (“Eagle I” or the “Company”) was incorporated on October 23, 2007 under the Business Corporations Act of British Columbia. Currently the Company is actively pursuing potential business opportunities. The Company’s head office is located at 1049 Chico Street West, Suite 405, Vancouver, British Columbia, V6G 2R7.

These financial statements of the Company were approved and authorized for issue by the Board of Directors (the “Board”) on February 10, 2021.

In October 2008, the Company filed a prospectus with the British Columbia and Alberta Securities Commissions offering 1,500,000 common shares at \$0.20 per share as an initial public offering (the “IPO”). In January 2009, the Company received conditional listing approval from the TSX Venture Exchange (the “Exchange”) and closed IPO for gross proceeds of \$300,000.

The Company began trading its shares on the Exchange on January 14, 2009 under the trading symbol “EIC.P”. The symbol was changed to “EIC” on September 30, 2010 after completion of the qualifying transaction, as described below.

On September 30, 2010, Eagle I invested in Miguel’s Product, LLC (“Miguel’s”), a food snacks business. The acquisition of Miguel’s constituted the Company’s qualifying transaction under the policies of the Exchange.

The business was not successful and was voluntarily liquidated. On June 22, 2011, the Company received a delinquent filer notice from the British Columbia Securities Commission for failure to file its quarterly financial results. The Company did not remedy the delinquency and on August 19, 2011, the Executive Director of the British Columbia Securities Commission (the “BCSC”) issued a cease trade order pursuant to section 164 of the Securities Act (British Columbia) (the “BC Act”), directing that all trading in the securities of Eagle I cease until the order is revoked by the Executive Director (the “BC Cease Trade Order”). The Alberta Securities Commission (the “ASC”) issued a cease trade order dated November 17, 2011 directing that all trading in the securities of Eagle I cease until the order is revoked or varied by the ASC (the “AB Cease Trade Order”; together with the BC Cease Trade Order, the “CTOs”).

These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assume that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due. The Company has a net loss of \$8,500 for the year ended May 31, 2020 (year ended May 31, 2019 – loss of \$Nil) and a deficit of \$2,173,811 as at May 31, 2020 (May

EAGLE I CAPITAL CORPORATION

Notes to Financial Statements

Years ended May 31, 2020 and 2019

(Expressed in Canadian Dollars)

31, 2019 - \$2,165,311). Management believes it will be successful in raising the necessary funds to continue in the normal course of operations or effecting a corporate transaction; however, there is no assurance that these funds will be available on terms acceptable to the Company or at all, or that a corporate transaction will be effected. These financial statements do not include the adjustments that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

Further, On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. This contagious disease outbreak and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. The impact on the Company is not currently determinable, but management continues to monitor the situation.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

These financial statements of the Company were prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the IFRS Interpretations Committee (“IFRIC”). The policies set out below were consistently applied to all periods presented unless otherwise noted.

(b) Basis of consolidation

These financial statements include the accounts of Eagle I Capital Corporation.

(c) Basis of preparation and presentation

These financial statements have been prepared under the historical cost basis. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The financial statements are presented in Canadian dollars, which is also the Company’s functional currency.

(d) Income taxes

Income tax on the profit or loss for the years presented comprises current and deferred tax. Income tax is recognized in the statement of operations except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

EAGLE I CAPITAL CORPORATION

Notes to Financial Statements

Years ended May 31, 2020 and 2019

(Expressed in Canadian Dollars)

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at period end, adjusted for amendments to tax payable with regards to previous years.

In general, deferred tax is recognized in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements unless such differences arise from goodwill or the initial recognition (other than in a business combination) of other assets or liabilities in a transaction that affects neither the taxable profit nor the accounting profit or loss. Deferred income tax is determined on a non-discounted basis using tax rates and laws that have been enacted or substantively enacted at the statement of financial position date and are expected to apply when the deferred tax asset or liability is settled. Deferred tax assets are recognized to the extent that it is probable that the assets can be recovered.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except, in the case of subsidiaries, where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets and liabilities are presented as non-current. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

(e) Loss per common share

Basic loss per share is calculated using the weighted average number of shares outstanding. The diluted loss per share assumes that any proceeds from the exercise of dilutive stock options and warrants would be used to repurchase common shares at the average market price during the period, with the incremental number of shares being included in the denominator of the diluted loss per share calculation. The diluted loss per share calculation excludes any potential conversion of options and warrants that would decrease loss per share. See Notes 3(c), and (d) for details on the Company's potentially dilutive securities. The Company had no outstanding stock options for the years ended May 31, 2020 and 2019.

