QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended February 29, 2016

or

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 000-51866

Enertopia Corporation

(Exact name of registrant as specified in its charter)

Nevada

(State or other jurisdiction of incorporation or organization)

20-1970188

(IRS Employer Identification No.)

950 – 1130 West Pender Street, Vancouver, BC

(Address of principal executive offices)

V6E 4A4

(Zip Code)

604-602-1675

(Registrant's telephone number, including area code)

Enertopia Corporation

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a small reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act)

YES NO

**APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY
PROCEEDINGS DURING THE PRECEDING FIVE YEARS**

Check whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Exchange Act after the distribution of securities under a plan confirmed by a court.

YES NO

APPLICABLE ONLY TO CORPORATE ISSUERS

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

71,608,460 common shares issued and outstanding as of February 29, 2016

PART 1 – FINANCIAL INFORMATION

Item 1. Financial Statements.

Our unaudited condensed financial statements for the six months period ended February 29, 2016 form part of this quarterly report. They are stated in United States Dollars (US\$) and are prepared in accordance with United States generally accepted accounting principles.

ENRTOPIA CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS (unaudited)
February 29, 2016
(Expressed in U.S. Dollars)

1. ORGANIZATION

The unaudited condensed financial statements for the period ended February 29, 2016 included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with United States generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These unaudited condensed financial statements should be read in conjunction with the August 31, 2015 audited annual financial statements and notes thereto.

The Company was formed on November 24, 2004 under the laws of the State of Nevada and commenced operations on November 24, 2004. The Company was an independent natural resource company engaged in the exploration, development and acquisition of natural resources in the United States and Canada. In the fiscal year 2010, the Company shifted its strategic plan from its non-renewal energy operations to its planned renewal energy operations and natural resource acquisition and development. In late summer of 2013, the Company added another business sector in its entrance to alternative health and wellness and is considered a development stage company. The Company has offices in Vancouver and Kelowna, B.C., Canada.

Effective September 25, 2009, the Company effected one (1) for two (2) share consolidation of our authorized and issued and outstanding common stock.

On February 8, 2010, the Company changed its name from Golden Aria Corp. to Enerptopia Corp.

On February 22, 2010, the Company increased its authorized share capital to 200,000,000 common shares.

2. GOING CONCERN UNCERTAINTY

The accompanying unaudited condensed financial statements have been prepared on a going concern basis which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business for the foreseeable future. The Company incurred a net loss of \$303,966 for the six months ended February 29, 2016 [net loss of \$1,301,654 for the six months ended February 29, 2015] and as at February 29, 2016 has incurred cumulative losses of \$12,219,062 that raises substantial doubt about its ability to continue as a going concern. Management has been able, thus far, to finance the operations through equity financing and cash on hand. There is no assurance that the Company will be able to continue to finance the Company on this basis.

In view of these conditions, the ability of the Company to continue as a going concern is in substantial doubt and dependent upon its ability to generate sufficient cash flow to meet its obligations on a timely basis, to obtain additional financing as may be required, to receive the continued support of the Company's shareholders, and ultimately to obtain successful operations. There are no assurances that we will be able to obtain further funds required for our continued operations. As noted herein, we are pursuing various financing alternatives to meet our immediate and long-term financial requirements. There can be no assurance that additional financing will be available to us when needed or, if available, that it can be obtained on commercially reasonable terms. If we are not able to obtain the additional financing on a timely basis, we will be unable to conduct our operations as planned, and we will not be able to meet our other obligations as they become due. In such event, we will be forced to scale down or perhaps even cease our operations. There is significant uncertainty as to whether we can obtain additional financing. These unaudited condensed financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying unaudited condensed financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Presentation

The accompanying condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) for interim financial information and the instructions to Securities and Exchange Commission (“SEC”) Form 10-Q and Article 10 of SEC Regulation S-X. They do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. Therefore, these financial statements should be read in conjunction with our audited financial statements and notes thereto for the year ended August 31, 2015.

The Company early adopted Accounting Standards Update No. 2014-10, Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements. This standard removes all incremental financial reporting requirements from U.S. generally accepted accounting principles for development stage entities, including the removal of Topic 915 from the FASB Accounting Standards Codification. Upon adoption, the Company no longer reports its operations as a development stage entity and eliminated all inception to date information.

b) Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, we evaluate our estimates, judgments, and assumptions, including those related to revenue recognition, inventory valuation, and stock based compensation (expense and liability). Our estimates, judgments, and assumptions are based on historical experience, future expectations, and other factors which we believe to be reasonable. Actual results could differ from those estimates and assumptions.

c) Recently Adopted Accounting Pronouncements

In June 2014, the FASB issued Accounting Standards Update No. 2014-10, Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements, Including an Amendment to Variable Interest Entities Guidance in Topic 810, Consolidation (“ASU 2014-10”). The amendments in ASU 2014-10 remove all incremental financial reporting requirements from GAAP for development stage entities, including the removal of Topic 915, Development Stage Entities, from the FASB Accounting Standards Codification. ASU 2014-10 is effective for the first annual period beginning after December 15, 2014. Early adoption is permitted and the Company adopted ASU 2014-10 in the fourth quarter of 2015 which consisted principally of removing inception to date information on the Company’s statements of operations, equity and cash flows as well as other inception to date disclosures in the notes to its financial statements.

d) New Accounting Pronouncements

FASB ASU 2014-09, “Revenue from Contracts with Customers,” was issued May 2014 and updates the principles for recognizing revenue. The ASU will supersede most of the existing revenue recognition requirements in U.S. GAAP and will require entities to recognize revenue at an amount that reflects the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. This ASU also amends the required disclosures of the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The guidance is effective for annual periods beginning after December 15, 2016, including interim periods within that period. Early adoption is not permitted under U.S. GAAP. The Company is determining its implementation approach and evaluating the potential impacts of the new standard on its existing revenue recognition policies and procedures.

FASB ASU 2014-12, "Compensation - Stock Compensation (Topic 718), Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period," was issued June 2014. This guidance was issued to resolve diversity in accounting for performance targets. A performance target in a share-based payment that affects vesting and that could be achieved after the requisite service period should be accounted for as a performance condition and should not be reflected in the award's grant date fair value. Compensation cost should be recognized over the required service period, if it is probable that the performance condition will be achieved. The guidance is effective for annual periods beginning after December 15, 2015 and interim periods within those annual periods. The Company does not anticipate a significant impact upon adoption.

FASB ASU 2014-15, "Presentation of Financial Statements-Going Concern (Subtopic 205-40) Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern," which was issued September 2014. This provides guidance on determining when and how to disclose going-concern uncertainties in the financial statements. The new standard requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued. An entity must provide certain disclosures if conditions or events raise substantial doubt about the entity's ability to continue as a going concern. The ASU applies to all entities and is effective for annual periods ending after December 15, 2016, and interim periods thereafter, with early adoption permitted. The Company does not anticipate a significant impact upon adoption.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company's financial statements upon adoption.

4. MARKETABLE SECURITIES

As at February 29, 2016 marketable securities consist of 375,000 common shares of Cheetah Oil & Gas Ltd. obtained through the disposal of the Company's oil and gas properties in Mississippi in 2010. The Company classified the securities owned as held-for-trade and recorded at fair value.

The fair value of the common shares of Cheetah Oil & Gas Ltd. was \$0.01 per share as at February 29, 2016 (August 31, 2015 - \$0.01).

As at February 29, 2016 marketable securities consist of 436,000 common shares of Lexaria Corp. obtained through Definitive Agreements as per Note 6. The Company classified the securities owned as held-for-trade and recorded at fair value.

The fair value of the common shares of Lexaria Corp. was \$0.09 per share as at February 29, 2016.

5. LONG TERM INVESTMENTS

Global Solar Water Power Systems Inc. ("GSWPS")

On February 28, 2010, the Company entered into an Asset and Share Purchase Agreement with the Company's former chief technical officer - Mr. Mark Snyder to acquire up to 20% ownership interest of GSWPS.

During the year ended August 31, 2013, based on the management's assessment of GSWPS's current operations, the Company decided to write down long-term investment in GSWPS to \$1.

Pro Eco Energy USA Ltd.

During the year ended August 31, 2008, the Company purchased 900,000 shares in Pro Eco Energy USA Ltd. ("Pro Eco Energy") for \$45,000. During the year ended August 31, 2014, the Company sold its investment in Pro Eco Energy to Western Standard Energy Corp. for \$40,000. During the year ended August 31, 2015, 600,000 shares of Pro Eco Energy was returned to the Company and the receivable from Western Standard Energy Corp. was settled. As at February 29, 2016 the Company owns 600,000 common shares of Pro Eco Energy, with carrying amount of \$22,182, which represented 6.55% ownership. The Company has no significant influence in Pro Eco Energy.

6. INVENTORY

During the fiscal year August 31, 2015, the Company launched a new product line V-Love™. As at February 29, 2016, the Company had inventory of \$31,539 (August 31, 2015: \$37,066) relating to V-Love™ products. Net sales for the six months ended February 29, 2016 were \$14,014 (February 28, 2015: \$nil) with \$7,515 (February 28, 2015: \$nil) in cost of goods sold and \$4,608 (February 28, 2015: \$5,364) in research and development costs. During the sixed month ended February 29, 2016, the Company also filed all final paperwork for patent for V-Love™ in the United States.

7. RELATED PARTIES TRANSACTION

For the six months ended February 29, 2016, the Company was party to the following related party transactions:

- Paid/accrued \$39,000 (February 28, 2015: \$39,000) to the President of the Company in consulting fees.
- Paid/accrued \$45,000CAD (February 28, 2015: \$45,000CAD) in consulting fees to a company controlled by the CFO of the Company.
- \$108,098 (August 31, 2015: \$76,288) was payable to the President and a company controlled by a CFO of the Company.
- Incurred share based compensation expenses of \$24,404 in relation to stock options issued to key management personnel (February 28, 2015: \$103,111).

The related party transactions are recorded at the exchange amount established and agreed to between the related parties.

8. COMMON STOCK

On February 4, 2016, the Company's Board has appointed Olivier Vincent as an Advisor the Board of Directors and a consultant for a term of one year. The Company issued 100,000 common shares at an exercise price of \$0.05 per share.

As at February 29, 2016 the Company had 71,608,460 shares issued and outstanding and August 31, 2015, the Company had 71,508,460 shares issued and outstanding.

