NOTES TO THE INTERIM FINANCIAL STATEMENTS
April 30, 2012
(Unaudited)

Note 1 – Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the United States Securities and Exchange Commission for interim financial information. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of financial position, results of operations, stockholders' deficit or cash flows. It is management's opinion, however, that all material adjustments (consisting of normal recurring adjustments) have been made which are necessary for a fair financial statement presentation. The unaudited interim financial statements should be read in conjunction with the Company's Annual Report on Form 10-K, which contains the audited financial statements and notes thereto, together with the Management's Discussion and Analysis, for the year ended July 31, 2011. The interim results for the period ended April 30, 2012 are not necessarily indicative of the results for the full fiscal year.

Note 2 – Nature of Operations

Atlantic Resources Inc. was incorporated in the State of Nevada on February 9, 2007 and is in the exploration stage. On March 29, 2012, Atlantic Resources Inc. merged with and into our wholly-owned subsidiary Patriot Minefinders Inc. (the "Company"), a Nevada corporation, to effect a name change from Atlantic Resources Inc to Patriot Minefinders Inc. The Company was formed solely for the change of name. The Company is engaged in activities related to the exploration for mineral resources in Canada. The Company acquired a mineral property claim located in the Province of British Columbia, Canada, but allowed the claim to lapse on October 6, 2010. The Company is currently searching for new mineral properties to acquire.

The Company has adopted July 31 as its fiscal year end.

Note 3 – Going Concern

These financial statements have been prepared on the going concern basis, which presumes that the Company will continue operations for the foreseeable future and will be able to realize assets and discharge liabilities in the normal course of business. The Company has accumulated a deficit of \$115,032 since inception, has yet to achieve profitable operations and further losses are anticipated in the development of its business, raising substantial doubt about the Company's ability to continue as a going concern. Its ability to continue as a going concern is dependent upon the ability of the Company to generate profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. These financial statements do not reflect the adjustments or reclassifications to the assets and liabilities which would be necessary if the Company was unable to continue its operations. Management plans to obtain short-term loans from the directors of the Company.

Note 4 – Due to Related Party

The account represents advances made by a former major shareholder and director of \$30,500 and the current major shareholder and director \$36,600 as of April 30, 2012. The advances are due on demand without interest.

Note 5 – Note Payable

On March 19, 2012, the Company entered into a bridge loan agreement and promissory note with Skanderbeg Capital Partners Inc. (“Skanderbeg”). Under the terms of the bridge loan agreement, Skanderbeg Capital has agreed to loan the Company \$25,000 to facilitate the assignment to the Company of Skanderbeg’s interest in an option agreement related to the La Buena Project in Mexico (the “Transaction”).

Upon the signing of a definitive agreement between the Company and Skanderbeg for the Transaction, the bridge loan will be applied to Skanderbeg’s investment obligations under that agreement and the promissory note will no longer be valid.

The bridge loan shall bear interest at the rate of Prime +1% per annum, payable on the maturity date. As of April 30, 2012, the total principle of the loan taken is \$2,548 and interest accrued is \$9.

Note 6 – Capital Stock

Authorized

On March 29, 2010, the board of directors authorized a 24-for-1 forward stock split. Prior to the approval of the forward split, the Company had authorized 70,000,000 common shares with the par value of \$0.001 per common share. On the effective date of the forward split, the total authorized capital is 1,680,000,000 common shares with the par value of \$0.001 per common share.

Note 7 – Subsequent Events

On May 17, 2012, we entered into an assignment agreement with Skanderbeg Capital Partners Inc., in regards to the acquisition of an option on certain mineral concessions in Mexico known as the “La Buena Project”.

Skanderbeg and San Marco Resources Inc. had entered into an option agreement dated February 28, 2012, wherein Skanderbeg had acquired from San Marco the “Option” as defined therein, in regards to the option to acquire a 50% interest in the La Buena Project. Skanderbeg has assigned its interest in the

Option to us for \$100,000, which consists of the costs paid by Skanderbeg to date for the acquisition of its interest under the Option terms.

We have assumed all of Skanderbeg's obligations under the option agreement and have agreed to issue up to 2,500,000 restricted shares of common stock to San Marco, in periodic installments to December 31, 2014. We shall be required to make aggregate cash payments totaling \$300,000 to San Marco, with the next payment of \$100,000 due by the end of the year, and then an additional \$100,000 due on each of December 31, 2013 and 2014 respectively. We will be required to incur aggregate exploration expenditures of \$6,000,000, with \$1,000,000 to be incurred by the end of the year, \$500,000 to be incurred by December 31, 2013, and the balance of \$4,500,000 to be incurred by December 31, 2014.

