

ACME RESOURCES CORP.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

DATE – January 28, 2016

The following Management's Discussion and Analysis ("MD&A") should be read in conjunction with ACME Resources Corp.'s ("ACME" or the "Company" or the "Corporation") audited financial statements and the accompanying notes for the fiscal year ended September 30, 2015, copies of which are filed on SEDAR website: www.sedar.com.

The Company prepares its financial statements in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board. All dollar figures included herein and in the following discussion and analysis are quoted in Canadian dollars unless otherwise stated.

The financial information in this MD&A is derived from the Company's financial statements prepared in accordance with IFRS. This MD&A may contain forward looking statements based on assumptions and judgements of management regarding events or results that may prove to be inaccurate as a result of risk factors beyond its control. Actual results may differ materially from the expected results.

FORWARD LOOKING STATEMENTS

This MD&A may include certain "forward-looking statements" within the meaning of applicable Canadian securities legislation. All statements, other than statements of historical facts, included in this MD&A that address activities, events or developments that the Corporation expects or anticipates will or may occur in the future, including such things as future business strategy, competitive strengths, goals, expansion and growth of the Company's businesses, operations, plans and other such matters are forward-looking statements. When used in this MD&A, the words "estimate", "plan", "anticipate", "expect", "intend", "believe" and similar expressions are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Although the Company has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.

DESCRIPTION OF THE BUSINESS AND PROPOSED QUALIFYING TRANSACTION

ACME was incorporated under the *Business Corporations Act* (Ontario) on February 27, 2008 and is classified as a Capital Pool Company as defined in Policy 2.4 of the TSX Venture Exchange ("Exchange").

On January 28, 2010, the Company received final receipts for a prospectus and thereafter began trading on the TSX Venture Exchange ("TSXV") (Tier 2) as a CPC under the symbol ACY.H; however, as the Company did not complete a Qualifying Transaction within the necessary timeframe, the Company's listing has been transferred to the NEX board of Exchange ("NEX"). As a CPC listed on NEX, the Company continues to be required to comply with all of the requirements and restrictions in Exchange Policy 2.4.

ACME RESOURCES CORP.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

On October 21, 2013, the Company entered into an amalgamation agreement (the "Agreement") with Forrester Resources Corp., a private Yukon precious metals exploration and development corporation ("Forrester") operating in Perú and continually investigating near-term production opportunities within the Americas. Under the terms of the Agreement, Forrester was to amalgamate (the "Transaction" or "Qualifying Transaction") with a new wholly owned subsidiary of the Company incorporated in the Yukon. Pursuant to the terms of the Transaction, the Company's shares were to be issued to holders of Forrester shares in exchange for all of the issued and outstanding Forrester shares on the basis of 1.5 of the Company's shares for each one Forrester share. In addition, Forrester options, warrants and finder's warrants were to be exchanged for the Company's options, warrants and finder's warrants on the same foregoing exchange ratio, with a corresponding adjustment of the exercise price of each such Forrester option and warrant to reflect the exchange ratio.

On June 25, 2014, the Company terminated the proposed Qualifying Transaction with Forrester. Forrester Resources Corp. had advanced \$41,417 to fund corporate costs relevant to the proposed Qualifying Transaction and the ongoing costs related to running a public company; the advances were written-off as failed transaction costs by Forrester and they consider the amounts as settled in full.

As a consequence of the abandonment of the proposed Transaction, the Company's shares were halted from trading. The Company anticipated they would remain halted until certain documentation could be provided to the TSXV regarding the termination. The Company will continue to identify and evaluate businesses and assets with a view of completing a qualifying transaction.

The Company completed a non-brokered private placement financing which closed on December 11, 2014 at which time the Company issued a total of 1,300,000 Common Shares for gross proceeds of \$65,000. On December 15, 2014 shares of the Company resumed trading with TSXV symbol ACY.H.

RESULTS OF OPERATIONS AND OVERALL PERFORMANCE

For the fiscal year ended September 30, 2015, the Company reported a net loss of \$51,744 compared to a loss of \$19,202 during the fiscal year ended September 30, 2014. The operating expenses comprised of corporate development of \$5,526 (2014 - \$596), consulting fees of \$18,900 (2014 - \$15,430), professional fees of \$14,217 (2014 - \$6,328), regulatory and filing fees of \$12,689 (2014 - \$9,163) and office, general and administration fees of \$412 (2014 - \$5,350).

