1. Nature of Operations and Going Concern

SustainCo Inc. (formerly Bellair Ventures Inc.), (the “Company” or “SustainCo”), was incorporated under the *Canada Business Corporation Act* on August 22, 2008. The address of the Company’s corporate office is 1 Royal Gate Boulevard, Suite D, Vaughan, Ontario. The Company is listed on the TSX Venture Exchange Inc. (the “TSX-V” or the “Exchange”) under the trading symbol “SMS”.

SustainCo conducts its operations through two wholly-owned subsidiaries, Clean Energy Developments Corp. (“CleanEnergy”) and VCI CONTROLS Inc. (“VCI” or “VCI CONTROLS”).

CleanEnergy is a Canadian industry leading geoexchange company that provides heating and cooling solutions for residential and commercial buildings using energy from the earth. It provides a complete energy solution and is able to provide engineering and design, geo installation, equipment and control systems as well as manage the complete project.

VCI is a leading supplier of building technologies and services that improve comfort, safety, energy efficiency, and occupant productivity. It is an industry leader in the development of intelligent building technology, including the integration of all building systems utilizing the latest in communications technologies and standards. VCI's business focuses on digital controls and mechanical services, performance monitoring, and energy efficiency solutions.

These condensed interim consolidated financial statements are prepared on the assumption that the Company is a going concern, which contemplates the realization of assets and the settlement of liabilities in the normal course of operations. Over the past two years the Company has incurred significant losses including operating losses for the nine months ended May 31, 2016 of $607,963. As a result, the Company has an accumulated deficit of $20,926,845 and a working capital deficit of $1,972 at May 31, 2016. The Company has taken and continues to take steps to reduce these losses and ultimately become profitable; however, losses may continue for the 2016 fiscal year. As a result, there is substantial doubt surrounding the Company’s ability to continue as a going concern. In order to rectify these problems, in addition to increasing revenues and decreasing costs in order to reduce losses, the Company will require additional financing in the form of debt or equity. Failure to obtain such financing could result in delay or indefinite postponement of the Company’s strategic goals. These condensed interim consolidated financial statements do not include any adjustments to the carrying values and classifications of assets and liabilities that would be necessary should the Company be unable to continue as a going concern.

2. Basis of Presentation

Statement of compliance

The Company's condensed interim consolidated financial statements have been prepared in accordance with IAS 34, "Interim Financial Reporting". These condensed interim consolidated financial statements do not include all notes of the type normally included within the annual financial report and should be read in conjunction with the audited financial statements of the Company for the year ended August 31, 2015, which has been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

These financial statements were authorized for issue by the Board of Directors on July 19, 2016.

Basis of measurement and functional currency

The consolidated financial statements are prepared on the historical cost basis.

The consolidated financial statements are presented in Canadian dollars, the Company's functional currency.

Principles of consolidation

The Company consolidates its interest in entities which it controls. Control comprises the power to govern an entity's financial and operating policies so as to obtain benefits from its activities. All intercompany balances and transactions have been eliminated.

3. Summary of Significant Accounting Policies

These condensed interim consolidated financial statements have been prepared following the same accounting policies used in the preparation of the audited financial statements of the Company for the year ended August 31, 2015.

Use of estimates

The preparation of these condensed interim consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the end of the reporting period and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The critical assumptions concerning the key sources of estimation uncertainty are consistent with those in the audited financial statements of the Company for the year ended August 31, 2015.

(c) Stock options

The Company adopted a stock option plan under which it is authorized to grant options to officers, directors, employees, and consultants enabling them to acquire up to 10% of the issued and outstanding common stock of the Company. The options granted can be exercised for a maximum of 5 years and vest as determined by the Board of Directors. The exercise price of each option may not be less than the discounted fair market value of the common shares on the date of grant.

The option details of the Company are as follows:

8. Related Party Balances and Transactions

(a) A corporation that holds significant influence over the Company is owed $125,000 (August 31, 2015 - $125,000), which is outstanding consideration payable for the qualifying transaction. These amounts are non-interest bearing and due on demand.

(b) During the period, rent of $15,500 (2015 - $27,900) was paid to a company controlled by a former officer of the Company, for office space used by the Company.

(c) During the period, $352,250 was received from a corporation controlled by an officer and director of the Company. Previously in 2015, $135,000 was received from a corporation controlled by an officer and director of the Company for a total of $487,250 plus accrued interest for a total of $514,225. $152,250 of the total outstanding bear interest at 8%, with the remaining promissory notes bearing interest of 12% and all are repayable upon demand.

