

FORM 51-102F3
Material Change Report

ITEM 1. **Name and Address of Company**

Enertopia Corp. (the "Company" or "Enertopia")
1873 Spall Road, #18
Kelowna, BC V1Y 4R2

ITEM 2. **Date of Material Change**

July 11, 2022

ITEM 3. **News Release**

The Company disseminated a news release on July 11, 2022. The Company announced the material change by filing a Form 8-K with the Securities and Exchange Commission.

ITEM 4. **Summary of Material Change**

On July 11, 2022, the Company reported the first drilling assays as high as 1,290 PPM Lithium on its 1,760 acre West Tonopah project.

ITEM 5. **Full Description of Material Change**

5.1 **Full Description of Material Change**

See attached Form 8-K with exhibit attached.

5.2 **Disclosure for Restructuring Transactions**

Not Applicable

ITEM 6. **Reliance on subsection 7.1(2) of National Instrument 51-102**

Not Applicable

ITEM 7. **Omitted Information**

No material information has been omitted.

ITEM 8. **Executive Officer**

Additional information respecting the Company or the material changes disclosed under this form may be obtained by contacting Robert McAllister, CEO and President of the Company, at (250) 870-2219.

ITEM 9. **Date of Report**

Dated July 11, 2022

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549**

FORM 8-K

CURRENT REPORT

Pursuant to Section 13 OR 15(d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported) July 11, 2022

ENERTOPIA CORP.

(Exact name of registrant as specified in its charter)

Nevada	000-51866	20-1970188
(State or other jurisdiction of incorporation)	(Commission File Number)	(IRS Employer Identification No.)

#18, 1873 Spall Road, Kelowna, BC	V1Y 4R2
(Address of principal executive offices)	(Zip Code)

Registrant's telephone number, including area code 250-870-2219

N/A
(Former name or former address, if changed since last report.)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Shares	ENRT	OTC Markets

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 7.01 Regulation FD Disclosure

On July 11, 2022, Enertopia Corp. ("Enertopia" or the "Company") issued a news release, attached as Exhibit 99.1, reporting its first drilling assays on its 1,760 acres West Tonopah project.

Item 9.01 Financial Statements and Exhibits

99.1 Press Release dated July 11, 2022

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Enertopia Corporation Reports First Drilling Assays as high as 1,290 PPM Lithium

Kelowna, British Columbia--(Newsfile Corp. – July 11, 2022) - **Enertopia Corporation** (OTCQB: ENRT) ("Enertopia" or the "Company") a company focused on building shareholder value through a combination of our Nevada Lithium claims, intellectual property, & patents in the green technology space, is very pleased to provide the following update.

Enertopia is delighted to report the following drilling update from our 1,760 acre West Tonopah project just minutes west of Tonopah, NV. As of July 7th the complete assays from the five drill holes, drilled to a total depth of 120 feet each, have been received and analyzed.

HOLE #	From ft	To ft	PPM Li Avg	PPM Li high Assay	Claystone Horizon type	Comments
DH22-01	13.0	120	738	1,120	Light green claystone	
Including	60	70	0			No core recovery
Including	70	120	923			
Including	100	120	905			EOH
DH22-05	32.5	120	799	1,140	Light green claystone	
Including	110	120	935			EOH
DH22-06	47.5	120	842	1,290	Light green claystone	
Including	112.5	120	880			EOH
DH22-07	40	120	772	1,050	Light green claystone	
DH22-07	110	120	785			EOH
DH22-08	20	120	740	1,070	Light green claystone	
Including	112	120	590			EOH

EOH means end of drilled hole

OBSERVATIONS:

Overburden varied from a very shallow 13 feet to a maximum of 47.5 feet on the above holes. We are very pleased to have encountered good near surface grades of Lithium claystone covering an area of 4,800 lineal feet North-South, and 1,200 lineal feet West to East in the above five holes.

This phase of drilling has resulted in the confirmation that the lithium claystone horizon was far thicker than originally expected and remains open to depth. As a result of these findings, we will need to run a follow up deeper drilling program, which will allow us to test the extent of the Light green oxidized claystone horizon, and potential subsequent claystone horizons at depth.

Visually there were at least three different claystone's encountered on the project in different holes. So far we only have assays for the shallow drill holes that have confirmed that the near surface green claystone has indeed been enriched with lithium.

“The Company looks forward to the remaining assay results of the five holes that were drilled to depths of 160 ft in hole DH22-10, and 200 ft each in holes DH22-04,16,19 and 20 in the coming weeks.” stated President Robert McAllister.

All samples were submitted to ALS Global in Reno, Nev., for analysis by ME-ICP61 plus Lithium. standards were inserted into the sample sequences at random intervals.