9. STOCK OPTIONS AND WARRANTS

Stock Options

On July 15, 2014, the shareholders approved and adopted at the Annual General Meeting the Company's 2014 Stock Option Plan. On April 14, 2011, the shareholders approved and adopted at the Annual General Meeting to consolidate the Company's 2007 Equity compensation plan and the Company's 2010 Equity Compensation Plan into a new Company 2011 Stock Option Plan. The purpose of these Plans is to advance the interests of the Corporation, through the grant of Options, by providing an incentive mechanism to foster the interest of eligible persons in the success of the Corporation and its affiliates; encouraging eligible persons to remain with the Corporation or its affiliates; and attracting new Directors, Officers, Employees and Consultants.

On November 3, 2014 the Company granted 2,100,000 stock options to directors, officers, and consultant of the Company with an exercise price of \$0.10 vested immediately, expiring November 3, 2019.

On November 18, 2014, the Company granted 100,000 stock options to consultant of the Company with an exercise price of \$0.10 vested immediately, expiring November 13, 2019.

On October 23, 2015, the Company granted 1,850,000 stock options to directors, officers and consultant of the Company with an exercise price of \$0.05 vested immediately, expiring October 23, 2020.

On February 4, 2016, the Company granted 100,000 stock options to Advisor of the Board of the Company with an exercise price of \$0.05 vested immediately, expiring February 4, 2021.

For the six months ended February 29, 2016, the Company recorded \$37,107 (February 28, 2015 – \$177,596) stock based compensation expenses which has been included in consulting fees.

A summary of the changes in stock options for the six months ended February 29, 2016 is presented below:

	Options Outstanding	
	Number of Shares	Weighted Average Exercise Price
Balance, August 31, 2015	3,955,000	\$ 0.20
Cancelled	(1,550,000)	0.16-0.70
Expired	(655,000)	0.15-0.20
Granted	1,950,000	0.05
Balance, February 29, 2016	3,700,000	\$ 0.07

The fair value of options granted has been estimated as of the date of the grant by using the Black-Scholes option pricing model with the following assumptions:

	February 29, 2016	August 31, 2015
Expected volatility	220%-216%	216%-219%
Risk-free interest rate	1.25%-1.43%	1.63%-1.79%
Expected life	5.00 years	5.00 years
Dividend yield	0.00%	0.00%
Estimated fair value per option	\$0.01-\$0.05	\$0.05-\$0.07

The Company has the following options outstanding and exercisable.

February 29, 2016	Options outstanding			Options exercisable	
Exercise prices	Number of shares	Remaining contractual life	Exercise Price	Number of shares exercisable	Exercise Price
\$0.05	100,000	4.94 years	\$0.05	100,000	\$0.05
\$0.05	1,800,000	4.65 years	\$0.05	1,800,000	\$0.05
\$0.15	150,000	0.02 years	\$0.15	100,000	\$0.15

 - b. On or before six months after the closing of the Definitive Purchase Agreement, the Company shall make a cash payment of \$25,000;
 - c. On or before the first anniversary of the closing of the Definitive Purchase Agreement, the Company shall make a final cash payment for \$25,000
-

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This quarterly report contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "should", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled "Risk Factors", that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our unaudited condensed financial statements are stated in United States Dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles. The following discussion should be read in conjunction with our unaudited condensed financial statements and the related notes that appear elsewhere in this quarterly report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed below and elsewhere in this quarterly report, particularly in the section entitled "Risk Factors" of this quarterly report.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars. All references to "CDN\$" refer to Canadian dollars and all references to "common shares" refer to the common shares in our capital stock.

As used in this quarterly report, the terms "we", "us", "our" and "Company" mean Company and/or our subsidiaries, unless otherwise indicated.

Overview

Enertopia Corp. was formed on November 24, 2004 under the laws of the State of Nevada and commenced operations on November 24, 2004.

From inception until April 2010, we were primarily engaged in the acquisition and exploration of natural resource properties. Beginning in April 2010, we began our entry into the renewable energy sector by purchasing an interest in a solar thermal design and installation company. In late summer 2013, we began our entry into medicinal marijuana business. During our 2014 fiscal year end our activities in the clean energy sector were discontinued. Our activities in the natural resources sector have also been discontinued. During fiscal 2015 our activities in the Medicinal Marijuana sector were also discontinued.

The Company is actively pursuing business opportunities in the alternative health and wellness sector. In February, 2015 we announced the launch of a new product line, V-Love™ personal lubricant and desire gel designed for women. We are now engaged in the manufacture, and sale of V-Love™, which is available for purchase online and at select retailers in Canada.

The address of our principal executive office is Suite 950, 1130 West Pender Street, Vancouver, British Columbia V6E 4A4. Our telephone number is (604) 602-1675. We have another office located in Kelowna. Our current locations provide adequate office space for our purposes at this stage of our development.

Due to the implementation of British Columbia Instrument 51-509 on September 30, 2008 by the British Columbia Securities Commission, we have been deemed to be a British Columbia based reporting issuer. As such, we are required to file certain information and documents at www.sedar.com.

Effective September 25, 2009, we effected a one (1) for two (2) share consolidation of our authorized and issued and outstanding common stock. As a result, our authorized capital decreased from 75,000,000 shares of common stock with a par value of \$0.001 to 37,500,000 shares of common stock with a par value of \$0.001 and our issued and outstanding shares decreased from 29,305,480 shares of common stock to 14,652,740 shares of common stock. The consolidation became effective with the Over-the-Counter Bulletin Board at the opening for trading on September 25, 2009 under the new stock symbol "GLCP". Our new CUSIP number at that time was **38079Q207**.

On February 8, 2010, the Company changed its name from Golden Aria Corp. to Enertopia Corp. Our new CUSIP number is **29277Q1047** On February 22, 2010, the Company increased its authorized share capital to 200,000,000 common shares.

On February 28, 2010, the Company entered into an Asset and Share Purchase Agreement with Mr. Mark Snyder to acquire up to 20% ownership interest of Global Solar Water Power Systems Inc. ("GSWPS").

Effective March 26, 2010, Enertopia Corp. (the "Company") had its stock quotation under the symbol "GLCP" deleted from the OTC Bulletin Board. The symbol was deleted for factors beyond the Company's control due to various market makers electing to shift their orders from the OTCBB to the Pink OTC Markets Inc. As a result of these market makers not providing a quote on the OTCBB for four consecutive days the Company was deemed to be deficient in maintaining a listing standard at the OTCBB pursuant to Rule 15c2-11. That determination was made entirely without the Company's knowledge.

On April 7, 2010, FINRA confirmed the name change from Golden Aria Corp. to Enertopia Corp., and approved the Company's new symbol as ENRT. On February 5, 2010, the Company's shareholders approved an amendment to the Company's articles of incorporation to change its name from Golden Aria Corp. to Enertopia Corp. The name change was effected with the Nevada Secretary of State on February 8, 2010.

On May 31, 2010, the Company closed a private placement financing of 557,500 units at a price of \$0.15 per unit for gross proceeds of \$83,625. Each unit consisted of one common share in the capital of the Company and one non-transferable share purchase warrant, each full warrant entitling the holder to purchase one additional common share in the capital of the Company until May 31, 2012, at a purchase price of \$0.30 per share.

On August 12, 2010, the Company was approved for listing on the Canadian National Stock Exchange ("CNSX"). Trading date commenced on August 13, 2010 with the symbol **TOP**.

On October 25, 2010 Company disposed of the Coteau Lake interests for cash consideration of \$100,000 plus an additional potential payout which shall be based on a 10% profit interest on any and all productive wells drilled on the property, up to \$150,000. No receivable was recorded as the future potential payout cannot be reasonably determined.

On January 31, 2011, the Company entered into a letter of intent and paid \$7,500 deposit to Wildhorse Copper Inc. and its wholly owned subsidiary Wildhorse Copper (AZ) Inc. (collectively, the "Optionors"). On April 11, 2011, the Company signed a Mineral Purchase Option Agreement ("Option Agreement") with the Optionors respecting an option to earn a 100% interest, subject to a 1% NSR capped to a maximum of \$2,000,000 in a property known as the Copper Hills property. The Copper Hills property is comprised of 56 located mining claims covering a total of 1,150 acres located in New Mexico, USA. The Optionors hold the Copper Hills property directly and indirectly through property purchase agreements between the Optionors and third parties (collectively, the "Indirect Agreements"). Pursuant to the Option Agreement the Optionors have assigned the Indirect Agreements to the Company. In order to earn the interest in the Copper Hills property, the Company is required to make aggregate cash payments of \$591,650 over an eight year period and issue an aggregate of 1,000,000 shares of its common stock over a three year period. As at August 31, 2013, the Company has issued 500,000 shares at price of \$0.15 per share and 150,000 shares at price of \$0.10 per share to the Optionors and made aggregate cash payment of \$106,863 (August 31, 2012-\$106,863); the Company has expensed exploration costs of \$143,680 (August 31, 2012-\$143,680). On June 26, 2013, the Company announced the termination of its Option Agreement. the Company had made aggregate cash payments of \$106,863 and issued 500,000 shares at price of \$0.15 per share and 150,000 common shares at \$0.10 per share to Wildhorse Copper Inc. On June 26, 2013, the Company terminated its Option Agreement with Wildhorse Copper Inc. on Copper Hills property.

On March 3, 2011, the Company closed a private placement of 8,729,000 units at a price of CAD\$0.10 per unit for gross proceeds of CAD\$872,900, or US\$893,993. Each unit consisted of one common share in the capital of our company and one non-transferable share purchase warrant, each full warrant entitling the holder to purchase one additional common share in the capital of our company until March 3, 2013, subject to accelerated expiry as set out in the warrant certificate, at a purchase price of CAD\$0.20. As per the terms of the Subscription Agreement, our company grants to the Subscribers a participation right to participate in future offerings of our securities as to their pro rata shares for a period of 12 months from the closing of the Private Placement. We paid broker commissions of \$48,930 in cash and issued 489,300 brokers warrants. Each full warrant entitled the holder to purchase one additional common share in the capital of our company that expired on March 3, 2013, which was subject to accelerated expiry as set out in the warrant certificate, at a purchase price of CAD\$0.20.

On March 16, 2011, we entered into a debt settlement agreement with an officer of our company, whereby we issued 78,125 shares of common stock in connection with the settlement of \$12,500 debt at a deemed price of \$0.16 per share pursuant to a consulting agreement. We recorded \$12,422 in additional paid in capital for the gain on the settlement of the debt.