The foregoing costs incurred by the Company primarily relate to fees incurred in connection with running a public company and the Company's abandoned qualifying transaction.

Since incorporation, the Company has been actively engaged in the identification of target companies for the purposes of completing a qualifying transaction, including the aforementioned negotiations with Forrester.

During the period ended September 30, 2008, the Company issued 1,500,000 common shares at a price of \$0.10 per share for total proceeds of \$150,000 received in cash. In accordance with the requirements of the Exchange these common shares are held in escrow. Under the escrow agreement, 10% of the escrowed common shares will be released from escrow following issuance of the Final Exchange Bulletin by the Exchange as to completion of the Qualifying Transaction as defined by Exchange policies, and

15% will be released every six months following the initial release over a period of thirty six months, unless otherwise permitted by the Exchange.

On October 30, 2009, the Company filed its final prospectus for which a receipt was issued dated October 30, 2009.

On January 28, 2010, the Company completed its initial public offering ("IPO") through its agent Integral Wealth Securities Limited of 1,351,950 common shares for gross proceeds of \$270,390. The Company paid the agent a cash commission of \$27,039 and an corporate finance fee of \$10,000, reimbursed the agent for legal fees and other direct expenses of \$10,150, and issued Agent's options to acquire up to 135,195 common shares at \$0.20 per share exercisable until the close of business on the second anniversary of the Company's listing on the Exchange (January 28, 2010). The Company also incurred, in connection with the IPO, professional fees and filing fees of \$93,200.

The Company granted stock options to directors and officers of the Company to purchase up to 285,194 common shares at a price of \$0.20 per share, exercisable for ten years from the date of grant.

As of the end of the fiscal year ended September 30, 2015, the Company has outstanding common shares of 3,401,950 and stock options of 247,168. During 2012, 750,000 common shares held in escrow were cancelled due to the failure to complete a Qualifying Transaction within the allotted time (per TSXV Policy 2.4); there remain 750,000 common shares held in escrow. Also during 2012, 38,026 stock options were cancelled, upon resignation of a member of the Board, and 135,195 Agent's options expired on January 28, 2012.

SELECT ANNUAL INFORMATION

The following financial data, which has been prepared in accordance with IFRS, is derived from the Company's audited financial information for the year ended September 30, 2015 and 2014:

Financial Results	2015	2014
Total revenues	Nil	Nil
Net loss for the year	(\$ 51,744)	(\$ 19,202)
Basic and diluted net loss per share	(\$ 0.02)	(\$ 0.01)
Total assets	Nil	\$ 8,687

LIQUIDITY

The Company does not currently have any interest in property and does not generate revenues from operations. The Company has been financed to date through equity financing and it expects that it will be able to do so in the future until it generates cash flows from operations.

As of September 30, 2015, the Company had net working capital deficiency of \$23,551 (September 30, 2014 – working capital deficiency of \$20,007) and a negative cash balance of \$2,242 (September 30, 2014 - \$8,687). The Company's cash position is not sufficient to meet short term obligations, and therefore the Company requires additional funds. The Company relies on private placements for funding.

As of the date hereof, the Company did not have any commitments for capital expenditures, and the Company does not anticipate any such commitments until it consummates a qualifying transaction.

CAPITAL MANAGEMENT

Capital is comprised of the Company's shareholders' equity and any debt that it may issue. As at September 30, 2015, the Company's shareholders' equity was a deficiency of \$23,551 (September 30, 2014 - deficiency of \$20,007) and it had no outstanding long-term debt. The Company's objectives when managing capital are to maintain financial strength and to protect its ability to meet its on-going

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long term.

The Company's sole source of capital has been from the issuance of common shares. The net proceeds raised may only be used (with the exception of certain permitted uses of funds by a capital pool company to cover prescribed costs of issuing shares and administrative and general expense – see below) to identify and evaluate a limited number of assets and businesses for the purpose of identifying and completing a Qualifying Transaction. Additional funds may be required to finance the Company's Qualifying Transaction.

