1. Reporting Entity

Loon Energy Corporation ("Loon" or the "Company") was incorporated pursuant to the provisions of the Business Corporation Act (Alberta) on October 30, 2008 in conjunction with the reorganization by legal plan of arrangement of Loon Energy Inc. ("Loon Energy"). The reorganization of Loon Energy resulted in the Company receiving the net assets associated with resource properties located in Colombia and Peru. Upon implementation of the re-organization, Loon Energy's name was changed to Kulczyk Oil Ventures Inc. ("Kulczyk Oil"). Effective June 24, 2013, Kulczyk Oil changed its name to Serinus Energy Inc. ("Serinus").

Loon is domiciled in Canada and the address of its registered head office is 1500, 700 - 4th Avenue SW, Calgary, Alberta.

2. Basis of Preparation

(a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting and do not include all the information required for full annual financial statements.

These condensed interim financial statements have been prepared following the same accounting policies and methods of computation as the consolidated financial statements of the Company for the year ended December 31, 2013, except as described in note 2(c). The disclosures provided herein are incremental to those included within the annual financial statements and certain disclosures which are normally required to be included in the notes to the annual financial statements have been condensed or omitted. These condensed interim financial statements should be read in conjunction with the financial statements and notes thereto in the Company's annual filings for the year ended December 31, 2013.

These condensed consolidated interim financial statements were approved by the Company's Board of Directors on August 26, 2014.

(b) Going Concern

The Company is an oil and gas exploration and development company whose only properties at present are in Colombia. The Company's properties have no proved reserves and do not generate positive net production revenue.

These condensed consolidated interim financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business. To date, the Company's exploration and development operations have been financed by way of equity issuances, debt facilities and by farm-out arrangements with third parties who pay for all or a portion of the Company's expenditures to earn a portion of the Company's ownership interests. As at June 30, 2014 the Company has a working capital deficiency of \$264,761 and incurred a net loss of \$51,341 for the six month period ended June 30, 2014. The Company is pursuing international oil and gas opportunities and will require additional capital to fund the working capital deficit, ongoing operations, acquire additional exploration opportunities. The need to raise capital to fund the working capital deficit, ongoing operations, acquire additional concessions and for exploration and development opportunities creates a significant doubt as to the Company's ability to continue as a going concern. There are no guarantees that additional capital, either through additional equity, debt or farm-out arrangements will be available when needed. The financial statements do not reflect adjustments that would be necessary if the going concern assumption was not appropriate.

Notes to the Condensed Consolidated Interim Financial Statements For the three and six month periods ended June 30, 2014 and 2013 US\$ (unaudited)

(c) Adoption of new accounting pronouncements

On January 1, 2014, the Company adopted the amendment to IAS 36. This amendment requires entities to disclose the recoverable amount of an impaired Cash Generating Unit if the amount is based on fair value less costs of disposal. Adoption of the amendment had no impact to the consolidated financial statements.

In December 2013, the International Accounting Standards Board ("IASB") issued narrow-scope amendments to a total of nine standards as part of its annual improvements process. The Company intends to adopt these amendments in its financial statements for the annual period beginning on January 1, 2015. The extent of the impact of adoption of the amendments has not yet been determined.

On May 28, 2014 the IASB issued IFRS 15 *Revenue from Contracts with Customers*. The new standard is effective for fiscal years ending on or after December 31, 2017. The Company intends to adopt IFRS 15 in its financial statements for the annual period beginning on January 1, 2017. The extent of the impact of adoption of the standard has not yet been determined.

On July 24, 2014 the IASB issued IFRS 9 Financial Instruments. The package of improvements introduced by IFRS 9 includes a revised model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially-reformed approach to hedge accounting. The new Standard will come into effect on January 1, 2018 with early application permitted. The extent of the impact of adoption of the standard has not yet been determined.

3. Restricted cash

Restricted cash represented a performance bond posted in Guatemala for an oil and gas license awarded. Management decided not to pursue activities in Guatemala, and the cash posted for the bid of \$0.1 million was returned to the Company.

4. Share capital

6. Related party transactions

The Company has no employees, and management and administrative services are provided by the management and staff of Serinus pursuant to a services agreement. Administrative costs incurred by Serinus for the benefit of the Company are charged to the Company based on specific identification and an allocation of administrative costs that relate to both Serinus and the Company. For the three and six months ended June 30, 2014, these fees totaled \$2,754 and \$5,468 (2013 - \$2,941 and \$5,912). Serinus and the Company are related as they have five common directors and officers and the same principal shareholder.

Serinus remains legally responsible for a guarantee issued in August 2007 ("the Loon Peru Guarantee") to the Government of Peru regarding the granting of the Block 127 license contract to Loon Peru Limited, a wholly-owned subsidiary of the Company. The block to which the guarantee is related is in the process of being relinquished and it is not currently anticipated that the guarantee will be replaced. The Company has entered into an indemnification agreement with Serinus in respect of the Loon Peru Guarantee.
