

DEPLOY TECHNOLOGIES INC. DEPLOY COMPLETES PRODUCTION OF MULTIPLE INPUT EXPANSION CIRCUIT BOARD

Deploy Technologies Inc. (PINKSHEETS: DPLY) (www.deploy.ca), Monday, June 27, 2011, announced today that the company has completed its Multiple Input Expansion Circuit Board.

The Multiple Input Expansion Circuit Board is a daughter board which connects to our primary circuit board and has the capability to monitor up to 30 sensors along with 9 inputs on the primary board.

There are many applications which require many inputs to be monitored at the same time, one of which is for a client awaiting delivery of a working prototype.

David Eppert, Chief Executive Officer of Deploy, stated: "We are pleased that we had provisioned for these and other expansion capabilities in our primary board design which is clearly supporting our dynamic development stage."