The proceeds raised from the issuance of share capital may only be used to identify and evaluate assets of businesses for future investment, with the exception that the lesser of 30% of the gross proceeds and \$210,000 may be used to cover prescribed costs of issuing the common shares, other than Agent Commissions and fees, and general and administrative expense of the Company. These restrictions apply until completion of a Qualifying Transaction by the Company as defined under the policies of the Exchange.

As at September 30, 2015, the Company has exceeded the limit. There are potential ramifications associated with exceeding this limit without relief which will be assessed at the discretion of the Exchange.

OFF-BALANCE SHEET ARRANGEMENTS

The Company does not have any off-balance sheet arrangements as at September 30, 2015 or as of the date of this report.

TRANSACTIONS WITH RELATED PARTIES

The Company's key management personnel has the authority and responsibility for planning, directing and controlling the activities of the Company and consists of its Directors, Chief Executive Officer (CEO) and Chief Financial Officer (CFO). Total compensation paid to the Company's key management personnel during the fiscal year ended September 30, 2015 was \$11,700 (2014 - \$6,000); this represented compensation of \$11,700 (2014 - \$6,000) to the CEO and \$nil (2014 - \$nil) to the CFO. No share based-payments, post-employment or other long-term benefits were incurred with respect to key management personnel in respect of the forgoing periods.

During the fiscal year ended September 30, 2015, an officer of the Company was reimbursed at cost for corporate development costs amounting to \$5,526 (2014 - \$596).

FINANCIAL INSTRUMENTS

Financial instruments include cash, accounts payable and accrued liabilities, due to Forrester Resources Corp. and due to related party. The estimated fair value of these financial instruments approximates their carrying values because of the short term to maturity of these instruments. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from financial instruments. In regards to liquidity risk, the Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due.

ACME RESOURCES CORP.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

The Company currently has current liabilities of \$23,551 (September 30, 2014 - \$28,694) and current assets of \$nil (September 30, 2014 - \$8,687). The Company has a working capital deficiency of \$23,551 (September 30, 2014 – working capital deficiency of \$20,007). The ability of the Company to survive is dependent on its ability to secure additional equity or other financings.

CRITICAL ACCOUNTING ESTIMATES

The financial statements have been prepared in accordance with accounting principles generally accepted in Canada and form the basis for the following discussion and analysis of critical accounting policies and estimates. The Company makes estimates and assumptions that affect the reported amounts of assets, liabilities and expenses and related disclosure of contingent assets and liabilities during the course of preparing these financial statements.

Management has made a number of significant estimates and valuation assumptions, including the stock option valuations, going concern assumption, deferred income tax recognition and disclosures of contingent assets and liabilities at the date of the financial statements. These estimates and assumptions are based on present conditions and management's planned course of action as well as assumptions about future business and economic conditions. Should the underlying estimates change, the recorded amounts could change by a material amount.

For a detailed summary of the Company's significant accounting policies, the reader is directed to Note 3 of the Notes to the audited Financial Statements for the fiscal year ended September 30, 2015 available on SEDAR at www.sedar.com.

ACCOUNTING AND REPORTING CHANGES

New accounting standards effective October 1, 2014

The adoption of the following new and revised accounting standards and interpretations on October 1, 2014 had no significant impact on the Company's financial statements for the current or prior periods presented. Some updates that are not applicable or are not consequential to the Company may have been excluded from the list below.

IFRS 7, Financial Instruments: Disclosures (Amended in 2011) - The IASB amended the disclosure requirements in IFRS 7, "Financial Instruments: Disclosure" to require information about all recognized financial instruments that are set off in accordance with paragraph 42 of IAS 32 "Financial Instruments: Presentation". The amendments also require disclosure of information about recognized financial instruments subject to enforceable master netting arrangements and similar agreements even if they are not set off under IAS 32. The IASB believes that these disclosures will allow financial statement users to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with an entity's recognized financial assets and recognized financial liabilities, on the entity's financial position.

IFRS 13, Fair Value Measurement

IFRS 13, Fair Value Measurement, is a comprehensive standard for fair value measurement and disclosure requirements for use across all IFRS standards. The new standard clarifies that fair value is the price that would be received to sell an asset, or paid to transfer a liability in an orderly transaction

ACME RESOURCES CORP.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

between market participants, at the measurement date. It also establishes disclosures about fair value measurement. Under existing IFRS, guidance on measuring and disclosing fair value is dispersed among the specific standards requiring fair value measurements and in many cases does not reflect a clear measurement basis or consistent disclosures.

