The accompanying notes are an integral part of these condensed interim consolidated financial statements.

1. NATURE OF OPERATIONS AND GOING CONCERN

Canadian Palladium Resources Inc. (formerly 21C Metals Inc.) (the "Company") was incorporated on August 25, 2005 under the laws of British Columbia. The Company's head office and registered and records office is Suite 302 – 1620 West 8th Ave, Vancouver, BC, V6J 1V4, Canada. The Company is traded on the Canadian Securities Exchange ("CSE"). The Company is a mineral exploration company focused on acquiring and exploring exploration and evaluation assets in Europe and North America.

At the date of these condensed interim consolidated financial statements, the Company has not identified a known body of commercial grade mineral on any of its exploration and evaluation assets. The ability of the Company to realize the costs it has incurred to date on exploration and evaluation assets is dependent upon the Company identifying a commercial mineral body, to finance its development costs and to resolve any environmental, regulatory or other constraints which may hinder the successful development of the exploration and evaluation assets. To date, the Company has not earned any revenues and is considered to be in the exploration stage.

These condensed interim consolidated financial statements have been prepared assuming the Company will continue on a going concern basis. The Company has incurred losses since its inception and the ability of the Company to continue as a going-concern depends upon its ability to raise adequate financing and to develop profitable operations. These consolidated financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

Management is actively targeting sources of additional financing through alliances with financial, exploration and mining entities, and other business and financial transactions which would assure continuation of the Company's operations and exploration programs. In addition, management closely monitors the commodity prices and other developments in the natural resources market, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company if favorable or adverse market conditions occur. Based on its working capital as at June 30, 2020, the Company estimates that it will need additional capital to operate for the next 12 months. There can be no assurance that the Company will be successful in its future financing attempts.

On March 11, 2020, various authorities declared a pandemic related to COVID-19 resulting in restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. These restrictions are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Company operates. The Company believes that these potential delays are temporary and it expects to resume its pursuits as restrictions are alleviated. As a result of COVID-19, the Company temporarily suspended its drilling program on its East Bull palladium property in March 2020 and may continue to have a negative impact on the stock markets, affecting trading prices of the Company's shares and its ability to raise new capital. These material uncertainties may cast significant doubt on the Company's ability to continue as a going concern.

2. BASIS OF PRESENTATION

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB") and the interpretations of the IFRS Interpretations committee. They do not include all disclosures required by International Financial Reporting Standards ("IFRS") for annual financial statements, and therefore, should be read in conjunction with the Company's audited consolidated financial statements for the year ended September 30, 2019, prepared in accordance with IFRS as issued by the IASB.

The condensed interim consolidated financial statements were authorized for issue by the Board of Directors on August XX, 2020.

2. BASIS OF PRESENTATION (continued)

Basis of Measurement

These condensed interim consolidated financial statements have been prepared on the historical cost basis, except for financial instruments classified as held for trading that have been measured at fair value. Cost is the fair value of consideration given in exchange for net assets.

Functional and presentation currency

These condensed interim consolidated financial statements are presented in Canadian dollars, unless otherwise noted, which is the functional currency of the parent and its subsidiaries.

Basis of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its subsidiaries. Intercompany balances and transactions, and any unrealized income and expenses arising from intercompany transactions, are eliminated in preparing the consolidated financial statements.

Name of Subsidiary	Place of Incorporation	Proportion of Ownership Interest	Principal Activity
Declan Resources (Wyoming) LLC	U.S.A.	100%	Dormant
East Bull Resources Inc.	Canada	100%	Exploration
Tisova Pty. Ltd.	Czech Republic	100%	Exploration
TGER Pty. Ltd.	Germany	100%	Exploration
5498 Nunavut Inc.	Nunavut	100%	Exploration

Significant Accounting Judgments, Estimates and Assumptions

In the application of the Company's accounting policies which are described in Note 3, management is required to make judgments, estimates, and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, revenue and expenses and are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and management's assessment of current events and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods, if the revision affects both current and future periods.