On April 14, 2011, we held our Annual and Special Meeting of Shareholders for the following purposes:

1. To elect Robert McAllister, Dr. Gerald Carlson and Chris Bunka as directors of the Company for the ensuing year.
2. To ratify Chang Lee LLP, independent public accounting firm for the fiscal year ending August 31, 2011, and to allow directors to set the remuneration.
3. To approve, ratify and confirm the consolidation of the 2007 Stock Option Plan and the 2010 Equity Compensation Plan into one plan and approve the terms of this new plan, the 2011 Stock Option Plan.

All proposals were approved by the shareholders. The proposals are described in detail in our definitive proxy statement filed with the Securities and Exchange Commission on March 9, 2011.

On April 27, 2011, we entered into a debt settlement agreement with the President of our Company, who is a related party, in the amount of \$46,000, whereby \$25,000 was settled by issuing common shares of 100,000, and \$21,000 was forgiven for Nil consideration. In connection with the debt settlement, we recorded \$100 in share capital and \$45,900 in additional paid in capital for the gain on the settlement of the debt.

On May 31, 2011, the Company settled the amount due to related parties into two promissory notes of \$80,320 (CAD\$84,655) and \$90,000. Both promissory notes were unsecured, non-interest bearing and due on May 31, 2012 at an imputed interest rate of 12% per annum upon the settlement. On April 27, 2011, we entered into debt settlement agreement with one of the holders, a company controlled by the Chairman/CEO of the Company, whereby the Company issued common shares of 360,000 to the holder, and the holder agreed to accept the shares as full and final payment of the promissory note of \$90,000. On the same day, we entered into a debt settlement agreement with another holder, a company controlled by the Chairman/CEO of our Company, whereby the holder agreed to forgive the repayment of debt for Nil consideration. In connection with the settlements and forgiveness of the above promissory notes, the Company recorded \$79,997 and \$77,415 in additional paid in capital for the gain on settlement of debt, respectively.

On June 22, 2011, Change Lee LLP ("Chang Lee") resigned as our independent registered public accounting firm because Chang Lee was merged with another company: MNP LLP ("MNP"). Most of the professional staff of Chang Lee continued with MNP either as employees or partners of MNP and will continue their practice with MNP.

On June 22, 2011, we engaged MNP as our independent registered public accounting firm.

On July 19, 2011, the Company entered into a letter of intent and paid US\$15,000 deposit to Altar Resources. Subsequent to August 31, 2011, on October 11, 2011, the Company signed a Mineral Purchase Option Agreement with Altar Resources with respect to an option to earn 100% interest, subject to a 2.5% NSR in a property known as Mildred Peak. The mining claims are in Arizona covering approximately 7,148 acres from Altar Resources which holds the mining claims directly and indirectly through federal mining claims and state mineral exploration leases; or, represented that it would hold such claims in good standing at the time of closing a definitive agreement. The Company is required to make aggregate cash payments of \$881,000 over a five year period and issue an aggregate of 1,000,000 shares of its common stock over a four year period. As at February 28, 2013, the Company had made aggregate cash payments of \$124,980 (August 31, 2012-\$84,980) and issued 100,000 shares at price of \$0.10 per share and 100,000 common shares at \$0.06 per share to Altar Resources; along with expensed incurred exploration costs of \$13,380. On May 30, 2013, the Company terminated the Option Agreement and has written off \$140,980 of capital costs.

On March 19, 2012, the Company's Board has appointed Dr. John Thomas as Director and Mr. Tony Gilman and Dr. Stefan Kruse as Advisors of the Company. The Company has granted additional 450,000 stock options to Directors and Advisors of the Company. The exercise price of the stock options is \$0.15, of which are 225,000 options vest immediately, 225,000 options vest on August 15, 2012. The options expire March 19, 2017.

On April 10, 2012, Enertopia Corporation ("Enertopia" or the "Company") held its Annual and Special Meeting of Shareholders for the following purposes:

1. To elect Robert McAllister, Donald Findlay, Greg Dawson and Chris Bunka as directors of the Company for the ensuing year.
2. To ratify MNP LLP, independent public accounting firm for the fiscal year ending August 31, 2012, and to permit directors to set the remuneration.
3. To transact such other business as may properly come before the Meeting.

All proposals were approved by the shareholders. The proposals are described in detail in the Company's definitive proxy statement filed with the Securities and Exchange Commission on March 13, 2012.

On April 10, 2012, the Company issued 93,750 common shares in connection with the settlement of debt of \$9,375 at a price of \$0.10 per common share pursuant to a consulting agreement.

On April 13, 2012, the Company closed an offering memorandum placement of 2,080,000 units at a price of CAD\$0.10 per unit for gross proceeds of CAD\$208,000, US\$208,000. Each Unit consisted of one common share of the Issuer and one common share purchase warrant. One warrant will be exercisable into one further common share at a price of US\$0.15 per warrant share for a period of twelve months following closing; or at a price of US\$0.20 per warrant for the period that is twelve months plus one day to twenty-four months following closing. The Company paid broker commissions of \$14,420 in cash and issued 144,200 brokers warrants in connection with the private placement.

On August 24, 2012, the Company closed the second tranche of an offering memorandum placement of 160,000 units at a price of CAD\$0.05 per unit for gross proceeds of CAD\$8,000 or US\$8,000. Each warrant will be exercisable into one further share at a price of US\$0.10 per warrant share for a period of twelve months following closing; or at a price of US\$0.20 per warrant share for a period that is twelve months and one day to thirty-six months following closing. The Company's President participated in the private placement for \$4,000.00 dollars. The Company issued 16,000 brokers warrants in connection with the private placement for broker commissions.

On September 28, 2012, the Company closed an offering memorandum placement of 995,000 units at a price of CAD\$0.05 per unit for gross proceeds of CAD\$49,750 or US\$49,750. Each Unit consisted of one common share of the Issuer and one common share purchase warrant. One warrant will be exercisable into one further common share at a price of US\$0.10 per warrant share for a period of twelve months following closing; or at a price of US\$0.20 per warrant for the period that is twelve months plus one day to twenty-four months following closing. The Company issued 79,500 shares, 79,500 warrants and 79,500 broker warrants in connection with the private placement.

On October 24, 2012, the Company issued 100,000 common shares in connection with Altar Resources, Mildred Peak property for an amount of \$6,000 at a price of \$0.06.

On November 15, 2012, the Company closed an offering memorandum placement of 1,013,000 units at a price of CAD\$0.05 per unit for gross proceeds of CAD\$50,650 or US\$50,650. Each Unit consisted of one common share of the Issuer and one common share purchase warrant. One warrant will be exercisable into one further common share at a price of US\$0.10 per warrant share for a period of twelve months following closing; or at a price of US\$0.20 per warrant for the period that is twelve months plus one day to twenty-four months following closing. The Company issued 38,000 common shares, 101,300 units, and 101,300 broker warrants in connection with the private placement.

On March 1, 2013, the Company settled the debt incurred of \$16,000 from September 1, 2011 to February 28, 2013 for consulting fees with Mr. Mark Snyder by issuing 160,000 restricted common shares of the Company at a price of \$0.10 per share.

On March 1, 2013, the Company settled the debt incurred of \$16,000 from September 1, 2011 to February 28, 2013 for consulting fees with Mr. Mark Snyder by issuing 160,000 restricted common shares of the Company at a price of \$0.10 per share.

On May 30, 2013, the Company terminated its Option Agreement with Altar Resources on Mildred Peak property.

On June 26, 2013, the Company terminated its Option Agreement with Wildhorse Copper Inc. on Copper Hills property.

On September 17, 2013 we entered into an AMI Participation Agreement with Downhole Energy LLC to participate in 100% gross interest and 75% net revenue interest for drilling, completion and production of up to 100 oil wells on certain oil and gas leases covering 2,924 in the historic field located in Forest and Venango counties, Pennsylvania. On execution of this agreement we issued 100,000 of our common shares to Downhole Energy LLC. The Company decided not to continue with the agreement and wrote off the asset.

On October 4, 2013 we entered into a consulting agreement with Olibri Acquisitions and issued 750,000 of our common shares to Olibri.

We entered into a Letter of Intent Agreement (“LOI”) on November 1, 2013 with 0786521 BC Ltd. (also known as World of Marijuana Productions Ltd.) (the “Vendor”) to acquire 51% of the issued and outstanding capital stock of the Vendor. The Vendor is the owner, operator of a Medical Marijuana operation located at 33420 Cardinal Street, Mission, British Columbia, Canada. The LOI was not comprehensive and subject to the negotiation of a definitive agreement. On the execution of the LOI, we issued 10,000,000 of our common shares to the Vendor. The LOI was superseded by our joint venture agreement with World of Marijuana Productions Ltd. dated January 16, 2014, described below.

On November 5, 2013 we granted 675,000 stock options to directors, officers, and consultant of our Company with an exercise price of \$0.06 vested immediately, expiring November 5, 2018.

On November 18, 2013, we granted 25,000 stock options to consultant of our with an exercise price of \$0.09 vested immediately, expiring November 18, 2018.

On November 18, 2013, we entered into an investor relations contract with Coal Harbour Communications Inc. The initial term of this agreement shall begin on the date of execution of this Agreement and continue for **two months**. Thereafter the agreement will continue on a month-by-month basis pending cancellation by written notification with 30 days notice. In consideration for the services the Company will pay the Provider a one-time payment of two hundred thousand shares (200,000) of restricted common stock in Enertopia Corporation. The stock will be issued in the name of Dale Paruk for 100,000 shares and Neil Blake for 100,000 shares. In consideration of the services provided, the Company shall pay. We also agree to pay to Coal Harbour Communications a monthly fee of \$5,000 payable on the 1st day of each monthly period starting 60 days from the signing of the agreement and \$500 per month to cover expenses incurred on our Company’s behalf. Any expenses above \$500 per month must be pre-approved.

On November 26, 2013, our Company closed the first tranche of a private placement of 2,720,000 units at a price of CAD\$0.05 per unit for gross proceeds of CAD\$136,000 (\$136,000). Each warrant is exercisable into one further share at a price of US\$0.10 per warrant share for a period of thirty six month following the close.

On November 29, 2013, our wholly-owned subsidiary, Target Energy, Inc was discontinued and dissolved.

On December 23, 2013, we closed the final tranche of a private placement of 2,528,000 units at a price of CAD\$0.05 per unit for gross proceeds of CAD\$126,400 (\$126,400). Each warrant is exercisable into one further share at a price of \$0.10 per warrant share for a period of thirty six months following closing. We also paid a cash finders' fee of \$10,140 and 202,800 broker warrants to Canaccord Genuity and Wolverton Securities that are exercisable into one common share at a price of \$0.10 that expire on December 23, 2016.

