

Enertopia Announces West Tonopah Project Update

Kelowna, British Columbia--(Newsfile Corp. - April 19, 2022) - **Enertopia Corporation** (OTCQB: ENRT) ("Enertopia" or the "Company") a company focused on building shareholder value through a combination of our Nevada Lithium claims, intellectual property, & patents in the green technology space, is pleased to provide the following update.

After our recently completed field study on our West Tonopah project, we are in the final preparation for submission to the BLM of the Company's NOI (Notice of Intent) to drill. The focus of the planned 1,500 to 2,000 foot, 15 to 20 hole, drill program is multifaceted. Firstly, it is to confirm that the tenor and grade of mineralization encountered from our man portable drill rig is confirmed to greater depths, and over a larger aerial extent. The information gained will then be incorporated into our first NI 43-101 Resource report for the West Tonopah lithium project, which is expected later this year.

The Company also reminds shareholders of record, as of March 25th 2022, to ensure that they submit their proxy's before the 8 AM PST April 29th 2022 submission deadline. For those who have not received their proxy materials you can request proxy materials from **Nevada Agency and Transfer Company, Proxy Department, 50 West Liberty Street, Suite 880 Reno NV 89501 Tel: 775-322-0626 Fax: 775-322-5623 E-mail: info@natco.com**.

We look forward to providing detailed updates as the planned drilling program progresses and drilling results are received over the coming months," stated President and CEO, Robert McAllister.

[As previously announced](#), on February 24th, 2022 Enertopia Corp. & Cypress Development Corp. entered into a definitive Purchase and Sale Agreement, dated February 23, 2022 (the "Agreement"), whereby Cypress Development Corp. will pay Enertopia \$1,100,000 USD dollars and 3,000,000 Cypress Development Corp. common shares, to purchase 100% of the Company's Clayton Valley lithium project. Enertopia received \$50,000 of the \$1.1 million on signing the definitive agreement. The closing remains subject to the customary approvals and closing conditions for such a transaction.

If completed, the sale of the Clayton Valley mineral claims will allow Enertopia to participate in the upside of Cypress Development Corp., the company expects that as they continue to de-risk their claystone lithium project, the valuation of the Cypress shares Enertopia are set to receive will appreciate in value. Thus making the decision to consolidate the project into one general owner to be in the best interest of all stakeholders involved. On February 28th, 2022 Cypress Development announced the next major step in moving the project forward with Wood PLC and Global Resource Engineering (GRE) will be conducting the work required to complete a feasibility study in accordance with Canadian Securities National Instrument 43-101 report for the Clayton Valley lithium project located in Nevada, United States.

Board of Directors' Recommendations

The Agreement has been unanimously approved by the Enertopia Board of Directors, who recommend that Enertopia Shareholders vote in favour of the Agreement. The Agreement has also been unanimously approved by the Board of Directors of Cypress Development Corp.

Transaction Conditions & Timing

Full details of the transaction have been included in the proxy statement of Enertopia mailed to Enertopia Shareholders of record as of the close of business on March 25th 2022. The transaction will be subject to the approval of at least 50% of the votes cast by Enertopia Shareholders, at a special meeting of Enertopia Shareholders to be held on 29th of April 2022.

None of the securities to be issued pursuant to the transaction have been or will be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws, and any securities issuable in the Transaction are anticipated to be issued in reliance upon available exemptions from such registration requirements pursuant to applicable exemptions under securities laws. This press release does not constitute an offer to sell or the solicitation of an offer to buy any securities.

Participants in Solicitation

The Company and its directors and executive officers and certain other members of management and employees may be deemed to be participants in the solicitation of proxies from stockholders with respect to the matters to be voted upon at the special meeting. Information about the directors and executive officers of the Company and their ownership in the Company has been included in the proxy statement filed with the SEC and the documents and information incorporated by reference therein. Other information regarding the participants in the proxy solicitation and a description of their direct and indirect interests, by security holdings or otherwise, is contained in the proxy statement and other relevant materials filed with the SEC. Stockholders can obtain free copies of the documents by accessing the SEC's and the Company's website as described herein.

For Enertopia this is not the end of our participation in the Lithium sector but the springboard for taking on a larger project that can now be funded internally.

"We are very excited about the next steps for Enertopia," stated President and CEO, Robert McAllister.
