

## Enertopia Announces Third Update to Spring Drilling Program at WT Lithium Project

Kelowna, British Columbia--(Newsfile Corp. – April 11, 2023) - **Enertopia Corporation** (OTCQB: ENRT) and (CSE: ENRT) ("Enertopia" or the "Company") a company focused on building shareholder value through a combination of our Nevada lithium claims, intellectual property, & pending patents in the green technology space, is very pleased to provide the following lithium project update.

We are happy to report that four additional drill holes have been completed with all intersecting the light green claystone horizon. The drill crew is back from their Easter break and the final part of the drill program is now underway. The company will provide additional summaries as the drilling program progresses to final assays being released.

It is gratifying that thus far every hole in the 2023 drill program has intersected the green claystone horizon, which so far has hosted the higher-grade Lithium assays as reported during the 2022 drilling program.

2023 Second Phase Drill Holes completed and reported today:

<b>HOLE #</b>	<b>From ft</b>	<b>To ft</b>	<b>Claystone Horizon type</b>	<b>Comments</b>
<b>DH23-07</b>	0	46	Overburden	
	46	105	Green claystone	
	105	113	Ash tuff	
	113	124	Green claystone	
	124	181	Dark green, claystone	EOH
<b>DH23-05</b>	0	130	Overburden	
	130	195	Green claystone	
	195	221	Silt and ash tuff	
	221	255	Green claystone	
	255	265	Green claystone back to ash tuff	
	265	302	Green claystone	
	302	313	Green claystone and ash tuff	
	313	320	Green claystone	
	320	339	Green tan claystone and ash tuff	
339	352	Green tan claystone	EOH	
<b>DH23-04</b>	0	114	Overburden	
	114	268	Green claystone	
	268	276	Green claystone / ash tuff	
	276	286	Dark tan claystone	EOH
<b>DH23-06</b>	0	37	Overburden	
	37	87	Green claystone	
	87	91	Transition to black claystone	
	91	137	Black claystone / ash intervals	EOH

## **Inaugural 43-101 report**

Upon completion of the 2023 drilling program (and once all assays are received), the Company will commission the writing of an inaugural 43-101 report for the West Tonopah Project, which covers 1,760 acres.

“I am extremely pleased with every hole to date intersecting what is believed to be the higher-grade green claystone horizon thus far. We look forward to a steady stream of news and advancements in 2023.” Stated President Robert McAllister.
