Schedule “A”

Marret Asset Management announces Write-Up of Private Portfolio of Marret High Yield Strategies Fund and Marret Multi-Strategy Income Fund

TORONTO, April 16, 2021 – Marret Asset Management Inc. ("Marret") today announced that Marret High Yield Strategies Fund ("MHY") (CSE: MHY.UN) and Marret Multi-Strategy Income Fund ("MMF") (CSE: MMF.UN) will take a 8.87% write-up in the value of securities held in Cline Mining Corporation ("Cline"). Cline is the main asset of MHY and MMF. As a result of the write-up, the net asset value per unit of MHY on April 16th will increase from \$0.43 to \$0.47 or by \$0.04 per unit, the net asset value per class A unit of MMF on April 16th will increase from \$0.21 to \$0.22 or by \$0.01 per class A unit, and the net asset value per class F unit of MMF on April 16th will increase from \$0.22 to \$0.24 or by \$0.02 per class F unit.

The write-up reflects the appreciation of the shares of Allegiance Coal Limited ("Allegiance") owned by Cline as the result of the sale of all the shares in New Elk Coal Company, LLC ("NECC"). It also reflects the progress made by Allegiance in raising capital and restarting NECC's metallurgical coal mine near Trinidad, Colorado. Allegiance now plans NECC production to commence in the last week of April and shipments to be delivered in June. Marret will continue to try and optimize the Cline asset for the benefit of the unitholders of MHY and MMF and will report on any further material developments.

About Allegiance

Allegiance is a publicly listed (ASX:AHQ) Australian company advancing a metallurgical coal mine into production in British Columbia, Canada and the NECC mine in Colorado, USA.