On January 1, 2014, we entered into a Social Media/Web Marketing Agreement with Stuart Gray. The initial term of this agreement shall begin on the date of execution of this Agreement and continue for three months. In consideration for the services we will pay Stuart Gray a monthly fee of \$5,000. As additional compensation we issued 200,000 stock options to Mr. Gray. The exercise price of the stock options is \$0.075, with 100,000 stock options vested immediately, 50,000 stock options vested 30 days after the grant and 50,000 stock options vested 60 days after the grant, expiring January 1, 2019.

On January 13, 2014, we entered into a corporate development agreement with Don Shaxon for an initial term of twelve months. Thereafter the agreement continued on a month-by-month basis pending cancellation by written notification with 30 days notice. In consideration for the services we paid to Mr. Shaxon a signing stock bonus of 250,000 of our common shares, a one-time cash bonus of \$40,000, and a monthly fee of \$3,500 plus \$500 in monthly expenses. Upon execution of the Agreement we also granted 250,000 stock options to Mr. Shaxon with an exercise price of \$0.16, vesting immediately and expiring January 13, 2019.

On January 16, 2014 we entered into a Joint Venture Agreement with World of Marijuana Productions Ltd. ("WOM") to acquire up to a 51% ownership interest in a joint venture between WOM and our company. WOM was to acquire a medical marijuana production licence from Health Canada to in order to establish a medical marijuana production facility to be located at 33420 Cardinal Street, Mission, British Columbia.. The Joint Venture Agreement superseded the Letter of Intent between our company and WOM dated November 1, 2013 (the "LOI"). Our company issued 16,000,000 common shares and paid a total of \$375,000 to WOM to acquire a 31% interest in the joint venture. Subsequent to year end, on October 16, 2014 we entered into a termination and settlement agreement, dated effective October 14, 2014, with WOM and Mathew Chadwick (the "Settlement Agreement"), pursuant to which the parties have entered into mutual releases, Mr. Chadwick has resigned from our board of directors and as an officer of our company, and WOM has returned for cancellation 15,127,287 of our common shares that had been issued to it. Given the foregoing, all relationships between the parties, including but not limited to the joint venture, have been terminated.

On June 26, 2015, we signed a Definitive agreement to sell our wholly owned subsidiary, Thor Pharma Corp along with the MMPR application number 10MMPR0610. The Burlington MMPR license application will continue in the application process under new ownership. Pursuant to the agreement, we received a non-refundable \$10,000 deposit and are entitled to receive up to \$1,500,000 in milestone payments upon the Burlington facility becoming licensed under the MMPR. These monies would be split equally with Lexaria Corp. Notwithstanding the foregoing, we can neither guarantee nor provide a meaningful time estimate regarding the potential grant of a production license for the Burlington facility.

On June 29, 2015, we that announced V-Love™ became available at London Drugs Limited stores. V-Love™ is currently available at London Drugs stores across Western Canada in the provinces of British Columbia, Alberta, Saskatchewan and Manitoba.

On July 7, 2015 we announced that V-Love™ became available for purchase online in Canada at Amazon.ca.

On July 30, 2015 we announced the launch of V-Love.co, our product website for V-Love™.

Our Current Business

The Company is diverse in its pursuit of business opportunities in alternative health and wellness.

On **October 23, 2015**, the Company's Board has appointed Kevin Brown as a Director of the Company and Victor Lebouthillier as an advisor to the Board of Directors.

October 23, 2015, the Board of Directors accepted the resignation of Donald Findlay as Director of the Company.

On **October 23, 2015**, the Company has granted 1,850,000 stock options to Directors, Executives and Consultants of the Company. The exercise price of the stock options is \$0.05, vested immediately, expiring October 23, 2020.

On **December 16, 2015**, the Company submitted to the CSE the Form 13 for extending two classes of warrants by two years with all other terms and conditions remaining the same. The Company approved the expiry extension from January 31, 2016 till January 31, 2018 on 2,167,160 warrants that remain outstanding from the non-brokered private placement that closed on January 31, 2014. The Company approved the expiry extension from February 13, 2016 till February 13, 2018 on 7,227,340 warrants that remain outstanding from the non-brokered private placement that closed on February 13, 2014.

On **February 4, 2016**, the Company's Board has appointed Olivier Vincent as an Advisor the Board of Directors and a consultant for a term of one year. The Company issued 100,000 common shares at a price of \$0.05 per share. On February 4, 2016, the Company has granted 100,000 stock options to Olivier Vincent. The exercise price of the stock options is \$0.05, vested immediately, expiring February 4, 2021.

Subsequent to quarter end, on **March 9, 2016**, the Company closed a binding Letter Of Intent to acquire 100% of an established profitable private nutritional vitamin/supplement company. The private nutritional vitamin/supplement company has been in business for over 5 years showing good positive cash flows. All products are manufactured by a GMP, NSF, FDA approved manufacturer in the United States. Enertopia has agreed subject to further due diligence, review of financials and financing to a total amount of \$350,000 for the acquisition, with \$300,000 due on the signing of the Definitive Purchase Agreement. The Definitive Purchase Agreement is expected to be completed before the end of April.

Alternative Health and Wellness Products

Alternative Health and Wellness Products

V-Love™ Sexual Enhancement Gel

On February 9, 2015, we announced the launch of a new product line V-Love™ for women's sexual pleasure. V-Love™ a brand new water based, silky smooth fragrance free personal lubricant and intimate gel especially designed for women. V-Love™ is a personal lubricant and sexual desire gel to embrace the essence of what a female is...sexy, confident, playful, loving, and unique. V-Love™ is carefully designed to enhance/enrich each and every intimate experience to be the most pleasurable and fulfilling it can be.

V-Love™ realizes that every woman is unique. While some women desire lubricants to enhance pleasure from toys, other women may not produce natural lubrication as they once used to, or may experience medical conditions which impact their personal comfort and desire for sexual intimacy.

V-Love™ appreciates the uniqueness of every woman. Some women use/utilize lubricants to enhance pleasure from toys, while others may experience reduced natural moisture which may impact their personal comfort and desire for sexual intimacy. V-Love™ can help replenishes/restores/replaces vaginal/personal moisture, as women may experience vaginal dryness due to hormonal changes at varying stages of life, such as after bearing children or during menopause. Dryness may also result from medical conditions or from using medications.

For all these reasons, V-Love™ personal lubricant and sexual desire gel is carefully formulated to replenish moisture and enhance/increase your sexual pleasure by lubricating. Safe, gentle, long-lasting, fragrance free, natural, and worry-free, so every private and partnered encounter is your ultimate pleasure.

The Company used the feedback and life experience of women in its formulation of V-Love™. V-Love™ was developed and designed to offer a unique personal lubricant and sexual desire gel that could be used safely and effectively by women who desired added lubrication. V-Love™ is designed to be used with, toys and foreplay, for increasing sexual experience by lubricating so women feel confident with intimacy with their partners or for their own personal pleasure.

The V-Love™ gel finished its production run in April, 2015. In May 2015, V-Love™ first became available for retail sale at Loblaws City Market store in North Vancouver, British Columbia. Enertopia owns 100% of the product and its formulation. Enertopia engaged a GMP compliant facility reputed to produce high quality cosmetic products for many well-known brands. They are a Vancouver based manufacturer with over 150 years of experience. They manufactured and formulated the final ingredients for V-Love™ and handled all the production.

The Company held an initial launch on February 13, 2015 by showcasing samples of V-Love™ at the Vancouver Health and Wellness Show and providing educational information on the gel. In May, 2015, V-Love™ was available to the retail market for purchase in stores and at various events.

During the month of July, 2015 V-Love™ became available for retail purchase at all London Drugs Limited stores across Western Canada and online through Amazon.ca.

On October 26, 2015, the Company announced it has applied for patent protection of V-Love™ with respect to claims involving lubrication, pH balance and the bioavailability of certain vitamins and minerals via absorption through the vaginal mucosal membrane. During February 2016, the Company filed all final papers for the patent protection of V-Love™.

Enertopia has filed a provisional patent application with the United States Patent and Trademark Office regarding its technology. Enertopia's patent-pending formulations were developed in part with the goal of achieving much higher levels of lubrication, thus reducing the potential for vaginal micro tears. However, patent-pending these compositions also provide greater bioavailability of ingredients such as water based vitamins via absorption through the vaginal mucosal membrane than would otherwise be absorbed by the daily oral intake of water based vitamins. It is in the Company's best interests to have filed the provisional patent application to protect the Company's formulations as evidence has shown that vaginal suppositories have had greater bioavailability results than the common oral intake of water soluble vitamins. The greater the opportunity for water soluble based vitamins to replenish the body, the better the overall health as water based vitamins need to be replenished on a daily basis.

V-Love™ is specifically balanced for a woman's healthy vaginal pH balance of 3.8 to 4.5. While this is on the acidic side of the pH scale, it is nowhere near the acidity of the average stomach acid that has a pH of 1.5. This allows for the potential slower decay of vitamins and minerals compared to oral intake, which in turn potentially allows for greater absorption potential over time. In addition, absorption through the vaginal mucosal membrane avoids the first-pass metabolism that occurs with oral administration of water soluble vitamins (metabolism that occurs in the intestine and portal circulation of the liver before reaching systemic circulation).

V-Love™ patent-pending formulation meets the needs of providing increased vaginal lubrication to decrease the chance of vaginal micro tears and providing water based vitamins with increased bioavailability, all under the protection of a healthy vaginal pH balance.

- The sexual health market worldwide is estimated at \$20 billion dollars. The lubrication market is estimated at over \$1 billion dollars and products for sexual dysfunction in men are over \$4 billion dollars. The Company's V-Love™ product is made from food safe products, currently all products are sourced in Canada and all final product is processed by the manufacturing company in a GMP compliant facility.
- The Company is currently producing sexual health informational material for men and women that is being overseen by a specialist. The Company continues to attend conferences and festivals to educate the community about sexual health and V-Love™. The Company continues to provide educational seminars and looking at other retail stores for V-Love™ to be sold across Canada

Summary

The continuation of our alternative health and wellness sector is dependent upon obtaining further financing, a successful programs of development, and, finally, achieving a profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

There are no assurances that we will be able to obtain further funds required for our continued operations. As noted herein, we are pursuing various financing alternatives to meet our immediate and long-term financial requirements. There can be no assurance that additional financing will be available to us when needed or, if available, that it can be obtained on commercially reasonable terms. If we are not able to obtain the additional financing on a timely basis, we will be unable to conduct our operations as planned, and we will not be able to meet our other obligations as they become due. In such event, we will be forced to scale down or perhaps even cease our operations. There is significant uncertainty as to whether we can obtain additional financing.