2. BASIS OF PRESENTATION (continued)

Use of estimates and judgments (continued)

Significant judgments, estimates and assumptions that have the most significant effect on the amounts recognized in these condensed interim consolidated financial statements include:

Estimates:

Share-based compensation

The fair value of stock options issued are subject to the limitation of the Black-Scholes option pricing model, which incorporates market data and involves uncertainty in estimates used by management in the assumptions. The Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share prices, and, as a result, changes in subjective input assumptions can materially affect the fair value estimate.

Judgements:

Determination of functional currency

The functional currency of the Company and its subsidiary is the currency of the primary economic environment in which each entity operates. The Company has determined the functional currency of each entity to be the Canadian dollar. Determination of the functional currency may involve certain judgments to determine the primary economic environment. The functional currency may change if there is a change in events and conditions which determines the primary economic environment.

Deferred acquisition costs
The Company entered into an agreement to acquire companies holding mineral projects during the year ended September 30, 2018. The acquisitions were accounted for as advances toward the purchase of a company interest in accordance with IFRS 10, Consolidated Financial Statements and capitalized to the statement of financial position. Upon gaining control, in October 2019, the Company consolidated the entities.

The carrying value and the recoverability of exploration and evaluation assets

Management has determined that exploration, evaluation and related costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including geologic and other technical information, history of conversion of mineral deposits with similar characteristics to its own properties to proven and probable mineral reserves, scoping and feasibility studies, accessible facilities and existing permits.

3. SIGNIFICANT ACCOUNTING POLICIES

These condensed interim consolidated financial statements were prepared using the same accounting policies and methods of computation as in the Company's annual consolidated financial statements for the year ended September 30, 2019.

(Expressed in Canadian dollars)

4. RECENT ACCOUNTING PRONOUNCEMENTS

The Company has adopted IFRS 16 for leases as at October 1, 2019, in accordance with its transitional provisions and described below. The adoption of IFRS 16 has not resulted to adjustments in previously reported figures and no change to the opening deficit balance as at October 1, 2019.

IFRS 16, Leases

This new standard replaces the existing leasing guidance in IAS 17, Leases.

IFRS 16 distinguishes between leases and service contracts on the basis of whether the customer controls the asset being leased. For those contracts determined to meet the definition of a lease, IFRS 16 requires a lessee to recognize on the balance sheet a lease asset along with the associated lease liability which reflects future lease payments, similar to current finance lease accounting. There are limited exceptions for leases with a term of less than 12 months or leases of assets which have a very low value. As a result of the adoption of IFRS 16, operating leases which were previously only recognized on the statement of earnings will be recognized on the balance sheet.

The purpose of the standard is to provide users of the financial statements with a more accurate picture of a company's leased assets and associated liabilities, while also improving the comparability of companies that lease assets to those that purchase them.

The adoption of IFRS 16 did not have any significant impact on the Company's condensed interim consolidated financial statements.

5. RECEIVABLES

As at June 30, 2020, receivables consist of the following:

	June 30, 2020	**September 30, 2019**
	($)	**($)**
GST receivable	26,267	11,624
Other receivables	20,585	22,967
Interest receivable	465	465
	47,317	35,056

(Expressed in Canadian dollars)

6. SHORT-TERM INVESTMENTS

9. EXPLORATION AND EVALUATION ASSETS

Turner Lake Property

On July 5, 2017, the Company acquired all of the shares of 5498 Nunavut Inc. ("5498") in exchange for consideration of $25,000. 5498's only asset is the Turner Lake property located in Nunavut, of which 5498 is the registered and beneficial owner of a 100% interest in and to the mineral claims in the Turner Lake property.

