RESULTS OF OPERATIONS

The Fund's net assets decreased by \$0.3 million to \$9.3 million from December 31, 2022 to June 30, 2023. The portfolio's performance decreased assets by \$0.3 million. The Fund returned -16.7% after fees and expenses for the six-month period ended June 30, 2023. Over the same time period, the Fund's benchmarks returned are 5.4%, 5.7% and 14.4%. The benchmarks are the ICE BofA U.S. High Yield Total Return Index, the S&P/TSX Composite Total Return Index and the S&P 500 Total Return Index (the Benchmarks or the Index), respectively.

As previously announced, the Fund has continued in order to hold private positions (the Private Portfolio). Marret's intention is to distribute the net proceeds from the Private Portfolio when the holdings are sold and the proceeds are received by the Fund. No ongoing management fee or other fees will be charged by Marret for overseeing the liquidation of the Private Portfolio.

The value of the Private Portfolio consists of equity and bonds issued by Cline Mining Corp. (Cline).

RECENT DEVELOPMENTS

As a result of Allegiance Coal Limited's (Allegiance) purchase of all the shares in New Elk Coal Company, LLC ("NECC"), Cline held US\$35,120,670.84 principal of a secured note issued by NECC ("NECC Note"). The NECC Note is to be repaid as follows:

- o US\$3 million paid in cash on the release of the NECC reclamation bonds held by the Colorado Division of Reclamation, Mining and Safety from the current bonds of approximately US\$5.5M (Allegiance has secured up to US\$10 million of insurance mine reclamation bonding to replace the existing bonds); the cash release is expected within 90 days of closing;
- o US\$6 million upon the commencement of commercial production by NECC or by December 1, 2021, whichever is earlier;
- o The remainder of the NECC Note to be repaid by Cline receiving 60% of NECC's retained earnings after NECC makes prudent provision for any preferred debt payments and obligations, and sustaining and working capital, until the NECC Note is paid in full, but in any event within 10 years of closing. The NECC Note will not bear interest.

To date, NECC has repaid US\$9 million of the NECC Note. US\$3 million after the release of NECC's reclamation bonds held by the Colorado Division of Reclamation, Mining and Safety, and US\$6 million after reaching the December 1, 2021 outside date.

After a 1 for 5 reverse split on May 5, 2021, Cline holds 14,130,281 shares of Allegiance as a result Allegiance's purchase of all the shares in NECC.

NECC filed for Chapter 11 protection on February 21, 2023. In addition to NECC, its parent company Allegiance Coal Limited ("AHQ") and three other related entities also filed for insolvency protection. Due to its inability to meet production requirements of the debtor-in-possession financing ("DIP") obtained in Chapter 11, NECC's mine transitioned from an ongoing operation to care and maintenance. This will likely result in the liquidation of the assets of NECC. The Fund awaits the conclusion of the asset sale process to determine final proceeds to the NECC Note.

More details about the Chapter 11 of Allegiance can be found at <https://cases.stretto.com/allegiancecoal>.

RELATED PARTY TRANSACTIONS

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the Independent Review Committee (IRC) with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager advise the IRC of any material breach of such policies. The standing instructions also require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager uninfluenced by considerations other than the best interests of the Fund; (c) are made in compliance with the Manager's policies and procedures; and (d) achieve a fair and reasonable result for the Fund. Quarterly, the IRC reviews reports which assess compliance with applicable Marret policies. Annually, the IRC reviews reports describing each instance that the Manager acted in reliance on the standing instructions noted above.

The Fund relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

Except as otherwise noted above, the Fund was not a party to any related party transactions during the period/year ended June 30, 2023.

(1) This information is derived from Fund's semi-annual and annual financial statements.

(2) Management expense ratio is based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net asset value for the period/year.

(3) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period/year. The higher the Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, excluding cash and short-term investments maturing in less than one year, by the average market value of investments during the period/year.

(4) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value of the Fund during the period/year.

(5) This information is provided for the period(s)/year(s) ended June 30, 2023 and December 31.

(6) Closing market price.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's semi-annual and annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.