Current Medical Marijuana Operations

On June 7, 2013 the Government of Canada implemented new legislation, the Marijuana for Medical Purposes Regulations (MMPR), concerning the production and sale of medical marijuana. The regulations create conditions for a commercial industry that is responsible for the production and distribution of marijuana by authorized healthcare practitioners for medical purposes. The MMPR permitted the licensing of commercial growers beginning April 1, 2014, while eliminating existing regulations permitting the production of medical marijuana on a personal-use basis. Commercial growers are now able to submit applications to Health Canada for the production of medical marijuana and, if licensed, supply patients who qualify for the product at a price that would be established by market forces and at the discretion of producers. To date, 26 producers have become licensed under the MMPR.

Since June 12, 2015 the Company has had no direct involvement or ownership interest in any active or prospective operations or permit applications under the MMPR.

On June 26, 2015, we signed a Definitive agreement to sell our wholly owned subsidiary, Thor Pharma Corp along with the MMPR application (no. 10MMPR0610) for our proposed production facility located in Burlington, Ontario. The Burlington MMPR license application will continue in the application process under new ownership. Pursuant to the agreement, we received a non-refundable \$10,000 deposit and are entitled to receive up to \$1,500,000 in milestone payments upon the Burlington facility becoming licensed under the MMPR. These monies would be split equally with our joint venture partner, Lexaria Corp. Notwithstanding the foregoing, we can neither guarantee nor provide a meaningful time estimate regarding the potential grant of a production license for the Burlington facility or if a license to grow will even be issued.

Investments

We currently hold the following investment interests:

Equity Investment in Pro Eco Energy, Inc.

On April 21, 2008, we announced that we had made a \$45,000 investment to acquire 8.25% of the equity of Pro Eco Energy USA Ltd., a clean tech energy company involved in designing, developing and installing solar energy solutions for commercial and residential customers. During fiscal year 2014, we entered into an agreement to sell our 8.25% ownership in Pro Eco Energy for \$40,000 to Western Standard Energy Corp. (now Dominovas Energy) The purchase price was to be payable as follows: a) \$10,000 on December 02, 2013; b) \$10,000 on or before December 31, 2013; c) \$10,000 on or before January 31, 2014; d) \$10,000 on or before February 28, 2014. As at August 31, 2015, we had collected \$10,000 of the \$40,000 purchase price. During fiscal year August 31, 2015, we have received back 600,000 of the 900,000 Pro Eco Energy shares from Western Standard Energy Corp. and the accounts receivable has been settled upon the return of the shares.

Equity Investment in Global Solar Water Power Systems Inc.

In November 2012, the Company had a valuation report completed on GSWPS by RWE Growth Partners Inc. As a result, the Company's long-term investment in GSWPS has been written down to \$68,500 as at August 31, 2012. During the August 31, 2013 fiscal year end, based on the management's assessment of GSWPS's current operations, the Company decided to write down long-term investment in GSWPS to \$1.

Summary

The continuation of our business is dependent upon obtaining further financing, a successful programs of development, and, finally, achieving a profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

There are no assurances that we will be able to obtain further funds required for our continued operations. As noted herein, we are pursuing various financing alternatives to meet our immediate and long-term financial requirements. There can be no assurance that additional financing will be available to us when needed or, if available, that it can be obtained on commercially reasonable terms. If we are not able to obtain the additional financing on a timely basis, we will be unable to conduct our operations as planned, and we will not be able to meet our other obligations as they become due. In such event, we will be forced to scale down or perhaps even cease our operations. There is significant uncertainty as to whether we can obtain additional financing.

Competition

There is strong competition relating to all aspects of alternative health and wellness sectors. We actively compete for capital, skilled personnel, market share, and in all other aspects of our operations with a substantial number of other organizations. These organizations include small development stage companies like our own, and large, established companies, many of which have greater technical and financial resources than our company. In the alternative health and wellness product sector, our current product, V-Love™, competes for shelf space and sales with the products of both niche producers and large multinational producers of cosmetics and pharmaceuticals. Any future products we may produce will face similar competition.

Compliance with Government Regulation

Our current and prospective operations are subject to diverse government regulations in a number of areas including but not limited to ingredients, manufacturing standards, labour standards, product safety and quality, marketing, packaging, labeling, storage, distribution, advertising, imports and exports, social and environmental responsibility and health and safety. Non-compliance with regulations may results in significant financial losses arising from criminal or civil action, regulator-enforced factory closures, product recalls, delayed launches, penalties, and reputational loss, among others. What's more, regulations can change or may become more stringent, which may cause us to incur unforeseen costs or make our business model unsustainable.

Alternative Health and Wellness Products

The alternative health and wellness product sector is subject to regulatory oversight by diverse regulators in matters including consumer health and safety, environmental protection, manufacturing standards, packaging, and advertising.

Currently we produce and sell our V-Love™ personal lubricant for women in Canada. In Canada, personal lubricants like V-Love™ that are not for non-medicinal and non-therapeutic use are regulated as cosmetics. All cosmetics sold in Canada must be safe to use, must not pose any health risk, and must otherwise meet the requirements of the federal Food and Drugs Act (Canada) and the Cosmetic Regulations (Canada) which are enforced by Health Canada. Under the Food and Drugs Act, a cosmetic includes "any substance or mixture of substances, manufactured, sold or represented for use in cleansing, improving or altering the complexion, skin, hair or teeth and includes deodorants and perfumes." This includes cosmetics used by professional esthetic services, bulk institutional products (such as hand soap in school rest rooms), as well as "handmade" cosmetics sold at craft sales or home-based businesses.

The Cosmetic Regulations and the Food and Drugs Act require that cosmetics sold in Canada be manufactured, prepared, preserved, packed and stored under sanitary conditions. The manufacturer and importer must notify Health Canada that it is selling the product and provide a list of the product's ingredients. Additionally, cosmetics are subject to the requirements of Consumer Packaging and Labeling Act, and any chemicals found in cosmetics may be subject to the Environmental Protection Act (Canada) regarding the disposal of contaminants.

In order to meet these safety and quality requirements of the Food and Drugs Act and the Cosmetics Regulation, Health Canada encourages all cosmetic manufacturers to adhere to Good Manufacturing Practices (GMPs). GMPs are manufacturing guidelines which are used to ensure product quality control and an effective approach to risk management. These guidelines set out standards for product manufacturing, testing, storage, handling and distribution, to ensure that each step of manufacturing is acceptable for quality and safety of the product.

Health Canada, along with its partners in the International Cooperation on Cosmetic Regulation (United States, European Union and Japan), endorse the use of the International Standards Organization (ISO) Guidelines on Good Manufacturing Practices for Cosmetics, ISO Standard 22716. Our V-Love™ personal lubricant for women is manufactured in accordance with these standards.

We also comply with the Canadian Guidelines for the Nonprescription and Cosmetic Industry Regarding Non-therapeutic Advertising and Labelling Claims administered by Advertising Standards Canada and Health Canada.

In the United States, personal lubricants such as V-Love™ are classified as Class II medical devices, putting them in the same category as items like condoms, acupuncture needles, and powered wheelchairs. In order for class II medical devices to be sold in the United States, producers must obtain a premarket notification or 510(k) clearance, a process that requires a comprehensive round of safety testing. As at the date of this report we have not made any arrangements to obtain 510(k) clearance for the sale of V-Love™ into the United States. We estimate that obtaining 510(k) clearance would require between \$100,000 and \$200,000 and approximately 24 months.

The continuation of our business is dependent upon obtaining further financing, a successful program of exploration and/or development, and, finally, achieving a profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

There are no assurances that we will be able to obtain further funds required for our continued operations. As noted herein, we are pursuing various financing alternatives to meet our immediate and long-term financial requirements. There can be no assurance that additional financing will be available to us when needed or, if available, that it can be obtained on commercially reasonable terms. If we are not able to obtain the additional financing on a timely basis, we will be unable to conduct our operations as planned, and we will not be able to meet our other obligations as they become due. In such event, we will be forced to scale down or perhaps even cease our operations.

Purchase of Significant Acquisition

Subsequent to quarter end, on **March 9, 2016**, the Company closed a binding Letter Of Intent to acquire 100% of an established profitable private nutritional vitamin/supplement company. The private nutritional vitamin/supplement company has been in business for over 5 years showing good positive cash flows. All products are manufactured by a GMP, NSF, FDA approved manufacturer in the United States. Enertopia has agreed subject to further due diligence, review of financials and financing to a total amount of \$350,000 for the acquisition, with \$300,000 due on the signing of the Definitive Purchase Agreement. The Definitive Purchase Agreement is expected to be completed before the end of April 2016.

Corporate Offices

The address of our principal executive office is Suite 950, 1130 West Pender Street, Vancouver, British Columbia V6E 4A4. Our telephone number is (604) 602-1675. We have another office located in Kelowna. Our current locations provide adequate office space for our purposes at this stage of our development.

Employees

We primarily used the services of sub-contractors and consultants for our intended business operations. Our only technical employee is Mr. McAllister, our president and a director.

We entered into a consulting agreement with Mr. Robert McAllister on December 1, 2007. During the term of this agreement, Mr. McAllister is to provide corporate administration and consulting services, such duties and responsibilities to include provision of oil and gas industry consulting services, strategic corporate and financial planning, management of the overall business operations of the Company, and supervising office staff and exploration and oil & gas consultants. Mr. McAllister is reimbursed at the rate of \$2,000 per month. On December 1, 2008, the consulting fee was increased to \$5,000 per month. We may terminate this agreement without prior notice based on a number of conditions. Mr. McAllister may terminate the agreement at any time by giving 30 days written notice of his intention to do so. Effective March 1, 2014, the Company entered into a new Management Consulting Agreement replacing the original agreement with a consulting fee of \$6,500 plus GST per month.