During the year ended September 30, 2018, the Company entered into a mineral purchase agreement with Pacific Cascade Ventures ("PCV") whereby PCV would purchase 100% of the interest in and to the mineral claims of the Turner Lake Property in exchange for 1,000,000 common shares of PCV to be delivered to the Company within 10 days after PCV receives regulatory approval for the transaction. The Company will also be reimbursed $46,720 by PCV, representing prior cash expenditures incurred on the property. Upon commencement of commercial production, PCV shall pay a royalty to the Company equal to 1% of net smelter returns royalty ("NSR"), which may be purchased for the sum of $1,000,000 at any time after commercial production.

As at June 30, 2020, the Company has recorded $26,940 (September 30, 2019 - $26,940) related to the acquisition of the Turner Lake property. During the nine-month period ended June 30, 2020, the Company incurred $Nil (2019 - $Nil) in claim fees on the Turner Lake property. As at June 30, 2020, PCV has not yet received Exchange approval and this transaction is pending.

Tisová/TGER European Copper-Cobalt Properties

On July 6, 2018 the Company entered into an arm's length share purchase agreement to purchase 100% of the shares of Tisová Pty. Ltd. ("Tisova") And TGER Pty. Ltd. ("TGER"). Tisová and TGER are private companies which have been granted 100% interest in and to certain mineral concessions located in the Czech Republic and Germany.

Pursuant to the agreement, and in exchange for the Tisová and TGER shares, the company is committed to issue, in aggregate, to the shareholders of Tisová and TGER the following:

- $60,000 cash to the vendors upon execution of the agreement (paid);
- Upon satisfaction of certain conditions precedent, issue 1,500,000 common shares of the Company to the vendors on the closing date (issued);
- Spend $1,000,000 on the properties by July 1, 2019, and issue an aggregate of 2,500,000 common shares of the Company to the vendors at such time (issued);
- Spend an additional $1,000,000 on the properties each year for the next three years and no later than July 1, 2022 and issue an additional 4,000,000 common shares of the Company to the vendors.

If the Company fails to satisfy any of the above requirements, the shares of Tisová and TGER will be returned to the original vendors. On October 23, 2018, the Company issued 1,500,000 common shares with fair value of $450,000 in exchange for 100% ownership of Tisová and TGER, subject to the above terms, and their respective mineral concessions. A finder's fee was issued in connection with this closing through the issuance of 46,875 common shares with a fair value of $14,063. The related mineral concessions are subject to a 1.5% NSR of which one-half can be purchased for $750,000.

During the year ended September 30, 2019, the Company incurred the minimum $1,000,000 in exploration expenditures on the properties and pursuant to the above agreement has issued an aggregate of 2,500,000 common shares with a fair value of $525,000. The Company paid a finder's fee by way of the issuance of 78,125 common shares with a fair value of $16,406.

(Expressed in Canadian dollars)

9. EXPLORATION AND EVALUATION ASSETS (continued)

East Bull Palladium Property

On February 26, 2019, the Company entered into an option agreement through its newly incorporated and wholly-owned subsidiary, East Bull Resources Inc. with Pavey Ark Minerals Inc. ("Pavey Ark") to acquire a 100% interest in the East Bull palladium property in the Sudbury mining division, Ontario (the "Agreement"). Pursuant to the Agreement, and over a period of four years (should the Company elect to continue), the Company is obliged to incur $1,750,000 in exploration expenditures, issue $975,000 in cash payments, and issue an aggregate of 4.5 million common shares of the Company to Pavey Ark in accordance with the following schedule:

Minimum Exploration Expenditures	Common Shares Issued	Cash Issued	Due Date
-	-	$25,000	On Term Sheet signing (paid)
-	750,000	$75,000	Within 5 days of signing (paid and issued)
$250,000	750,000	$150,000	On or before March 1, 2020 (paid and issued)
$500,000	1,000,000	$200,000	On or before March 1, 2021
$500,000	1,000,000	$250,000	On or before March 1, 2022
$500,000	1,000,000	$300,000	On or before March 1, 2023
$1,750,000	4,500,000	$975,000	

If the Company fails to satisfy any of the above requirements, the East Bull property will be returned to the original vendors.

