COPPER HILLS PROJECT UPDATE

Vancouver, BC—Enertopia Corporation (ENRT-OTCBB) (TOP-CNSX) (the "Company" or "Enertopia") is pleased to update all stakeholders that the 43-101 Technical Report on Copper Hills is due to be released shortly.

The Copper Hills project covering 56 located mining claims over 1,150 acres is located west of Socorro, New Mexico on BLM lands. Planning is currently underway for a site visit to assist with and prepare for the upcoming work programs expected to take place at various times during 2011.

"We believe Copper Hills offers an exciting near-surface copper-silver-oxide target with the potential for deeper sulphide targets," said Robert McAllister, president.

About Enertopia

Enertopia's shares are quoted in the USA with symbol ENRT and in Canada with symbol TOP. The company searches for projects that could provide potential above-market returns. This release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Statements which are not historical facts are forward-looking statements. Statements which are not historical facts are forward-looking statements. The Company makes forward-looking public statements concerning its expected future financial position, results of operations, cash flows, financing plans, business strategy, products and services, evaluation of clean energy projects for participation and/or financing, competitive positions, growth opportunities, plans and objectives of management for future operations, including statements that include words such as "anticipate," "if," "believe," "plan," "estimate," "expect," "intend," "may," "could," "should," "will," and other similar expressions that are forward-looking statements. Such forward-looking statements are estimates reflecting the Company's best judgment based upon current information and involve a number of risks and uncertainties, and there can be no assurance that other factors will not affect the accuracy of such forward-looking statements. Factors which could cause actual results to differ materially from those estimated by the Company include, but are not limited to, government regulation, managing and maintaining growth, the effect of adverse publicity, litigation, competition, access to capital, and other factors which may be identified from time to time in the Company's public announcements and filings. The Company's evaluation of alternative energy projects in the heat recovery, solar thermal, solar PV and water purification; and of resource projects provides no assurance that any particular project will have any material effect on the Company.