Effective June 1, 2012, our stock symbol changed from "AARI" to "PROF" to better reflect the new name of our company. The symbol change became effective with the Over-the-Counter Bulletin Board at the opening of trading on June 1, 2012 under the new stock symbol "PROF".

On June 8, 2012, Patriot Minefinders Inc. (the "Company") announced the appointment of Frederick J. Sveinson, Perparim Alikaj, Michael Hofer and Fred Tejada to the Company's Board of Directors effective June 1, 2012.

The Company has evaluated subsequent events for the period June 1, 2012 through the date the financial statements were issued, and concluded there were no other events or transactions occurring during this period that required recognition or disclosure in its financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

SPECIAL NOTE OF CAUTION REGARDING FORWARD-LOOKING STATEMENTS

CERTAIN STATEMENTS IN THIS REPORT, INCLUDING STATEMENTS IN THE FOLLOWING DISCUSSION, ARE WHAT ARE KNOWN AS "FORWARD LOOKING STATEMENTS", WHICH ARE BASICALLY STATEMENTS ABOUT THE FUTURE. FOR THAT REASON, THESE STATEMENTS INVOLVE RISK AND UNCERTAINTY SINCE NO ONE CAN ACCURATELY PREDICT THE FUTURE. WORDS SUCH AS "PLANS," "INTENDS," "WILL," "HOPES," "SEEKS," "ANTICIPATES," "EXPECTS "AND THE LIKE OFTEN IDENTIFY SUCH FORWARD LOOKING STATEMENTS, BUT ARE NOT THE ONLY INDICATION THAT A STATEMENT IS A FORWARD LOOKING STATEMENT. SUCH FORWARD LOOKING STATEMENTS INCLUDE STATEMENTS CONCERNING OUR PLANS AND OBJECTIVES WITH RESPECT TO THE PRESENT AND FUTURE OPERATIONS OF THE COMPANY, AND STATEMENTS WHICH EXPRESS OR IMPLY THAT SUCH PRESENT AND FUTURE OPERATIONS WILL OR MAY PRODUCE REVENUES, INCOME OR PROFITS. NUMEROUS FACTORS AND FUTURE EVENTS COULD CAUSE THE COMPANY TO CHANGE SUCH PLANS AND OBJECTIVES OR FAIL TO SUCCESSFULLY IMPLEMENT SUCH PLANS OR ACHIEVE SUCH OBJECTIVES, OR CAUSE SUCH PRESENT AND FUTURE OPERATIONS TO FAIL TO PRODUCE REVENUES, INCOME OR PROFITS. THEREFORE, THE READER IS ADVISED THAT THE FOLLOWING DISCUSSION SHOULD BE CONSIDERED IN LIGHT OF THE DISCUSSION OF RISKS AND OTHER FACTORS CONTAINED IN THIS REPORT ON FORM 10-Q AND IN THE COMPANY'S OTHER FILINGS WITH THE SECURITIES AND EXCHANGE COMMISSION. NO STATEMENTS CONTAINED IN THE FOLLOWING DISCUSSION SHOULD BE CONSTRUED AS A GUARANTEE OR ASSURANCE OF FUTURE PERFORMANCE OR FUTURE RESULTS.

Plan of Operation

As at April 30, 2012, we had a cash balance of \$6,436, compared to a cash balance of \$1,471 as of July 31, 2011. Our plan of operation for the next twelve months is to exploration and development the LA Buena project.

Our plan of operation for the twelve months is to commence an initial phase of exploration on the LA Buena project. We estimate that the cost of the initial aggregated exploration will be approximately \$1,000,000.

As well, we anticipate spending an additional \$225,000 on administrative fees, including fees payable in connection with our filing obligations as a reporting issuer, and cash payments under the Skanderbeg's obligation on option agreement. Total expenditures over the next 12 months are therefore expected to be approximately \$1,225,000.

We do not have sufficient funds to cover the anticipated administrative expenses or to acquire a new mineral property, so we will require additional funding. We anticipate that additional funding will be in the form of equity financing from the sale of our common stock or from director loans. We do not have any arrangements in place for any future equity financing or loans.