(f) Significant accounting judgements and estimates

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual

EAGLE I CAPITAL CORPORATION

Notes to Financial Statements

Years ended May 31, 2020 and 2019

(Expressed in Canadian Dollars)

outcomes could differ from these estimates. These financial statements include estimates that, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Critical accounting judgments

- the measurement of income taxes payable and deferred tax assets and liabilities requires management to make judgments in the interpretation and application of the relevant tax laws. Deferred tax assets require management to assess the likelihood that the Company will generate taxable income in future periods in order to utilize recognized deferred tax assets;
- going concern presentation of the financial statements which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due; and
- management's determination that the functional currency of the Company is the Canadian Dollar.

(g) Provisions

A provision is recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be reliably estimated. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract.

(h) Financial Instruments

IFRS 9 - Financial Instruments ("IFRS 9") includes finalized guidance on the classification and measurement of financial assets under IFRS 9, financial assets are classified and measured either at amortized cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") based on the business model in which they are held and the characteristics of their contractual cash flows. IFRS 9 largely retains the existing requirements in IAS 39 - Financial

EAGLE I CAPITAL CORPORATION

Notes to Financial Statements

Years ended May 31, 2020 and 2019

(Expressed in Canadian Dollars)

Instruments: Recognition and Measurement, for the classification and measurement of financial liabilities.

All financial assets not classified at amortized cost or FVOCI are measured at FVTPL. On initial recognition, the Corporation can irrevocably designate a financial asset at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated at FVTPL:

- It is held within a business model whose objective is to hold the financial asset to collect the contractual cash flows associated with the financial asset instead of selling the financial asset for a profit or loss;
- Its contractual terms give rise to cash flows that are solely payments of principal and interest.

All financial instruments are initially recognized at fair value on the statement of financial position. Subsequent measurement of financial instruments is based on their classification. Financial assets and liabilities classified at FVTPL are measured at fair value with changes in those fair values recognized in the statement of loss and comprehensive loss for the period. Financial assets classified at amortized cost and financial liabilities are measured at amortized cost using the effective interest method.

The following table summarizes the classification and measurement for each financial instrument:

Financial Instrument	Classification
Cash	FVTPL
Amounts receivable	Amortized cost
Accounts payable and accrued liabilities	Amortized cost

Financial instruments recorded at fair value on the statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;

EAGLE I CAPITAL CORPORATION

Notes to Financial Statements

Years ended May 31, 2020 and 2019

(Expressed in Canadian Dollars)

Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

- (i) New accounting standards adopted during the year

On June 7, 2017, the IASB issued IFRIC - 23 Uncertainty Over Income Tax Treatments ("IFRIC 23"). IFRIC 23 provides guidance on the accounting for current and deferred tax liabilities and assets in circumstances in which there is uncertainty over income tax treatments. IFRIC 23 is applicable for annual periods beginning on or after January 1, 2019. At June 1, 2019, the Corporation adopted this standard and there was no material impact on the Corporation's financial statements.

On January 13, 2016, the IASB issued IFRS 16 - Leases ("IFRS 16"). The new standard is effective for annual periods beginning on or after January 1, 2019. IFRS 16 will replace IAS 17 - Leases ("IAS 17"). This standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. IFRS 16 substantially carries forward the lessor accounting requirements of IAS 17, while requiring enhanced disclosures to be provided by lessors. Other areas of the lease accounting model have been impacted, including the definition of a lease. Transitional provisions have been provided. As the Corporation has no material lease contracts that fall under IFRS 16, the adoption of this standard has not resulted in any material changes in the financial statements.

3. CAPITAL STOCK

The capital stock is as follows:

- (a) Authorized
Unlimited number of common shares
Unlimited number of preferred shares, issuable in series
- (b) Issued

	Common Shares #	Amount \$
Balance, May 31, 2018, 2019, and 2020	9,965,500	1,756,127

EAGLE I CAPITAL CORPORATION

Notes to Financial Statements

Years ended May 31, 2020 and 2019

(Expressed in Canadian Dollars)

(c) **Stock Options**

The Company does not have stock options outstanding at May 31, 2020 or May 31, 2019.

(d) **Warrants**

As of May 31, 2020 and 2019 there were no outstanding warrants to purchase common shares of the Company.

4. RELATED PARTY TRANSACTIONS

Related parties include directors, officers, close family members, certain consultants and enterprises that are controlled by these individuals as well as certain persons performing similar functions.

In accordance with IAS 24, key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company directly or indirectly, including any directors (executive and non-executive) of the Company.

The Company did not report any remuneration of directors and key management personnel for the year ended May 31, 2020 or May 31, 2019.

Included in statute barred liabilities at May 31, 2020 is \$26,392 (May 31, 2019 - \$26,392) due to former directors and officers of the Company.

These transactions were in the normal course of operations and were measured at the exchange value, which represented the amount of consideration established and agreed to by the related parties. The amounts payable to related parties are unsecured, non-interest bearing and have no fixed terms of repayment.

5. FINANCIAL RISK FACTORS

The Company's risk exposures and the impact on the Company's financial instruments are summarized below. There have been no changes in the risks, objectives, policies and procedures from previous periods.