IAS 32, Financial Instruments: Presentation

IAS 32, Financial Instruments: Presentation, is amended to clarify requirements for offsetting of financial assets and financial liabilities.

IAS 36, Impairment of Assets

IAS 36, Impairment of Assets, is amended to address the disclosures required regarding the recoverable amount of impaired assets or cash generating units (CGUs) for periods in which an impairment loss has been recognized or reversed.

IFRS 2, Share-based Payments

The amendments to IFRS 2, issued in December 2013 clarify the definition of “vesting conditions”, and separately define a “performance condition” and a “service condition”. A performance condition requires the counterparty to complete a specified period of service and to meet a specified performance target during the service period. A service condition solely requires the counterparty to complete a specified period of service. The amendments are effective for share-based payment transactions for which the grant date is on or after July 1, 2014.

IAS 24, Related Party Disclosure

IAS 24 Related Party Disclosures, as amended and issued in December 2013, clarify that a management entity, or any member of a group of which it is a part, that provides key management services to a reporting entity, or its parent, is a related party of the reporting entity. The amendments also require an entity to disclose amounts incurred for key management personnel services provided by a separate management entity. This replaces the more detailed disclosures by category required for other key management personnel compensation.

New standards, interpretations and amendments not yet effective

A number of new standards, amendments to standards and interpretations are not yet effective as of September 30, 2015 and have not been applied in preparing these financial statements.

Effective for annual periods beginning on or after January 1, 2018

IFRS 15, Revenue from Contracts with Customers, is a new standard to establish principles for reporting the nature, amount, timing, and uncertainty of revenue and cash flows arising from an entity’s contracts with customers. It provides a single model in order to depict the transfer of promised goods or services to customers. IFRS 15 supersedes IAS 11, Construction Contracts, IAS 18, Revenue, IFRIC 13, Customer Loyalty Programs, IFRIC 15, Agreements for the Construction of Real Estate, IFRIC 18, Transfers of Assets from Customers, and SIC-31, Revenue – Barter Transactions involving Advertising Service.

ACME RESOURCES CORP.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

Effective for annual periods beginning on or after January 1, 2018

IFRS 9, Financial Instruments – Classification and Measurement, is a new standard on financial instruments that will replace IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 addresses classification and measurement of financial assets and financial liabilities as well as derecognition of financial instruments. IFRS 9 has two measurement categories for financial assets: amortized cost and fair value. All equity instruments are measured at fair value. A debt instrument is at amortized cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest. Otherwise it is at fair value through profit or loss.

The Company has not early adopted these revised standards and none of these standards are expected to have a material effect on the financial statements.

RISKS AND UNCERTAINTIES

The Corporation has no active business or assets other than cash, accounts receivable and deferred transaction costs. The Corporation does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. The Corporation has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Corporation will be able to identify or complete a suitable Qualifying Transaction.

The Company competes with many Capital Pool Companies that are seeking suitable Qualifying Transactions. In addition, other Capital Pool Companies may have substantially greater financial and technical resources than the Company.

Any forward-looking information in this MD&A is based on the conclusions of management. The Company cautions that due to risks and uncertainties, actual events may differ materially from current expectations. With respect to the Company's operations, actual events may differ from current expectations due to economic conditions, new opportunities, changing budget priorities of the company and other factors.

OTHER MATTERS

Legal proceedings:

There are no ongoing legal proceedings of any kind initiated by the Company or by third parties against the Company.

Contingent liabilities:

At the date of MD&A, management was unaware of any outstanding contingent liability relating to the Company's activities.

Disclosure Controls and Procedures

The Chief Executive Officer and Chief Financial Officer ("CFO") are responsible for designing internal controls over financial reporting in order to provide reasonable assurance regarding the reliability of

ACME RESOURCES CORP.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

financial reporting and the preparation of the Company's financial statements for external purposes in accordance with IFRS. The design of the Company's internal control over financial reporting was assessed as of the date of this Management Discussion and Analysis.