If we are not successful in raising additional financing, we anticipate that we will not be able to proceed with our business plan. Any business opportunity would require our management to perform diligence on possible acquisition of additional resource properties. Such due diligence would likely include

purchase investigation costs, such as professional fees by consulting geologists, preparation of geological reports on the properties, conducting title searches and travel costs for site visits.

Our current cash on hand will not be sufficient to acquire any resource property and additional funds will be required to earn-in to the La Buena property. As a reporting company we will need to maintain our periodic filings with the appropriate regulatory authorities and will incur legal and accounting costs. If no other such opportunities are available and we cannot raise additional capital to sustain minimum operations, we may be forced to discontinue business. We do not have any specific alternative business opportunities in mind and have not planned for any such contingency.

Based on the nature of our business, we anticipate incurring operating losses in the foreseeable future. We base this expectation, in part, on the fact that very few mineral claims in the exploration stage ultimately develop into producing, profitable mines. Our future financial results are also uncertain due to a number of factors, some of which are outside our control. These factors include the following:

- our ability to raise additional funding;
- our ability to acquire a new mineral property;
- the market price for minerals that may be found on any mineral property we may acquire;
- the results of our proposed exploration programs on the mineral property; and
- our ability to find joint venture partners for the development of our property interests.

We have not attained profitable operations and are dependent upon obtaining financing to pursue exploration activities. For these reasons our auditors believe that there is substantial doubt that we will be able to continue as a going concern.

Results of Operations for Period Ending April 30, 2012

We have had no operating revenues since our inception on February 9, 2007 through April 30, 2012, and have incurred operating expenses in the amount of \$115,032 for the same period. Our activities have been financed from the proceeds of share subscriptions and director loans.

We do not anticipate earning revenues unless we enter into commercial production on any mineral property we may acquire, which is doubtful. We have not commenced the exploration stage of our business and can provide no assurance that we will discover economic mineralization on any mineral property we may acquire, or if such minerals are discovered, that we will enter into commercial production.

For the three months ended April 30, 2012, general and administrative expenses were \$145 compared to \$4,709 for the three months ended April 30, 2011 and professional fees were \$20,395 compared to \$1,568 for the same period last fiscal year. These costs were incurred due to filing obligations.

For the nine months ended April 30, 2012, general and administrative expenses were \$3,951 compared to \$18 for the nine months ended April 30, 2011 and professional fees were \$33,543 compared to \$974 for the same period last fiscal year. These costs were incurred due to filing obligations.

Since our inception on February 9, 2007 through January 31, 2012, general and administrative expenses

were \$55,815, professional fees were \$46,057, incorporation cost were \$500 and we incurred \$12,500 in geological, mineral and prospect costs.

Liquidity and Capital Resources

At April 30, 2012, we had total assets of \$13,355, consisting of cash and cash equivalents, prepaid expenses, and other assets. Our liabilities consisted of accounts payable and accrued liabilities of \$29,539, the due to related parties is \$67,100 and the note payable was \$2,548.

Off Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not Applicable.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

The Securities and Exchange Commission defines the term “disclosure controls and procedures” to mean a Company's controls and other procedures of an issuer that are designed to ensure that information required to be disclosed in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to the issuer’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. The Company maintains such a system of controls and procedures in an effort to ensure that all information which it is required to disclose in the reports it files under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified under the SEC's rules and forms and that information required to be disclosed is accumulated and communicated to principal executive and principal financial officers to allow timely decisions regarding disclosure.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our chief executive officer and chief financial officer concluded that our internal control over financial reporting was not effective as of April 30, 2012 because the following material weakness in internal control over financial reporting existed as of that date.

- (i) lack of segregation of incompatible duties due to insufficient personnel; and
- (ii) Insufficient Board of Directors representation.

Though no material misstatements have resulted, our management has determined that until such time as sufficient representation on our Board of Directors can be achieved the Company's inability to

formulate an audit committee represents a significant risk.

A material weakness is a deficiency or a combination of control deficiencies in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of an annual or interim financial statements will not be prevented or detected on a timely basis.

Changes in Internal Control over Financial Reporting

The above noted deficiency in internal control was not reported in earlier financial statements as management thought that the lack of operations made up these weaknesses. Accordingly, there has been no change in the Company's internal control over financial reporting during the period ended April 30, 2012, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. However, as noted above, there has been a change in management's evaluation of those controls.