On October 9, 2009, the Company entered into a consulting agreement with BKB Management Ltd, a corporation organized under the laws of the Province of British Columbia. BKB Management controlled by the chief financial officer of the Company. A fee of CAD\$4,675 including GST was paid per month. We may terminate this agreement without prior notice based on a number of conditions. BKB Management Ltd. may terminate the agreement at any time by giving 30 days written notice of his intention to do so. Effective April 1, 2011, the fee is CAD\$5,500 plus GST. Effective March 1, 2014, the Company entered into a new Management Consulting Agreement replacing the original agreement with a consulting fee of CAD\$7,500 plus GST per month.

We do not expect any material changes in the number of employees over the next 12 month period. We do and will continue to outsource contract employment as needed. However, with project advancements in the health and wellness and any subsequent programs we may retain additional employees.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Critical Accounting Policies

Our financial statements and accompanying notes are prepared in accordance with generally accepted accounting principles used in the United States of America. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. We believe that understanding the basis and nature of the estimates and assumptions involved with the following aspects of our financial statements is critical to an understanding of our financials.

Long-Lived Assets

Long-term assets of the Company are reviewed for impairment when circumstances indicate the carrying value may not be recoverable in accordance with the guidance established in ASC 360, "Property, Plant and Equipment". For assets that are to be held and used, an impairment loss is recognized when the estimated undiscounted cash flows associated with the asset or group of assets is less than their carrying value. If impairment exists, an adjustment is made to write the asset down to its fair value. Fair values are determined based on discounted cash flows or internal and external appraisals, as applicable. Assets to be disposed of are carried at the lower of carrying value or estimated net realizable value.

Revenue Recognition

Revenues are recorded using sales method whereby our Company recognizes sales based on the amount of product sold to purchasers. Cost of goods sold is recognized in the same period of which the revenue is earned.

Going Concern

We have suffered recurring losses from operations. The continuation of our Company as a going concern is dependent upon our Company attaining and maintaining profitable operations and/or raising additional capital. The financial statements do not include any adjustment relating to the recovery and classification of recorded asset amounts or the amount and classification of liabilities that might be necessary should our Company discontinue operations.

The continuation of our business is dependent upon us raising additional financial support and/or attaining and maintaining profitable levels of internally generated revenue. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Recently Issued Accounting Standards

FASB ASU 2014-09, "Revenue from Contracts with Customers," was issued May 2014 and updates the principles for recognizing revenue. The ASU will supersede most of the existing revenue recognition requirements in U.S. GAAP and will require entities to recognize revenue at an amount that reflects the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. This ASU also amends the required disclosures of the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The guidance is effective for annual periods beginning after December 15, 2016, including interim periods within that period. Early adoption is not permitted under U.S. GAAP. The Company is determining its implementation approach and evaluating the potential impacts of the new standard on its existing revenue recognition policies and procedures.

FASB ASU 2014-10. In June 2014, the FASB issued ASU 2014-10, "Development Stage Entities (Topic 915)". The amendments in ASU 2014-10 remove all incremental financial reporting requirements from U.S. GAAP for development stage entities, including the removal of Topic 915, Development Stage Entities, from the FASB Accounting Standards Codification. In addition, the ASU: (a) adds an example disclosure in Topic 275, Risks and Uncertainties, to illustrate one way that an entity that has not begun planned principal operations could provide information about the risks and uncertainties related to the company's current activities; and (b) removes an exception provided to development stage entities in Topic 810, Consolidation, for determining whether an entity is a variable interest entity. The presentation and disclosure requirements in Topic 915 will no longer be required for the first annual reporting period beginning after December 15, 2014. The withdrawal of the presentation and disclosure requirements of Topic 915 is effective for annual reporting periods beginning after December 15, 2015. The revised consolidation standards are effective for annual reporting periods beginning after December 15, 2016. Early adoption is permitted for any annual reporting period or interim period for which an entity's financial statements have not yet been issued or made available for issuance. The Company has early adopted ASU 2014-10 and impacts of its adoption have been reflected throughout the Company's financial statements, with the significant effect being the elimination of disclosures of certain cumulative amounts incurred during the period from inception to the period end reporting date.

FASB ASU 2014-12, "Compensation - Stock Compensation (Topic 718), Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period," was issued June 2014. This guidance was issued to resolve diversity in accounting for performance targets. A performance target in a share-based payment that affects vesting and that could be achieved after the requisite service period should be accounted for as a performance condition and should not be reflected in the award's grant date fair value. Compensation cost should be recognized over the required service period, if it is probable that the performance condition will be achieved. The guidance is effective for annual periods beginning after December 15, 2015 and interim periods within those annual periods. The Company does not anticipate a significant impact upon adoption.

FASB ASU 2014-15, "Presentation of Financial Statements-Going Concern (Subtopic 205-40) Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern," which was issued September 2014. This provides guidance on determining when and how to disclose going-concern uncertainties in the financial statements. The new standard requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued. An entity must provide certain disclosures if conditions or events raise substantial doubt about the entity's ability to continue as a going concern. The ASU applies to all entities and is effective for annual periods ending after December 15, 2016, and interim periods thereafter, with early adoption permitted. The Company does not anticipate a significant impact upon adoption.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company's financial statements upon adoption.

Results of Operations – Three Months Ended February 29, 2016 and February 28, 2015

The following summary of our results of operations should be read in conjunction with our financial statements for the quarter ended February 29, 2016, which are included herein.

Our operating results for the three months ended February 29, 2016, for the three months ended February 28, 2015 and the changes between those periods for the respective items are summarized as follows:

		Three Months Ended February 29, 2016	Three Months Ended February 28, 2015	Change Between Three Month Period Ended February 29, 2016 and February 28, 2015
Revenue (cost recovery)	\$	2,204	Nil	\$ 2,204
Cost of Product Sales		1,499	Nil	1,499
Other (income) expenses		64,435	(10,000)	74,435
General and administrative		90,348	350,111	(259,763)
Bank charges and interest expense		2,629	771	1,858
Consulting fees/Stock Based Compensation		50,605	193,358	(142,753)
Professional Fees		(7,956)	10,656	(18,612)
Net income (loss)		(154,078)	(340,111)	186,033

Our accumulated losses increased to \$12,219,062 at February 29, 2016. Our financial statements report revenue of \$2,204 for the three months ended February 29, 2016 compared to \$Nil for the three month period ended February 28, 2015. Our financial statements report a net loss of \$154,078 for the three-month period ended February 29, 2016, compared to a net loss of \$340,111 for the three-month period ended February 28, 2015. Our net losses have decreased by \$186,033 for the three month period ended February 29, 2016. Our general and administrative expenses were lower by \$259,763 for February 29, 2016 compared to February 28, 2015. The decrease was largely due to lower consulting fees and stock based compensation of \$50,605 for the three month period ended February 29, 2015, compared to \$193,358 for February 28, 2015. Additionally, lower advertising and marketing expenses were \$10,002 for the three month period ended February 29, 2016, compared to \$83,060 for February 28, 2015. These high costs in advertising, consulting and stock based compensation for February 2015 were due to MMJ consulting contracts for joint venture partnerships. The Company had also reduced costs of \$12,952 for fees and dues, \$1,363 for investor relations, \$5,324 for rent, and \$959 in travel, training and conferences for the three month period ended February 29, 2016. During the fiscal year 2015, the Company terminated Joint Venture agreements with both The Green Canvas and with Lexaria on the Burlington location. With respect to The Green Canvas, the 6,400,000 common shares were returned to treasury and cancelled.

Results of Operations – Six Months Ended February 29, 2016 and February 28, 2015

The following summary of our results of operations should be read in conjunction with our financial statements for the quarter ended February 29 2016, which are included herein.

Our operating results for the six months ended February 29, 2016, for the six months ended February 28, 2015 and the changes between those periods for the respective items are summarized as follows:

	Six Months Ended February 29, 2016	Six Months Ended February 28, 2015	Change Between Six Month Period Ended February 29, 2016 and February 28, 2015
Revenue (cost recovery)	\$ 14,014	\$ Nil	\$ 14,014
Cost of Product Sales	7,515	Nil	7,515
Other (income) expenses	25,049	10,000	15,049
General and administrative	285,416	907,654	(622,238)
Bank charges and interest expense	4,616	1,164	3,452
Consulting fees	141,486	591,555	(450,069)
MMJ expenses	Nil	384,000	(384,000)
Professional Fees	53,742	69,593	(15,851)
Net income (loss)	(303,966)	(1,301,654)	997,688

Our accumulated losses increased to \$12,219,062 as at February 29, 2016. Our financial statements report a net loss of \$303,966 for the six month period ended February 29, 2016, compared to a net loss of \$1,301,654 for the six-month period ended February 28, 2015. Our net losses have decreased by \$997,688 for the six month period ended February 29, 2016, our general and administrative expenses were lower by \$622,238 for February 29, 2016 compared to February 28, 2015. The decrease was due to lower consulting and stock based compensation costs of 141,486 for the six month period ended February 29, 2016, compared to \$591,555 for February 28, 2015. The high costs during 2015 costs were largely due to consulting contracts for the joint venture partnerships and granting stock options to various consultants. In addition the Company had decreased costs of \$20,563 for advertising, \$11,472 for rent, and \$53,742 in professional fees for the six month period ended February 29, 2016. The Company's expenses were lower for the six month period ended February 29, 2016 by \$997,688 compared to the same time last year. During the fiscal year 2015, the Company terminated Joint Venture agreements with both The Green Canvas and with Lexaria on the Burlington location. With respect to The Green Canvas, the 6,400,000 common shares were returned to treasury and cancelled.

As at February 29, 2016, we had \$377,886 in current liabilities. The increase is largely due to increase in payables and amounts due to related parties. Our net cash used in operating activities for the six months ended February 29, 2016 was \$45,812 compared to \$609,746 used in the six months ended February 28, 2015. The decrease in cash used in operating activities was in decreased expenses due to the cease of medical marijuana business operations.

Our total liabilities as of February 29, 2016 were \$377,886 as compared to total liabilities of \$325,037 as of August 31, 2015.

Liquidity and Financial Condition

Working Capital

	At February 29, 2016	At August 31, 2015
Current assets	\$ 130,917	\$ 343,927
Current liabilities	<u>(377,886)</u>	<u>(325,037)</u>
Working capital (deficiency)	\$ (246,969)	\$ 18,890

Cash Flows

	February 29 2016	Six Months Ended February 28 2015
Cash flows (used in) operating activities	\$ (139,723)	\$ (609,746)
Cash flows from (used in) financing activities	Nil	Nil
Cash flows from (used in) investing activities	93,911	92,392
Net increase (decrease) in cash during period	<u>\$ (45,812)</u>	<u>\$ (517,354)</u>

Operating Activities

Net cash used in operating activities was \$139,723 in the six months ended February 29, 2016 compared with net cash used in operating activities of \$609,746 in the same period in 2015. The decrease in cash used mostly results from decreased operating costs incurred in the current period from the medical marijuana business operations and alternative health and wellness.

