

Press Release #201805

FOR IMMEDIATE RELEASE

February 2, 2018

Enertopia Provides Corporate Update

Kelowna, BC—Enertopia Corporation (ENRT) on the OTCQB and (TOP) on the CSE (the "Company" or "Enertopia") is pleased to provide the following update.

Enertopia has been informed by one of our independent 3rd party labs that ALS Labs has received new synthetic lithium brines using a more concentrated ratio of 1g source rock and 3g solution with a pH of 11. Also, the temperature of the solution had been raised to 80 degrees Celsius during the two hour testing period. For reference, our first synthetic brines were composed of 1g source rock to 4g solution with a pH of 11 at room temperature.

The Company continues to work aggressively at unlocking the value of the oxidized lithium bearing rock at the surface along the uplifted block along the eastern flank at Clayton Valley, NV. Further testing of lithium source rock and pH controlled liquid ratios will continue along with and in combination with testing of other separation methods that will be ongoing over the first quarter of 2018. Assay results from the above synthetic brines are expected shortly.

“We are working to inform the marketplace about our recent news and next steps for advancements in the ENERLET lithium extraction technology process.” Stated President and CEO Robert McAllister

Enertopia also welcomes shareholders and investors to visit us at this year’s PDAC in Toronto, ON during March 4th to 7th you will be able to find us on the Investors Exchange side at booth number 3347.

The Company announces it has received \$3,500 from the exercise of warrants previously granted. The warrants were exercised at prices of US\$0.07 for a total of 50,000 common shares being issued. All warrants are being exercised by third parties who are neither officers nor directors of the Company. No commissions or placement fees have been paid related to the funds received from this warrant exercise. Proceeds will be used for general corporate purposes.

The securities referred to herein will not be or have not been registered under the United States Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements.