Based on this assessment, it was determined that certain weaknesses existed in internal controls over financial reporting. As indicative of many small companies, the lack of segregation of duties and effective risk assessment were identified as areas where weaknesses existed. The existence of these weaknesses is to be compensated for by senior management monitoring, which exists. The officers will continue to monitor very closely all financial activities of the Company and increase the level of supervision in key areas. It is important to note that this issue would also require the Company to hire additional staff in order to provide greater segregation of duties. Since the increased costs of such hiring could threaten the Company's financial viability, management has chosen to disclose the potential risk in its filings and proceed with increased staffing only when the budgets and work load will enable the action.

The Company has attempted to mitigate these weaknesses, through a combination of extensive and detailed review by the CFO of the financial reports, the integrity and reputation of accounting personnel, and candid discussion of those risks with the audit committee.

Business Risks

The Company has a limited history of operations and has not yet entered into an agreement in principle to acquire or complete a qualifying transaction. The Company is currently in the process of identifying and evaluating opportunities and until such a time as it enters into an agreement to complete a qualifying transaction, there is no guarantee such a transaction will be completed. External financing, primarily through the issuance of common shares will be required to fund the Company's activities. There can be no assurance that the Company will be able to obtain adequate financing. The Securities of the Company should be considered a highly speculative investment. The following risk factors should be given special consideration when evaluating an investment in any of the Company's Securities:

Dilution: There are a number of outstanding securities and agreements pursuant to which common shares of the Company may be issued in the future. This will result in further dilution to the Company's shareholders.

Revenues and Dividends: The Company has no revenues and does not expect to have any revenues in the foreseeable future. In the event that the Company generates any meaningful revenues in the future, then the Company intends to retain its earnings in order to finance further growth. Furthermore, the Company has not paid any dividends in the past and does not expect to pay any dividends in the future.

OUTLOOK

The Company's primary focus for the foreseeable future will be completing its identified qualifying transaction.

APPROVAL

The Board of Directors of the Company has approved the disclosures contained in this MD&A upon recommendation of the Audit Committee.

EVENTS AFTER THE REPORTING DATE AND COMMITMENTS

The Company completed a non-brokered private placement which closed on November 11, 2015 at which time the Company issued a total of 700,000 Common Shares for gross proceeds of \$35,000.

The Company announced that it entered into a letter of intent dated December 7th, 2015 with Hantian Labs Limited (“Hantian”), a private UK corporation, for a business transaction that will result in a reverse take-over of the Company by Hantian, and the listing or trade of the shares of the resulting issuer on the TSXV.

The Transaction is subject to TSXV approval and is intended to constitute the Qualifying Transaction of the Company as such term is defined in Policy 2.4 of the TSXV. It is intended that the Transaction shall be completed by way of a definitive merger, amalgamation or share exchange agreement, provided however that, by mutual agreement, the parties may revise the structure to comply with all necessary legal and regulatory requirements, to minimize or eliminate any adverse tax consequences or to increase cost effectiveness. The Transaction is intended to result in a reverse take-over of the Company by Hantian’s shareholders. The Transaction will be an Arm’s Length Qualifying Transaction, as defined in the policies of the TSXV and, as such, it is not anticipated that the formal approval of the shareholders of the Company will be required.

The Company and Hantian have agreed to use all commercially reasonable efforts to close the Transaction by March 31, 2016. The LOI will terminate in the event the parties fail to enter into a definitive agreement on or prior to January 31, 2016, unless a later date is otherwise mutually agreed to by the parties. Pursuant to the Transaction, shares of the Company will be issued to the holders of Hantian shares in exchange for all of the issued and outstanding Hantian shares on the basis of one ACME share for each Hantian share (the “**Exchange Ratio**”).

Certain Directors of the Company loaned the Company an aggregate of \$15,000 to be used as working capital for immediate business needs.

MANAGEMENT’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

ACME RESOURCES CORP.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

In connection with Exemption Orders issued in November 2007 by each of the securities commissions across Canada, the Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”) of the Company will file a Venture Issuer Basic Certificate with respect to the financial information contained in the unaudited interim financial statements and the audited annual financial statements and respective accompanying Management’s Discussion and Analysis.

In contrast to the certificate under Multilateral Instrument (“MI”) 52-109 (Certification of Disclosure in Issuer’s Annual and Interim Filings), the Venture Issuer Basic Certification includes a ‘Note to Reader’ stating that the CEO and CFO do not make any representations relating to the establishment and maintenance of disclosure controls and procedures and internal control over financial reporting, as defined in MI 52-109.