EAGLE I CAPITAL CORPORATION

Notes to Financial Statements

Years ended May 31, 2020 and 2019

(Expressed in Canadian Dollars)

(a) Credit Risk

The Company's credit risk is primarily attributable to cash. The Company has no significant concentration of credit risk arising from operations. Management believes that the credit risk concentration with respect to cash, and financial instruments included in amounts receivable is remote.

(b) Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet its obligations when due. At May 31, 2020, the Company had cash of \$Nil (May 31, 2019 - \$Nil) available to settle current liabilities of \$8,500, (May 31, 2019 - \$Nil). The Company's accounts payable are subject to normal trade terms.

(c) Market Risk

The Company is exposed to the following market risks:

(i) Interest Rate Risk

The Company has no cash balances and no variable interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

(ii) Foreign Exchange Risk

While the Company's functional currency is the Canadian dollar, major purchases could be transacted in Canadian dollars or United States dollars. As at May 31, 2020, the Company does not hold foreign currency balances.

6. OTHER PAYABLES

During the year ended May 31, 2013, the Company transferred \$300,884 of liabilities (the "Statute-barred Claims") to non-current liabilities on the basis that any claims in respect of the Statute-barred Claims were statute barred under the Limitations Act (British Columbia). The Statute-barred Claims relate to liabilities of third parties. Under IFRS, a financial liability can only be derecognized from the Company's Statement of Financial Position when it is extinguished, meaning only when the contract is discharged or canceled or expires. The effect of the Limitations Act is to prevent a

EAGLE I CAPITAL CORPORATION

Notes to Financial Statements

Years ended May 31, 2020 and 2019

(Expressed in Canadian Dollars)

creditor from enforcing an obligation, but it does not formally extinguish the financial liability under IFRS.

It is the position of management of the Company that the Statute-barred Claims cannot be enforced by the creditors, do not create any obligation for the Company to pay out any cash and do not affect the financial or working capital position of the Company. The Statute-barred Claims are required to be reflected on the Company's Statement of Financial Position as a result of the current interpretation of IFRS, but they are classified as non-current liabilities as the Company has no intention to pay these Statute-barred Claims and the creditors cannot enforce payment of the Statute-barred Claims.

7. INCOME TAXES

- (a) The items causing the Company's effective income tax rate to differ from the combined Canadian federal and provincial statutory rate of 26.5% (2019 – 26.5%) are as follows:

	2020	2019
	\$	\$
Loss before income taxes	8,500	-
Expected income tax recovery	2,253	-
Adjustments to benefit resulting from:		
Benefit of tax losses not recognized	(2,253)	-
Deferred income tax recovery	-	-

- (b) Tax benefits from non-capital loss carry-forwards have not been recorded in the financial statements. These losses, which may reduce taxable income in future years, amount to approximately \$1,085,000 and expires as follows:

Year	Amount (\$)
2028	20,000
2029	119,000
2030	455,000
2031	393,000
2032	40,000
2033	25,000
2034	25,000
2040	8,000
	<u>1,085,000</u>

EAGLE I CAPITAL CORPORATION

Notes to Financial Statements

Years ended May 31, 2020 and 2019

(Expressed in Canadian Dollars)

- (c) Unrecognized deferred tax assets

Deferred income tax assets have not been recognized in respect of the following deductible temporary differences:

	2020	2019
	\$	\$
Non-capital loss carry-forwards	1,085,000	1,077,000
Capital loss carry-forwards	1,189,000	1,189,000
Total	<u>2,274,000</u>	<u>2,266,000</u>

Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Company can use the benefits.

8. CAPITAL MANAGEMENT

The Company manages its capital with the following objectives:

- to ensure sufficient financial flexibility to achieve the ongoing business objectives; and
- to maximize shareholder return through enhancing the share value.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company may manage its capital structure by issuing new shares, repurchasing outstanding shares, adjusting capital spending, or disposing of assets. The capital structure is reviewed by Management and the Board of Directors on an ongoing basis.

The Company's equity comprises of share capital and accumulated deficit, which at May 31, 2020 was \$(309,384) (May 31, 2019 –\$(300,884)).

The Company manages capital through its financial and operational forecasting processes. The Company reviews its working capital and forecasts its future cash flows based on operating expenditures, and other investing and financing activities. Selected information is provided to the Board of Directors of the Company. The Company's capital management objectives, policies and processes have remained unchanged during the year ended May 31, 2020. The Company is not subject to external capital requirements.

EAGLE I CAPITAL CORPORATION

Notes to Financial Statements

Years ended May 31, 2020 and 2019

(Expressed in Canadian Dollars)

9. SUBSEQUENT EVENTS

Subsequent to May 31, 2020, a partial revocation order was issued for the CTOs and the Company closed a private placement through the issuance of 40,000,000 common shares for proceeds of \$100,000.