Financing Activities

Net cash provided by financing activities was \$Nil in the six months ended February 29, 2016 compared to \$Nil in the same period in 2015.

Investing Activities

Net cash provided in investing activities was \$93,911 in the six months ended February 29, 2016 compared to \$Nil in the same period in 2015.

Revenue comparisons for the Quarter ended February 28, 2016 compared to the quarter ended February 28, 2015

For the six month period ended February 28, 2016, the Company had \$14,014 in revenues compared to \$Nil in revenues for the same three-month period in the prior year.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the *Securities Exchange Act of 1934*, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our president (also our principal executive officer) and our secretary, treasurer and chief financial officer (also our principal financial and accounting officer) to allow for timely decisions regarding required disclosure.

As of February 29, 2016, the end of our first quarter covered by this report, we carried out an evaluation, under the supervision and with the participation of our president (also our principal executive officer) and our secretary, treasurer and chief financial officer (also our principal financial and accounting officer), of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our president (also our principal executive officer) and our secretary, treasurer and chief financial officer (also our principal financial and accounting officer) concluded that our disclosure controls and procedures were effective in providing reasonable assurance in the reliability of our financial reports as of the end of the period covered by this quarterly report.

Inherent limitations on effectiveness of controls

Internal control over financial reporting has inherent limitations which include but is not limited to the use of independent professionals for advice and guidance, interpretation of existing and/or changing rules and principles, segregation of management duties, scale of organization, and personnel factors. Internal control over financial reporting is a process which involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements on a timely basis, however these inherent limitations are known features of the financial reporting process and it is possible to design into the process safeguards to reduce, though not eliminate, this risk. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal controls over financial reporting that occurred during the quarter ended February 29, 2016, that have materially or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

We know of no material, existing or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, executive officers or affiliates, or any registered or beneficial stockholder, is an adverse party or has a material interest adverse to our interest.

Item 1A. Risk Factors

Much of the information included in this prospectus includes or is based upon estimates, projections or other "forward-looking statements". Such forward-looking statements include any projections or estimates made by us and our management in connection with our business operations. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions, or other future performance suggested herein. We undertake no obligation to update forward-looking statements to reflect events or circumstances occurring after the date of such statements.

Such estimates, projections or other "forward-looking statements" involve various risks and uncertainties as outlined below. We caution readers of this prospectus that important factors in some cases have affected and, in the future, could materially affect actual results and cause actual results to differ materially from the results expressed in any such estimates, projections or other "forward-looking statements". In evaluating us, our business and any investment in our business, readers should carefully consider the following factors.

Our common shares are considered speculative. Prospective investors should consider carefully the risk factors set out below.

Risks Associated with Business

Our company has no operating history and an evolving business model which raises doubt about our ability to achieve profitability or obtain financing.

Our Company has no operating history. Moreover, our business model is still evolving, subject to change, and will rely on the cooperation and participation of our joint venture partners. Our Company's ability to continue as a going concern is dependent upon our ability to obtain adequate financing and to reach profitable levels of operations has and we no proven history of performance, earnings or success. There can be no assurance that we will achieve profitability or obtain future financing.

Uncertain demand for alternative health and wellness sector may cause our business plan to be unprofitable.

Demand for alternative health and wellness products is dependent on a number of social, political and economic factors that are beyond the control of our company. While we believe that demand for alternative health and wellness products will continue to grow in Canada and elsewhere, we cannot guarantee sufficient market demand to support our current or future products or business. In the event that the markets for health and wellness products stagnate or contract, our business may fail.

We may not acquire market share or achieve profits due to competition in the alternative health and wellness industry

Our Company operates in a highly competitive marketplace with various competitors. Increased competition may result in reduced gross margins and/or loss of market share, either of which would seriously harm its business and results of operations. Management cannot be certain that the company will be able to compete against current or future competitors or that competitive pressure will not seriously harm its business. Some of the company's competitors are much larger and have greater access to capital, sales, marketing and other resources. These competitors may be able to respond more rapidly to new regulations or devote greater resources to the development and promotion of their business model than the company can. Furthermore, some of these competitors may make acquisitions or establish co-operative relationships among themselves or with third parties in the industry to increase their ability to rapidly gain market share.

Conflicts of interest between our company and our directors and officers may result in a loss of business opportunity.

Our directors and officers are not obligated to commit their full time and attention to our business and, accordingly, they may encounter a conflict of interest in allocating their time between our future operations and those of other businesses. In the course of their other business activities, they may become aware of investment and business opportunities which may be appropriate for presentation to us as well as other entities to which they owe a fiduciary duty. As a result, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. They may also in the future become affiliated with entities, engaged in business activities similar to those we intend to conduct.

In general, officers and directors of a corporation are required to present business opportunities to a corporation if:

- the corporation could financially undertake the opportunity;
 - the opportunity is within the corporation's line of business; and
-

- it would be unfair to the corporation and its stockholders not to bring the opportunity to the attention of the corporation.

We plan to adopt a code of ethics that obligates our directors, officers and employees to disclose potential conflicts of interest and prohibits those persons from engaging in such transactions without our consent. Despite our intentions, conflicts of interest may nevertheless arise which may deprive our company of a business opportunity, which may impede the successful development of our business and negatively impact the value of an investment in our company.

The speculative nature of our business plan may result in the loss of your investment.

Our operations are in the start-up or stage only, and are unproven. We may not be successful in implementing our business plan to become profitable. There may be less demand for our services than we anticipate. There is no assurance that our business will succeed and you may lose your entire investment.

Changing consumer preferences may cause our planned products to be unsuccessful in the marketplace.

The decision of a potential client to undergo an environmental audit or review may be based on ethical or commercial reasons. In some instances, or with certain businesses, there may be no assurance that an environmental review will result in any cost savings or increased revenues. As such, unless the ethical consideration is also a material factor, there may be no incentive for such businesses to undertake an environmental review. Changes in consumer and commercial preferences, or trends, toward or away from environmental issues may impact on businesses' decisions to undergo environmental reviews. The alternative health and wellness sector offers many choices for individuals and their can be no assurance that the product supplied by our company and or its partners will be successful in market penetration.

General economic factors may negatively impact the market for our planned products.

The willingness of businesses to spend time and money on energy efficiency may be dependent upon general economic conditions; and any material downturn may reduce the likelihood of businesses incurring costs toward what some businesses may consider a discretionary expense item. The willingness of consumers to buy our products may be dependent upon general economic conditions and any material downturn may reduce the potential profitability of the alternative health and wellness product sector.

A wide range of economic and logistical factors may negatively impact our operating results.

Our operating results will be affected by a wide variety of factors that could materially affect revenues and profitability, including the timing and cancellation of customer orders and projects, competitive pressures on pricing, availability of personnel, and market acceptance of our services. As a result, we may experience material fluctuations in future operating results on a quarterly and annual basis which could materially affect our business, financial condition and operating results.

Loss of consumer confidence in our company or in our industry may harm our business.

Demand for our services may be adversely affected if consumers lose confidence in the quality of our services or the industry's practices. Adverse publicity may discourage businesses from buying our services and could have a material adverse effect on our financial condition and results of operations. Risk of significant reputational impact as a result of systemic product quality issues resulting in undermining of consumer confidence in our brand, particularly in the growing alternative health and wellness portfolio. Various factors may adversely impact our reputation, including product quality inconsistencies or contamination resulting in product recalls. Reputational risks may also arise from our third parties' labour standards, health, safety and environmental standards, raw material sourcing, and ethical standards. We may also be the victim of product tampering or counterfeiting or grey imports. Any litigation, disputes on tax matters and pay structures may subject us to negative attention in the press, which can damage reputation.

Unethical business practices may compromise the growth and development of our business.

The production and sale of medical marijuana is an emerging industry in which business practices are not yet standardized and are subject to frequent scrutiny and evaluation by federal, state, provincial, and municipal authorities, academics, and media outlets, among others. Although we intend to develop our business in accordance with best ethical practices, we may suffer negative publicity if we, our partners, contractors, or customers are found to have engaged in any environmentally, insensitive practices or other business practices that are viewed as unethical.

The failure to secure customers may cause our operations to fail.

We currently have no long-term agreements with any customers. Many of our sales may be on a “onetime” basis. Accordingly, we will require new customers on a continuous basis to sustain our operations. Risk of material impact on Group growth and profit of consumer led slowdown in key developing markets, exacerbated by increasing currency volatility. A variety of factors may adversely affect our results of operations and financial condition during periods of economic uncertainty or instability, social or labour unrest or political upheaval in the markets in which we operate. Such periods may also lead to government actions, such as imposition of martial law, trade restrictions, foreign ownership restrictions, capital, price or currency controls, nationalization or expropriation of property or other resources, or changes in legal and regulatory requirements and taxation regimes.

We could be required to enter into consignment contracts which will expose us to significant market risk.

Consignment contracts require the seller to supply product to a retailer where compensation is contingent on sales. We anticipate a material percentage of our alternate health and wellness products may be sold on a consignment basis. Consignment contracts expose us to some significant risks, including investment risk if our products do not sell, and risks resulting from reduced cash-flow. These risks could lead to losses on contracts which may be substantial and which could adversely affect our results of our operations.

If we fail to effectively and efficiently advertise, the growth of our business may be compromised.

The future growth and profitability of our business will be dependent in part on the effectiveness and efficiency of our advertising and promotional expenditures, including our ability to (i) create greater awareness of our products, (ii) determine the appropriate creative message and media mix for future advertising expenditures, and (iii) effectively manage advertising and promotional costs in order to maintain acceptable operating margins. There can be no assurance that we will experience benefits from advertising and promotional expenditures in the future. In addition, no assurance can be given that our planned advertising and promotional expenditures will result in increased revenues, will generate levels of service and name awareness or that we will be able to manage such advertising and promotional expenditures on a cost-effective basis.

Our success is dependent on our unproven ability to attract qualified personnel.

We depend on our ability to attract, retain and motivate our management team, consultants and advisors. There is strong competition for qualified technical and management personnel in the Health and Wellness sector, and it is expected that such competition will increase. Our planned growth will place increased demands on our existing resources and will likely require the addition of technical personnel and the development of additional expertise by existing personnel. There can be no assurance that our compensation packages will be sufficient to ensure the continued availability of qualified personnel who are necessary for the development of our business.