9. Financial Instruments and Risk Management

Capital management

The Company's capital currently consists of debt and equity (deficiency). Its principal sources of cash are from operations, the issuance of common shares and debt. The Company's objective is to maintain a strong capital base so as to maintain investor, creditor and market confidence.

The Company intends to maintain a flexible capital structure consistent with the objectives mentioned above and to respond to changes in economic conditions and the risk characteristics of underlying assets. In order to maintain or adjust its capital structure, the Company may issue new shares, raise secured debt or refinance existing debt with different characteristics.

VCI is subject to a financial covenant related to its bank indebtedness which consists of a maximum threshold for its liabilities to tangible net worth ratio (note 11).

Financial instrument risk exposure and management

Liquidity risk

The Company is exposed to liquidity risk or the risk of not meeting its financial obligations as they come due. The Company constantly monitors and manages its cash flows to assess the liquidity necessary to fund operations (see note 1).

The carrying value of accounts receivable, trade payables and accrued liabilities, and due to related party reflected in the consolidated statement of financial position approximates fair value because of the short-term nature of these instruments. The fair value of debentures approximates their carrying value.

Interest rate risk

Debentures owed by the Company are fixed rate instruments. The Company is subject to interest rate risk from its bank indebtedness, which is subject to a floating interest rate, which changes based on prevailing market conditions.

9. Financial Instruments and Risk Management – continued

Credit risk

The Company's cash is held at chartered Canadian financial institutions. Management reviews the strength of these institutions on a regular basis.

Accounts receivable subject the Company to credit risk. The Company believes the remaining amounts will be collected. Holdbacks are received upon substantial completion of the projects.

Accounts receivable aging		**May 31, 2016**		August 31, 2015
Within 30	$	1,273,684	$	1,492,358
31 to 60		914,270		1,149,097
61 to 90		784,536		345,558

Holdbacks		325,485		261,179
Total accounts receivable	**$**	**3,763,027**	$	3,483,364

The maximum exposure is limited to the carrying amount of financial assets on the consolidated statement of financial position that includes cash and accounts receivable.

Concentration risk

The concentration of revenue generated from major customers is not significant, with the three largest customers combined accounting for less than 25% of gross revenue.

Foreign exchange risk

The Company purchases a portion of its inventory in United States dollars ("USD") and does not currently engage in hedging activities. Accordingly, the Company is exposed to foreign exchange risk on a portion of its accounts payable and accrued liabilities and its USD bank account balances. However, the foreign exchange exposure to the Company at this time is not significant.

11. Bank Indebtedness

As at May 31, 2016, bank indebtedness is made up of a $95,000 demand operating loan and $219,887 bank overdraft (August 31, 2015 - $315,000 and $210,104 respectively).

The demand operating loan bears interest at the Royal Bank prime rate plus 3.60% (6.30% at May 31, 2016). Security for the above indebtedness is comprised of a general security agreement, and postponement and assignment of claim of amounts due to related parties. The operating loan maximum is $500,000. The operating loan agreement expired at the end of December 2015. The Company is actively working with the bank to renew this facility.

During the nine months ended May 31, 2016, interest of approximately $9,099 (2015 - $23,860) related to the above indebtedness has been charged to interest expense.

VCI is subject to a financial covenant related to its bank indebtedness which consists of a maximum threshold for its liabilities to tangible net worth ratio. At May 31, 2016, VCI was in compliance with this financial covenant.

12. Debentures

The Company has outstanding secured term note units, totalling $5,075,000. Each secured term note unit is comprised of: (i) one $1,000 principal amount secured term note (each, a "Term Note") of the Company; and (ii) one hundred (100) common share purchase warrants (each common share purchase warrant, a "Warrant") of the Company. The Term Notes bear interest at a rate of 12% per annum and have a maturity date of June 2019, with a redemption feature exercisable by the Company after a period of 24 months following the closing. Each Warrant is exercisable for a period of 36 months following the Closing at an exercise price of $0.25 per Common Share, subject to adjustment in certain events. A total of 507,500 warrants were issued in conjunction with the debentures.

The residual valuation method was used to determine the value of the warrants attached. Under this approach, the liability component was valued first, and the difference between the proceeds of the debentures and the fair value of the liability was assigned to the warrant component.

13. Contingent Liabilities and Commitments

The Company is involved in several claims in the capacity of plaintiff as well as defendant. The Company or its insurer, where applicable, has filed defenses where the Company has been named defendant. In the opinion of management, the resolution of claims against the Company for an amount differing from the amount reflected in the records will not result in a material adverse effect on the financial position of the Company.

The Company has a lease commitment until 2019 for the rental of office space and vehicles. The minimum payments payable over the next five years are as follows:

2016	$ 49,000
2017	205,000
2018	159,000
2019	42,000