Agnew Lake Property

During the year ended September 30, 2019, the Company acquired a palladium project in Ontario through staking. The Agnew Lake property comprises over 260 claims (about 6,000 hectares) and is part of the larger East Bull Lake-Agnew Lake mafic-ultramafic complex.

During the nine-month period ended June 30, 2020, the Company incurred $906,247 (2019 - $1,160,416) in exploration expenses on its mineral properties.

A schedule of exploration and evaluation assets during the nine-month period ended June 30, 2020 is as follows:

	Turner Lake	**TGER**	**Tisová**	**East Bull**	**Agnew Lake**	**Total**
	($)	**($)**	**($)**	**($)**	**($)**	**($)**

Each unit consists of one common share and one transferable common share purchase warrant. Each warrant shall

(Expressed in Canadian dollars)

11. SHARE CAPITAL AND RESERVES (continued)

entitle the holder thereof to acquire one share at a price of $0.30 for a period of 24 months following the closing date.

On June 4, 2019 the Company closed the second tranche of a non-brokered private placement through the issuance of 140,000 units at a price of $0.18 for aggregate gross proceeds of $25,200 Each unit consists of one common share and one transferable common share purchase warrant. Each warrant shall entitle the holder thereof to acquire one share at a price of $0.30 for a period of 24 months following the closing date. In connection with the first and second tranches, the Company paid finder's fees totaling $184,948 and issued a total of 100,450 finder's fee warrants, each of which is exercisable to acquire one share at a price of $0.30 for a period of 24 months from the date of issue.

On July 2, 2019 the Company issued 2,500,000 common shares pursuant to the Tisová Pty. Ltd. And TGER Pty. Ltd. acquisitions (Note 9). In connection with this acquisition, the Company also issued 78,125 common shares as a finder's fee to an arm's length person.

c) Stock options

The Company may grant incentive stock options to its officers, directors, employees and consultants. The Company has a fixed Stock Option Plan (the "Plan") whereby the Company has reserved 10% of the issued shares for issuance under the Plan. Options have a maximum term of ten years and terminate after a certain number of days following the termination of the optionee's term/employment, except in the case of death, in which case they terminate one year after the event. Vesting is determined by the Board of Directors.

A continuity schedule of outstanding stock options is as follows:

	Number Outstanding	Weighted Average Exercise Price ($)
Balance - September 30, 2018	3,000,000	0.54
Granted	3,960,000	0.22
Exercised	(250,000)	0.18
Cancelled	(250,000)	0.39
Expired	(200,000)	2.70
Balance – September 30, 2019	6,260,000	0.29
Granted	3,000,000	0.20
Exercised	(250,000)	0.18
Balance – June 30, 2020	9,010,000	0.26

During the nine-month period ended June 30, 2020, the Company granted 3,000,000 stock options (2019 – 3,460,000), recognizing $391,234 (2019 - $454,565) in share-based compensation relating to options vesting during the period.

As at June 30, 2020, the Company had incentive stock options enabling the holders to acquire further common shares as follows:

	589,245	492,115

a) As at June 30, 2020, included in accounts payable and accrued liabilities was $161,975 (September 30, 2019 - $175,085) owing to current and former officers and directors.
b) Accounts payable as of June 30, 2020 includes $12,042 (September 30, 2019 - $12,042) in notes payable accrued interest to corporations controlled by related parties.
c) During the nine-month period ended June 30, 2020, the Company issued notes payable of $23,600 (September 30, 2019 - $Nil) to corporations controlled by related parties and repaid $23,600 of those notes.

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial risk management

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
Level 3 – Inputs that are not based on observable market data.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's financial instruments consist of cash, short-term investments, receivables, restricted deposits, accounts payable and notes payable.

