Clean Energy Update: Plateau Solar Project Breaks Ground

Vancouver, BC—Enertopia Corporation (ENRT-OTCQB) (TOP-CNSX) (the "Company" or "Enertopia") CTO Mr. Mark Snyder announced the launching of a solar project partially funded by the USDA Rural Development and by Renewal Energy Investment Funds, administered by Grand Canyon Trust. The initial five houses of this project have commenced work, of a thirty-five home rollout. Funding is currently being sought to build another 500 home systems after the current phase is complete.

The project is located on the Navajo Nation and will be providing electricity, heat, and clean running water. Currently there are 18,000 homes that do not have electricity and running water on the Navajo Nation.

“I am very happy to share my 37 years of experience to create green jobs and to train skilled Navajo solar installers in PV, solar thermal, clean water, electrical, plumbing and high efficiency housing”, said Mark Snyder, President of Global Solar Water Power Systems – partially owned by Enertopia Corp.

The Plateau Solar Project utilizes the many forms of solar energy designed to work together to provide modern living conveniences in homes that often lack indoor lighting and plumbing. High efficiency Day4 solar photovoltaic power modules; Solar Roofs solar thermal hot air modules for space heating; Solar Roofs hot water panels; solar water purification; solar water pumping; solar gray water systems; solar powered composting toilets; solar powered cooling and ventilation; and, solar powered communication. This project includes a climate controlled structure, **the Enertopia Multi-Purpose Utility Structure (EMPUS), a patented product by Global Solar Water Power System (GSWPS).**

Enertopia President Robert McAllister stated: “I am extremely proud of Mark’s achievements in design and patent development over the past two years. Mark proves that creativity and compassion do co-exist in our world today. Enertopia looks forward to the growing adoption of GSWPS technology.”

This release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Statements which are not historical facts are forward-looking statements. Statements which are not

historical facts are forward-looking statements. The Company makes forward-looking public statements concerning its expected future financial position, results of operations, cash flows, financing plans, business strategy, products and services, evaluation of clean energy projects for participation and/or financing, competitive positions, growth opportunities, plans and objectives of management for future operations, including statements that include words such as "anticipate," "if," "believe," "plan," "estimate," "expect," "intend," "may," "could," "should," "will," and other similar expressions that are forward-looking statements. Such forward-looking statements are estimates reflecting the Company's best judgment based upon current information and involve a number of risks and uncertainties, and there can be no assurance that other factors will not affect the accuracy of such forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding potential reserves, exploration results, development or production programs, capital and operating expenditures, future revenue estimates, ability to produce or concentrate, availability of future financing and future plans and objectives of Enertopia Corporation. Actual results relating to, among other things, reserves, results of exploration, capital costs, corporate finance, and production costs could differ materially from those currently anticipated in such statements. Some but not all of the factors affecting forward-looking statements include: the speculative nature of mining exploration, production and development activities; changes in reserve estimates; the productivity of Enertopia's proposed properties; changes in the operating costs; changes in economic conditions and conditions in the resource, foreign exchange and other financial markets; changes of the interest rates on borrowings; hedging activities; changes in commodity prices; changes in the investments and exploration expenditure levels; litigation; legislation; environmental, judicial, regulatory, political and competitive developments in areas in which Enertopia Corporation operates; technological, and mechanical and operational difficulties encountered in connection with Enertopia's exploration and development activities. The User should refer to the risk disclosures set out in the periodic reports and other disclosure documents filed by Enertopia Corporation from time to time with regulatory authorities. The Company's evaluation of alternative energy projects in the heat recovery, solar thermal, solar PV and water purification; and of resource projects provides no assurance that any particular project will have any material effect on the Company. There is no assurance that the investment in GSWPS will have any measurable impact upon the company and there can be no assurance that 500 homes will be retro fitted on the Navajo Nation.

The CNSX has not reviewed and does not accept responsibility for the adequacy or accuracy of this release.
