Potential Impact of the COVID-19 Pandemic

In December 2019, a strain of novel coronavirus (now commonly known as COVID-19) was reported to have surfaced in Wuhan, China. COVID-19 has since spread rapidly throughout many countries, and, on March 12, 2020, the World Health Organization declared COVID-19 to be a pandemic. In an effort to contain and mitigate the spread of COVID-19, many countries, including the United States, Canada and China, have imposed unprecedented restrictions on travel, and there have been business closures and a substantial reduction in economic activity in countries that have had significant outbreaks of COVID-19. COVID-19 may have a future material impact on our results of operation with respect to retail sales at our dispensary locations as well as wholesales of our products in Nevada to dispensaries in Nevada. However, significant uncertainty remains as to the potential impact of the COVID-19 pandemic on our operations, and on the global economy as a whole. It is currently not possible to predict how long the pandemic will last or the time that it will take for economic activity to return to prior levels. We do not yet know the full extent of any impact on our business or our operations, however, we will continue to monitor the COVID-19 situation closely, and we intend to follow health and safety guidelines as they evolve.