The Company classified its cash and short-term investments as fair value through profit or loss; receivables and restricted deposits as amortized cost; and accounts payable and notes payable as amortized cost. The fair values of cash and short-term investments are measured on the statement of financial position using level 1 of the fair value hierarchy. The fair values of receivables, restricted deposits and accounts payable approximate their book values because of the short-term nature of these instruments.

Financial instrument risk exposure

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board approves and monitors the risk management processes.

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Credit risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its payment obligations. The Company has no material counterparties to its financial instruments with the exception of the financial institutions which hold its cash. The Company manages this credit risk by ensuring that these financial assets are placed with a major financial institution with strong investment grade ratings by a primary ratings agency. The Company's receivables consist primarily of goods and services tax due from the government and other receivables; the balances are in good standing as at June 30, 2020. The Company does not believe it has a material exposure to credit risk.

Liquidity risk

The Company ensures that there is sufficient capital in order to meet short-term business requirements, after taking into account the Company's holdings of cash. The Company's cash is invested in business accounts which are available on demand. The Company has a planning and budgeting process in place by which it anticipates and determines the funds required to support its normal operating requirements.

The Company's ongoing liquidity is impacted by various external events and conditions. The Company expects to repay its financial liabilities, consisting of accounts payable and accrued liabilities and notes payable, in the normal course of operations and to fund future operational and capital requirements future equity and debt financing.

To the extent that the Company does not believe it has sufficient liquidity to meet these obligations, management will seek to secure additional funds through long term debt and equity transactions.

Interest rate risk

The Company is exposed to interest rate risk. The Company's bank account earns interest income at variable rates. The fair value of its portfolio is relatively unaffected by changes in short-term interest rates. Interest rate risk is minimal as the Company does not have significant interest bearing assets or any variable interest bearing liabilities that are tied into market rates.

Foreign exchange risk

The Company is not exposed to any significant foreign currency risk.

Commodity price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of precious and base metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company. Fluctuations in pricing may be significant.

(Expressed in Canadian dollars)

14. MANAGEMENT OF CAPITAL

The Company manages its common shares, stock options and share purchase warrants as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of its exploration and evaluation assets and to maintain a flexible capital structure which optimizes the cost of capital at an acceptable risk. The Company is not subject to any externally imposed capital requirements.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt or acquire or dispose of assets.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions.

In order to maximize ongoing exploration efforts, the Company does not pay out dividends. The Company's investment policy is to keep its cash treasury invested in certificates of deposit with major financial institutions.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company has historically relied on the equity markets to fund its activities. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. There have been no changes to the Company's approach to capital management during the nine-month period ended June 30, 2020.

15. SEGMENTED INFORMATION

The Company operates in one industry segment being the acquisition and exploration of mineral exploration and evaluation assets. The total assets attributable to the geographical locations relate primarily to exploration and evaluation assets that are located in Canada and Europe.

16. COMMITMENTS

The Company entered into a cost sharing arrangement agreement for the provision of office space and various administrative services. Under the terms of the agreement, the Company will pay $7,000 plus GST per month commencing on December 1, 2017, increasing to $7,700 effective February 1, 2019, and further increasing to $8,470 effective February 1, 2020 and continuing until the expiration of the underlying head lease on July 31, 2021.

Fiscal Year	**Amount**
	($)
2020	25,410
2021	84,700

17. SUBSEQUENT EVENTS

On July 28, 2020, the Company announced the completion of the sale of the Turner Lake property located in Nunavut, Canada, pursuant to a mineral purchase agreement entered into with Pacific Cascade Minerals Inc. (PCV), as previously announced on Sept. 13, 2018. Under the terms of the agreement PCV agreed to purchase a 100-per-cent-right title and interest in the property in exchange for one million common shares of PCV which were delivered to the company after PCV received TSX Venture Exchange approval for the transaction. The company was also reimbursed $46,720 by PCV representing prior cash expenditures incurred on the property. Upon commencement of commercial production, PCV shall pay a royalty to the company equal to 1 per cent of net smelter returns, which may be purchased for the sum of $1-million at any time after commercial production.