We have a limited operating history with losses and we expect the losses to continue, which raises concerns about our ability to continue as a going concern.

We have generated minimal revenues since our inception and will, in all likelihood, continue to incur operating expenses with minimal revenues until we are able to successfully develop our business. Our business plan will require us to incur further expenses. We may not be able to ever become profitable. These circumstances raise concerns about our ability to continue as a going concern. We have a limited operating history and must be considered in the start-up stage.

There is an explanatory paragraph to their audit opinion issued in connection with the financial statements for the year ended August 31, 2015 with respect to their doubt about our ability to continue as a going concern. As discussed in Note 2 to our financial statements for the year ended August 31, 2015, we have incurred a net loss of \$1,149,433 for the year ended August 31, 2015 (net loss \$4,641,005 for the year ended August 31, 2014) and as at August 31, 2015 has incurred cumulative losses of \$11,915,096 that raises substantial doubt about its ability to continue as a going concern. Our management has been able, thus far, to finance the operations through equity financing and cash on hand. There is no assurance that our company will be able to continue to finance our company on this basis

Without additional financing to develop our business plan, our business may fail.

Because we have generated only minimal revenue from our business and cannot anticipate when we will be able to generate meaningful revenue from our business, we will need to raise additional funds to conduct and grow our business. We do not currently have sufficient financial resources to completely fund the development of our business plan. We anticipate that we will need to raise further financing. We do not currently have any arrangements for financing and we can provide no assurance to investors that we will be able to find such financing if required. The most likely source of future funds presently available to us is through the sale of equity capital. Any sale of share capital will result in dilution to existing security-holders.

We may not be able to obtain all of the licenses necessary to operate our business, which would cause our business to fail.

Our operations require licenses and permits from various governmental authorities related to the establishment of our planned facilities, to the production, storage and distribution of our products, and to the disposal of waste. We believe that we will be able to obtain all necessary licenses and permits under applicable laws and regulations for our operations and believe we will be able to comply in all material respects with the terms of such licenses and permits. However, such licenses and permits are subject to change in various circumstances. There can be no guarantee that we will be able to obtain or maintain all necessary licenses and permits.

Changes in health and safety regulation may result in increased or insupportable financial burden on our company.

We believe that we currently comply with existing laws and regulations affecting our product and operations. While there are no currently known proposed changes in these laws or regulations, significant changes have affected the industry in the past and additional changes may occur in the future.

Our products and operations may be subject to unanticipated regulations and rules promulgated from time to time by government, namely those related to consumer health and safety which may render certain production methods, ingredients, products or practices obsolete. The cost of compliance with changes in governmental regulations has potential to reduce the viability or profitability of our products or operations.

If we are unable to recruit or retain qualified personnel, it could have a material adverse effect on our operating results and stock price.

Our success depends in large part on the continued services of our executive officers and third party relationships. We currently do not have key person insurance on these individuals. The loss of these people, especially without advance notice, could have a material adverse impact on our results of operations and our stock price. It is also very important that we be able to attract and retain highly skilled personnel, including technical personnel, to accommodate our exploration plans and to replace personnel who leave. Competition for qualified personnel can be intense, and there are a limited number of people with the requisite knowledge and experience. Under these conditions, we could be unable to recruit, train, and retain employees. If we cannot attract and retain qualified personnel, it could have a material adverse impact on our operating results and stock price.

If we fail to effectively manage our growth our future business results could be harmed and our managerial and operational resources may be strained.

As we proceed with our business plan, we expect to experience significant and rapid growth in the scope and complexity of our business. We will need to add staff to market our services, manage operations, handle sales and marketing efforts and perform finance and accounting functions. We will be required to hire a broad range of additional personnel in order to successfully advance our operations. This growth is likely to place a strain on our management and operational resources. The failure to develop and implement effective systems, or to hire and retain sufficient personnel for the performance of all of the functions necessary to effectively service and manage our potential business, or the failure to manage growth effectively, could have a materially adverse effect on our business and financial condition.

Risks Associated with the Shares of Our Company

Because we do not intend to pay any dividends on our shares, investors seeking dividend income or liquidity should not purchase our shares.

We have not declared or paid any dividends on our shares since inception, and do not anticipate paying any such dividends for the foreseeable future. We presently do not anticipate that we will pay dividends on any of our common stock in the foreseeable future. If payment of dividends does occur at some point in the future, it would be contingent upon our revenues and earnings, if any, capital requirements, and general financial condition. The payment of any common stock dividends will be within the discretion of our Board of Directors. We presently intend to retain all earnings to implement our business plan; accordingly, we do not anticipate the declaration of any dividends for common stock in the foreseeable future.

Investors seeking dividend income or liquidity should not invest in our shares.

Because we can issue additional shares, purchasers of our shares may incur immediate dilution and may experience further dilution.

We are authorized to issue up to 200,000,000 shares. The board of directors of our company has the authority to cause us to issue additional shares, and to determine the rights, preferences and privileges of such shares, without consent of any of our stockholders. Consequently, our stockholders may experience more dilution in their ownership of our company in the future.

Other Risks

Trading on the OCTQB and CSE may be volatile and sporadic, which could depress the market price of our common stock and make it difficult for our stockholders to resell their shares.

Our common stock is quoted on the OTCQB electronic quotation service operated by OTC Markets Group Inc.. Trading in stock quoted on the OTCQB is often thin and characterized by wide fluctuations in trading prices, due to many factors that may have little to do with our operations or business prospects. This volatility could depress the market price of our common stock for reasons unrelated to operating performance. Moreover, the OTCQB is not a stock exchange, and trading of securities on the OTCQB is often more sporadic than the trading of securities listed on a quotation system like Nasdaq or a stock exchange like Amex. Accordingly, shareholders may have difficulty reselling any of the shares.

Our stock is a penny stock. Trading of our stock may be restricted by the Securities and Exchange Commission's penny stock regulations which may limit a stockholder's ability to buy and sell our stock.

Our stock is a penny stock. The Securities and Exchange Commission has adopted Rule 15c-9 which generally defines "penny stock" to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and "accredited investors". The term "accredited investor" refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the Securities and Exchange Commission which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

The Financial Industry Regulatory Authority, or FINRA, has adopted sales practice requirements which may also limit a stockholder's ability to buy and sell our stock.

In addition to the "penny stock" rules described above, FINRA has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, FINRA believes that there is a high probability that speculative low priced securities will not be suitable for at least some customers. FINRA requirements make it more difficult for broker-dealers to recommend that their customers buy our common stock, which may limit your ability to buy and sell our stock and have an adverse effect on the market for our shares.

We believe that our operations comply, in all material respects, with all applicable environmental regulations.

Our operating partners maintain insurance coverage customary to the industry; however, we are not fully insured against all possible environmental risks.

Any change to government regulation/administrative practices may have a negative impact on our ability to operate and our profitability.

The laws, regulations, policies or current administrative practices of any government body, organization or regulatory agency in the United States, Canada, or any other jurisdiction, may be changed, applied or interpreted in a manner which will fundamentally alter the ability of our company to carry on our business.

The actions, policies or regulations, or changes thereto, of any government body or regulatory agency, or other special interest groups, may have a detrimental effect on us. Any or all of these situations may have a negative impact on our ability to operate and/or our profitability.

Because we can issue additional shares, purchasers of our shares may incur immediate dilution and may experience further dilution.

We are authorized to issue up to 200,000,000 shares. The board of directors of our company has the authority to cause us to issue additional shares, and to determine the rights, preferences and privileges of such shares, without consent of any of our stockholders. Consequently, our stockholders may experience more dilution in their ownership of our company in the future.

Our by-laws contain provisions indemnifying our officers and directors against all costs, charges and expenses incurred by them.

Our by-laws contain provisions with respect to the indemnification of our officers and directors against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, actually and reasonably incurred by him, including an amount paid to settle an action or satisfy a judgment in a civil, criminal or administrative action or proceeding to which he is made a party by reason of his being or having been one of our directors or officers.

Investors' interests in our company will be diluted and investors may suffer dilution in their net book value per share if we issue additional shares or raise funds through the sale of equity securities.

Our constituting documents authorize the issuance of 200,000,000 shares of common stock with a par value of \$0.001. In the event that we are required to issue any additional shares or enter into private placements to raise financing through the sale of equity securities, investors' interests in our company will be diluted and investors may suffer dilution in their net book value per share depending on the price at which such securities are sold. If we issue any such additional shares, such issuances also will cause a reduction in the proportionate ownership and voting power of all other shareholders. Further, any such issuance may result in a change in our control.

Our by-laws do not contain anti-takeover provisions, which could result in a change of our management and directors if there is a take-over of our company.

We do not currently have a shareholder rights plan or any anti-takeover provisions in our By-laws. Without any anti-takeover provisions, there is no deterrent for a take-over of our company, which may result in a change in our management and directors.

As a result of a majority of our directors and officers are residents of other countries other than the United States, investors may find it difficult to enforce, within the United States, any judgments obtained against our company or our directors and officers.

Other than our operations offices in Vancouver and Kelowna, British Columbia, we do not currently maintain a permanent place of business within the United States. In addition, a majority of our directors and officers are nationals and/or residents of countries other than the United States, and all or a substantial portion of such persons' assets are located outside the United States. As a result, it may be difficult for investors to enforce within the United States any judgments obtained against our company or our officers or directors, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state thereof.

Trends, risks and uncertainties.

We have sought to identify what we believe to be the most significant risks to our business, but we cannot predict whether, or to what extent, any of such risks may be realized nor can we guarantee that we have identified all possible risks that might arise such as a black swan event. An absolute worst case scenario with sufficient potential impact to risk the future of the company as an independent business operating in its chosen markets. Significant reputational impact as a result of a major issue resulting in multiple fatalities, possibly compounded by apparently negligent management behavior; extreme adverse press coverage and viral social media linking the Company name to consumer brands, leads to a catastrophic share price fall, very significant loss of consumer confidence and inability to retain and recruit quality people. Investors should carefully consider all of such risk factors before making an investment decision with respect to our common shares.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Securities Holders

None.

Item 5. Other Information

Due to the implementation of British Columbia Instrument 51-509 on September 30, 2008 by the British Columbia Securities Commission, we have been deemed to be a British Columbia based reporting issuer. As such, we are required to file certain information and documents at www.sedar.com.
